Campbell University Bulletin
Undergraduate Studies

2003-2005

Volume LXXVII No. 4

Welcome to Campbell University

Introduction

The *Campbell University Bulletin of Undergraduate Studies 2003-2005* documents many aspects of the University, including its history and organization as well as its academic policies and procedures.

The **2003-2005 Campbell University Online Catalog** is the electronic implementation of the *Campbell University Bulletin of Undergraduate Studies 2003-2005*. The terms "Catalog" and "Bulletin" are used synonymously throughout this document.

The Online Catalog on CD ROM is the primary means of distributing the *Bulletin*. Printed copies are available for purchase from the Campbell University Bookstore at the Buies Creek campus.

Interested parties should always refer to the Campbell University web site for the most current version of the Campbell University Online Catalog (or *Bulletin*) at this address:
<http://www.campbell.edu/catalog/index.html>.

Welcome to Campbell!

This catalog (or *Bulletin*) has been prepared to introduce you to Campbell University. Through it, you will learn of the talented and friendly student body, high-quality faculty, excellent academic programs, beautiful campus and facilities, and many friends who support the mission of Campbell and contribute to the fulfillment of its purpose. As you read about Campbell, we want you to gain a perspective of what it would be like to live and study at one of the finest universities in the eastern United States. ***Selecting a quality university should include certain criteria:***

A school where the individual counts: Campbell University is a friendly campus where small classes encourage closer relationships among students and faculty. The individual student is very important to fellow students, faculty, and the administrative staff.

Meaningful programs: With a tradition of academic excellence, Campbell readily introduces new programs that reflect changes in the professional and vocational developments of our nation and world. Intramural and intercollegiate athletics combine with academics to make Campbell an exciting place to study and play.

A pleasant social and cultural environment: Campbell is a coeducational, church-related university located in central North Carolina. Students are enrolled from all counties, with most states along the Atlantic Seaboard represented in the student body. Students from more than forty-five foreign countries regularly attend Campbell. The distribution of male and female students is almost equal. The climate in Buies Creek is mild with the opportunity for outdoor sports throughout the year.

Statements of Compliance

Campbell University reaffirms its standing policy of nondiscrimination, in employment and in all of its programs and activities, with respect to age, race, gender, religion, cultural and national origin, and handicap. Federal law expressly recognizes exemptions when claimed by religious institutions.

Family Education Rights and Privacy Act of 1974

Under the provisions of this law, students in post-secondary education have the right to inspect and review

their school records, as defined by law. Other than for "Directory Information," Campbell University will release information only with the student's written consent and will use "Directory Information" in the best interests of the student. "Directory Information" is defined as: name, dates of attendance, degree(s) received, academic majors and minors, student's local or grade address, telephone numbers, religious denomination, academic classification (freshman, sophomore, etc.), academic Dean's and President's Lists, membership in academic honor or service organizations, elected member of Student Government Association, last institution attended, and most recent institution attended.

Rehabilitation Act of 1973

In accordance with Section 504 of the Rehabilitation Act of 1973, Campbell University does not discriminate on the basis of handicap in admission or access to, or treatment or employment in, its programs and activities. Inquiries may be directed to Dr. James Ellerbe, Post Office Box 97, Buies Creek, North Carolina 27506.

Americans with Disabilities Act of 1990 and 1991

Campbell University complies fully with the provisions of this law. Inquiries may be directed to Dr. James Ellerbe, Post Office Box 97, Buies Creek, North Carolina 27506.

Title IX

Campbell University is committed to a policy of equal opportunity for men and women, and as such, does not discriminate on the basis of gender in admissions nor in the administration of educational programs, policies, and activities except in those instances which are exempt under Section 86.12 of the guidelines based on conflict with the religious tenets of the Baptist State Convention of North Carolina. Inquiries may be directed to Dr. M. Dwaine Greene, Post Office Box 578, Buies Creek, North Carolina 27506.

Academic Facilities

Academic facilities at Campbell University are designated primarily for use in the education of Campbell University students; other uses, although quite worthy in themselves, and of benefit to the community, will not be allowed to interfere with that primary function.

The Application of This Bulletin To Campbell University Students:

All students on all campuses who matriculate after August 1, 2003 will be governed by the provisions of this *Bulletin* (or Catalog); normally, students will graduate under the provisions of the *Bulletin* in force at the time of their initial registration and advisement so long as the student is continuously enrolled in a Campbell program. (Usually, this document is revised and reprinted on a two-year or three-year cycle.)

A student readmitted after an interruption of more than two years in his/her course of study at the University may, at the discretion of the appropriate academic dean, be required to fulfill the graduation requirements in the *Bulletin* in effect at the time of readmission.

The University reserves the right to change any of its regulations, charges, rules, schedules, and courses without notice and to make such changes applicable thenceforth, not only to new students, but also to students already registered. The University reserves the right to correct errors in its printed and electronic materials. The University also reserves the right to interpret its own policies.

All undergraduate students at Campbell University are subject to the provisions of the student honor code. All students are responsible for being completely familiar with the provisions thereof; ignorance of those regulations does not constitute a defense against a charge of violation of the honor code.

Academic Calendar and Schedule 2002-2005

Academic Calendar and Schedule 2002 - 2003

Fall Semester 2002

Thursday, August 15-Friday, August 16	Faculty Orientation
Monday, August 19 -Tuesday, August 20	Registration
Wednesday, August 21	Classes Begin 8:00 a.m.
Friday, August 23	Drop/Add Day Begins 12:00 noon
Tuesday, August 27	Convocation
Friday, August 30	Last Day to Register
Friday, September 20	Last Day to Remove an "I"/Last Day To Drop without a Grade
Saturday, October 5	Homecoming
Thursday, October 10	Mid-Term Recess Begins 8:00 a.m.
Monday, October 14	Classes Resume 8:00 a.m.
Saturday, October 26	Parents' Day
Monday, October 28	Advisement Begins
Friday, November 15	Advisement Ends
Thursday, November 28	Thanksgiving Holiday Begins 8:00 a.m.
Monday, December 2	Classes Resume 8:00 a.m.
Monday, December 2	Reading Day
Tuesday, December 3	Exams Begin
Monday, December 9	Exams End
Wednesday, December 11	Grades Due 12:00 noon
Saturday, December 14	Graduation

Spring Semester 2003

Monday, January 6 -Tuesday, January 7	Registration
Wednesday, January 8	Classes Begin 8:00 a.m.
Friday, January 10	Drop/Add Day Begins 12:00 noon
Tuesday, January 14	Founder's Day
Friday, January 17	Last Day to Register
Friday, January 31	Last Day to Remove an "I"/Last Day to Drop without a Grade
Monday, March 3	Mid-Term Recess Begins 8:00 a.m.
Monday, March 10	Classes Resume 8:00 a.m.
Monday, March 24	Advisement Begins
Friday, April 18	Advisement Ends

Friday, April 18	Easter Holiday
Monday, April 21	Classes Resume 8:00 a.m.
Thursday, April 24	Reading Day
Friday, April 25	Examinations Begin
Thursday, May 1	Examinations End
Monday, May 5	Grades due, 9:00 a.m.
Sunday, May 11	Baccalaureate Service
Monday, May 12	Graduation

Summer School I 2003

Monday, May 19	Registration
Tuesday, May 20	Classes Begin 8:00 a.m.
Friday, May 23	Last Day to Drop-Add/Last Day to Register
Friday, June 20	Examinations
Tuesday, June 24	Grades Due 9:00 a.m.

Summer School II 2003

Monday, June 23	Registration
Tuesday, June 24	Classes Begin 8:00 a.m.
Friday, June 27	Last Day to Drop-Add/Last Day to Register
Friday, July 25	Examinations
Tuesday, July 29	Grades Due 9:00 a.m.
Friday, August 29	Graduation Certification Day

Academic Calendar and Schedule 2003-2004

Fall Semester 2003

Thursday, August 14 - Friday, August 15	Faculty Orientation
Monday, August 18 - Tuesday, August 19	Registration
Wednesday, August 20	Classes Begin 8:00 a.m.
Friday, August 22	Drop/Add Day Begins 12:00 noon
Tuesday, August 26	Convocation
Friday, August 29	Last Day to Register
Friday, September 19	Last Day to Remove an "I"/Last Day to Drop Without a Grade
Saturday, October 4	Homecoming
Thursday, October 9	Mid-Term Recess Begins 8:00 a.m.
Monday, October 13	Classes Resume 8:00 a.m.

Saturday, October 25	Parents' Day
Monday, October 27	Advisement Begins
Friday, November 14	Advisement Ends
Thursday, November 27	Thanksgiving Holiday Begins 8:00 a.m.
Monday, December 1	Classes Resume 8:00 a.m.
Monday, December 1	Reading Day
Tuesday, December 2	Examinations Begin
Monday, December 8	Examinations End
Wednesday, December 10	Grades Due 12:00 noon
Saturday, December 13	Graduation

Spring Semester 2004

Monday, January 5 - Tuesday, January 6	Registration
Wednesday, January 7	Classes Begin 8:00 a.m.
Friday, January 9	Drop/Add Day Begins 12:00 noon
Tuesday, January 13	Founder's Day
Friday, January 16	Last Day to Register
Friday, January 30	Last Day to Remove an "I"/ Last Day to Drop Without a Grade
Monday, March 8	Mid-Term Recess Begins 8:00 a.m.
Monday, March 15	Classes Resume 8:00 a.m.
Monday, March 22	Advisement Begins
Friday, April 9	Easter Holiday Begins
Monday, April 12	Classes Resume 8:00 a.m.
Monday, April 12	Advisement Ends
Friday, April 23	Reading Day
Monday, April 26	Examinations Begin
Friday, April 30	Examinations End
Tuesday, May 3	Grades Due 9:00 a.m.
Sunday, May 9	Baccalaureate Service 10:00 a.m.
Monday, May 10	Graduation

Summer School I 2004

Monday, May 17	Registration
Tuesday, May 18	Classes Begin 8:00 a.m.
Friday, May 21	Last Day to Drop-Add/Last Day to Register
Friday, June 18	Examinations
Tuesday, June 22	Grades Due 9:00 a.m.

Summer School II 2004

Monday, June 21	Registration
Tuesday, June 22	Classes Begin 8:00 a.m.
Friday, June 25	Last Day to Drop-Add/Last Day to Register
Friday, July 23	Examinations
Tuesday, July 27	Grades Due 9:00 a.m.
Tuesday, August 31	Graduation Certification Day

Academic Calendar and Schedule 2004-2005

Fall Semester 2004

Thursday August 19 - Friday, August 20	Faculty Orientation
Monday, August 23 - Tuesday, August 24	Registration
Wednesday, August 25	Classes Begin 8:00 a.m.
Friday, August 27	Drop/Add Day Begins 12:00 noon
Tuesday, August 31	Convocation
Friday, September 3	Last Day to Register
Friday, September 24	Last Day to Remove an "I"/Last Day to Drop Without a Grade
Saturday, October 2	Homecoming
Thursday, October 14	Mid-Term Recess Begins 8:00 a.m.
Monday, October 18	Classes Resume 8:00 a.m.
Saturday, October 30	Parents' Day
Monday, November 8	Advisement Begins
Tuesday, November 30	Advisement Ends
Thursday, November 25	Thanksgiving Holiday Begins 8:00 a.m.
Monday, November 29	Classes Resume 8:00 a.m.
Friday, December 3	Reading Day
Monday, December 6	Examinations Begin

Friday, December 10	Examinations End
Tuesday, December 14	Grades Due 12:00 noon
Saturday, December 18	Graduation

Spring Semester 2005

Monday, January 3 - Tuesday, January 4	Registration
Wednesday, January 5	Classes Begin 8:00 a.m.
Friday, January 7	Drop/Add Day Begins 12:00 noon
Tuesday, January 11	Founder's Day
Friday, January 14	Last Day to Register
Friday, February 4	Last Day to Remove an "I"/Last Day to Drop Without a Grade
Monday, March 7	Mid-Term Recess Begins 8:00 a.m.
Monday, March 14	Classes Resume 8:00 a.m.
Monday, March 21	Advisement Begins
Friday, March 25	Easter Holiday Begins
Monday, March 28	Classes Resume 8:00 a.m.
Friday, April 8	Advisement Ends
Friday, April 22	Reading Day
Monday, April 25	Examinations Begin
Friday, April 29	Examinations End
Monday, May 2	Grades Due 9:00 a.m.
Sunday, May 8	Baccalaureate Service 10:00 a.m.
Monday, May 9	Graduation

Summer School I 2005

Monday, May 16	Registration
Tuesday, May 17	Classes Begin 8:00 a.m.
Friday, May 20	Last Day to Drop-Add/Last Day to Register
Friday, June 17	Examinations
Tuesday, June 21	Grades Due 9:00 a.m.

General Information for Undergraduate Students

Accreditation

Campbell University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; Telephone number 404-679-4501) to award Associate, Bachelor's, Master's, Education Specialist, and Doctor's Degrees.

Campbell's Professional Education programs are also accredited by the National Council for the Accreditation of Teacher Education (NCATE) and approved by the North Carolina Department of Public Instruction (NCDPI). The Social Work program is accredited by the Council on Social Work Education (CSWE).

Campbell University holds membership in the North Carolina Association of Colleges and Universities, the North Carolina Association of Independent Colleges and Universities, the National Association of Independent Colleges and Universities, the Association of Baptist Colleges and Schools, the Council for Christian Colleges and Universities, and the American Association of Colleges of Teacher Education. The School of Law is accredited by the American Bar Association and the School of Pharmacy by the American Council on Pharmaceutical Education. The Divinity School is accredited by the Association of Theological Schools (ATS).

Statement of Purpose

Campbell University is a university of the liberal arts, sciences, and professions which is committed to helping students develop an integrated Christian personality characterized by a wholeness that includes: a method of critical judgment; an appreciation of our intellectual, cultural, and religious heritage; and a sensitive awareness of the world and society in which they live and work with persons.

Campbell University is a Baptist university affiliated with the Baptist State Convention of North Carolina. Both in and out of the classroom, the University endeavors to present Christian principles to students and to foster their application to daily life.

The purpose of Campbell University arises out of three basic theological and Biblical presuppositions: learning is appointed and conserved by God as essential to the fulfillment of human destiny; in Christ, all things consist and find ultimate unity; and the Kingdom of God in this world is rooted and grounded in Christian community.

Therefore, the mission of Campbell University, as a community of Christian scholars, is to:

- Provide students with the option of a Christian world view;
- Bring the Word of God, Mind of Christ, and Power of the Spirit to bear in developing moral courage, social sensitivity, and ethical responsibility that will inspire a productive and faithful maturation as individuals and as citizens;
- Transfer from one generation to the next the vast body of knowledge and values accumulated over the ages;
- Encourage creativity, imagination, and rigor in the use of intellectual skills;

- Affirm the University's commitment to the belief that truth is never one-dimensional but in wholeness is revelatory, subjective, and transcendent as well as empirical, objective, and rational, and that all truth finds its unity in the mind of Christ;
- Frame University teaching in the context of a liberal arts education seeking to free persons to live more abundantly and securely in an ever-changing social order;
- Foster stewardship in nurturing the gifts of the mind and in developing aesthetic sensibilities;
- Equip students with superior vocational skills, productive insights, and professional integrity;
- Provide a community of learning that is committed to the pursuit, discovery, and dissemination of knowledge to serve the region as well as national and international communities;
- Prepare students for purposeful lives through undergraduate, graduate, and professional instruction including terminal graduate and professional programs;
- Provide services to the general community through research efforts, continuing education, and cultural programs;
- Cooperate with other educational institutions for the advancement of mankind.

This University sees the human vocation as living by faith under grace, with no conflict between the life of faith and the life of inquiry.

Campus and Buildings

The University occupies a spacious 850-acre campus in the village of Buies Creek, located in Harnett County, and equidistant from North Carolina's fast-growing metropolitan centers of Raleigh and Fayetteville.

The location combines the advantages of accessible urban convenience with the friendly, academic atmosphere of a rural university village.

The University had its beginning in a small one-room building erected by local citizens. Though later enlarged, it was, by 1896, inadequate to house the growing student body, and additional facilities were added.

On December 20, 1900, with the exception of one building that was later used for classrooms, these structures were destroyed by fire.

The burned buildings were replaced by Kivett Hall, named for Z. T. Kivett, the builder; it was constructed between May 23, 1901, and November 2, 1903. During 1991-1993, Kivett Hall was remodeled to provide additional space for the Norman A. Wiggins School of Law. Other buildings include: William Pearson Hall (1915), Carrie Rich Memorial Library (1925), D. Rich Memorial Building (1926), Curriculum Center (1947), Carter Gymnasium (1952), Leslie Hartwell Campbell Hall of Science (1961), J. Clyde Turner Chapel (1963), Campbell Home Management House (1965), Fred L. Taylor Hall of Religion (1973), Johnson Memorial Natatorium (1976), Taylor Bott Rogers Fine Arts Center (1984) and the Lundy Fetterman School of Business (1999).

In addition, the following serve the administrative function of the University: B. P. Marshbanks Dining Hall (1934), W. S. Britt Hall (1947), John S. Pearson Memorial Infirmary (1960), James A. Campbell

Administration Building (1961), McLeod Admissions Center (1967), James M. Shouse Dining Hall (1973), Page Welcome Center (1974), and the Campbell Laundry Building (1985).

The residence halls for students are: Joel G. Layton Hall (1923), William H. and Lula Bostic Jones Hall (1954), J. E. Kitchin Hall (1955), O. Hampton Baldwin Hall (1958), Fred N. Day Hall (1959), Mabel and Nell Powell Hall (1960), James E. and Mary Z. Bryan Hall (1961), J. Hunter and Mabel C. Strickland Hall (1962), Ernest P. Sauls Hall (1962), Bobby Murray Hall (1967), R. A. and Elsie Hedgpeth Hall (1967), A. R. Burkot Hall (1973), Fred McCall Hall (1973), and Lonnie D. Small Hall (1973), Marshbanks House (1980), McKay House (1980), Burgess House (1987).

The University also provides more than 250 housing facilities for faculty, staff and graduate students. These are houses, duplexes, apartments and mobile home lots. Some of them are Ellis Memorial Apartments (1957), Campbelltown Apartments (1959), Northeast Hall (1963), and East Hall (1969).

Brief History

Ad astra per aspera

Implicit in this old Latin motto, "To the stars through difficulties," adopted during the dark days of post-Reconstruction, are beliefs, aims, and objectives that have guided this institution through ever-changing circumstances.

Campbell's rise from a community school of twenty-one students to eminence as a great southern academy and later to its present standing among the state's largest church-related senior universities is illustrative of what perseverance can accomplish in scaling the heights.

Campbell University was founded January 5, 1887, by James Archibald Campbell, a North Carolina preacher who believed that no student should be denied admission because of lack of funds.

Known as Buies Creek Academy, the school that began with twenty-one students grew slowly during the early years.

"From the beginning, his [Dr. James Archibald Campbell] passion was that his school prepare young men and women for a living and for a life, not one but both. He was concerned that Christ have his way in the classroom and that he have his way in the church house, no difference..."

Campbell College - Big Miracle at Little Buies Creek, (1887-1974)

--Dr. J. Winston Pearce

In 1925, the school's property was deeded to the North Carolina Baptist State Convention. In 1926, the school attained junior college status and changed its name from Buies Creek Academy to Campbell Junior College. In 1961, Campbell became a senior college. The name was changed to Campbell University on June 6, 1979.

Graduate programs were begun in 1977 with the Master of Education degree. The Master of Business Administration degree was added in 1978, and the Master of Science in Government was established in 1982 (although this degree is no longer offered).

The Campbell University School of Law was founded in 1976, and the Lundy-Fetterman School of Business was begun in 1983. The Schools of Pharmacy and Education were established in 1985. The Divinity School was established in 1995.

Campbell University has developed into a major university that will enroll nearly 10,000 students during the 2003 academic year. Students hail from all one hundred North Carolina counties, all fifty states of the United States, and over thirty-five countries of the world. Campbell University is now the second largest private university in North Carolina and the second largest Baptist University in the world. Open to all qualified students, Campbell's student body includes persons from more than forty denominations and faiths.

In over one hundred years of service, Campbell University has been served by only four presidents:

James Archibald Campbell	1887 - 1934
Leslie Hartwell Campbell	1934 - 1967
Norman Adrian Wiggins	1967 - 2003
Jerry McLain Wallace	2003 -

Faculty

One of the chief assets of Campbell University is its faculty. Members of the faculty are competent, experienced, and dedicated teachers. Their educational backgrounds are represented by undergraduate and graduate degrees from many outstanding institutions.

At the present time, over four-fifths of the faculty hold the doctoral degree or its professional equivalent.

Campbell University is committed to the task of selecting and maintaining a group of highly qualified teachers who are dedicated to learning in general, to the special knowledge of their subject area, and to the process of instructing students.

Assets

The University has total net assets in excess of \$151,000,000, including endowment assets in excess of \$78,000,000.

Also included among its assets is Keith Hills. The first eighteen-hole-course of this championship golf course was completed in 1973, while the second eighteen-hole-course was completed in 2002. Keith Hills is named for its longtime trustee and his family, Fred R. Keith, of Lumberton, North Carolina. The Robin Whitley Hood family of Benson, North Carolina, made possible the building of the Robin Hood Pro Shop.

Library

Carrie Rich Memorial Library (1925). The original building has been expanded several times, with the most recent addition completed in 1965. The mission of the library is to provide services and resources to meet the present and future scholarly and informational needs of the Campbell University community and, insofar as possible, to share resources with those outside the University. The library's collection consists of over 200,000 book volumes, 711 print serial subscriptions, 5,500 electronic periodical subscriptions, and 850,000 microforms. Over 40,000 federal documents are housed in the Library Annex and 4,000 media items and related educational materials are housed in the Curriculum Materials/Media Center. A collection of business references and periodicals is located in the Business Library in the Lundy-Fetterman School of Business. The library has an automated catalog and full Internet capability, which provides students with both in-house and remote access to library holdings and database services.

Banking Service

First Citizens Bank and Trust Company and The Fidelity Bank are within walking distance of the campus for students who desire banking services.

Student Health Service

The Pearson Memorial Student Health Service provides care for the Campbell University student body.

Hours: Monday – Thursday: 7am -11pm; Friday: 7 am – 9 pm, Saturday: 9am - 12 noon; Sunday: 2pm - 6pm

Appointments are scheduled to see the physician, however a nurse is on duty at all times and may be seen without an appointment. You may schedule an appointment by calling 893-1560.

All other hours are covered through an on-call system. Students requiring medical attention after hours should contact the Public Safety Office at 893-1375, which will then have the on-call nurse contact you. She/He will evaluate your medical need, and the appropriate action will be taken to assist you.

Services

Health services include diagnosis and treatment of illness and injuries within the limitations of the facility. Medical treatment not available at the Student Health Service will be referred to the appropriate healthcare provider for treatment.

Services include allergy injection, immunizations, laboratory, pharmacy, physical therapy, radiology, and minor surgical procedures.

Charges

There is not a fee for evaluation by the physician's assistant, supervising physician or nursing personnel; however, the student will be charged for any laboratory procedures, non-prescription medicines, prescription drugs and minor office procedures. These charges will be billed to the student account at the end of each month, or billed to insurance (whichever is appropriate).

Treatment Policies

- Except for "emergency" cases, students needing medical attention should schedule an appointment for evaluation by the physician.

- Students should follow the advice or recommendations of the Student Health personnel. Any student who does not heed the instructions or recommendations of the medical staff, does so at his/her own risk, and the University disclaims responsibility for complications that might develop as a result of the student's refusal to heed such advice.

- The Student Health personnel do not make calls in the residence halls. Should emergencies arise, the nurse on duty at the Infirmary should be notified for further instructions.

- All accidents should be reported to the Student Health Service as soon as possible, and no later than thirty (30) days, in order to ensure that the necessary information is obtained for filing with the student's accident insurance.

- Students should report to the Student Health Service before seeking outside medical services that are not covered by student insurance. This could prevent huge medical expenses that are the responsibility of student and/or parents.

- Each student under the age of 18 shall be required to have authorization for treatment, signed by the parent or legal guardian. This authorization is included on the medical history form required to be completed and returned before the student enters Campbell University.

- Prescriptions from the student's family physician may be filled or refilled at the Student Health Service Pharmacy if it is a medication that is kept in stock. The student should report to the prescribing physician for follow-up treatment if indicated.

Undergraduate Academic Policies

Campbell University offers undergraduate programs leading to the Associate of Arts (AA), Bachelor of Arts (BA), Bachelor of Science (BS), Bachelor of Business Administration (BBA), Bachelor of Social Work (BSW), Bachelor of Applied Science (BAS), and Bachelor of Health Science (BHS) degrees.

General Requirements for All Undergraduate Degrees

Candidates for undergraduate degrees must:

I. Demonstrate evidence of good character.

- A. Honoring the Campbell University Code of Honor
- B. Serving the University Community
- C. Living as a good citizen

II. Complete the General College Curriculum.

The General College Curriculum

The General College Curriculum is a collection of baccalaureate courses in the traditional liberal arts disciplines of the trivium and quadrivium. The purpose of requiring this two years of study prior to undertaking the major and minor fields is 1) to provide students the opportunity to acquire and solidify skills in reading, writing, and critical thinking which are fundamental to all other disciplines, and 2) to enable students to gain the experience and knowledge needed to achieve the spiritual, philosophical, historical, aesthetic, and scientific foundations necessary to understand and evaluate human experience from a Christian perspective as well as to enjoy the good life motivated by charity and concern for others.

Students pursuing the B.A., B.S., B.S.W., and B.B.A. degrees must complete the General College Curriculum with any minor modifications noted herein for the appropriate degree program.

Academic Disciplines

Number of Courses Required

Fine Arts

Art 131, Music 131, or Theatre 131 1

Humanities

English 100, 101, 102 1-3

English 100 may be waived for students with an SAT verbal score of 450 or higher.

English 101 may be waived for students with an SAT verbal score of 700 or higher and a "B" average in high school English.

British and/or American Literature 2

One course in foreign literature may be substituted for one literature course. This may be either a course in the language or in English translation, provided the student's adviser approves it in advance.

Foreign language

1-3

1. Students pursuing the B.S. or B.S.W. degree must pass either the 201-level course in the language or attain a satisfactory score on a nationally-normed equivalent examination approved in advance by the Chair of the Foreign Language Department.

2. Students pursuing the B.A. degree must pass either the 202-level course in the language or attain a satisfactory score on a nationally-normed equivalent examination approved in advance by the Chair of the Foreign Language Department.

3. Students pursuing the B.B.A. degree are required to complete two foreign language courses. This requirement may be met by presentation of two or more high school units (years) in the same language.

Religion

2

Religion 125 and one of the following: RELG 202, 212, 222, 224, 236, 251, or 340

History 111 and 112

2

Mathematics and Computer Science

Math and Computer Science

1-2

1. Successfully complete Mathematics 122 or two mathematics courses numbered 111 and above as selected by the major department. (One course may be either CSC 111 or Philosophy 221.)

2. Students pursuing the B.B.A. degree are required to complete Math 160.

Natural Science

2

Natural Science

Two laboratory science courses (four hours each) from Biology, Chemistry, Environmental Science, or Physics

Exercise Science (Physical Education)

2

Exercise Science 185 (2 hours) and any activity course (1 hour)

Social

Science/Philosophy/Religion

2

Students are required to complete only two courses and may take any combination, with the approval of the major department. Courses in Economics, Geography, Psychology, Government, History, Criminal Justice, Sociology, Religion, or Philosophy may be used to complete this requirement.

Total General Education Hours

45-65 Semester Hours

III. Participate, when requested, in assessment of institutional effectiveness of programs in general education and studies in the major and/or minor field.

On a periodic basis, the University will request student participation in determining measures of effectiveness of University programs and in assessing student progress during the course of the educational experience at Campbell. When the participation requested pertains to student progress in the major and/or minor, such participation becomes a requirement for graduation.

IV. Satisfy the Cultural Enrichment Program (CEP) attendance requirement.

The Campbell University Cultural Enrichment Program represents an attempt to stimulate spiritual growth and commitment, to offer quality programs to enhance the cultural and educational atmosphere of the campus, and to facilitate communication within the University.

Attendance requirements for C.E.P. are as follows:

Students entering as *freshmen* must attend for four semesters

Students entering as *sophomores* must attend for three semesters

Students entering as *juniors* must attend for two semesters

Students entering as *seniors* must attend for one semester

Students who are *seeking an Associate degree* will attend two semesters of C.E.P.

One-half hour credit is awarded for each semester of C.E.P. attendance. The grade will depend upon the number of absences.

V. Complete a minimum of 12 upper-level semester hours in the departmental major at Campbell.

A student may be a candidate for only one undergraduate degree. Normally, each student chooses a major field when nearing completion of the core curriculum requirements, usually not later than the second semester of the sophomore year. Each Campbell University student is responsible for insuring that the choice of major is properly and currently recorded with his/her adviser and in the Registrar's Office and the University Computer.

Please Note: Students must take cognizance of the fact that the Registrar's Office is the office of record with respect to student academic information during residence and at the time of graduation. If the information on record in that office is not correct, then permanent student records as well as Federal, State, Financial Aid, and VA reports can be in error, perhaps causing the student academic and/or financial hardship.

Double Majors

It is sometimes possible to complete the requirements for two majors while in residence. Qualification in two majors does not entitle a candidate to two degrees.

Depending upon the requirements, this process may necessitate an additional semester or two in residence.

Forms for declaring multiple majors are available in the Registrar's Office. Students who desire qualification in two major fields must obtain for the official record the one-time written approval of both of the appropriate department chairpersons and have the approvals on file in the Registrar's Office. Since requirements for the major vary by department, the student must select one department's requirements as primary. In the event of misunderstandings or conflicts with respect to requirements, the chairperson of the primary department will resolve the problem.

In the case of duplicate requirements, the student may be released from the course requirement by the department chair of the secondary major, but the student must still have 128 hours for graduation. Students must have a 3.0 average before starting a double-major program.

Campbell University does not award a second baccalaureate degree. Graduates may be given a letter of certification in a second major upon successful completion of all of the requirements for that major. In any case, a candidate for a letter of certification must complete a minimum of 12 semester hours of upper level courses at Campbell University.

Please Note: Students receiving veterans' benefits must document with the Veterans' Affairs Coordinator, the Office of the Registrar, and the appropriate department chairs their intent to pursue the double major or a major with a minor. A written course requirement sheet, agreed to by respective department chairs, must be provided to the veterans' benefit student with the clear understanding that an additional semester may be required to complete all requirements. The course requirement sheet will be developed on a case-by-case basis, tailored individually, and agreed to by the appropriate department chairs. Successful completion of all degree requirements will result in award of a single diploma.

Minors

Students may also elect to earn a minor field. Requirements for minors are normally less demanding than those of a major field. Minimum requirements for a minor are 18 semester hours, including at least five courses. Variations will be determined by the appropriate department. The student must designate the major and minor fields in writing to the registrar at the time of application for graduation. There is no grade point average requirement to meet before commencing work on a minor; however, no credit will be given for a minor unless the student has a "C" average (2.000) when all courses counting toward the requirement are included.

VI. For the bachelor's degree, earn 128 semester hours of credit, of which the last 32 must be at Campbell.

N.B. I: A student is normally allowed to attempt only 160 semester hours before graduation. This number may be exceeded only with the approval of the Retention Committee. From time to time, changes are made in General College Curriculum requirements, graduation requirements, and related matters. Unless otherwise indicated, such changes will be applicable to all students enrolled at the time the change is adopted, as well as to all students who re-enroll after a period of absence.

N.B. II: Extended Campus students will be governed by the academic residency requirements of the Service-Members Opportunity Colleges (SOC), which at the baccalaureate level requires 32 minimum credit hours, of which 12 must be in upper-level coursework with Campbell.

Bachelor of Arts Degree Requirements

Students must complete the General College Curriculum, along with major and elective requirements, to total a minimum of 128 semester hours. Major requirements are included in the appropriate academic discipline listing in this Bulletin.

The Bachelor of Arts Degree is awarded to students in the following majors:

College of Arts and Sciences

Art, Criminal Justice, English, French, Government, History, Mass Communication, Music, Music Education, Spanish, and Theatre Arts.

The Divinity School

Religion, Religion & Christian Ministries, and Religion & Philosophy.

Bachelor of Business Administration Degree Requirements

Students must complete the General College Curriculum, along with major and elective requirements, to total a minimum of 128 semester hours. Major requirements are included in the appropriate academic discipline listing in this Bulletin.

The Bachelor of Business Administration degree is awarded to students in the following majors: Accounting, Business Administration, Computer Information Systems, Professional Golf Management, International Business, and Trust & Investment Management.

Bachelor of Science Degree Requirements

Students must complete the General College Curriculum, along with major and elective requirements, to total a minimum of 128 semester hours. Requirements for each major are included with the appropriate academic discipline listing in this Bulletin. The Bachelor of Science degree is awarded to students in the following majors:

College of Arts and Sciences

Athletic Training, Biochemistry, Biology, Chemistry, Computer Science, Exercise Science, Mathematics, Physical Education, Social Science, and Sports Management

The Landy-Fetterman School of Business

Economics

School of Education

Elementary Education, Family Studies, Middle Grades Education, Psychology
Teacher Licensure with a B.S. degree in the following areas: Biology, English, French, Family Studies, Mathematics, Music, Physical Education, Social Science, and Spanish

School of Pharmacy

Clinical Research, Pharmaceutical Sciences

Bachelor of Social Work Degree Requirements

Students must complete the General College Curriculum along with major and elective requirements to total a minimum of 128 semester hours. Major requirements are included in the appropriate academic discipline listing in this Bulletin.

Bachelor of Applied Science

Students must meet the criteria of either (A), (B), or (C):

(A) Student must possess an earned Associate in Applied Science degree from an accredited college or technical school. The degree must include a minimum of 36 semester hours in the major area.

(B) Student must possess an earned and completed non-degree diploma from a regionally accredited school that includes a minimum of 36 semester hours of technical core credit. Transfer credit will be limited to 36 hours, BAS-only credit. Students will be permitted to transfer in a limited number of additional credits from other community college-level course work.

(C) Student must have completed military service school(s) that have a minimum of 36 semester hours of technical core credits as recommended by the American Council on Education (ACE), and been awarded the Military Occupational Specialty (MOS for Army, Air Force Specialty Code [AFSC] for Air Force, Naval Enlisted Code [NEC] for Navy) that is comparable to (A) or (B) above.

Further, students must complete 53 semester hours of credit in these general education subject areas, if not already accepted as transfer credits within the associate degree program of study:

<i>Academic Disciplines</i>	<i>Number of Semester Hours Required</i>
Fine arts	3
*May include courses from art, music, theatre	
Humanities	24
*Must include ENGL 100 (if required), 101 and 102, RELG 125 and one RELG elective. The remaining 9-12 hours may come from writing or literature courses, speech, religion, philosophy, or foreign language.	
Math/CSC	6
*May include any Math courses numbered 111 or above or an approved computer science language course.	
Science	8
*Any natural or biological science courses, with laboratory component	
Social Sciences	12
*Must include HIST 111 and 112. May include courses in history, government, economics, geography, sociology, psychology, criminal justice, or military science.	

Students must complete additional elective hours to total a minimum of 128 semester hours for the BAS degree. Of the remaining hours, at least 24 semester hours must be upper level (300-400) courses from any of these subjects: accounting, business, computer information systems, computer science, economics, foreign language, government, history, criminal justice, literature, mathematics, philosophy, psychology, religion, science, or sociology; and 12 of those 24 must be taken in residence at Campbell.

Any student who is originally evaluated for a Bachelor of Applied Science degree and later changes to another degree plan will have his/her transfer credits re-evaluated. In this case, the student may lose the majority of technical credits.

Bachelor of Health Science

Students must meet the criteria of either (A), (B), or (C):

(A) Student must possess an earned Associate in Applied or Health Science degree in a health care related area, from an accredited college or technical school. The degree must include a minimum of 36 semester hours in the core health science area.

(B) Students who have graduated from a non-degree diploma program in an allied health discipline with a minimum of 36 semester hours in the major area and who also possess state or national certification or licensure may be considered on a case-by-case basis.

(C) Student must complete a health care-related military training program that is the equivalent of (A) or (B) above. The service school(s) must include a minimum of 36 semester hours of technical core credit credits as recommended by the American Council on Education (ACE), and been awarded the Military Occupational Specialty (MOS for Army, Air Force Specialty Code [AFSC] for Air Force, Naval Enlisted Code [NEC] for Navy). See your adviser to determine which MOS's are currently eligible for this degree program (e.g., surgical technician, dental technician, lab or x-ray technologists).

Further, students must complete 53 semester hours of credit in these general education subject areas if not already accepted as transfer credits within the associate degree program of study.

**Academic
Disciplines**
**Number of Semester
Hours Required**

Fine arts	3
*May include courses from art, music, theatre	
Humanities	24
*Must include ENGL 100 (if required) 101 and 102, RELG 125 and one RELG elective. The remaining 9-12 hours may come from writing or literature courses, speech, religion, philosophy, foreign language	
Math/CSC	6
*May include any Math courses numbered 111 or above or a computer science language course; MATH 112 recommended.	
Science	8
*CHEM 111 and 113 with lab required	
Social Sciences	12
*Must include HIST 111 and 112. May include courses in history, government, economics, geography, sociology, psychology, criminal justice, or military science.	

Further, students must complete the additional core courses required for adequate preparation for graduate education in health related occupations. If not already awarded through transfer credit, the student should complete:

CHEM 227	Organic Chemistry I with lab	4 semester hours
BIOL 111	Basic Biology with lab	4 semester hours
BIOL Electives	Anatomy & Physiology recommended	8 semester hours
Additional Upper-level BIOL courses (two courses must have labs)		12 semester hours

Students must complete additional elective hours to total a minimum of 128 semester hours for the BHS degree. Of the remaining hours, at least 24 semester hours must be upper level (300-400) courses from any of these subjects: accounting, business, computer information systems, computer science, economics, foreign language, government, history, criminal justice, literature, mathematics, philosophy, psychology, religion, science, or sociology; and 12 of those 24 must be taken in residence at Campbell. Students should check the admissions requirements for the graduate programs for which they intend to apply. This will aid in course selection for the remaining electives.

Any student who is originally evaluated for a Bachelor of Health Science degree and later changes to another degree plan will have his/her transfer credits re-evaluated. In this case, the student may lose the majority of technical credits.

Associate of Arts Degree Requirements

Campbell University offers Associate of Arts degree programs in General Education, Business Administration, Computer Information Systems, and Social Sciences. A candidate for this degree must have demonstrated evidence of good character, completed 64 semester hours of study with 2.0 average on all work offered for graduation, and must have earned a 2.0 average on 80 percent of all work attempted. This degree requires a minimum of 15 semester hours of study in residence. All AA degrees require the following general courses:

Courses	Credit Hours
English 100, 101, 102	9
English Elective	3
Mathematics Electives	6
History 111 and 112	6
Science Lab Course	4
Fine Arts	3

Religion 125	3
EXER 185 (2) plus an activity course (1)	3
Electives	27
Total Semester Hours	64

Combined Degree Programs

Several combined degree programs exist for exceptional students. Consult the appropriate academic department for further information.

Special Considerations for Professional School Admission

Students with combined SAT scores of 1200 or higher may be offered guaranteed seats in the Norman A. Wiggins School of Law upon graduation, provided that they have maintained a 3.50 cumulative grade point average during their undergraduate work at Campbell University and satisfy the law school's requirement with respect to the Law School Admission Test (LSAT). The School of Pharmacy reserves spaces for high school valedictorians that maintain required averages in their pre-pharmacy curriculum.

VII. Achieve satisfactory grade point averages:

- a. A minimum grade point average of 2.000 in the major.
- b. A minimum grade point average of 2.000 on all work attempted at Campbell University.
- c. Some departments require that all courses in the major have a minimum grade of "C."

Please note that the responsibility for meeting the requirements for graduation rests upon the student in all cases. The responsibility for the student's academic performance and destiny is the student's, not the advisor. Advisors offer guidance and advice; the responsibility for meeting the requirements for graduation rests upon the student.

Class Attendance Policy

University policy regarding attendance is that:

1. The student is obligated for all required work, written and oral, in each course for which registered, whether the student attends class or not.
2. No student will receive credit for any course in which he/she fails to attend at least 85-percent of the classes held.
3. Students should understand that the 15-percent absences allowed are designed for, but not limited to, personal and family emergencies, inclement weather conditions, bona fide medical needs, and officially approved representation of the University, such as athletic teams, student congresses, and assessment testing. Students whose absences fall in these categories will be allowed to make up work; it is incumbent upon the student to notify the professor in advance when possible.
4. Absences for reasons other than those listed above will not be excused.
5. Professors will keep absence records in all classes. Students who exceed the allowed number of absences will not receive credit for the course involved. Students who do not properly withdraw from a course will be given a grade of "F."
6. Professors have the prerogative of making their absence policy more restrictive than that of the University.
7. Professors will include a clear statement of their absence policy in the syllabus for each course.

General Academic Regulations

Classification of Students

The classification of a student depends upon the number of hours completed and not upon the length of time enrolled in the University. A student is classified:

1. As a *senior*, upon the completion of 98 semester hours.
2. As a *junior*, upon the completion of 64 semester hours.
3. As a *sophomore*, upon the completion of 24 semester hours.
4. As a *freshman*, if the regular admission requirements have been met.
5. As a *special student*, if for some approved reason the student is registered for one or more courses but does not meet the admission requirements.
6. As a *part-time student*, if, with approval, the student is registered for less than 12 hours of credit work.

N.B.: To receive full assistance through the Financial Aid Office or through Veteran's Affairs, a student must be enrolled for 12 semester hours. However, the university charges *full tuition* for nine or more hours in one semester.

Minimum Grade Requirements for Graduation

All baccalaureate candidates must have: (1) a "C" average (2.000) in the major and (2) a "C" average (2.000) at Campbell.

All associate candidates must have completed 64 semester hours with a 2.0 average on all work offered for graduation and must have earned a 2.0 average on 80 percent of all work attempted.

Note: Music and Mass Communication majors must have a "C" or better on each course within the major. Students seeking teacher licensure must have a "C" or better on all courses in the major and on all education courses.

Application for Graduation

The candidate is responsible for applying for graduation at the beginning of the final semester before graduation, normally, and in no case later than, at January registration prior to May graduation, and at fall registration for December graduation. Students who cannot complete their work in time to march at the May ceremony are welcome to march the following December. Depending on an individual student's progress, this process may involve several applications.

Applications must be on file in the Office of the Registrar before the degree will be awarded. The candidate must satisfy all financial obligations prior to graduation.

Graduation and Graduation Ceremonies

Degrees are conferred in August, December, and May. A ceremony for August and December graduates is held in mid-December. A ceremony for May graduates is held in mid-May. Extended Campus Education holds an additional graduation ceremony in June at Camp Lejeune for extended campus students.

Graduation with Honors

The award of honors at Campbell University is determined in accordance with the following rules:

- 1.The GPA on all work at Campbell University must equal the stated GPA requirement.
- 2.To be eligible for honors at graduation, any student must have completed a minimum of 60 semester hours at Campbell.
- 3.Students who achieve a grade point average of 3.40 will be graduated *cum laude*, 3.60 *magna cum laude*, and 3.90 *summa cum laude*.

Graduation in Absentia

All candidates are expected to participate in the appropriate graduation ceremony, unless hindered by exceptional circumstances. To be eligible to participate in the ceremonies, the student must have completed all degree requirements prior to the date of graduation. Candidates with legitimate conflict, such as military duties, will be excused.

Policies Regarding Registration and Course Credit

Faculty Advisers

Each student will be assigned a faculty adviser who will be available to assist in making academic decisions. Prior to registration each semester, every student must have proposed courses approved by the adviser, and, if so indicated in this Bulletin, by representatives of other departments and/or schools.

Students interested in pursuing special programs such as pre-pharmacy or majoring in government, elementary education, middle grades education, or music should declare their intent at the earliest possible date, preferably upon registering for their first semester.

Students interested in obtaining licensure for teaching in the public schools must consult the School of Education prior to registering for the sophomore year.

Semester Hour

A semester hour usually represents the credit earned in a class that meets one hour (fifty minutes plus a ten-minute break) each week for a full semester. In a course meeting three times a week, three semester hours of credit will be earned.

Some courses carry laboratory credit. For example, courses in science, computer information, psychology, social work, and family and consumer sciences carry laboratory requirements. In general, two hours of laboratory time are converted into one hour of credit; in the natural sciences, the ratio is three to one.

Courses of Instruction

Courses numbered 100 or 200 are recommended for freshmen; those numbered 200 or 300 are open to sophomores; those numbered 300 to 400 are intended for juniors and seniors. Those numbered 500 are for advanced undergraduate and graduate students. Courses numbered 600 and above are for graduate students only. Credit hours for each course are listed in parentheses after the title.

The University reserves the right to make necessary changes and/or cancel classes in the class schedule where there is insufficient demand for an announced course or where unexpected personnel changes have occurred.

Normal Class Load

During the regular semester on the main campus, a normal class load is fifteen to sixteen hours (not including CEP). During the summer sessions and off-campus terms, a normal load is six semester hours each session/term. For extended campus students, a normal full time class load is six hours per term, and may not exceed nine hours without the express approval of the extended campus director.

A full-time boarding student must carry a minimum load of twelve semester hours. Students carrying less than twelve hours will not be eligible for full financial aid.

Overloads

Students enrolling in more than eighteen semester hours (not including CEP) during the regular semester or six semester hours during summer sessions at the main campus must obtain permission from the appropriate dean and pay the appropriate overload charges. Extended campus students enrolling in more than nine semester hours per term must obtain permission from the extended campus director and pay the appropriate overload charges.

Under no circumstances should a student attending summer school sit for more than 18 semester hours each summer on main campus summer programs, off-campus summer programs, or any combination.

Enrollment at Other Schools

Requests for permission to enroll in courses at other colleges or universities for subsequent transfer of credit to Campbell University must be approved in writing by the adviser, the appropriate department chairperson, and the Registrar prior to enrollment. Forms are available in the Registrar's Office.

Students who do not have a "C" average at Campbell normally will not receive approval to transfer courses to Campbell. In such special circumstances where approval is granted, students should understand that the transfer courses will be held in "suspense" and not transferred until the student has attained a "C" average at Campbell University.

Furthermore, students who are in their fourth semester at Campbell University or who have completed 64 semester hours may not transfer work from two-year institutions (junior colleges, community colleges, or technical colleges).

Courses taken during a term of disciplinary suspension may not be applied toward degree credit at Campbell University.

Students should understand that they must complete the last 32 semester hours in residence at Campbell, and that work completed at another institution while a student is ineligible to return to Campbell will not be accepted in transfer.

A deficit in quality points must be resolved by completing courses at Campbell.

Please Note: Students enrolled at extended campus sites are usually covered under the provisions of the Servicemembers Opportunity College (SOC) consortium. SOC provisions, though normally more liberal than the policy stated here, are subject to specific requirements and stipulations. Extended campus students should obtain approval from their site director prior to enrolling at any other institution.

Policies for Main Campus Students Attending Extended Campus Sites

Main campus students may enroll for courses at Campbell's extended campuses under the following conditions:

1. The requested course will not be available on the Buies Creek campus during the present semester or prior to the expected date of the student's graduation.
2. Approval must be obtained from the adviser, department chair, discipline department chair, and Registrar.
3. A student may enroll for no more than two courses per semester/term at extended campus sites.
4. The maximum number of hours allowed during any semester and combination of off-campus terms must not exceed 18.5 hours.
5. If a student enrolls for six or more hours on main campus, and three or more hours at any off-campus location during the semester, the student is considered a full-time on-campus student and must pay resident tuition charges.
6. If a student enrolls for six or more hours on main campus, plus any combination of off-campus courses, such that total enrollment will exceed 12 semester hours during the semester, that student will be charged full-time on-campus tuition charges, plus the applicable off-campus tuition charge for all semester hours in excess of 12.

Directed Independent Study (DIS)

Independent study is any type of study which is conducted under the supervision of an instructor but which is not available as a regularly scheduled course or which is a regularly scheduled course but is not currently available.

Credit hours will be given for each independent study course as listed in the catalog for regularly scheduled classes.

All independent study should be initiated by the student, and a contract submitted prior to the semester for which credit is sought. The student should submit a written request to the faculty adviser, or site Director (if an extended campus student) during the advisement period and obtain approval before registration.

The student and faculty member will work out the format of each course and will adhere to the standards set by the department.

Departmental standards will include the following:

1. No student may take more than one three-semester-hour independent study course per semester; no student shall present more than nine credit hours in independent study toward a major without the approval of the discipline department chair, adviser, and the dean of the college/school.
2. The student's schedule should allow for an average of three hours of work per week per semester hour, including time spent in meeting with the professor.
3. A clear written understanding should be established between the student and professor concerning the objectives of the study, procedures, reading, written work, travel, and means of evaluation.

Supervision of independent study will be on a volunteer basis for the professor. No professor should supervise more than three independent studies during any semester/term. All independent study contracts shall be approved by the faculty adviser, the supervising professor, the discipline department chair, the appropriate dean, and the Registrar. (Note: Extended campus students require only the approval of their site Director.)

Veterans enrolled in independent study courses must also be enrolled in 12 semester hours of traditional course work to qualify for veterans' benefits.

Blank independent study contracts may be obtained in the Office of the Registrar.

Auditing a Course

A student may audit any course by obtaining the permission of the instructor and the appropriate dean. The requirements for attendance and participation are determined by the instructor.

A student auditing a course receives no credit and no grade. However, satisfactorily completed audits are reported to the Registrar's Office and made a matter of permanent record. Students may elect to retake a course for credit and a grade. A course that is audited is considered to be a part of a student's load and is included in the tuition and fee charges.

Credit by Examination

College credit will be awarded to a student who completes the *Advanced Placement Examination* with a score of three or better. No grades will be given in courses for which credit is granted by examination. Campbell University does not offer course credit for the SAT II tests.

Applicants should arrange with the College Entrance Examination Board (CEEB) for the *Advanced Placement Examination* and should request the CEEB to send the results of these examinations to the Dean of Admissions. The decision on the appropriate amount of credit to be awarded will be determined by the department chair with the approval of the appropriate dean.

Credit may be earned by satisfactorily completing the *General Examinations* or the *Subject Examinations* of the College Level Examination Program (*CLEP*) of the College Entrance Examination Board. A maximum of 64 hours of freshman and sophomore level credit may be earned for scores recommended by the American Council on Education. Applicants who seek credit by examination may obtain further information from the Registrar of the University.

Credit for courses in the core curriculum to be earned through *CLEP*, *DANTES*, *USAFI*, *APP*, *Challenge Examinations*, and other nontraditional methods should be submitted prior to the end of the student's first year of enrollment at Campbell.

Transfer Students

Students who complete course work at another accredited college or university may apply for admission to Campbell University. Transfer applicants must meet all admissions requirements and be eligible to return to the institution from which they are transferring.

Substitution Policy

Upon the recommendation of the adviser and department chairperson (or extended campus director), the dean of each school has the authority to approve subject substitutions. Normally, for veterans, course substitutions will be restricted to two for baccalaureate degree programs without approval action from the North Carolina State Approving Agency Office.

Transcripts

The first copy of a student's record is issued upon request without charge. Subsequent copies are \$5.00 each. Written requests for additional copies should be made to the Registrar by the student and should be accompanied by a remittance of \$5.00 for each copy desired. Checks or money orders should be made payable to Campbell University. Forms for Transcript Requests may be obtained by accessing the following URL: <http://www.campbell.edu/academics/index.html>.

Campbell University complies with the Buckley Amendment with respect to the privacy of student records, i.e., the University will not release student records without the signature of the student.

Drop-Add

Deadlines are published each semester for dropping and adding courses. A course may be added during the first two weeks of a regular semester. In a regular semester, a course may be dropped without a grade for a period of four weeks.

Students will not be allowed to drop or add courses without the permission of the academic adviser. A "Change of Schedule Form" can be obtained from and must be returned to the Registrar's Office.

Withdrawal from a Course

Students withdrawing from a class after the published drop-add deadline until mid-term will receive a grade of "WP" (withdrew passing) or "WF" (withdrew failing) from the professor. Students withdrawing from a class after mid-term will receive a grade of "WF". *(Please note that a grade of "WF" is punitive and has a negative impact on the grade point average and possibly financial aid).* The time periods listed herein for the regular semester will be applied proportionally to Summer Sessions and Extended Campus terms.

Students will not be allowed to withdraw from a class without the permission of the academic adviser. A "Course Withdrawal Form" can be obtained from and must be returned to the Registrar's Office.

Students who do not properly withdraw from a class will be assigned a grade of "F".

Withdrawal from the University

Withdrawal from the University should only be considered after a careful and thorough evaluation of the academic, financial, and personal impacts arising from such an action. In all cases, students should first meet with their faculty advisor to discuss withdrawal from the University.

To withdraw officially from the University during a semester, a student must contact the Office of the Dean of Student Life and obtain a Withdrawal Form. After the student carefully consults with their faculty advisor, this form must be completed, with appropriate signatures, and returned to the Registrar's Office in order to receive an official withdrawal.

Failure to withdraw properly will result in full charges and failing grades. Students will be responsible for all grants, scholarships, loans, and federal monies applied toward their tuition and general fees. Students receiving veterans' benefits must report to the Director of Veterans Affairs within thirty days of withdrawing from Campbell.

Withdrawal from the University after the published drop-add date will result in a student receiving grades of "WF" in all courses except in cases of *documented medical emergencies*. *(Please note that grades of "WF" are punitive and have a negative impact on the grade point average and possibly financial aid.)*

Students planning to withdraw between terms should notify the Dean of Student Life of their intention in writing. Students absent from Campbell University for one or more semesters/terms (excluding summers) must reapply for admission.

University Disciplinary System

The Dean of Student Life is responsible for the administration of the University's disciplinary system. This responsibility is exercised on behalf of the President of the University and entails the operation of several bodies. They are described below and explained in detail in the Campbell University Student Handbook. The Student Handbook is published annually and distributed at registration. It is reviewed and approved by the President and Executive Cabinet and represents the official policies, regulations and procedures relating to student housing, student support services, student conduct, and the University disciplinary system. The handbook also contains official policies relating to parking and public safety. When a student is admitted to Campbell University, the student becomes responsible for knowing and abiding by all rules and regulations of the University as published in the University Bulletin and the Student Handbook.

Students are responsible for adhering to established policies, including the Code of Honor and Code of Conduct, both on and off campus. Campbell University also expects its students to abide by local, state and federal laws, as well as the generally accepted moral standards of our society. Although the University's role is not to duplicate civil law enforcement or judicial action, it may exercise reasonable authority for reasons indigenous to its functioning as an educational institution.

Allegations of misconduct involving graduate students are referred to the appropriate graduate/professional school for resolution.

The Dean of Student Life is responsible for conducting initial inquiries into allegations of misconduct and determining appropriate actions, including sanctions, and arranging original hearings, if required, for violations of the Code of Honor and Student Code of Conduct. In cases of violent or disruptive behavior, the Dean of Students may suspend a student or remove him/her from campus pending a hearing. If suspension is imposed under these circumstances, a hearing will be arranged in the timeliest manner practical. The Dean of Student Life may delegate the authority to conduct initial inquiries to the Director of Residence Life and/or other members of the Student Life staff for violations of Residence Hall regulations. Students may request to contest the action taken during the initial inquiry by requesting an Original Hearing. (For detailed information on disciplinary policies and the hearing process, please refer to the Student Handbook.

•*The University Conduct Council* is composed of an elected Chair, the four undergraduate class presidents, three faculty members, the Residence Life Director, and the Dean of Student Life. The council hears violations of the Student Code: Standards of Conduct and Residence Hall Rules. The council may penalize students for misconduct by assigning penalty points. Once assigned, penalty points remain in effect for 365 days. The accumulation of penalty points can lead to social probation (10 points), disciplinary probation (15 points), and suspension (20 points).

•*The Faculty Executive Committee* is composed exclusively of faculty members including the deans of the Lundy-Fetterman School of Business, the School of Education, and the College of Arts and Sciences. The committee serves as a hearing board for incidents of misconduct involving violations of federal, state, and local law. It may also hear violations of institutional policy and incidents requiring a high degree of confidentiality to protect the reputations of the students involved. Cases of sexual immorality fall into this category. The Faculty Executive Committee may impose penalties ranging from censure to expulsion. Decisions made by the Faculty Executive Committee may be appealed to the University Executive Cabinet.

•*The University Executive Cabinet* considers written appeals of decisions made by the University Conduct Council, and the Faculty Executive Committee. Appeals must be submitted in writing through the Dean of Student Life's office within three school days of the decision being made. The Committee does not hear personal appeals or oral arguments. It may affirm, reduce, or increase penalties. In special cases, the University Executive Cabinet may choose to act as an original hearing board. Decisions reached by the University Executive Cabinet are final.

•*The Honor Council* is composed of a chair, vice chair, administrative officer, ten class representatives, and six faculty members. The purpose of the Council is to investigate and hear allegations of academic dishonesty. Hearings are conducted before a panel of seven students and three faculty members. The panel may impose penalties ranging from censure to expulsion. Sanctions of expulsion and suspension are automatically reviewed by the Executive Committee of the Faculty.

•*The Honor Council Review Committee* is composed of the faculty members on the Honor Council and the dean of the College of Arts and Sciences, the dean of the Lundy-Fetterman School of Business and the dean of the School of Education. This committee considers appeals of students that have been assigned a grade of FX due to academic misconduct and will periodically review all hearings conducted by the Honor Council.

Records of disciplinary actions are normally maintained by the Student Life Office until the fourth summer following the last entry. Copies of correspondence announcing the decisions of the above committees are sent to the Registrar's Office for inclusion in the student's permanent record. Students may examine the contents of their files at the Registrar's Office and/or the Student Life Office by appointment.

Honor Societies

Inquiries in reference to the honor societies listed below should be directed to the Dean of Student Life.

•*Phi Kappa Phi*. A chapter of Phi Kappa Phi was established at Campbell in the fall of 1974. The purpose of Phi Kappa Phi is to emphasize scholarship in all academic fields. Membership is open to men and women who are in the upper ten percent of the senior class. Graduate and professional students in the upper 10 percent of all graduate and professional students in the institution are also eligible.

•*Omicron Delta Kappa*. A circle of Omicron Delta Kappa was organized on the campus of Campbell University in the fall of 1977. The purpose of Omicron Delta Kappa is to recognize and encourage the achievement of exemplary character and superior quality in leadership in the five major phases of campus life, namely: scholarship (upper 35 percent); athletics; social and religious affairs; publications; and the fine arts. Membership is awarded to men and women students who are juniors and seniors and who meet the specified criteria for eligibility.

•*Epsilon Pi Eta*. The *Epsilon Pi Eta* society was organized in the fall of 1928 for the purpose of promoting character, leadership, and scholarship. Members must achieve a 3.25 overall GPA for three consecutive semesters prior to selection.

•*Phi Eta Sigma*. A chapter of *Phi Eta Sigma*, freshman honor society, was installed at Campbell on October 28, 1974. Admission requirements to the society are fifty percent "As" and fifty percent "Bs" for a normal academic load during the first or second semester at Campbell. The society is open to both freshmen men and women.

•*Kappa Delta Pi*. The Chi Theta chapter of *Kappa Delta Pi* was installed on April 25, 1996. This education honor society is open to undergraduates, graduate students, faculty and alumni whose major is education. Undergraduates must have reached junior status and have earned a minimum 3.0 GPA.

•*Pi Gamma Mu*. The Campbell University chapter of *Pi Gamma Mu* was established in the fall of 1984. *Pi Gamma Mu* is a society which encourages excellence in the social sciences among undergraduate and graduate students. Membership and leadership in the chapter are shared between faculty and students. As an honor society, *Pi Gamma Mu* gives recognition to good scholarship and promotes it consistently through enriching activities, a lectureship program, and student-faculty fellowship. When a junior, senior, or graduate student has at least 20 hours in the five core areas (history, political science, economics, sociology/anthropology, and international relations), and in some other social science courses such as social

psychology, criminal justice, and geography, with a grade average of "B" (85 percent), that person may be invited to join an active chapter of *Pi Gamma Mu*. In addition, an eligible student should be in the top 35 percent of the class.

•*Sigma Tau Delta*, Gamma Chi, local chapter of Sigma Tau Delta, the only national English honor society, was formed in 1987. It recognizes outstanding English students who are in the top 35 percent of their class.

•*Who's Who Among Students in American Universities and Colleges*. One of the most prestigious awards the academic community can bestow is selection for Who's Who. Students selected are evaluated with respect to scholarship ability, participation, and leadership in academic and extracurricular activities, citizenship, service to Campbell University, and their potential for future achievement. Only seniors and graduate students are eligible.

•*Premedical/Allied Health Honor Society* is open to students who have an overall 3.0 GPA in all classes and in science. Three semesters of study are required and the students must rank in the upper 35 percent of their class.

•*The Presidential Honor Society* has a membership of students who made 1100 or better on the SAT, who have good character, and are in the top 15 percent of their high school class.

•*Phi Alpha Theta* is the national honor society for history, founded on March 17, 1921 at the University of Arkansas by Nels Andrew Nelson Cleven. Initiates must have 12 semester hours in history with a 3.0 GPA as well as a B average on two-thirds of the remainder of their college work. This society has more than 700 chapters in 50 states, more than any other accredited honor society.

Standards and Expectations

Ethics and Discipline, Code of Ethics

Christian higher education has always been a major concern and integral part of Baptist life in North Carolina. Consequently, over the years, Christian universities and the church have stood as partners. Campbell University plays an important role in the mission of the church and the mission of the Kingdom of God on earth.

Campbell University is Christian but not sectarian. Each year, many religious denominations and faiths are represented on the campus. However, it is expected that all those who attend the University will be sympathetic to its stated purposes.

As a Baptist university, Campbell is committed to teaching students to think with Christian values as their basic guidelines. Accordingly, it is incumbent upon the University to provide its students with a code of honorable behavior that in its observance makes more nearly possible an environment whereby the student can grow spiritually, morally, and intellectually.

To perpetuate these Christian ideals and principles, it is the responsibility of each student to maintain a high standard of personal behavior. Thus, a student who matriculates at Campbell University should demonstrate a willingness to abide by the following code while a member of the student body.

The code of Campbell University arises directly out of the institution's statement of purpose.

The basic principles which guide the development of Christian character and govern Christian behavior are to be found in the Scriptures. Moral law is the gift of God and is fully revealed in the teachings of Jesus Christ.

The student, by virtue of his enrollment, agrees to abide by the rules and moral precepts which govern the University community. Because of the University's commitment to the Lordship of Christ over every area of life, wholehearted obedience to moral law as set forth in the Old and New Testaments and exemplified in the life of Christ applies to every member of the University community, regardless of position.

- While the Bible does not provide a specific teaching regarding all social practices, its emphasis on general principles is unmistakable, particularly in circumstances where lack of self-restraint would be harmful or offensive to others.
- Out of these general principles come certain concrete expectations which should be viewed not negatively but as practical guidelines for conduct and for a productive way of life:
- To uphold at all times and in all places, both on- and off-campus, the University's statement of purpose.
- To protect the property rights of others from theft, damage, or misuse.
- To adhere to all college policies and regulations, including the rules governing the use of facilities, housing on and off the campus, and campus organizations.
- To obey, respect, and uphold the law of the land.
- To refrain from the possession, use, or distribution of alcoholic beverages and drugs.
- To maintain a standard of dress which insures neatness, cleanliness, and appropriateness of attire.
- To exhibit good taste, decency, and restraint at all times, refraining from disorderly conduct and indecent, profane, or obscene expression.
- To be honest in all behavior, never cheating, plagiarizing, or knowingly giving false information.
- To abstain from any sexual relations outside the bonds of marriage.
- To exemplify principles of honor, integrity, and morality, and to help others fulfill their obligations under this code.

Student Handbook

The Student Handbook is published each year by the student personnel staff. Student activities, campus services, academic regulations and policies, and regulations governing student affairs at Campbell University are stated in the Student Handbook.

Every student is expected to become thoroughly acquainted with the Student Handbook. Students are responsible for complying with the policies and regulations presented in the annual edition of the Student Handbook.

Grades and Honors

Grades and Quality Points

The grading scales with the assigned quality points are as follows:

Grade	Quality of Work	4-Point Scale
A	Superior/Excellent	4
B	Above Average	3
C	Average	2
D	Below Average	1
F	Failure/Non-mastery of material	0
FX	Failure due to Honor Violation	0
I	Incomplete	0
IC	Incomplete Continued	0
WF	Failing at time of withdrawal	0
WP	Passing at time of withdrawal	0
AU	Audit	0
P	Passing (Graduate only)	Hours Only

Grades of "A, B, C, D, F, FX, I, and WF" are included in semester hours attempted and will affect the grade point average. Grades of "IC, WP, AU, and P" will not affect the grade point average.

The cumulative grade point average (GPA) is determined by dividing the total quality points earned by the total number of semester hours attempted.

A grade of "I" (Incomplete) must be removed by the completion of the work within 30 days after the opening of the next semester; otherwise, it will be recorded as an "F". A grade of "IC" must be removed by the completion of the work within 120 days. A student may appeal a grade within a period of one academic year from the semester in which the grade was assigned. No changes to the transcript will be made after a twelve-month period unless a professor acknowledges in writing that an error in grade reporting has occurred.

The Grade of "FX"

The grade of "FX" indicates failure as the result of academic dishonesty. The "F" indicates failure of the course; the "X" indicates the reason for the failure (i.e., academic dishonesty). The "FX" will remain on the student's record until he or she graduates or transfers to another college or university. The student may repeat the course.

At the discretion of the faculty, student academic violations of the honor code may be handled in one of two ways. The case may be referred to the Student Honor Council through the Department Chair, the Dean, and the Dean of Student Life. The second option is to award a grade of "FX" in the course for the semester's work. Once entered, this grade will remain on the student's transcript as long as he/she is a student at Campbell. The "X" is removed in one of two events: graduation, or the departure of a student from the University. The latter circumstance is determined once per year after fall enrollment is complete.

Repeat Courses

For repeat courses, the last attempt only will affect the final grade point average. Previous hours attempted.

previous hours passed, and previous quality points will not be considered, although they will remain on the permanent record. All grades from all attempts are recorded and remain on the transcript permanently. Alternative course credit (e.g. CLEP and DSST) will not replace a grade. Additionally, a grade of "WP" or "AU" will not replace a grade.

The Eight-Year Academic Forgiveness Policy

Campbell University has an academic forgiveness policy for which eligible candidates may apply. To be eligible a candidate's course credits must be at least eight years old. Under the terms of the policy, credit will be awarded (hours only) for courses for which the candidate earned a grade of "C" or better. Students will not be required to repeat courses for which they have earned a "D"; however, no credit hours toward graduation will be allowed for "D" grades. Under the terms of the eight-year forgiveness policy, failing grades will not be charged against a student's grade point average.

Minimum Academic Standards for Satisfactory Progress

To be eligible for continued enrollment, students must have met the following cumulative grade point average on all college-level work attempted:

1. Students who have attempted fewer than 48 semester hours must have a quality-point ratio of 1.4.
2. Students who have attempted 48 but fewer than 78 semester hours must have a quality-point ratio of 1.6.
3. Students who have attempted 78 but fewer than 110 semester hours must have a quality-point ratio of 1.8.
4. Students who have attempted 110 but fewer than 130 semester hours must have a quality-point ratio of 1.90.
5. Students who have attempted 130 or more semester hours must have a quality-point ratio of 2.0.

Students not meeting the minimum academic standards will be advised to attend summer school at Campbell to improve their grade point average.

N.B. I: Students of junior standing or less (64 semester hours or less) whose GPA falls below a 1.800 will be allowed to register for a maximum of 13.5 semester hours.

N.B. II: The Department of Veteran's Affairs requires VA students to have a quality-point ratio of 2.0 upon completion of 75% of their degree requirements.

Academic Warning

The University Retention Committee convenes in May of each year to review the academic progress of undergraduate students. The Committee issues an "Academic Warning" to any student whose composite grade point average is less than 2.0. A student who fails to show progress toward graduation may receive more than one "Academic Warning" until such time as the quality point deficit is reduced in its entirety. However, a student who has not made satisfactory progress during any grading period may be suspended without further "Academic Warnings."

Students who incur quality point deficits of 40 or more are normally declared "academically ineligible" for a minimum of one semester. Students who have been ruled ineligible for readmission may appeal to the Retention Committee.

To receive financial aid under Federal Title IV Programs, a student must be making "satisfactory progress" toward graduation as defined herein. In addition, all full-time students must pass an average of 9 hours each semester during the first two years and an average of 11 hours during the remainder of the undergraduate study.

Dean's List

The requirements for the Dean's List are as follows:

1. A minimum class load of 12 semester hours.
2. An average of 3.25 or better on work completed during a semester.
3. No grade below a "C".
4. Not more than one "C" grade.
5. No incomplete grades.
6. No penalty points in effect.

President's List

The requirements for the President's List are as follows:

1. Be eligible for the Dean's List.
2. Complete at least a second semester of residence at Campbell University.
3. Earn a cumulative GPA of 3.50 on a 4-point scale on all work attempted.

Note: The honor lists are prepared at the end of the fall and spring semesters each academic year. In order to be eligible, a student must meet the requirements at the time the lists are prepared.

Academic Appeals

Academic appeals are handled within the appropriate college or school. Any grievance of a student relating to an academic matter shall first be discussed with the appropriate faculty member. Every effort should be made to resolve the matter at this level. If the grievance cannot be resolved with the faculty member, the student shall discuss the matter with the appropriate department chair. If the grievance cannot be resolved with the department chair, the student shall discuss the matter with the appropriate dean. The decision of the dean in academic matters is final.

Eligibility Regulations for Student-Athletes

Freshman Eligibility

A student-athlete who enrolls as an entering freshman with no previous full-time college attendance must meet the following academic requirements to qualify for competition, practice, and financial aid during the first academic year in residence. For students entering any college or university during 2003-04 or 2004-05 academic years, initial eligibility will be evaluated based on the rules below. If student-athletes are not eligible under this new rule, then the NCAA Clearinghouse will automatically re-evaluate the record under the former rule (former initial eligibility regulations can be found at www.ncaaclearinghouse.net or by contacting the NCAA directly). For students entering any college or university on or after August 1, 2005, initial eligibility will be evaluated based solely on the following academic requirements:

1. Present a minimum SAT/ACT score as specified in the NCAA Initial Eligibility Index below. The required SAT/ACT score must be achieved under national testing conditions on a national testing date.
2. Present a minimum cumulative grade point average as specified in the NCAA Initial Eligibility Index in a successfully completed core curriculum of at least 14 academic core courses, including the following:

4 years of English

2 years of Mathematics (Algebra I or higher)

2 years of natural/physical science (1 year of lab if offered by the high school)

1 year of additional English, mathematics or natural/physical science

2 years of social science

3 years of additional courses (from any area above or foreign language, nondoctrinal religion/philosophy, computer science**)

14 Total Core Courses

** Computer Science courses may not be used in meeting Core Course Requirements for those students entering college on or after August 1, 2005

NCAA Initial Eligibility Index (to be used with 14 core-courses)

2.000	1010	86

In order to participate in intercollegiate athletics, all incoming freshman student-athletes, including walk-on student-athletes, must receive their final certification of initial eligibility through the NCAA Clearinghouse.

Continuing Eligibility

To be eligible to represent an institution in intercollegiate athletics following the completion of one year of competition or residence, a student-athlete must maintain satisfactory progress toward a baccalaureate degree as determined by the University. A student-athlete must also maintain NCAA progress towards degree requirements which include the following:

- **24** semester hours of academic credit before the student-athlete enters his or her second year of collegiate enrollment;
- **18** semester hours per academic year;
- **6** hours of academic credit per term;

GPA Requirements:

- **90%** of the minimum cumulative GPA necessary for graduation by the start of the second year of enrollment (1.800);
- **95%** of the minimum cumulative GPA necessary for graduation by the start of the third year of enrollment (1.900);
- **100%** of the minimum cumulative GPA necessary for graduation by the start of the fourth year and thereafter (2.000);

Percentage of degree requirements:

- A student-athlete who is entering his or her third year of collegiate enrollment shall have completed successfully at least 40 percent of the course requirements in the student's specific degree program;
- A student-athlete who is entering his or her fourth year of collegiate enrollment shall have completed successfully at least 60 percent of the course requirements in the student's specific degree program;
- A student-athlete who is entering his or her fifth year of collegiate enrollment shall have completed successfully at least 80 percent of the course requirements in the student's specific degree program;
- For Student-athletes in five year degree programs, the percentage of course requirements are 33%, 50%, and 67% respectively (such as 3/2 program);

Transfer Eligibility

A student who transfers to Campbell University from any collegiate institution is required to complete on full year of residence before being able to compete in intercollegiate competition, unless the student satisfies applicable transfer requirements or receives an exception or waiver of NCAA transfer legislation. Information on transfer eligibility is available through the Department of Athletics.

Institutional Policies

Campbell University complies with all applicable NCAA eligibility legislation as defined by NCAA Bylaw 14. In addition to the minimum requirements for competition established by the NCAA and the Atlantic Sun Conference, the following policies are in effect:

No student will be allowed to take part in any intercollegiate contest during a semester if he or she registered later than the fifteenth calendar day following the opening date of the semester.

No student who is taking less than twelve semester hours of scholastic work shall be permitted to represent the University in any contest or any public performance.

No student will be allowed to represent the University in any contest or public performance who has a deficit at the beginning of the semester of more than forty quality points.

Anyone who has been placed on social probation will be considered ineligible for representation of the University in any contest or public performance.

The information above is a general summary of the eligibility rules for student-athletes. NCAA eligibility rules are complex and subject to review and change annually. For further information and current interpretations of NCAA legislation, please contact the Department of Athletics or visit Campbell University's home page at <http://www.campbell.edu>.

Admissions

Although the majority of the students at Campbell are from the Southeastern section of the United States, all fifty states and fifty-six foreign countries are represented on the campus at any given time.

Selection for admission involves several considerations including grades, course selection, class rank, test scores, activities, and recommendations. Academic record or ability is not by itself sufficient qualification for the admission of any applicant.

A student can obtain an application to Campbell University from many different sources:

- guidance counselor office in their high school
- on-line at www.campbell.edu
- on-line at www.cfnc.org
- e-mail a request to adm@mailcenter.campbell.edu
- call the office of admissions toll free at 800-334-4111 or 910-893-1290
- fax a request to 910-893-1288
- write a request and mail it to Campbell University, Post Office Box 546, Buies Creek, NC 27506

Note – Candidates for admission to a Campbell University extended campus program should contact the location they wish to attend. Under Service Members Opportunity College (SOC) guidelines, admissions requirements are different from those on main campus.

Steps for Beginning the College Admissions Process:

1. Study the catalog (review our web site www.campbell.edu or request from the Office of Admissions).
2. Ask the Office of Admissions to answer any questions concerning Campbell University or its programs.
3. Visit the University, preferably with parents, to tour the campus and to discuss the preferred program of study.
4. Obtain the necessary forms from the Admissions Office.
5. Complete the application form carefully and attach a recent photograph. With the application, enclose the \$25.00 processing fee. Mail the application to the Office of Admissions.
6. With the assistance of the principal or guidance counselor, make the necessary arrangements for taking the SAT or ACT. It is important to ensure that the admissions office receives all available test scores. Request that the scores be sent to the Office of Admissions, Campbell University, P. O. Box 546, Buies Creek, North Carolina 27506. (Campbell's code for SAT is 5100)
7. Request your personal physician send the completed Student Health Service form to the Office of Admissions. This can be done after the acceptance decision.
8. Upon graduation, request the high school to send to the Office of Admissions a supplementary transcript recording the grades and credits during the final semester.

Directions for Prospective Transfers

1. Follow Steps 1, 2, 3, 4, 5, and 8. In addition to the above, the University needs SAT scores and high school transcripts.
2. Make available the scores on the Scholastic Aptitude Test (SAT) or American College Test (ACT). Note: These scores may be found on high school transcripts.

3. Request the registrar of the college at which you are now in attendance (or if not now in school, the registrar of the school last attended) to mail a complete transcript to the Office of Admissions at Campbell University.
4. If you have been in attendance at more than one college, the registrar of each institution should mail to the Campbell University Office of Admissions a transcript of all work attempted at that school. Failure to have the appropriate academic records sent to Campbell may result in the application being delayed or denied.
5. Request a complete college questionnaire from a responsible official of the college previously attended. Note: College questionnaires will be provided for the student in the Campbell transfer packet.

Official Enrollment

A student is officially enrolled by: (1) being accepted and notified by the Admissions Office; (2) making satisfactory financial arrangements with the Business Office; (3) registering at the appropriate time.

Admission Requirements

Full admission to freshman-level study requires the following:

1. *Either* a high school record showing graduation from an accredited secondary school with thirteen credits as follows:

English	4 credits
College-Preparatory Mathematics (Including two of algebra and one of geometry)	3 credits
Foreign language	2 credits
Social Sciences (One must be in United States history)	2 credits
Natural Sciences (One must be a laboratory science)	2 credits

Or successful completion of the General Educational Development (GED) Program. Unusual circumstances with respect to ability, maturity, and motivation may be considered (Only a limited number of GED applicants will be considered.).

2. The admissions committee considers students on the whole person concept. The entire academic record is reviewed. Grade Point Average (GPA), Course Selection, Class Rank, Standardized Test Scores (SAT/ACT*) are all considered. Students with less than the acceptable threshold may not be considered for full admission. Alternative options such as the CAP Program, Probationary Admission, or Conditional acceptance may be recommended. Each and every candidate is reviewed on an individual basis.

3. Students with test scores from 850-950 will be eligible for full admission if they also have a respectable high school GPA, but will be monitored. Students with scores above 950 are eligible for full admission.

*ACT scores are converted to SAT equivalents for statistical purposes.

**May be required to attend the CAP (Conditional Acceptance Program)

Definitions

Campbell notifies students of their acceptance decision within two weeks of the admissions completed admissions file. Admissions acceptances may take different routes.

Official Enrollment: A student is officially enrolled by (1) being accepted and notified by the Admissions Office, (2) making satisfactory financial arrangements with the Business Office, and (3) registering at the appropriate time. The University reserves the right to reject any application without explanation.

Full Admission: Admitted as a freshman, transfer, or special student with no conditions that have to be removed prior to graduation.

Probational Admission: Admitted at the discretion of the Admissions Committee, with the requirement to remove one or more conditions prior to enrolling or to commencing a second semester's work.

Examples include, but are not limited to, the following: (1) take further pre-college or college work during the summer prior to the beginning of freshman year; (2) take a course to determine placement in English, mathematics, or foreign language; (3) demonstrate proficiency in or mastery of specified subject matter; (4) complete the official documentation in the applicant file.

A student admitted probationally receives credit for work at Campbell University only after the conditions are met and the status of full admission is achieved.

Academic Support Program: A program of special academic assistance is required for students with SAT composite scores in the range of 850-950, for other students with demonstrated weaknesses in English and/or mathematics, and for all students whose high school record warrants special concern and attention.

The major components of this program are a limit (13.5) on the number of semester hours taken until a 2.000 GPA is established, and an assignment to specific courses in English and mathematics, or courses may be dictated in our performance based acceptance program, unless these courses are taken prior to arrival at Campbell University.

Conditional Acceptance Program: A special five-week summer program designed to provide students with an opportunity to demonstrate their ability to perform academic work at the college level. This program will provide a strong foundation for those students whose secondary education has not fully prepared them for the rigors of college level work. Continued enrollment in the fall semester is predicated upon successful completion of the coursework undertaken in this program. The Dean of Admissions may admit students whose special talents indicate success in programs requiring those talents.

Advanced Enrollment Deposit for all new Students

Campbell University requires all new students to deposit \$100 within two weeks of their acceptance notification. This deposit 1) secures their space in the classroom and 2) serves as a security deposit on their residence hall occupancy.

This deposit is refundable with a written request made prior to July 1, of the year the student plans to enroll. The deposit is not a fee but actually will be credited toward the student's semester charges on their business office account.

Credit Earned by High School Students

High school students may take courses for credit at Campbell University provided they have completed their junior year and are recommended by their high school principal or counselor. Credit for courses successfully completed will be granted after the student graduates from high school and enrolls at Campbell University.

Admission of Military Personnel and Veterans of the Armed Forces of the United States

This institution is approved under the provisions of Title 38 United States Code, Chapter 36, Persons eligible and entitled under provisions of Chapters 30, 31, 32, 34, 35, and Sections 901 and 903, and Title 10 United States Code, Chapters 160 and 107 may enroll in programs approved by the North Carolina State Approving Agency.

Campbell University is a member of Service Members Opportunity Colleges (SOC), a consortium of over 1,300 institutions pledged to be reasonable in working with service members and veterans trying to earn degrees even while pursuing demanding, transient careers. As a SOC member, Campbell is committed to easing the transfer of relevant course credits, providing flexible academic residency requirements, and crediting learning from appropriate military training and work experiences. SOC is sponsored by fifteen national higher education associations with the military services, the National Guard Bureau, and the Office of the Secretary of Defense serving as cooperating agencies. NOTE: In the event of a conflict between policies published herein and with the provisions of the Service Members Opportunity College (SOC), the guidelines provided by SOC will prevail.

The University will evaluate military records for college credit without charge to determine the amount of credit which may be granted for nontraditional schooling, and military experience and training, if the student applies for admission and is accepted as a degree seeking student at the University.

For additional information, contact the Veterans' Affairs Office, Campbell University, Post Office Box 546, Buies Creek, North Carolina 27506.

Summer School Students from Other Institutions

Students enrolling at Campbell University for the summer program only should secure a statement certifying approval of such plans and listing approved courses from the proper official at the school to which the credit will be transferred.

Transfer of Credit

A transfer student from an accredited two-year institution may receive up to sixty-four semester hours of course credit.

Students transferring from colleges not accredited by the regional accrediting agency will receive provisional credit which must be validated by earning a "C" average during the first year of residence after transfer.

All students from accredited junior and community colleges are eligible to apply for transfer under a direct transfer policy if they have an overall "C" average and are recommended by the registrar of the sending institution. Full credit will be given to junior college courses at the associate degree level.

Campbell University will accept semester hours only from all transfer work. We will accept *course content only* for "D" grades; consequently, a student will not earn hours toward graduation for "D" work completed at another college or university. The student's grade point average will be determined by the work completed at Campbell University.

Transfer students must be in good academic and social standing at the school from which they are transferring.

Reserve Officers Training Corps (ROTC)

Campbell University offers an ROTC program which is designed to develop officer-leaders and to lead to a commission as an officer in the Army Reserve or the Regular Army.

Additional information may be found under the Special Programs section of this catalog.

Admission Requirements for International Students

International students are required to demonstrate proficiency in the English language and satisfy the admissions requirements and procedures.

The English language prerequisite for the University will be met when the applicant has submitted proof of a score of 500(paper) or 173(computer) or better on the TOEFL, or completed level 109 at an ESL Language Center.

A complete set of educational credentials with English translations, if necessary, are required before eligibility for admission can be determined.

An affidavit of financial responsibility is required before the University can issue an I-20 form.

International Student Activities

Education is more than just studying textbooks. Part of one's education at Campbell University is learning to work in a diversified world and sharing experiences and aspirations with others. Located in the heart of North Carolina, Campbell offers a perfect-sized campus for meeting new people and gaining fresh insights. It is also an ideal place to challenge one's self, as our students share a common goal: They all want to learn to be the best they can be regardless of their career choice.

As an international student, you will be joining other students from more than 50 different countries and all 50 states. This diverse atmosphere creates self-confidence and intercultural opportunities as well as providing personal fulfillment.

We, at Campbell, feel that our university offers the international student a unique educational opportunity: an opportunity not only to grow personally and academically as an individual, but also to learn about the cultures and traditions of the United States. We have a large and active international-student community that thrives in an academic environment and considers multicultural exchanges as an important part of the total educational process. Here is what Campbell offers you, the international student:

- Small Classes
- Dedicated International-Student Adviser
- Caring Professors
- Excellent Education at Reasonable Cost
- Excellent Educational Facilities
- Safe, Secure Campus Environment
- Active International-Student Community
- Diversified Interests/Cultures

International students are required to demonstrate proficiency in the English language and satisfy the admissions requirements and procedures.

Campbell's academic atmosphere is one of excellence. Our admission requirements include a TOEFL score of 500(paper) or 173(computer), along with a completed application and your academic records. Upon acceptance to the University, Campbell's international and academic advisors are ready to help you schedule and choose your field of study. You can be assured that you won't end up "just a number" at Campbell University. Our student/faculty ratio averages 13-1, and we pride ourselves in giving students individual attention and in becoming personally acquainted with them.

A complete set of educational credentials with English translations, if necessary, are required before eligibility for admission can be determined.

An affidavit of financial responsibility is required before the University can issue an I-20 form.

Once an I-20 form is issued, students will need to meet with a Consulate at their embassy to secure a visa. Once secured, students must notify the International Admissions Office of the date and time of arrival so transportation may be arranged. Once in the country and at Campbell University, students must report to the International Admissions Office within 48 hours.

Campbell University is recognized as having one of the safest and most secure campuses in the United States. All students, both international and U.S., should be able to pursue their academic and personal goals in a safe physical environment such as that provided by Campbell.

Financial Information for Undergraduate Students

Financial Assistance

The primary purpose of the financial assistance program at Campbell is to provide assistance for those students who could not otherwise acquire a college education. Campbell provides an extensive financial assistance program for eligible students in the form of scholarships, grants-in-aid, loans, and part-time employment.

In 2001-2002, Campbell awarded some type of financial assistance to approximately ninety-one percent of its students.

Further information about financial assistance, including application forms, may be obtained by writing the Financial Aid Office, Campbell University, Box 36, Buies Creek, North Carolina 27506, or by calling the toll-free number 1-800-334-4111. Additional information may be obtained by visiting Campbell University's home page at <http://www.campbell.edu>.

Campbell accepts *The Free Application for Federal Student Aid*.

Need is calculated on income and asset information provided by student and parents, as well as family size and number of family members in college. This confidential information is used to determine the amount of assistance offered to our students.

To be considered for financial assistance or scholarships, the student must:

1. Apply for admission to Campbell University. The Campbell University application serves two purposes. The application begins the admissions process and serves as the financial aid data sheet.

2. File a Free Application for Federal Student Aid and request the results be sent to Campbell University, P.O. Box 36, Buies Creek, N.C. 27506. (Campbell University's Title IV School Code is 002913. The DUNS number is 07-558-6057.)
3. Be accepted for admission to Campbell University as a regular degree-seeking student and/or be making satisfactory academic progress.
4. Transfer students must have an official evaluation by the Campbell University Registrar on file in the financial aid office prior to official offer of financial aid.
5. A new Free Application for Federal Student Aid (FAFSA) must be completed each academic year. This should be done as soon as possible after January 1 each year.

A full-time student (minimum 12 hours) will be academically eligible to receive financial assistance under the Federal Title IV programs (Federal Pell Grant Program, Federal Supplemental Educational Opportunity Grant, Federal Family Education Loan Program, Federal Work-Study Program, and Federal Perkins Loan Program) and the North Carolina programs (North Carolina Student Incentive Grant Program and the North Carolina State Contractual grant program for needy North Carolina students) if s/he meets the conditions given below. A student who enrolls part-time will have the amount s/he can receive in financial assistance prorated.

Campbell University Financial Aid Office Satisfactory Academic Progress Policy (SAP)

Revised April 2002

The Higher Education Act mandates institutions of higher education to establish minimum standards of "Satisfactory Academic Progress." Campbell University makes these standards applicable to all programs funded by the federal government, including Federal Pell Grants, Federal Supplemental Educational Opportunity Grants, Federal Perkins Loans, Federal Work-Study, Federal Stafford Loans, and Federal Parent PLUS Loans. These standards are also applicable to the North Carolina Student Incentive Grant, North Carolina State Contractual Scholarship Fund, North Carolina Loan Program for Health, Science, and Mathematics, and certain university controlled scholarships based in part upon academic ability.

Programs administered by agencies other than Campbell University, such as private scholarships, or grants given by states other than North Carolina, may have their own academic standards for students. Students will need to contact such agencies to find out what those requirements are.

Campbell University Academic and Endowed scholarships have academic requirements that are higher than those in this policy.

Student-Athletes must satisfy the eligibility requirements established by Campbell University and by the NCAA to be eligible for athletically related financial aid.

Federal Regulations require the university to establish SAP standards in the following areas: (1) Cumulative GPA; (2) Cumulative Hours Earned; and (3) Maximum Time Frame. In addition, a school's SAP policy must include the student's total academic history.

SAP will be determined one time per academic year, specifically, at the end of each Spring semester. Students wishing to have their progress reevaluated at other times during the year must submit a written request to the financial aid office.

Satisfactory Academic Progress for Undergraduate Students

Cumulative GPA

The cumulative number of credits attempted in the undergraduate schools of the university includes those credits attempted as of the last day to drop a course. Multiple attempts of the same course will be counted for each attempt.

Credits Attempted	Minimum Cumulative GPA
1 – 47	1.4
48 – 77	1.6
78 – 109	1.8
110 – 129	1.9
130 – 192	2.0

In addition, any student with a quality point deficit of 40 or more as calculated by the Registrar will be deemed academically ineligible, and therefore, will be placed directly on Financial Aid Cancellation without a probation period.

Cumulative Hours Earned

A student must pass (earn) at least 70% of their credits attempted (excluding non-credit courses and pass/fail courses).

To earn hours at Campbell University, a student must receive a grade of A, B, C, or D. Any other grade does not earn hours.

Classes in which a student receives a grade of Withdrew Passing (WP) will not be counted as hours attempted nor hours earned, therefore, will not negatively impact a student's ability to satisfy SAP.

Classes in which a student receives a grade of Withdrew Failing (WF) will be counted as hours attempted but not hours earned, therefore, **will negatively impact** a student's ability to satisfy SAP.

Classes in which a student receives a grade of Incomplete (I or IC) count as hours attempted but not as hours earned, therefore, **will negatively impact** a student's ability to satisfy SAP.

When a student repeats a course, the total **attempted** hours will increase with each repeat, but the student will only **earn** hours for a completed course once. Therefore, repeating classes **will negatively impact** a student's ability to satisfy the 70% passage rate, but may significantly **increase** a student's cumulative GPA.

Maximum Time Frame

To remain eligible for financial aid, undergraduate students must complete their degree requirements within 150% of the published length of their academic program. At Campbell University, students must complete the requirements for a bachelor's degree within a maximum number of credits attempted (including transfer credits) of 192.

Included in attempted hours are all coursework attempted, including transfer credits, which consists of passed, repeated, incomplete, failed, and withdrew failing courses. Attempted hours *do not include* credits earned through Advanced Placement (AP), College Level Examination Program (CLEP), or other similar testing programs.

Consequences

Students who fail to meet the Satisfactory Academic Progress standards will be placed on Financial Aid Probation (FAP) for a period of one academic year. During the FAP year, a student will be eligible to

receive financial aid. At the end of the FAP year, students who still do not meet the SAP standards will be placed on Financial Aid Cancellation (FAC). Students who are placed on FAC will be ineligible for financial aid. No student will be allowed more than two (2) semesters of FAP for the duration of his or her undergraduate studies at Campbell.

Transfer students will be evaluated at the time of enrollment using the same SAP standards.

Students returning to Campbell University following a period of absence or FAC must meet Campbell's SAP policy in order to regain eligibility for financial aid.

Satisfactory Academic Progress for Graduate/Professional/Pharmacy Students

To receive eligible financial aid under the Federal Title IV programs, a graduate/professional/pharmacy student must be making "Satisfactory Academic Progress" (SAP) toward graduation. SAP as defined at Campbell University is as follows:

Law School - Juris Doctor (JD)

Maintain a Numerical Cumulative Grade Point Average of 75

Failure to maintain the above will result in a financial aid probation period not exceeding one (1) year, and financial aid suspension at the end of that period if the student has not attained the above SAP standard.

Cumulative Hours Earned

A student must pass (earn) at least 70% of their credits attempted (excluding non-credit courses and pass/fail courses).

Maximum Time Frame

JD students will be allowed a maximum of 135 attempted hours to complete their degree. This the maximum allowable time for receipt of eligible Federal Title IV Funds regardless of whether the student did or did not receive financial aid during any period of his/her enrollment.

Doctor of Pharmacy (PharmD)

Rising P2 students must possess a Cumulative Grade Point Average (CGPA) of 1.75

Rising P3 and P4 students must possess a CGPA of 2.0

Failure to maintain the above will result in a financial aid probation period not exceeding one (1) year, and financial aid suspension at the end of that period if the student has not attained the above SAP standard.

Cumulative Hours Earned

A student must pass (earn) at least 70% of their credits attempted (excluding non-credit courses and pass/fail courses).

Maximum Time Frame

PharmD students will be allowed a maximum of 210 attempted hours to complete their degree. This is the maximum allowable time for receipt of eligible Federal Title IV Funds regardless of whether the student did or did not receive financial aid during any period of his/her enrollment.

Master of Science in Clinical Research (MSCR)

Maintain a Cumulative Grade Point Average of 3.0 (B)

Failure to maintain the above will result in a financial aid probation period not exceeding one (1) year, and financial aid suspension at the end of that period if the student has not attained the above SAP standard.

Cumulative Hours Earned

A student must pass (earn) at least 70% of their credits attempted (excluding non-credit courses and pass/fail courses).

Maximum Time Frame

MSCR students will be allowed a maximum of 67.5 attempted hours to complete their degree. This is the maximum allowable time for receipt of eligible Federal Title IV Funds regardless of whether the student did or did not receive financial aid during any period of his/her enrollment.

Master of Science in Pharmaceutical Sciences (MSPS)

Maintain a Cumulative Grade Point Average of 3.0 (B)

Failure to maintain the above will result in a financial aid probation period not exceeding one (1) year, and financial aid suspension at the end of that period if the student has not attained the above SAP standard.

Cumulative Hours Earned

A student must pass (earn) at least 70% of their credits attempted (excluding non-credit courses and pass/fail courses).

Maximum Time Frame

MSPS students will be allowed a maximum of 48 attempted hours to complete their degree. This is the maximum allowable time for receipt of eligible Federal Title IV Funds regardless of whether the student did or did not receive financial aid during any period of his/her enrollment.

Master of Business Administration (MBA)

Maintain a Cumulative Grade Point Average of 3.0 (B)

Failure to maintain the above will result in a financial aid probation period not exceeding one (1) year, and financial aid suspension at the end of that period if the student has not attained the above SAP standard.

Cumulative Hours Earned

A student must pass (earn) at least 70% of their credits attempted (excluding non-credit courses and pass/fail courses).

Maximum Time Frame

MBA students will be allowed a maximum of 54 attempted hours to complete their degree. This is the maximum allowable time for receipt of eligible Federal Title IV Funds regardless of whether the student did or did not receive financial aid during any period of his/her enrollment.

Master of Trust and Investment Management (MTIM)

Maintain a Cumulative Grade Point Average of 3.0 (B)

Failure to maintain the above will result in a financial aid probation period not exceeding one (1) year, and financial aid suspension at the end of that period if the student has not attained the above SAP standard.

Cumulative Hours Earned

A student must pass (earn) at least 70% of their credits attempted (excluding non-credit courses and pass/fail courses).

Maximum Time Frame

MTIM students will be allowed a maximum of 72 attempted hours to complete their degree. This is the maximum allowable time for receipt of eligible Federal Title IV Funds regardless of whether the student did or did not receive financial aid during any period of his/her enrollment.

Master of Divinity (M-DIV)Maintain a Cumulative Grade Point Average of 2.0 (C)

Failure to maintain the above will result in a financial aid probation period not exceeding one (1) year, and financial aid suspension at the end of that period if the student has not attained the above SAP standard.

Cumulative Hours Earned

A student must pass (earn) at least 70% of their credits attempted (excluding non-credit courses and pass/fail courses).

Maximum Time Frame

M-DIV students will be allowed a maximum of 135 attempted hours to complete their degree. This is the maximum allowable time for receipt of eligible Federal Title IV Funds regardless of whether the student did or did not receive financial aid during any period of his/her enrollment.

Master of Arts in Christian Education (M-CEDU)Maintain a Cumulative Grade Point Average of 2.0 (C)

Failure to maintain the above will result in a financial aid probation period not exceeding one (1) year, and financial aid suspension at the end of that period if the student has not attained the above SAP standard.

Cumulative Hours Earned

A student must pass (earn) at least 70% of their credits attempted (excluding non-credit courses and pass/fail courses).

Maximum Time Frame

M-CEDU students will be allowed a maximum of 90 attempted hours to complete their degree. This is the maximum allowable time for receipt of eligible Federal Title IV Funds regardless of whether the student did or did not receive financial aid during any period of his/her enrollment.

Master of Education (MEd), A-Plus-Master's (A+M), Master of Arts Community Counseling (MA), Master of Education School Counseling (MEd), Master of School Administration (MSA)Maintain a Cumulative Grade Point Average of 3.0 (B)

Failure to maintain the above will result in a financial aid probation period not exceeding one (1) year, and financial aid suspension at the end of that period if the student has not attained the above SAP standard.

Cumulative Hours Earned

A student must pass (earn) at least 70% of their credits attempted (excluding non-credit courses and pass/fail courses).

Maximum Time Frame

MEd Elementary Education students will be allowed a maximum of 51 attempted hours to complete their degree. A+M Elementary Education students will be allowed a maximum of 85.5 attempted hours to complete their degree.

MEd Middle Grades students will be allowed a maximum of 51 attempted hours to complete their degree. A+M Middle Grades students will be allowed a maximum of 85.5 attempted hours to complete their degree.

MEd Secondary Education students will be allowed a maximum of 51 attempted hours to complete their degree. A+M Secondary Education students will be allowed a maximum of 87 attempted hours to complete their degree.

MEd Physical Education students will be allowed a maximum of 51 attempted hours to complete their degree. A+M Physical Education students will be allowed a maximum of 79.5-93 attempted hours to complete their degree, depending on specific curriculum requirements.

MEd Interdisciplinary Studies students will be allowed a maximum of 54 attempted hours to complete their degree.

MA (community counseling) students will be allowed a maximum of 72 attempted hours to complete their degree.

MEd School Counseling students will be allowed a maximum of 72 attempted hours to complete their degree. A+M School Counseling students will be allowed a maximum of 81 attempted hours to complete their degree.

MSA (school administration) students will be allowed a maximum of 72 attempted hours to complete their degree.

These are the maximum allowable time frames for receipt of eligible Federal Title IV Funds regardless of whether the student did or did not receive financial aid during any period of his/her enrollment.

Appeals

Students on Financial Aid Probation or Cancellation may make a written appeal to the Financial Aid Committee. The Financial Aid Committee is comprised of the Director and Assistant Directors of Financial Aid. If necessary, the Dean of Admissions, Financial Aid, and Veterans' Affairs may be included. Financial aid may be reinstated by the committee upon demonstration of mitigating circumstances, which must be documented in writing to the satisfaction of the committee. Examples of mitigating circumstances and appropriate documentation include, but are not necessarily limited to:

1. Serious Illness of student--statement from physician that illness interfered with student's ability to meet SAP along with written letter of appeal from student.
2. Serious Illness of immediate family member--statement from a physician along with written letter of appeal from student.
3. Death of an immediate/close family member--statement from a minister, nearest relative, or an unbiased concerned adult along with written letter of appeal from student.
4. Disruptive internal family problems--statement from parents, minister, or an unbiased concerned adult along with written letter of appeal from student.

Refund/Repayment Policy

In the event of a student's complete withdrawal from the university for a particular enrollment period, refunds/repayments are calculated according to the Higher Education Amendment and its subsequent modifications. Campbell University will comply fully with federal regulations as required. This method will be used to determine refunds/repayments for Title IV aid as well as state and institutional aid.

Students may acquire a copy of the Campbell University Refunds/Repayment Policy upon request from either the Business Office or the Financial Aid Office.

Standards for North Carolina Residents

With the passage of the 2001 budget, the North Carolina Legislature began requiring institutions to reduce a student's eligibility for the North Carolina Legislative Tuition Grant (NCLTG) if s/he has attempted 140 hours or more. The reduction is equal to 25% of the student's regular eligibility. This applies only to students who would otherwise be eligible for the NCLTG. This standard includes all attempted coursework including repeated, incomplete, failed, withdrew failing, and withdrew passing courses. Attempted hours for this program only do not include credits earned through Advanced Placement (AP), College Level Examination Program (CLEP), other similar testing programs, or credits taken during summer school.

Scholarships

Each year, Campbell University provides assistance to many of its students through various scholarships that are financed through institutional funds as well as privately funded sources. Since scholarship assistance often meets only a part of a student's financial need, we ask scholarship applicants to apply for other financial assistance programs administered by the University. A student must be enrolled in twelve or more semester hours on main campus to receive a scholarship.

Academic Scholarships

Campbell University has the following institutional scholarships available with the following criteria:

1. Presidential - 1150+SAT, B+ average, and top 10% of class standing (Ranging from \$7,000 to \$11,000 per year);
2. Presidential Transfer - superior academic performance on the college level, leadership potential, and demonstrated performance of GPA 3.5 - 4.0 (ranging from \$6,000-\$8,000 per year);
3. Scott-Ellis - 1000+ SAT, B average, and top 25% of class standing (ranging from \$2,000 to \$7,000 per year);
4. Scott-Ellis Transfer - superior academic performance on the college level and demonstrated performance of GPA 3.0 - 3.4 (ranging from \$3,300 to \$5,900 per year).

Institutional Scholarships

The following assistance is provided to Campbell University students attending the main campus location who are members of Baptist Churches that participate in the Cooperative Program of the NC Baptist State Convention. A student may be eligible to receive one of the following:

Full-time Baptist pastors receive the Pastor's Tuition Scholarship (tuition is defined as approximately half [1/2] of the total tuition charged at registration.)

or

Spouses or children classified as legal dependents of full-time Baptist pastors receive the Pastor's Dependent Scholarship of \$1,000.00 per academic year.

or

Challenger or Acteen Scholarships as notified by the NC Baptist State Convention. Amount of scholarship assistance will vary with the level of service attained in each organization. Range of scholarship will be \$200.00 - \$550.00.

or

Students majoring in Religion or Music and meeting the criteria established by department heads will

receive \$500.00 per semester. However, this scholarship will be superseded should the student be recommended to receive a merit scholarship by the university scholarship committee.

or

Students minoring in Religion or Music (average a minimum of one course in this minor area per semester) and meeting criteria as established by the department heads - \$250.00 per semester. However, the scholarship will be superseded should the student be recommended to receive a merit scholarship by the university scholarship committee.

Endowed Scholarships

Campbell is most grateful for the financial assistance made available to its students each year through its endowed scholarship program established by its many supporters.

Academic major, financial status of family, academic achievement, character, and geographical area of applicant are often factors that must be considered in the selection of scholarship recipients.

The number and amount of these scholarships each year is dependent upon the number of returning recipients and earnings available from the invested principals.

Details concerning application procedures for endowed scholarships may be obtained from the Coordinator of Endowed Scholarships.

Federal Grants and Loans

Federal Pell Grant Program

As of this writing, students who have a sufficient financial need may be eligible for this grant up to a maximum of \$4,050 annually. The Federal Pell Grant processor sends the student a Student Aid Report (SAR), which will state tentatively whether the student is eligible for the Federal Pell Grant.

Federal Supplemental Educational Opportunity Grants

A limited number of Federal Supplemental Educational Opportunity Grants are available to undergraduate students attending Campbell University. Funds for the grants are provided by the federal government. Grants under this program can be awarded to students who: (1) are nationals of the United States; (2) have been accepted for enrollment as half-time or better students; (3) show evidence of making satisfactory academic progress in terms of financial aid; (4) demonstrate an exceptional financial need, with priority awards being made to Federal Pell Grant recipients. Grants under this program vary from \$100 to a maximum of \$4,000 per year depending upon funds available and the number of eligible recipients.

Federal Work-Study Program

The Federal Work-Study Program (FWS) enables those students who are eligible to have an opportunity to work and earn part of the money necessary to meet their educational expenses. It is an "hours worked, hours paid" type of program. The student approved for FWS is compensated on a monthly basis for the hours that s/he worked during the month. The FWS award is not deducted from a student's educational charges at the beginning of the semester. Students work in almost all areas of the campus - library, food services, physical plant, dormitories, academic departments, administrative offices, athletics, etc. Student workers are encouraged to arrange work schedules to allow adequate time for their studies. A student's FWS award depends on "need" along with the amount of funds available for FWS.

Federal Perkins Loan Program

The Federal Perkins Loan Program is a program of borrowing based upon need, which enables a student to borrow an annual loan limit of up to \$4,000 per academic year with an aggregate maximum of \$20,000 for undergraduates. The amount received annually depends on individual need and funds available. These loans are non-interest bearing while a student is enrolled at least half-time or better.

Federal Family Education Loan Programs

Federal Subsidized and Unsubsidized Stafford Loan Programs

Under these Federal Stafford Loan Programs, a student classified as a freshman may borrow a maximum of \$2,625; sophomore, \$3,500; junior and senior, \$5,500, per academic year with a total aggregate loan limit for undergraduate studies of \$23,000. (The borrower may borrow both a Federal Subsidized Stafford Loan and a Federal Unsubsidized Stafford Loan not to exceed annual loan limits with the combination.)

Repayment of these loans begins six months after the student graduates, withdraws from school, or drops below half-time enrollment. The Federal Stafford Loan with first disbursements made on or after October 1, 1992 will have a variable rate of interest adjusted annually on July 1, based on last 91-day Treasury Bill auctioned prior to June 1, plus 3.1%, not to exceed 8.25 percent. Graduate and professional students may borrow \$8,500 per year with a total aggregate loan limit of \$138,500 for combined undergraduate and graduate studies.

A Federal Subsidized Stafford Loan is a need-based loan guaranteed by the federal government, which will pay the interest on this type of loan as long as the student maintains at least half-time enrollment status. The government continues to pay the interest during the six-month grace period.

A Federal Unsubsidized Stafford Loan is a non-need-based loan. Unlike the Subsidized Stafford Loan, interest on the Unsubsidized Stafford, which begins to accrue at the time of disbursement, is the responsibility of the student. Students have the option to (1) make payments on the interest while enrolled; or (2) have their lender capitalize interest while enrolled. Note: Origination and insurance fees of up to 4 % may be deducted from loan proceeds by the lender.

Federal PLUS Loan Program

This is a loan program for parents. Annual loan limits are cost of education minus other aid awarded to the student. Interest rate on the loan is variable (based on 52-week Treasury Bills auctioned prior to June 1, plus 3.1 percent) capped at 9 percent. Note: Origination and insurance fees of up to 4 % may be deducted from the loan proceeds by the lender.

Veterans' Administration Requirements

In addition to all other institutional policies and regulations, students who receive education benefits from the Veterans' Administration must comply with the policies of the Veterans' Administration and the State Approving Agency for the training and education of students receiving VA education benefits. These policies include the following requirements:

- The student must be fully matriculated prior to certification to the Veterans' Administration as eligible to receive benefits.

- A student will receive full-time benefits for 12 semester hours or more of work attempted, three-fourths time benefits for 9-11.5 semester hours of work, one-half time benefits for 6-8 semester hours of work, and reimbursement for tuition and fees for 1-5 semester hours of work. This schedule is applicable only to the standard semester generally used by the University.

- Summer school, adult evening programs, and other undergraduate campus sites with different academic calendars will be computed on an individual basis.

- Only courses required to complete the program of education or remaining elective courses in the individual's curriculum may be counted in qualifying for VA education benefits.

- A student may repeat a course and receive VA education benefits if an "F" grade was received, but not for a course for which a grade of "D" or better was received.

-Campbell University awards credit for Continuing Education units.

It is the individual student's responsibility to advise the Veterans' Affairs Office of the University at the beginning of each semester or term of the courses for which the student has registered. In addition, it is the student's responsibility to advise the Veterans' Affairs Office of any change in the student's status, such as dropping or adding courses or withdrawal from the school after a semester or term has started.

If a student does not make "Satisfactory Progress" as defined in the University's Financial Aid or Admissions requirements in this *Bulletin*, VA education benefits will be terminated concurrently with the cancellation of Federal Title IV financial assistance.

Army ROTC Scholarship and Funds

The Army ROTC Scholarship program is designed to offer financial assistance to outstanding young men and women motivated toward being an Army Officer. Some of these Army scholarships pay 100% of required tuition and provide an allowance each year toward books and supplies. In addition it provides a subsistence allowance each month for ten months of each scholarship year. Four, three and two-year scholarships are awarded on a competitive basis. The four-year scholarship is for incoming freshmen and is applied for July through November of their senior year in high school. Four-year applications may be obtained by writing: Army ROTC, Fort Monroe, VA 23351.

Information concerning three and two-year scholarships may be obtained from the Department of Military Science at Campbell University, tel. 1-800-334-4111, ext. 1509 or 1587.

All Advanced Course ROTC students (Juniors and Seniors) without scholarships receive a monthly allowance during 10 months of each year.

Campbell University provides each ROTC scholarship recipient an additional scholarship designed to cover the costs of on-campus room and board, however, the student's complete financial aid package will not exceed total cost of education.

State Grants and Loans

North Carolina Legislative Tuition Grant (NCLTG)

All full-time degree seeking undergraduate students enrolled in twelve (12) or more hours who are legal North Carolina residents and have not previously received a baccalaureate degree are eligible to receive a maximum grant of \$900 (subject to funding levels by the State of North Carolina) each semester from the North Carolina Legislative Tuition Grant upon completion of the application and being notified by the Financial Aid Office. These grants are made possible by appropriations from the North Carolina State Legislature.

North Carolina State Contractual Scholarships (SCSF)

These grants are available for residents of the State of North Carolina who have financial need. Eligibility is determined by the Financial Aid Office. These grants are made possible by appropriations from the North Carolina State Legislature.

North Carolina Student Incentive Grant (NCSIG)

The legislature of North Carolina has appropriated funds to establish grants to North Carolina residents who have significant financial need. The North Carolina funds match federal funds. To be considered for NCSIG, a student must apply through the FAFSA prior to March 15. Funding for this grant is based upon federal and state appropriations.

Vocational Rehabilitation

Students who are residents of North Carolina and have physical or emotional disabilities should contact the State Rehabilitation Commission for assistance.

Payment Plans as a Form of Assistance

Campbell University understands that cash flow or other problems make new and enlightened forms of payment a necessity. With this thought in mind, Campbell offers several techniques to assist families in paying for a Campbell education. Information about these payment options may be obtained from the Business Office.

Tuition and General Fees

Campbell University has consistently worked to keep the cost of a good college education as low as possible without sacrificing the quality of its academic program. The University reserves the right to change fees and charges with adequate notice. Please note that the prices quoted are estimates for the 2003-2004 school year. Current tuition and general fees information can always be found at Campbell University's home page at <http://www.campbell.edu>.

The cost for the 2003-2004 academic year at Campbell University, exclusive of books, is as follows:

Resident Students:

	First Semester	Second Semester	Total
Tuition and Matriculation Fees	6,630.00	6,630.00	13,260.00
Meals	1,260.00	1,260.00	2,520.00
Room ¹	1,118.00	1,118.00	2,236.00
Accident Insurance	66.00	0.00 ²	66.00
Dorm Dues	16.00	16.00	32.00
Yearbook	58.00	0.00 ³	58.00
Student Government Fee	37.00	37.00	74.00
Activity Fee	<u>11.00</u>	<u>11.00</u>	<u>22.00</u>
	9196.00	9072.00	18,268.00

Commuting Students:

	First Semester	Second Semester	Total
Tuition and Matriculation Fees	6,630.00	6,630.00	13,260.00
Student Government Fee	37.00	37.00	74.00
Accident Insurance	66.00	0.00 ²	66.00
Yearbook	58.00	0.00 ³	58.00
Activity Fee	<u>11.00</u>	<u>11.00</u>	<u>22.00</u>
	6,802.00	6,678.00	13,480.00

Commuting students may purchase the meal ticket in increments of 20 meals each at the price of \$147.00 per 20 meals.

¹Residence halls range in price from \$1,118.00 to \$1,496.00 per semester.

²New second semester students will be charged \$49.00.

³New second semester students will be charged \$58.00.

Accident Insurance Fee

All students are required to purchase an accident insurance policy. This fee is \$66.00 and has blanket maximum coverage up to \$3,000.

Hospital Insurance

Hospital illness coverage insurance is optional to USA students, at a cost of \$253.00 each twelve months. New USA students in Spring will be charged \$190.00. Hospital insurance coverage is required for all **international** students at a cost of \$270.00 each six months. New **international** students in Spring will be charged \$270.00

Health Service

The University does not charge a health service fee. Each student is entitled to clinical services at the University Infirmary, which is open or on call 24 hours a day. There are no costs to students who are confined to one of the beds in the infirmary. Drugs by prescription and x-rays are paid for by the patient.

Student Government Fee

The Student Government Association fee is established by the student organization and the Board of Trustees. The student government fee is \$37.00 per semester. This fee is used to sponsor concerts, lectures, and entertainment for the students.

Activity Fee

The Activity fee is used to finance concerts, movies, and recreational events, such as Spring Fling and Street Fair. The student activity fee is \$11.00 per semester.

Private Room Fee

An additional \$315.00 per semester is assessed for private rooms. To the limit of their availability, arrangements for rental of private rooms can be made with the Director of Residence Life.

Music Fees

- **Regular Students**
One 30-minute lesson per week, 1 hour of credit \$176.00
Two 30-minute lessons per week, 2 hours of credit \$320.00
One 30-minute lesson per week, no credit \$176.00
- **Special Students**
One 30-minute lesson per week, 1 hour of credit \$176.00*
Two 30-minute lessons per week, 2 hours of credit \$320.00*
One 30-minute lesson per week, no credit \$254.00
*Plus regular hourly fees
- **Rental of Musical Instruments** \$47.00

Art Fees

Students enrolled for courses in Art other than ART 114, 200, 218, 219, and 221 pay a fee of \$62.00 per course to defray the cost of necessary equipment and instructional supplies. Additional charges may be assessed if cost of supplies and breakage exceeds the minimum fee.

Advance Enrollment Deposit

All freshmen, transfer, and returning students are required to pay a \$100.00 advance enrollment deposit. This deposit is due two weeks from the date of acceptance for new and transfer students.

This fee is refundable prior to July 1 if the student requests it in writing to the Admissions Office. Returning students' deposits are due each April 1 and are refundable on or before July 1. This fee is deducted from the semester's total expenses.

Processing/Application Fee

A processing/application fee of \$25.00 is required with all original applications. This fee is applied against the cost of evaluating applications and is not refundable.

Other Fees

- Late Registration Fee \$37.00
- Graduation Fees \$60.00
- Computer Lab Fee (selected courses) \$49.00
- Student Teaching Fee \$205.00

- Mass Communication Laboratory Fee (selected courses) \$61.00
- Family and Consumer Science Laboratory Fee (per course) \$39.00
- Instructional Technology Classroom Fee (selected courses) \$40.00
- Liberal Arts Courses for part-time students taking fewer than nine (9) semester hours (per credit hour) (Undergraduate) \$215.00 per hour
- Course load above 18.5 semester hours (per credit hour) \$215.00 per hour
- Private Room \$315.00 additional fee
- Room Key (This fee is refundable.) \$25.00
- Science Laboratory Fee (per course, per semester) \$49.00 (Additional charges may be assessed if cost of supplies and breakage exceeds the minimum fee.)
- Parking Fee (year) for Undergraduates and Graduate Students \$74.00
- Transcript Fee (single copy) \$5.00
- 7-day meal ticket (per semester) \$1,260.00
- Day student meal plan (20 Meals) \$147.00
- Golf Management Fee \$441.00 per semester

Terms of Payment

Unless other arrangements are made with the Director of Financial Management, tuition and matriculation fees must be paid on or before entrance. Since the University cannot defer payment of tuition and matriculation fees, students wishing to finance these necessary charges should do so each semester in advance of registration. The Office of Student Financial Aid offers assistance through various plans. Terms of payment must be approved by the Business Office.

Refund/Repayment Policy

In the event of withdrawal, refunds/repayments are calculated according to the Higher Education Amendment and its subsequent modifications. Campbell University will comply fully with federal regulations as required.

Students may acquire a copy of Campbell University's Refund/Repayment Policy upon request from either the Financial Aid Office or the Business Office.

Summer School Expenses - 2003

	5 Weeks		10 Weeks	
	3 Hours	6 Hours	6 Hours	12 Hours
Tuition and General Fees	615.00	1,230.00	1,230.00	2,460.00
Student Activities Fee	2.00	2.00	4.00	4.00
Insurance (includes illness)	49.00	49.00	98.00	98.00
Room and Board	<u>710.00</u>	<u>710.00</u>	<u>1,420.00</u>	<u>1,420.00</u>
	1,376.00	1,991.00	2,752.00	3,982.00

All charges for summer school must be paid for each five-week term in advance or on the date of registration. **Please note** that summer school tuition is based on three-hour courses at \$205.00 per semester hour.

Linen Service

Linen rental service, which includes two (2) sheets, one (1) pillowcase, four (4) towels, and three (3) washcloths per week on an exchange basis is optional and available to all students on the basis of \$83.00 per semester.

A \$18.00 refundable advance deposit is required and is returned at the end of each semester after all linens rented have been returned to the Laundry. Students will be charged for lost linens and linens not returned to the Laundry on the basis of the net cost to the University.

Laundry and Dry-Cleaning Service

This service is optional and is offered on a cash basis, or students may establish credit for the semester by paying a \$58.00 deposit in advance. If charges for laundry and dry cleaning exceed the \$58.00 deposit, accounts will be billed monthly for the excess of the charges.

Refrigerator Rental Service

Through the University Laundry, boarding students may rent, by semester, chest-type refrigerators at a rental fee of \$49.00, plus a charge of \$44.00 for electricity and a refundable deposit of \$12.00 against possible damage.

Renters are liable for the total cost of any damage done to the refrigerators during the rental period.

University Bookstore

The University Bookstore is operated for the convenience of students. Since it is operated on a cash basis, students should budget approximately \$500.00 per semester to purchase necessary books and supplies.

Students are allowed five business days to return books for a refund after the completion of drop-add day.

Departments and Course Descriptions

College of Arts and Sciences

Dean: Dr. Mark L. Hammond

The undergraduate College is the custodian of the liberal arts core curriculum. This General College Curriculum (GCC) is the integrated, interdisciplinary education, which is the hallmark of the liberal arts. It is of medieval European origin; traditionally at the completion of the two-year post-secondary period, European colleges awarded the baccalaureate, which signified the recipient's entry into educated society; students then went to university for the study of the law, medicine, or theology. The tradition was imported to America, where the concept of "major" or specialized study was added as the traditional curriculum evolved away from its European roots. In colonial America, all elementary, middle, and secondary education was conducted under the auspices of the Christian church. In the nineteenth century, population growth and the process of secularization of society stimulated the initiation and rapid expansion of public education to insure the continuation of a literate culture, the fundamental basis of democratic government. At the beginning of the twentieth century, only twenty percent of college students were in land-grant colleges and public universities; the rest were in private, often church-related colleges and schools. By the end of the twentieth century, the proportions were reversed, with only twenty percent of college students in private and/or church-related schools. The College of Arts and Sciences of Campbell University is one of those remaining church-related schools.

The central thread in the history of the University is the development of the College and its curriculum. Founded in 1887 as an academy, the institution has experienced no interruption in the work of its faculty. Until 1925, it was Buie's Creek Academy; from then until 1963, it was a well-respected junior college. Beginning with the class of 1963, Campbell College became a four-year senior institution; then, with the graduation of the first class from the Norman Adrian Wiggins School of Law, Campbell became a university. Thus, the College of Arts and Sciences evolved as the successor undergraduate College within the larger body of the University. Its graduates span the globe, serving in a wide variety of fields and callings. The purpose of the University is derived from that of the College; succinctly stated, it is to educate and encourage its students of all ages to think, live, and serve others in a forthright, Christian way. The success of this College as an exemplar of excellence in education in a Christian community in a secularized society is a credit to the vision of its founder, Rev. J. A. Campbell, and to the achievements of his successor presidents, Leslie Campbell, Norman A. Wiggins, and Jerry M. Wallace.

Majors, Minors, and Pre-Professional Programs

Each Campbell College student is required to declare a major by the beginning of the junior year, but has the option not to select a minor field of study. Pre-professional programs include pre-law, pre-pharmacy, pre-medical/dental, and pre-seminary, as well as a pre-engineering program approved by North Carolina State University. Class sizes vary from eighty in science lectures to twenty-four in science labs to thirty-five in humanities lectures to twenty-five in freshman English to less than fifteen in senior humanities seminars.

Faculty of the College

Along with its students, the College's greatest asset is its faculty. Some of the senior members have served the school for four decades; they impart not only academic knowledge, but also wisdom to their students and institutional memory to their colleagues. Over eighty percent of the faculty have the highest available degree in their teaching discipline; that percentage is growing as the former junior college faculty retire.

The Norman Adrian Wiggins School of Law

Dean: Willis P. Whichard

In July of 1975, following extended feasibility studies, the General Board of the North Carolina Baptist State Convention approved establishment of the Campbell University School of Law. In August of 1976, the charter class of 97 students was admitted.

The University Trustees named the law school in 1987 in honor of the founding president.

The decision to establish the School of Law was not lightly taken; it was made with the firm conviction that the Campbell University School of Law and its graduates would help meet needs presently unmet, particularly in the southeastern United States.

This School of Law was not designed to be one that duplicates in every detail the emphasis and programs of existing law schools. Rather, its intention was to formulate a unique program to educate a particular type of lawyer for whom there is a special and continuing need.

Campbell educates lawyers who are prepared from the outset of their careers to serve their communities with legal skill and ethical and intellectual leadership, in the noblest tradition of the counselor.

The Campbell University School of Law is purposely small, with a tradition of admitting no more than 110-120 students per class. While its academic program is arduous, its rural village setting and commitment to human values are designed to enhance one's likelihood of success as a student and as a lawyer in any setting in which one chooses to practice.

The Lundy-Fetterman School of Business

Dean: Dr. Christian Zinkhan

In October 1982, the establishment of the Lundy-Fetterman School of Business was announced. The School was named for the late Burrows T. and Mabel L. Lundy, generous benefactors to the University and strong supporters of Free Enterprise, as well as for Lewis and Annabelle Fetterman, son-in-law and daughter of the late Mr. and Mrs. Lundy.

The Lundy-Fetterman School of Business is committed to being a leader among business schools engaging faculty, staff, and students in both hands-on learning and academic exploration as a community of Christian scholars. The School is guided by the principle that there is no conflict between the life of faith and the life of inquiry. The Lundy-Fetterman School of Business strives to be recognized as a premier business school, responding effectively and efficiently to the needs, desires, and advancement of its stakeholders by offering both regionally and nationally distinctive programs. The School takes pride in developing leaders that believe in the American free enterprise system, possess the entrepreneurial spirit and a diversity of skills, have a passion for life-long learning, and are committed to service and ethical behavior.

Serving more than two thousand students with undergraduate and graduate programs at four different locations throughout Central and Eastern North Carolina, the Lundy-Fetterman School of Business is housed in a 76,000 square foot \$12 million state-of-the-art building. This two-story building features a 5,500-pound solid piece cupola (the tallest point on campus), ten tiered and conventional classrooms, an auditorium, student and faculty lounges, a library, an academic computer center, museum and exhibit hall, board room, faculty and administrative staff offices, conference rooms, interview facilities, student work/breakout rooms, and reception areas.

The Lundy-Fetterman School of Business offers undergraduate programs in the following areas of study:

Associate: Computer Information Systems, General Business, and General Economics

Baccalaureate: Accounting, Business Administration, Computer Information Systems, Economics, International Business, Professional Golf Management, Trust and Investment Management, and Trust and Investment Management-Pre-Law.

Masters: Business Administration, Trust and Investment Management

Master of Business Administration (M.B.A.)

The graduate program in Business began in the fall of 1978. The major objective of the program is to develop the student's analytical skills, critical thinking, problem solving, and decision-making capabilities and to provide the basic knowledge needed for the solution of business problems.

In order to earn the M.B.A. degree, the student must successfully complete a 36 hour program in Management, Economics, Finance, Marketing, Accounting, Management Science, and Legal Environment.

Joint Degree Programs

Qualified candidates may enroll in the M.B.A. program in combination with the Pharm D. or the J.D. degree programs offered through the School of Pharmacy and the Law School at Campbell University.

3/2 Programs

Undergraduate students majoring in Accounting, Business Administration, Computer Information Systems, International Business, Professional Golf Management, Trust and Investment Management, and Trust and Investment Management-Pre Law may apply for admission to the Graduate Program in Business at the end of their junior year. Named the 3/2 Program, qualified candidates must satisfy all criteria for admission to the M.B.A. Program with the exception of a Bachelors degree and agree to pay the prevailing full-time undergraduate tuition and fees for 5 years. By adding the fifth year to their program of study, qualified candidates will be eligible to receive both B.B.A. and M.B.A. degrees simultaneously.

Master of Trust and Investment Management (M.T.I.M.)

The Master of Trust and Investment Management (M.T.I.M.) was established in 2002 to enable graduate students to develop the technical, analytical, institutional, and communications skills that help them to succeed in the financial services industry. Students are expected to gain expertise in the following core areas: personal financial planning, risk management and insurance, security analysis, portfolio management, tax planning, fiduciary practice, estate and trust administration, and sales management.

This one-year full time program is oriented toward placing students into professional positions within bank trust departments, private trust companies, investment management and securities firms, and financial planning firms. The MTIM program is registered with the Certified Financial Planner Board of Standards, INC. Graduate of the program are eligible to sit for the Certified Financial Planner examinations, a component of the requirements for the Certified Financial PlannerTM designation. [Certified Financial PlannerTM is a certification mark owned by the Certified Financial Planner Board of Standards, Inc.]

The Lundy Chair of Philosophy of Business

Established in April of 1975, the Lundy Chair exposes all business students to the principles of free enterprise by bringing to the campus nationally recognized free market economists.

The Robert P. Holding Chair of Finance

Established in January 2002, the Robert P. Holding Chair of Finance is to perpetuate the values of prudence, integrity, and accountability as applied to finance in the development of outstanding business leaders who will contribute to the well being of society.

The Center for Entrepreneurship

The Center is intended to link the school's diverse program offerings through integration of entrepreneurship across the business curriculum, foster student interest in new venture management, and complement the Lundy Chair by extending theoretical studies of the free-enterprise system with the practice of entrepreneurship.

Southeastern Trust School

Sponsored by the Lundy-Fetterman School of Business, the Southeastern Trust School offers a professional one-week intensive residence session each year for Trust Department personnel from member banks of the American Bankers Association. The Southeastern Trust School is accredited by the National Graduate Trust School for the first year of study at the National Trust School operated by the Trust Division of the American Bankers Association.

Trust Advisors Forum

Sponsored by the Lundy-Fetterman School of Business and the Trust Education Foundation Inc., the Trust Advisors Forum offers trust executives from throughout the country a four-day intensive session at the Pinehurst Resort and Country Club. Trust Advisors Forum is accredited by the American Bankers Association.

Campbell University-Kenelm Foundation Tax Update

Campbell University-Kenelm Foundation, the Lundy-Fetterman School of Business, the Norman A. Wiggins School of Law, and the Trust Education Foundation, Inc. share a proud tradition of offering informative, timely, and quality continuing education programs for accountants, trust professionals, and attorneys. This day long annual tax update event provides participants with greater insight to develop and implement tax and investment strategies in rapidly changing economic and social environments. Campbell University is registered with both the North Carolina State Board of CPA Examiners and the North Carolina Bar Association as a host institution sponsoring continuing professional education.

Executive-in-Residence Course

Each year the Lundy-Fetterman School of Business offers a course entitled "The World of Business" taught by a senior business executive. Additional key business personnel from the surrounding community serve as guest lecturers and group leaders at different sessions during the course.

School of Education

Dean: Dr. Karen Nery

The School of Education includes the undergraduate and graduate Professional Education Programs, the Department of Family and Consumer Sciences, the Department of Psychology, and the Department of Social Work. The School offers majors leading to the Bachelor of Science degree in the following areas: Elementary Education, Middle Grades Education, Family Studies, and Psychology. The Social Work major leads to the Bachelor of Social Work degree.

In addition, the School of Education offers the professional education component for undergraduate teacher licensure in Biology, English, French, Family and Consumer Sciences, Mathematics, Music, Physical Education, Social Studies, and Spanish. Minors in Family Studies and Psychology are also available.

Purpose

The mission of the School of Education is to develop professionals in the fields of Education, Family and Consumer Sciences, Psychology, and Social Work for service, primarily but not exclusively, in rural settings. To accomplish this mission, a carefully planned sequence of educational experiences that blends the theoretical, the professional, and the practical and that emphasizes the development of problem-solving skills is provided by each one of the four major program areas. Professional Education extends the scope of this goal by providing graduate programs at the master's level.

Accreditation

All of the School of Education's undergraduate and graduate programs are fully accredited by the Southern Association of Colleges and Schools. All the Professional Education programs are fully accredited by the North Carolina Department of Public Instruction and the National Council for the Accreditation of Teacher Education; the last accreditation review took place in October of 2002. The Social Work program received its initial accreditation in February 1995, and the accreditation was re-affirmed in February 1999.

Graduate Programs in Education

Graduate programs in professional education have been offered since the summer of 1977. Programs leading to the Master of Education degree are currently offered in the following areas: Counselor Education, Elementary Education, Middle Grades Education, English Education, Interdisciplinary Studies, Mathematics Education, Physical Education, and Social Studies Education. The Master of Arts degree in Community Counseling and the Master of School Administration are also offered. Students with bachelor's degrees may also enter the "A-plus-Masters program, which leads first to an initial licensure to teach, and later to the master's degree.

School of Pharmacy

Dean: Dr. Ronald Maddox

Doctor of Pharmacy (Pharm.D.) Program

Founded in 1986, the Campbell University School of Pharmacy offers the four-year doctoral program following completion of a minimum two-year pre-professional science curriculum. Its graduates receive the Doctor of Pharmacy (Pharm.D.) degree, which is the highest award given in recognition of academic preparation for pharmacy practice. A pharmacy degree opens many opportunities for new graduates. Graduates are prepared for careers in community pharmacy, hospital pharmacy, industrial pharmacy, consultant pharmacy, as well as teaching and other specialized practice areas.

Through its numerous clinical training sites, the School stresses the close inter-professional relationship that must exist between the pharmacist and other healthcare professionals. Within the surrounding eight-county areas of Campbell University there are 225 community pharmacies and 15 hospitals. The hospitals range in size from a 78-bed community hospital to the 1008-bed Duke University Medical Center. Students have the opportunity to train at practice sites throughout North Carolina and around the world.

Divinity School

Dean: Dr. Michael G. Cogdill

The Campbell University Divinity School officially opened as the sixth school of Campbell University in January 1996. The Divinity School was not designed to duplicate programs in existing divinity schools and seminaries. While the school provides the best of classic theological education, the Divinity School adds dimensions of spiritual formation and professional mentoring needed to equip ministers for the 21st century. In addition to the Master of Divinity and Master of Arts in Christian Education graduate degrees, the Divinity School maintains its strong liberal arts heritage by offering 3 undergraduate majors built upon the General College Curriculum of the College of Arts and Sciences through its Religion and Philosophy Department. These undergraduate majors, which lead to the B.A. degree, are: Religion, Religion and Christian Ministries, and Religion and Philosophy. Successful completion of any of the undergraduate majors in Religion with distinction can lead to advanced standing in the graduate program of the Divinity School.

In addition to undergraduate majors in Religion, the Divinity School offers the Master of Divinity and the Master of Arts in Christian Education. Certification programs are offered in Preschool and Children's Ministries and in Hispanic Congregational Leadership. Information describing these graduate theological degrees and certification programs are provided in a separate catalog.

Objectives of the Campbell University Divinity School:

- A. To offer required courses in the General College Curriculum designed to acquaint students with the faith of the Bible as revealed in Jesus Christ and with their Judeo-Christian and Western philosophical heritage.
- B. To offer a Bachelor of Arts degree with majors in religion, religion and Christian ministries, and religion and philosophy as pre-divinity school and/or pre-vocational preparation for those entering church-related vocations or otherwise interested in majoring in Religion.
- C. To offer the Master of Divinity and Master of Arts in Christian Education degrees for those students desiring to earn graduate theological degrees and pursue careers in professional ministry.
- D. To offer undergraduate academic minors in religion and philosophy for those students who have more personal and academic interest in the above areas but have chosen other undergraduate majors.

Master of Divinity (M.Div.)

This degree program is for persons desiring a comprehensive and balanced theological education in the content and practice of local church and church-related ministry. The primary focus is on pastoral ministries, with concentrations available in Christian education, missions and evangelism, church music and worship, and counseling/chaplaincy. Persons desiring to prepare for other ministries, such as teaching or denominational work, should concentrate in the field most closely related to the area of interest and consult a faculty advisor for specialized elective courses. The Master of Divinity degree can be earned in three years of full-time study. M.Div. graduates with distinction are able to apply for Ph.D. studies in other institutions.

Master of Arts in Christian Education (M.A.)

This degree program is for persons desiring basic theological and educational preparation for local church and church-related ministry. It provides the same required studies as the Master of Divinity, but limits vocational and specialized studies specifically to preparation for educational staff positions, lay or bivocational ministry, Bible teaching and Christian development ministries, or Christian social ministries. Persons desiring additional specialization and/or broader preparation for vocational ministry may switch to the Master of Divinity program at the beginning of any term. The Master of Arts degree can be earned in two years of full-time study.

Extended Campus Education

Associate Dean: Mr. Tom Harris

Campbell University offers undergraduate degree programs at four locations in eastern North Carolina. Over 2000 civilian and military adult students attend classes at these locations on either a full time and part time basis. Evening and weekend classes are offered during five accelerated semesters each year. For information about degrees programs offered, class schedules, or admission requirements, call or visit the campus most convenient to your work or residence.

At Camp Lejeune, Campbell offices are in the Consolidated Education Center, Bldg. 202, Main Base. Their telephone number is 910-451-3097. A second office is located in the Education Center, Bldg 212, at Marine Corps, Air Station, New River; telephone 910-449-6600. Undergraduate degree programs offered include Associates of Arts, Bachelor of Business Administration with majors in either Business, Accounting or Computer Information Systems, Bachelor of Science in Social Science, Bachelor of Science in Psychology, Bachelor of Applied Science, and Bachelor of Health Science.

At Fort Bragg, near Fayetteville, Campbell offices are located in the Main Education Center at the corner of Knox and Randolph Streets on post. For information about Ft. Bragg, call 910-436-3242 or 3243. A second office is located at Pope Air Force Base in the Civilian Base Personnel office, Bldg. 308. The Pope AFB telephone is 910-497-8238. Undergraduate degree programs offered include Associate in Arts, Bachelor of Business Administration with majors in Business, Accounting or Computer Information Systems, Bachelor of Science in Social Science, Bachelor of Science in Computer Science, Bachelor of Science in Psychology, Bachelor of Arts in Criminal Justice, Bachelor of Applied Science, and Bachelor of Health Science.

Near the Research Triangle Park in Morrisville, Campbell's RTP Center is located at 808 Aviation Parkway. Undergraduate degree programs offered at the RTP campus include Associate in Arts, Bachelor of Business Administration with major in Business, Accounting and Computer Information Systems and Bachelor of Applied Science. To find out more about the RTP campus call (919) 468-8844.

Main campus students wishing to take courses at one of the extended campus locations must complete an off campus approval form from the Registrars office before registering for any course(s) at one of the extended campuses.

For more information or assistance contact the Associate Dean for Extended Campus Education in Pearson Hall on Main Campus or call 910-893-1278.

Alphabetical Listing of Programs and Courses

Campbell University's academic departments, courses, majors, and minors are organized into one college and five schools: the College of Arts and Sciences, the Norman A. Wiggins School of Law, the Lundy-Fetterman School of Business, the School of Education, the School of Pharmacy, and the Divinity School. Unless you are familiar with the organization of the University, the programs offered by the departments, and the courses associated with those programs, you may find it difficult to locate a particular course. To reduce that potential difficulty, the academic departments and the courses offered by those departments are listed in alphabetical order, not grouped by college or school.

The following list includes each undergraduate major and area of study offered by the University. Please note that descriptions of some academic programs (such as Criminal Justice) are included under an academic department's main listing (Government).

Accounting

Professor: Mr. Pond

Associate Professor: Mr. Witherspoon (Chair), Dr. Deutsch, Ms. Vaughan

Assistant Professor: Mr. Berry, Mr. Butler

Requirements for a Major in Accounting (BBA) (CIP 52.0301)

ACCT 213, 214, 323, 324, 330, 333, 334, 335, 336, 443, 444, 445, 450; BADM 221, 222, 300, 313, 314, either 331 or 332, 336; CIS 125; ECON 223, 224; and two 300-level or above School of Business courses.

Accounting Course Listing (ACCT 000)

213-214 Accounting Principles (4, 3)

A study of accounting terms, procedures, and practices of sole proprietorships, partnerships, and corporations. A study is made of journal worksheets, financial statements, negotiable instruments, and departmental costs.

323-324 Intermediate Accounting (4, 3)

A study of the principal accounting statements. Review of the fundamental processes in recording, classifying, and summarizing business transactions. A detailed study of the measurement of the business position and of periodic progress. A study of special analytical procedures including the development of special reports, ratios, and measurements in statement analysis. Prerequisite: ACCT 214.

325 Managerial Accounting (3)

A study of the uses of accounting information for decision making inside and outside the business firm. The study is related to the nature and objectives of business decisions, what information is necessary to make them, what data are relevant, and the uses and limitations of these data. Prerequisite: ACCT 214.

330 Accounting Theory Seminar (1)

An analysis of the logical foundations of accounting. Special emphasis on recent developments. Includes student presentations that evaluate recent accounting changes. Case studies will be used to examine applications of theory to financial, cost, and ethical accounting situations. Prerequisite: ACCT 323.

333-334 Taxation (3, 3)

A study of the basic principles and major problems of the federal income tax laws and their application to tax situations for individuals and corporations. Some attention will be devoted to state tax laws and to tax procedure including fiduciary tax returns. ACCT 333 is a prerequisite to ACCT 334.

335 Cost Accounting (3)

The principles and procedures followed in the assembling and recording of materials, labor, and manufacturing expenses to ascertain production costs, costing for joint products, job costing, budgeting, standard costs, direct costs, and pricing joint products are studied. Prerequisite: ACCT 214.

336 Accounting for Improved Performance (3)

An integration of cost accounting, statistical quality control, and quality management principles for the purpose of measuring and improving an organization's productivity and product and service quality. Investigation includes case study analysis of efforts by industrial and service organizations to improve productivity and quality. Prerequisites: ACCT 325 or 335 and MATH 160.

443 Auditing (3)

A course in auditing theory and practice. Auditing objectives, standards, ethics, terminology, procedures, and reports are studied. The place and responsibility of both the internal auditor and the public auditor are studied. Prerequisites: ACCT 323 and 324.

444 Advanced Accounting (3)

A comprehensive study of special problems relating to partnerships and corporations, dealing with liquidations, installment sales, consignments, agency and branch accounting, consolidations and mergers, together with receiverships, trusts, and estates. Prerequisites: ACCT 323 and 324.

445 Governmental Accounting (3)

An introduction to the accounting practices of non-profit organizations, including governmental units, colleges and universities, hospitals, and other non-profit organizations. Prerequisites: ACCT 213 and 214.

450 CPA Problems (3)

A review and analysis of problems encountered in a public accounting practice and on the CPA examination. Prerequisites: ACCT 444.

490 Accounting Internship (3)

An accounting-related employment experience with an approved organization. Related term paper required. Prerequisites: Junior standing (at least); declared major in accounting; overall grade point average of 2.0 or greater; and completion of an independent study contract.

590 Accounting Information Systems (3)

An introduction to the design and use of accounting systems and their relationship to management information systems. Course includes the use of computer technology for processing, retrieving, and analyzing accounting data. Prerequisites: ACCT 324 and senior standing or permission of instructor.

Art

Associate Professors: Mr. Smith, Mr. Tysor

Assistant Professor: Mr. Rodgers

The Art Curriculum

The Department of Art offers a Bachelor of Arts degree with majors in Studio Art and Graphic Design. Minors in Studio Art and Graphic Design are also offered.

Requirements for a Major in Studio Art (CIP 50.0702)

In addition to the General College Curriculum requirements, students pursuing a major in Studio Art must complete 46 semester hours in art, including the core art curriculum: ART 101 Design I, 102 Design II, 131 Introduction to Art, 201 Drawing I, 202 Painting I, 213 Sculpture I, 231 Art History I, 232 Art History II, 465 Internship and 461 Senior Exhibit.

In addition to the core art curriculum, the student must complete at least eighteen semester hours in electives from among the following: ART 203 Color, ART 204 Printmaking I, 206 Graphic Design I, 207 Graphic Design II, 208 Graphic Design III, 211 Ceramics I, 301 Drawing II, 302 Painting II, 304 Printmaking II, 311 Ceramics II, 313 Sculpture II, 401 Advanced Drawing, 402 Advanced Painting, 404 Advanced Printmaking, 411 Advanced Ceramics, 413 Advanced Sculpture, 441 Independent Studio, 442 Independent Studio, COMM 214 Introduction to Photography.

Requirements for a Major in Graphic Design (CIP 50.0409)

In addition to the General College Curriculum requirements, students pursuing a major in Graphic Design must complete ART 101 Design I, 102 Design II, 131 Intro to Art, 201 Drawing I, 301 Drawing II, 203 Color, 231 Art History I, 232 Art History II, 206 Graphic Design I, 207 Graphic Design II, 208 Graphic Design III, 209 Typographic Design 465 Internship, COMM 225F Intro to Photography, COMM 357 Desktop Publishing, CADV 213 Introduction to Advertising.

Requirements for a Minor in Studio Art

Students pursuing a minor in Studio Art must complete ART 101 Design I, 102 Design II, 131 Introduction to Art, 201 Drawing I, 202 Painting I, 211 Ceramics I or 213 Sculpture I.

Requirements for a Minor in Graphic Design

Students pursuing a minor in Graphic Design must complete ART 101 Design I, 131 Introduction to Art, 201 Drawing I, 206 Graphic Design I, 209 Typographic Design COMM 225F Introduction to Photography.

Art Course Listing (ART 000)

101 Design I (3)

A basic study of the elements and principles of two-dimensional design, using a variety of media. This course gives the art major and non-art major alike an introduction to the concepts and techniques involved in two-dimensional design. Six studio hours per week; three credit hours.

102 Design II (3)

A basic study of the elements and principles of three-dimensional design, using a variety of media. This course gives the art major and non-art major alike an introduction to the concepts and techniques involved in three-dimensional design. Six studio hours per week; three credit hours.

131 Introduction to Art (3)

An introduction to the study of visual art, approaching art through learning experiences such as art history, art criticism, the styles, the structures, and the interaction of meaning and mediums. This course is appropriate for non-art majors and art majors. Three lecture hours per week.

201 Drawing I (3)

An introduction to drawing with emphasis on line, shape, value, and texture. Studies and final projects include still-life, landscape, perspective, figure, portrait, and animal. Six studio hours per week; three credit hours.

202 Painting I (3)

An introduction to various oil techniques: canvas and canvas construction and studio painting from still life, landscape, model, and design. Six studio hours per week; three credit hours.

203 Color (3)

The color course is based on research and application of the influential color theories and systems that make up Art History. The course is divided into the six following areas of study: 1. The Properties of color, 2. The French Impressionist, 3. The German Expressionist and the Abstract Expressionist, 4. The Cubist palette, 5. Geometric Abstraction, and 6. Photo-realism and Realism. Six studio hours per week; three credit hours.

204 Printmaking I (3)

An introduction to the printmaking process of woodblock. Preparation of blocks and plates and techniques for printing various subject matter. Six studio hours per week; three credit hours.

206 Graphic Design I (3)

An introductory course that examines the foundations of modern graphic design. Six studio hours per week; three credit hours. Prerequisite: ART 101. Must be a Studio Art, Graphic Design, or Mass Communication major. No exceptions are possible.

207 Graphic Design II (3)

A course that continues the investigation of graphic design begun in ART 206. Six studio hours per week; three credit hours. Prerequisite: ART 101, ART 206, and ART 209. Must be a Graphic Design major.

208 Graphic Design III (3)

A course focusing on developing additional graphic design skills and portfolio preparation. Six studio hours per week; three credit hours. Prerequisite: ART 101, ART 206, 207, and ART 209. Must be a Graphic Design major.

209 Typographic Design (3)

Introduction to typography, its history, and the study of letterforms as a communicative tool. Six studio hours per week; 3 credit hours. Prerequisites: Art 101 and Art 206. Must be an art major or mass communication major. No exceptions are possible.

211 Ceramics I (3)

An introduction to basic hand building techniques, with projects stressing design, creativity, and craftsmanship; firing and glazing of pieces to completion. Six studio hours per week; three credit hours.

213 Sculpture I (3)

A course which deals with three-dimensional elements in art such as mass, form, texture, and space, utilizing various materials such as paper, clay, plaster, and found materials. Six studio hours per week; three credit hours.

231 Art History I: Ancient to Gothic (3)

A chronological exploration of Western and non-Western painting, sculpture, and architecture from prehistoric time through the fourteenth century, investigating styles, periods, and artists as they relate to time and place, culture and history. Three lecture hours per week; three credit hours.

232 Art History II: Renaissance to Postmodern (3)

A chronological exploration of Western and non-Western painting, sculpture, and architecture from the fourteenth century to the present, investigating styles, periods, and artists as they relate to time and place, culture and history. Three lecture hours per week; three credit hours.

301 Drawing II (3)

Continuation of Drawing I with emphasis on more advanced drawing problems and media. Six studio hours per week; three credit hours. Prerequisite: ART 201.

302 Painting II (3)

Continuation of Painting I with emphasis on advanced painting problems. Focus on exploration of various composition styles and development of a personal painting technique. Six studio hours per week; three credit hours. Prerequisite: ART 202.

304 Printmaking II (3)

Introduction to the silkscreen or intaglio using paper and fabric, films, resists, and various inking techniques, or plates, etching press, inks, papers, and various etching techniques. Six studio hours per week; three credit hours.

311 Ceramics II (3)

An introduction to throwing on the wheel, with some further work on hand built forms. Continued work in glazing, firing of kilns, and studio management. Six studio hours per week; three credit hours. Prerequisite: ART 211.

313 Sculpture II (3)

A continuation of Sculpture I, with emphasis on more complex concepts and problems in a variety of sculptural materials, including carving of wood and cast stone. Six studio hours per week; three credit hours. Prerequisite: ART 213.

321 Art for the Elementary School (3)

Theory and techniques in elementary art education. Emphasis on developmental stages of children, processes, developing creative expression, materials, and curriculum planning. Six studio hours per week; three credit hours. Prerequisite: must be an Education major or have permission of the instructor.

401 Advanced Drawing (3)

A continuation of Drawing II with focus on pursuit of style and expression. Six hours per week; three credit hours. Prerequisite: ART 301.

402 Advanced Painting (3)

A continuation of Painting II with focus on the pursuit of style and expression. Six studio hours per week; three credit hours. Prerequisites: ART 302.

404 Advanced Printmaking (3)

In-depth exploration of one printing process. Six studio hours per week; three credit hours. Prerequisite: ART 204 or ART 304.

411 Advanced Ceramics (3)

A continuation of work on both hand-built forms and wheel-thrown forms, glazing, firing, and studio management. Six studio hours per week; three credit hours. Prerequisite: ART 311.

413 Advanced Sculpture (3)

A continuation of working with various sculptural concepts and materials; introduction of more complex media and techniques, such as mold-construction, plaster-casting, stone carving, etc. Six studio hours per week; three credit hours. Prerequisite: ART 313.

441 Independent Studio (3)

Independent studio work geared to each individual. The student is responsible for writing a contract, researching, and producing work in a selected area of art. Equivalent of six studio hours per week; three credit hours. Prerequisite: consent of instructor, department chairman, and dean.

442 Independent Studio (1 or 2)

Independent studio work designed for each individual student. The student is responsible for writing a contract, researching, and producing work in appropriate area of art. One to two credit hours offered as a flexible option for student's needs. Equivalent of two (one credit hour) or four (two credit hours) studio hours per week. Prerequisite: consent of instructor, department chairman, and dean.

461 Senior Exhibit (1)

During final semester, student is responsible for presentation, exhibition, and production of slides of a cohesive body of work in his/her area of concentration. Subject to final approval of instructor(s).

465 Internship (3)

A course usually taken during a student's third or fourth year. The student will be responsible for finding an appropriate agency. The student will work for the agency for a minimum of 120 hours performing tasks related to his or her major. The student will have an on-site supervisor during the internship. Prerequisite: ART 207.

Biological Sciences

Associate Professors: Dr. Hammond (Dean of the College), Dr. Larsen, Dr. Metz (Chair)

Assistant Professors: Dr. Bartlett, Dr. Guzman, Dr. Thomas, Mrs. Williams, Dr. You

Adjunct Faculty: Dr. Weaver

Biology and the General College Curriculum

Students may use biology or environmental science courses to fulfill four to eight semester hours of the general college science requirement. (See General College Curriculum requirements for details.) Science courses without laboratories do not meet the science requirement of the General College Curriculum.

Requirements for a Major in Biology (CIP 26.0101)

A major in biology (B.S. degree) may be obtained within a general curriculum or one which follows specific guidelines for physicians assisting, physical therapy, teacher licensure, or pre-professional (preparation for graduate or professional schools) studies. The student majoring in biology must complete a minimum of 39 hours in biology, and these must include credit for BIOL 111, 201, 202, 203, 205, 327 or 542, 342, 430 or 437, and 451. Students are encouraged to complete more than the minimum number of hours in biology.

Ancillary requirements include MATH 112 (or 122) and 160; CHEM 111, 113, and 227; and PHYS 221 and 222 or PHYS 251 and 252.

Requirements for a Minor in Biology

Students wishing to minor in biology may do so by completing BIOL 111 and an additional sixteen semester hours in biology courses numbered at the 200-level or above. The sixteen hours must include a minimum of three courses with laboratory.

Requirements for Major in Biology with Teacher Licensure (CIP 13.1322)

In addition to the requirements for the major, students seeking secondary teacher certification in biology must also complete PSYC 222; EDUC 221, 341, 385, 431, 432, 441, 453, 454, and 458; and SIED 453.

Requirements for a Major in Biology with a Pre-Professional Concentration (CIP 26.0101/51.1102)

A major in Biology may be obtained which follows specific guidelines for entering post-baccalaureate studies in the medical professions, or biological research of various kinds. In addition to the requirements for a Major in Biology, the student following this track in biology must also complete CHEM 228; and MATH 122. Pre-professional students should tailor their biology electives and open electives to meet the requirements of their specific professional area of focus, in consultation with their academic advisor. The Pre-Professional Concentration requires students to earn a grade of "C" or higher in all science courses (biology, chemistry, and physics.)

Requirements for a Major in Biology with a Pre-Physical Therapy Concentration (CIP 26.0101/51.1199)

A major in Biology may be obtained which follows specific guidelines for entering post-baccalaureate studies in physical therapy. In addition to the requirements for a Major in Biology, the student following this track in biology must also complete BIOL 221, 310, 320, 334; CHEM 228; PSYC 222, 260, 461; and EXER 425, 426. One computer course is also recommended. Students should maintain documentation of work experience in physical therapy settings. Students following this concentration should check with physical therapy graduate programs to verify specific requirements of the programs.

Requirements for a Major in Biology with a Pre-Physicians Assistant Concentration (CIP 26.0101)

A major in Biology may be obtained which follows specific guidelines for entering studies in physician assistant programs. In addition to the requirements for a Major in Biology, the student following this track in biology must also complete BIOL 221, 310, 320, 334, 430; and CHEM 228. PA programs vary in their requirements for work experience in the medical field. Many applicants range from 2-5 years of experience, including volunteer work, nursing experience, laboratory work and military experience.

Requirements for a Major in Biochemistry (CIP 26.0202)

A candidate for the Bachelor's degree with a major in biochemistry must satisfactorily complete the following courses in biology and chemistry:

Biology requirements include BIOL 111, 201, 301, 334, 342, 430 and 508 plus one 200 level or higher elective for a total of 32 semester hours.*

Chemistry requirements include CHEM 111, 113, 215, 227, 228, and 334 for a total of twenty-four semester hours.*

* *Note:* Students are required to take either BIOL or CHEM 451.

Two semesters of calculus (MATH 122, 223) and one year of physics (PHYS 251, 252) are required of biochemistry major. Candidates who are considering graduate studies are recommended to take an additional year of calculus and an additional 300 or 400 level BIOL or CHEM course as electives.

Biological Sciences Course Listing (BIOL 000)

111 Basic Biology (4)

An introduction to biological chemistry, cell biology, energy relationships, reproduction, genetics, evolution, and ecology. Three lecture and three laboratory hours each week. Fall, Spring, and occasional Summers. Prerequisite to all other biology courses.

201 Cellular & Molecular Biology (4)

A study of the cell, with a focus on eukaryotic cells. Emphasis will be placed on the fundamental principles such as the unity and diversity of cell biology, the relationship between structure and function, cell regulation, the flow of genetic information, and cell specialization. Methods in cell biology will be interwoven throughout the course. Three lecture and three laboratory hours per week. Spring semester. Prerequisite: BIOL 111 (grade of C or better strongly recommended).

202 Botany (4)

A first level study of plant biology, concentrating upon the form and function of flowering plants, with emphasis placed on the roles of plants in the environment, the relationships between plants and other organisms, and the history of use and manipulation of plants for human benefit. Three lecture and three laboratory hours each week. Spring semester. Prerequisite: BIOL 111.

203 Zoology (4)

The biology of the major groups of animals, with emphasis on general structural plans and diversity, ecology, reproduction, and evolution. Three lecture and three laboratory hours each week. Fall semester. Prerequisite: BIOL 111.

205 Introduction to Biological Research (2)

Designed to give the beginning biology major an introduction to literature resources, topic selection, use of

statistics, scientific logic, and the oral and written presentation of results. Two lecture hours each week. Fall semester. Prerequisite: BIOL 111.

215 Plants for Pleasure and Profit (4)

A general course in horticultural practices designed for the practical utilization of plants of all kinds for personal benefit and pleasure. Three lecture and three laboratory hours each week. Laboratory requires hands-on activities in the greenhouse and field. Fall semester of odd numbered years. Prerequisite: BIOL 111.

221 Human Anatomy and Physiology (4)

A detailed study of the structure and function of the major organ systems in man. Continuity is maintained by emphasizing regulation and integration of these systems. Three lecture and three laboratory hours each week. Fall, Spring, and occasional Summers. Prerequisite: BIOL 111.

224 Vertebrate Natural History (4) (ENVS 224)

Identification, classification, and life histories of common vertebrate animals of North Carolina. Study of these animals in their natural habitats is emphasized. Three lecture and three laboratory hours each week. Fall semester of even numbered years. Prerequisite: BIOL 111.

226 Ornithology (4) (ENVS 226)

Identification, classification, evolution, behavior, and life histories of birds. Study of birds in their natural habitats is emphasized. Three lecture and three laboratory hours each week. Fall semester of odd numbered years. Prerequisite: BIOL 111.

241 Field Botany (4) (ENVS 241)

The collection, identification, and biology of vascular plants, with particular attention to their role in the natural economy. Three lecture and three laboratory hours each week. Occasional Fall semesters. Prerequisite: BIOL 111.

301 Cytology/Histology (4)

Emphasis will be given to special topics in cell biology, such as the cytoskeleton and motility, cell growth and division, and cancer. These topics may vary from year to year, depending on the current literature. Laboratory exercises consist mainly of tissue culture and histology. This course is primarily designed for biology and biochemistry majors, and pre-professional, pre-pharmacy, pre-medical and pre-veterinary students. Three lecture and three laboratory hours per week. Spring semester. Prerequisites: BIOL 111, BIOL 201 and CHEM 227.

310 Advanced Human Physiology (3)

A detailed system by system study of advanced physiological concepts, including diseases and the body's compensatory mechanisms to restore health. Three lecture hours each week. Fall semester of even-numbered years. Prerequisites: BIOL 111, 221; CHEM 111 is recommended but not required.

320 Developmental Anatomy (4)

An integrated approach to the study of comparative vertebrate anatomy and embryology. Three lecture and three laboratory hours each week. Fall semester of odd-numbered years. Prerequisites: BIOL 111; BIOL 203 and 221 are recommended but not required.

321 Environmental Toxicology (3) (ENVS 321)

An introductory overview of environmental toxicology with emphasis on the effects of chemicals and toxic compounds on organisms (including humans), populations, communities, and ecosystems. Due to its interdisciplinary nature, the material will be approached from three distinct functional levels: molecular and cellular; physiological; and ecological. Three lecture hours per week. Occasional Spring semesters. Prerequisites: BIOL 111 or ENVS 111. BIOL 201, 202, 203; CHEM 111, 113 are recommended but not required.

322 Limnology (3) (ENVS 322)

An introductory study of freshwater ecosystems including an overview of the structure and function of inland waters (primarily lakes, streams and rivers). Physical, chemical and biological components of aquatic ecosystems will be investigated. Ecological interactions will be studied at the organism, population, biotic community and aquatic ecosystem levels. Three lecture hours per week. Spring semester (Alternate years with BIOL 321). Prerequisites: BIOL 111 or ENVS 111. BIOL 201, 202, 203; CHEM 111, 113 are recommended but not required.

327 Ecology (4) (ENVS 327)

A study of the interactions which determine the distribution and abundance of organisms. Three lecture and three laboratory hours each week. Fall semester. Prerequisites: BIOL 111, 202, 203, and 205.

333 General Parasitology (4)

A survey of the study of parasitism and tropical medicine with particular emphasis but not limited to parasites of human and veterinary significance. The course will involve aspects of biology, ecology, morphology, taxonomy, epidemiology and pathogenesis of the major classes of parasites. Three lecture and three laboratory hours each week. Occasional Spring Semesters. Prerequisites: BIOL 111, BIOL 201, BIOL 203, and CHEM 227 (can be taken concurrently.)

334 Microbiology and Immunology (4)

An elementary treatment of microorganisms, primarily bacteria. Special emphasis is given to study techniques and the roles of these organisms in ecology, health, and disease. Three lecture and three laboratory hours each week. Fall semester. Prerequisite: BIOL 111, 201, CHEM 113 required; CHEM 227, 228 recommended.

335 Immunology (3)

An introduction to the principles of immunology. Topics discussed will include the cell types of the immune system, antibody production and humoral immunity, cell-mediated immunity, cytokines, vaccines, autoimmunity, and immunodeficiency diseases. Three lecture hours each week. Spring semester of even-numbered years. Prerequisites: BIOL 111, 201 and 342 (or concurrent); BIOL 334 is recommended but not required.

336 Medical Microbiology (3)

This course integrates microbiology, immunology, and molecular biology to explain mechanisms by which microbes cause disease. The methods by which bacteria attach to and then invade the human body to establish infection and subsequent interaction with the immune system will be investigated. Special emphasis will be placed on HIV infections and emerging infectious diseases as well as vaccine development. Spring semester of odd-numbered years. Prerequisite: BIOL 334.

342 Genetics (4)

Lectures will include the principles of Mendelian heredity, linkage, mutation, population genetics, and molecular genetics, with emphasis on the mechanisms regulating the processes of replication, transcription, and translation. Three lecture and three laboratory hours each week. Spring semester. Prerequisites: BIOL 111, 201, CHEM 113; CHEM 227 recommended, or permission of instructor.

351 Creation, Evolution, or Both? (3)

An investigation into the origins of life, using an integrated scientific and Christian perspective. Coverage includes the scientific method, the philosophy of science, the relationship of science and religion, the history of evolutionary theory, the science behind evolutionary theory, the history of creationism, young-earth creationism, intelligent design, and major creationist objections to evolutionary theory, focusing on the geological record and earth history. Three lecture hours per week. Fall semester of even numbered years. Prerequisites: BIOL 111, ENGL 101, 102, and two 200-level literature courses; RELG 125

430 Biochemistry (4)

An investigation of the properties and structures of organic molecules, with an emphasis on proteins and nucleic acids and how they relate to cellular structure and function. Three lecture and three laboratory hours each week. Fall semester. Prerequisites: BIOL 111, 201 and CHEM 227.

437 Animal Physiology (4)

The comparative study of physiological processes in different animals through an organ-system approach. Three lecture and three laboratory hours each week. Spring semester. Prerequisites: BIOL 111, 203 and CHEM 113.

447-448 Biology Thesis (2, 2)

The investigation of a problem for two semesters of the senior year, the results of which are reported in thesis form. Credit for 447 is deferred until completion of 448. Open to science majors and minors only.

451 Seminar (1)

Individual reports and group discussions of the results of published biological research, student field or laboratory research on selected topics in biology. May be repeated for a maximum of three semester hours. Fall, spring semesters. Prerequisite: BIOL 205, junior or senior standing. Open to science majors and minors only.

460 Special Topics (1-4)

Investigation of an important aspect of modern biology under the supervision of an instructor. Consists of a combination of lectures, discussions, and laboratory experiences.

Courses numbered at the 500 level are open to both graduate education students and advanced undergraduates.

508 Molecular Techniques (4)

A laboratory-based course that introduces students to modern molecular techniques. In addition to learning basic research laboratory skills, students will learn to isolate and purify DNA, analyze, manipulate DNA by restriction enzyme digestion, gel electrophoresis and ligation, label DNA by various methods, perform non-radioactive detection of Southern blot analyses, and perform polymerase chain reactions. Bacterial transformation and other microbial techniques will be used through out. Molecular Forensic techniques are also explored and tested. Lectures and laboratories are held in joint sessions. Summer session. Prerequisites: BIOL 342 and CHEM 227 (or concurrent enrollment).

512 Avian Ecology (4) (ENVS 512)

A consideration of the principles of ecology as they apply to birds. Special emphasis is placed on population dynamics, community ecology, and reproductive behavior. One Saturday field trip to observe coastal breeding colonies is required. Three hours of lecture and three hours of laboratory each week.

542 Coastal Ecology (4) (ENVS 542)

Plant and animal communities of the Coastal Plain of North Carolina and the environmental influences which affect them, with an emphasis on the coastal fringe environment. Three hours of lecture and three hours of laboratory each week. Occasional Summer sessions.

Environmental Science**Requirements for a Minor in Environmental Science (CIP 26.0101)**

Students wishing to minor in environmental science may do so by completing ENVS 111, ENVS 112, and an additional twelve semester hours in cognate courses chosen in consultation with the environmental science advisor.

Environmental Science Course Listing (ENVS 000)

The Department of Biological Sciences offers the following ENVS courses.

111 Introduction to Environmental Science I (4)

Provide an overview of current environmental problems and issues with an emphasis on biology, chemistry, and earth science. Three hours of lecture and three hours of laboratory each week. No prerequisites.

112 Introduction to Environmental Science II (4)

Provide an overview of current environmental problems and issues with an emphasis on social aspects. Three hours of lecture and three hours of laboratory each week. ENVS 111 is recommended but not required.

224 Vertebrate Natural History (4) (BIOL 224)

Identification, classification, and life histories of common vertebrate animals of North Carolina. Study of these animals in their natural habitats is emphasized. Three lecture and three laboratory hours each week. Spring semester of even numbered years.

226 Ornithology (4) (BIOL 226)

Identification, classification, evolution, behavior, and life histories of birds. Study of birds in their natural habitats is emphasized. Three lecture and three laboratory hours each week. Spring semester of odd numbered years.

241 Field Botany (4) (BIOL 241)

The collection, identification, and biology of vascular plants, with particular attention to their role in the natural economy. Three lecture and three laboratory hours each week. Occasional Fall semesters.

321 Environmental Toxicology (3) (BIOL 321)

An introductory overview of environmental toxicology with emphasis on the effects of chemicals and toxic compounds on organisms (including humans), populations, communities, and ecosystems. Due to its interdisciplinary nature, the material will be approached from three distinct functional levels: molecular and cellular; physiological; and ecological. Three lecture hours per week. Occasional Spring semesters. Prerequisites: BIOL 111 or ENVS 111, BIOL 201, 202, 203; CHEM 111, 113 are recommended but not required.

322 Limnology (3) (BIOL 322)

An introductory study of freshwater ecosystems including an overview of the structure and function of inland waters (primarily lakes, streams and rivers). Physical, chemical and biological components of aquatic ecosystems will be investigated. Ecological interactions will be studied at the organism, population, biotic community and aquatic ecosystem levels. Three lecture hours per week. Spring semester (Alternate years with ENVS 321). Prerequisites: BIOL 111 or ENVS 111, BIOL 201, 202, 203; CHEM 111, 113 are recommended but not required.

327 Ecology (4) (BIOL 327)

A study of the interactions which determine the distribution and abundance of organisms. Three lecture and three laboratory hours each week. Spring semester. Prerequisites: BIOL 111, 202, 203, and 205.

512 Avian Ecology (4) (BIOL 512)

A consideration of the principles of ecology as they apply to birds. Special emphasis is placed on population dynamics, community ecology, and reproductive behavior. One Saturday field trip to observe coastal breeding colonies is required. Three hours of lecture and three hours of laboratory each week.

542 Coastal Ecology (4) (BIOL 542)

Plant and animal communities of the Coastal Plain of North Carolina and the environmental influences which affect them, with an emphasis on the coastal fringe environment. Three hours of lecture and three hours of laboratory each week. Summer session I.

Science Education Course Listing

The following SIED course is offered through the Department of Biological Sciences and in cooperation with the School of Education.

453 Materials and Methods in Secondary Science (3)

Study of the specific methods, techniques, practices, and the selection and organization of instructional materials and teaching methods appropriate to high school science subjects. Open only to seniors and scheduled in the student teaching semester. Taught in conjunction with the course in general methods, both of which are required for certification. Three hours of lecture each week. Fall or Spring semester, offered as required by students in the Teacher Licensure Program.

Business Administration

Professor: Dr. Hsiao, Dr. Mostashari (Associate Dean), Dr. Zinkhan (Dean of Business School)

Associate Professor: Dr. Broadhurst (Chair)

Assistant Professor: Dr. Harriss, Mr. Jones (PGM Director), Dr. Yonai

Instructors: Mr. Cox, Mr. Ballard

Requirements for a Major in Business Administration (BBA) (CIP 52.0201)

ACCT 213, 214, any 300-level accounting course; BADM 221, 222, 300, 313, 314, 331, 332, 336, 345, 468, six semester hours of Business Administration electives; CIS 125; ECON 223, 224, 453, and six semester hours of economics electives. These BADM and ECON electives must be selected from junior and senior-level courses.

Requirements for a Major in Professional Golf Management (BBA) (CIP 52.0999)

ACCT 213, 214, any 300-level accounting course; BADM 221, 222, 300, 313, 314, 331, 332, 336, 468; Business Administration Golf Management 111, 112, 113, 114, 115, 116, 117, 118, 490; CIS 125; ECON 223, 224, 453; twelve semester hours of School of Business electives. Two laboratory science courses from Biology, Chemistry, Environmental Science, or Physics. Incoming playing proficiency and Playing Ability Tests (PAT), and PGA Education Program.

Requirements for a Major in International Business (BBA) (CIP 52.1103)

ACCT 213, 214; BADM 221, 222, 300, 313, 314, 331, 332, 345, 468, 490, 558, 572; CIS 125; ECON 223, 224, 448, 449, 453; Foreign Language Electives 201, 202, 231, 232, and a 300-level foreign-literature course sequence in French or Spanish; GOVT 229, 343, 345.

Requirements for a Major in General Business (AA) (CIP 52.0201)

ACCT 213, 214; BADM 221, 222; CIS 125; ECON 223, 224; ENGL 101, 102, and one of 201, 202, 203, or 204 courses; PE 111 or 112, 185; Fine Arts 131; GOVT 229; HIST 111, 112; MATH 111, 160; RELG 125, one laboratory science course from Biology, Chemistry, Environmental Science, or Physics, and five semester hours of unrestricted electives.

Business Administration Course Listing (BADM 000)

221-222 Business Law (3,3)

The student is introduced to constitutional, criminal, and tort law as they apply to ordinary business transactions, with emphasis on contracts and negotiable instruments. Included are: the divisions of property, agency, partnerships, corporations, sales, and commercial paper. Emphasis is placed on the Uniform Commercial Code throughout the course.

300 The Philosophy of Business (3)

This course examines the philosophical and economic foundations of capitalism and entrepreneurship, with special emphasis on the role of business activity within this context. It also examines the effects of public policies that alter the economic outcomes that would otherwise occur as a result of this business activity. This requires the student to invoke basic economic theory, particularly supply and demand and opportunity cost analysis. This course also discusses the concepts of competition and monopoly, with a critical eye toward the standard theories of perfect competition and perfect monopoly. An alternative theory of

entrepreneurial competition is analyzed and applied to antitrust policy. Prerequisites: ECON 223, 224 and Junior Standing.

313 Principles of Marketing (3)

A study of basic marketing principles with emphasis on customer behavior, marketing policies, programs, information, management, organizations, institutions, research, accounting concepts, and related economic theories. Case studies of various marketing activities are also included. Prerequisite: Junior Standing.

314 Corporate Finance (3)

A study of the principles, methods, and problems relating to managing the currency and long-term financial needs of corporations. The topics studied include procedures for organizing a company; classes of securities; sources of funds; dividend policies; expansion and combination; insolvency and reorganization; government regulation; and organization and methods of the money and capital markets. Prerequisite: ACCT 214.

320 Financial Planning (3)

An overview of the financial planning process including: a study of the financial services industry; the marketing of financial services; ethical standards and regulations for financial planners; the economic environment of financial planning; financial and accounting fundamentals for financial planners; an integrative analysis of risk management, investment management, tax planning, retirement planning, and estate planning. Prerequisites: ACCT 214 and ECON 223.

331 Principles of Management (3)

A study of the basic fundamentals underlying efficient and effective application in planning and control of human and economic resources under the free enterprise system. Prerequisite: Junior Standing.

332 Human Resources Management (3)

A study of policies, procedures, and techniques involved in the management of people so as to gain maximum rewards for the employee and the employer. Particular emphasis is placed upon managerial development and leadership. Prerequisite: BADM 331, or permission of instructor.

336 Business Communication (3)

A study of theory and practice in communication for business purposes. Focus is primarily in three areas: the theory, process, and problems of communication; development of effective internal communication and practice; development of effective external communication and practice. Prerequisite: Junior standing.

345 Quantitative Methods for Business and Economics (3)

This course intends to acquaint students with the role that quantitative methods play in business and economic decision making. It emphasizes, using computers and computer-assisted solution methods, the application of a wide variety of quantitative techniques to the solution of business and economic problems. Prerequisites: MATH 111 and 160.

441 Retail Management (3)

A study of the activities associated with management, merchandising, and promotional activities in the competitive business environment associated with retail outlets. Topics include the market structure of retailing, consumer behavior and merchandising strategy, the financial tools to achieve profitability, and trends and current research in retailing. Prerequisites: BADM 313 and 331.

442 Advertising (3)

An examination of advertising and promotional strategies for goods and services in for-profit and not-for-profit business environments. Topics include an analysis of the benefits of various media, the functions of advertising agencies, promotional strategies, and trends in current advertising research and applications in both domestic and international markets. Prerequisite: BADM 313.

445 Marketing Research (3)

An introduction to the fundamentals of research methodology and the usage of research in marketing decision-making. Topics include research design, sampling procedures, data collection methods, and alternate statistical methods for data analysis. Students will design and execute one or more individual and/or group research projects. Prerequisites: BADM 313, BADM 345, and MATH 160.

468 Business Policy (3)

An integrative capstone course designed, using the case-studies approach, to bring all the functional areas to bear on the analysis and solution of business problems. Prerequisite: Senior standing.

490 Business Internship (3)

Business-related employment experience with an approved organization. Related term paper required. Prerequisites: junior standing (at least); declared major in Business Administration, overall grade point average of 2.0 or greater, and completion of an independent study contract.

530 Investment Analysis (3)

A study of security analysis, with an emphasis on fundamental analysis of equities and bonds. Specific topics include market efficiency and anomalies, security valuation, asset pricing models, equity and bond fundamentals, and the use of futures and options markets. Team project involving the analysis of an actual common stock is required. Prerequisite: Senior standing.

531 Advanced Investment Analysis (3)

A study of portfolio management, with an emphasis on customizing asset allocation strategies and tactics for individual and institutional investors. Modern Portfolio Theory is introduced and applied. Topics include bond management strategies, portfolio performance evaluation, international diversification, and the assessment of alternative investments. Team project involving the development of an investment plan and the management of an associated investment portfolio is required. Prerequisite: BADM 530 or approval of instructor.

533 Principles of Insurance (3)

A study of risk and insurance applied to handling of perils and hazards; covers fields of fire, property, casualty, auto, fidelity, life, and social insurance. Prerequisites: Junior standing and completion of BADM 222 or approval of instructor.

535 Principles of Real Estate (3)

Fundamental principles and problems of purchasing, owning, leasing, developing, and operating real estate; interests in realty, liens, contracts, deeds, titles, and recording as related to individuals and business organizations, and a study of the real estate market. Prerequisites: BADM 222 and ECON 224.

554 Entrepreneurship Seminar (3)

A course designed to provide the student with practical knowledge in applying the principles of economics, marketing, and finance to the problems and challenges involved in starting and operating a new business. Topics include identifying and analyzing opportunities, obtaining financing, preparing a business plan, marketing a new product or service, and managing the new venture. Prerequisites: Senior standing.

556 Leadership Seminar (3)

Students will examine their leadership styles and their experiences as they take part in intense group problem-solving exercises. Students should develop self-awareness and insight into the interpersonal skills needed to be an effective leader. Guest speakers will also be utilized to discuss the type of leadership required for various types of business. Discussion, case studies, and student reports will be included. Prerequisite: Senior standing.

558 International Management (3)

Teaches operating across borders to deal with the following forces and issues in a global operating environment: product and service development, new competition, distribution challenges, macroeconomic and socioeconomic uncertainty, financial variables, legal differences, labor issues, a different political environment, and sociocultural-based management issues. Prerequisites: Senior standing.

560 The World of Business (3)

A course designed to relate business theory with real world applications. Business executives lead seminars, case studies, and group discussions. Prerequisite: Senior Standing.

565 Production and Operations Management (POM) (3)

An in-depth study of broad management issues of PO/M integrating the design and implementation of an effective production or delivery system for manufacturing and service organizations. Prerequisites: BADM 331 and BADM 345.

570 Professional Selling and Sales Management (3)

Today's sales force requires a continually evolving application of marketing principles. This course examines various personal selling and sales management issues, policies, and procedures. Topics include recruitment, training, motivation, compensation, and evaluation of the sales force and the relationship of sales to other marketing functions as well as other departments within the organization. Simulated sales skill applications along with practical individual and group case studies will be utilized throughout the course. Prerequisite: Senior standing.

572 Global Marketing (3)

The application of basic marketing concepts and principles of marketing around the world. Topics include the study of international trade and financial markets, multi-cultural social and economic conditions, political and legal aspects, and ethical issues associated with multinational marketing. Lectures will be supplemented with case analyses, and, when available, appropriate guest speakers will be invited to convey key aspects related to the global economy. Prerequisite: Senior standing.

574 Consumer Behavior (3)

A study of the buying decision process through an analysis of interdisciplinary behavioral science findings in the marketing context in order to more fully understand and predict reactions of consumers to marketing strategies. Prerequisite: BADM 313.

590 Study Abroad (3)

An experiential learning course which provides students with an exposure to an understanding of the distinctive characteristics of global versus domestic operations in foreign settings under the supervision of an appropriate faculty member. Various functional areas of business are explored through various site visits and presentations in the selected foreign country or countries. Appropriate background readings and assignments are required, along with the preparation of a paper relating to the experience as determined by the instructor.

Professional Golf Management Course Listing (BADG 000)**111 PGM Orientation Workshop (1)**

Provides an overview of the PGA and the PGM Program. The following GPTP materials will be covered in class: PGA Constitution, Career Enhancement, and Rules of Golf. The Constitution module is designed to give you an overview of the Constitution's contents, structure, and function. Career Enhancement covers job-seeking skills of writing resumes, cover letter, and interviewing. The Rules of Golf module is to give you a clear understanding of the importance of the rules of golf and to provide you with the information and practice you need to be able to use the rules book to make rules decisions.

112 GPTP Workshop Level 1-A (1)

The following GPTP materials will be covered in this course: Introduction to Teaching, Tournament Operations, and Golfer Development Programs. Introduction to Teaching covers the fundamentals of the golf swing and teaching techniques. Tournament Operations will give you the skills required to run a successful golf tournament. Golfer Development Programs teaches you how to develop tournaments and teach golf clinics and other programs that meet the needs, interests, and concerns of juniors, women, and senior golfers. Prerequisite: BUS GLF 111

113 GPTP Workshop Level 1-B (1)

GPTP modules of Golf Club Design & Repair, Golf Car Fleet Management, and Analysis of the Swing will be covered in class discussion. Golf Club Design and Repair will increase your knowledge of golf club design principles and give you hands-on practice in key club-repair procedures. In Golf Car Fleet Management you will learn how to develop, organize and implement a profitable golf car rental program, incorporating safe, clean, and well-maintained golf cars. Analysis of the Swing will allow you to apply what you have learned in Introduction to Teaching. Provides training in how to evaluate and analyze a student's swing. Prerequisite: BUS GLF 112

114 GPTP Workshop Level 2-A (1)

The GPTP Pre-Seminar modules of Business Planning & Operations and Customer Relations will be covered in this course. Business Planning & Operations introduces you to the key considerations and skills involved in setting up and operating a golf facility. It enables you to learn how budgeting, forecasting, and planning contribute to a profitable operation. Customer Relations introduces you to the seven interpersonal skills and four strategies for handling everyday interactions and challenging situations. Prerequisite: BUS GLF 113

115 GPTP Workshop Level 2-B (1)

The Turfgrass Management course is designed to increase your awareness of the functions of the golf course maintenance department and the responsibilities of the golf course superintendent. Students will gain a working knowledge of fertilizers, turfgrass, weed control, insects, pests, course grooming, aeration, and chemical usage. Communication and coordination with the superintendent will be enhanced, as well as your ability to explain maintenance practices to your customers. Classroom lectures will be combined with on-the-course applications. Prerequisite: BUS GLF 114

116 GPTP Workshop Level 3-A (1)

The GPTP module of Business Communications and Pre-Seminar modules of Supervising & Delegating, Merchandising & Inventory Management, and Swing Concepts of Teaching are covered in this course. Business Communications will give you the information, models, practical concepts, and techniques you need for writing effectively. Supervising & Delegating will review and expand your understanding of effective supervision, delegation, and problem-solving techniques. Merchandising & Inventory Management enhances your ability to order, receive, display and promote golf merchandise to attract customers and increase sales. Swing Concepts of Teaching assists in developing a teaching philosophy, reviews use of teaching drills, and video instruction. Prerequisite: BUS GLF 115

117 GPTP Workshop Level 3-B (1)

The Food & Beverage Management course provides a basic understanding of how the food & beverage operation contributes to the profitability and success of the facility. The major components include a study of food costing, purchasing, inventory control, menu planning, security, staffing, and legal issues concerning the food & beverage operation. Classroom lectures will be supplemented with a four-week food & beverage internship at local facilities. Prerequisite: BUS GLF 116

118 GPTP Electives Workshop (1)

The GPTP Electives of Golf Course Design, Golf Facility Design, Golf Range Management, and Caddie Program Management are the topics to be covered. Golf Course Design gives you a working knowledge and understanding of the design process. Golf Facility Design teaches how to gather and analyze data to determine the facility's functional and aesthetic needs. Golf Range Management covers the factors

common to most successful range operations. Caddie Program Management reviews the procedures and guidelines to develop and manage a successful caddie program. Prerequisite: BUS GLF 116

490 Golf Internship 1, 2, 3, 4, 5 (1)

PGA Class "A" professionals will supervise internship opportunities that will challenge students to expand on their classroom education and enhance their future employment.

Chemistry/Physics Department

Professor: Dr. Jung

Associate Professor: Dr. Bryan (Chair), Dr. Wells

Assistant Professor: Dr. Coker

Instructor: Mr. Ezell

Chemistry, Physics, and the General College Curriculum

Students may use chemistry or physics courses to fulfill four to eight semester hours of the general college science requirement. (See General College Curriculum requirements for details.)

Requirements for a Major in Chemistry (CIP 40.0501)

A candidate for a Bachelor's degree with a major in chemistry must, in addition to the General College Curriculum, complete with a "C" average or better at least 34 hours of chemistry courses, including: CHEM 111, 113, 215, 227, 228, 331, 334, 451, and 452 (plus a minimum of 4 hours CHEM electives 300 level or higher). Statistics (MATH 160), one year of calculus (MATH 122, 223), and one year of calculus-based physics (PHYS 251, 252) are required of all chemistry majors. Candidates who are considering graduate studies are recommended to take an additional year of math (MATH 224, 337) and CHEM 430 as an elective. Chemistry majors are also encouraged to select a minor complementary to the field in which they wish to work (e.g. biology, math/computer science, business or mass communication.)

Courses numbered above 300 may be offered only in alternate years. CHEM 430 (Biochemistry) is cross-listed with BIOL 430 and is taught in the biology department.

Requirements for a minor in Chemistry

Students wishing a minor in Chemistry must complete with a "C" average or better at least 22 hours of chemistry courses including: CHEM 111, 113, 215, 227, and 228. The remaining hours may be obtained using any CHEM course numbered 300 or above (including seminars and lecture only courses).

Requirements for a major in Biochemistry (CIP 26.0202)

A candidate for a Bachelor's degree with a major in biochemistry must, in addition to the General College Curriculum, complete with a "C" average or better in biology and chemistry courses. Statistics (MATH 160), two semesters of calculus (MATH 122, 223), and one year of calculus-based physics (PHYS 251, 252) are also required of biochemistry major. Candidates who are considering graduate studies are recommended to take an additional year of calculus and an additional 300 or 400 level BIOL or CHEM course as an elective.

Biology requirements include BIOL 111, 201, 301, 334, 342, 430, and 508 plus one 200 level elective for a total of 32 semester hours.*

Chemistry requirements include CHEM 111, 113, 215, 227, 228, and 334 for a total of twenty-four semester hours.*

* Note: Students are required to take either BIOL or CHEM 451 or 452 Seminar for an additional one-semester hour.

Chemistry Course Listing (CHEM 000)

100 Preparatory Chemistry (3)

A course designed for students who are weak in science and math, but must eventually take CHEM 111. Highly recommend for students with little or no chemistry background. Note: Since this course has no laboratory, it does not fulfill the core curriculum science requirement. (Spring, Summer)

101 Elementary Chemistry I (4)

This course is designed to acquaint non-science majors with the fundamental subject matter of chemistry with intellectual integrity while minimizing esoteric theories and rigorous mathematics. Selected chemical concepts and principles will be developed. CHEM 101 will satisfy general degree requirements for the non-science majors; but cannot be used as elective hours by science majors who are required to take CHEM 111 and/or CHEM 113.

111 General Chemistry I (4)

This course is an introduction to fundamental chemical concepts including states of matter, physical and chemical properties, stoichiometry, atomic structure, bonding, chemical reactions, and chemical composition. An emphasis will be placed on atomic structure and its effects on the chemical and physical properties. (Fall and Summer)

Prerequisites*: Students must meet one of the requirements below to register for CHEM 111: 1) a math SAT score of greater than 450; 2) a score of greater than 50% on the TOLEDO Exam (administered by Chemistry Department.); or 3) a grade of "C" or better in MATH 111, MATH 112, and CHEM 100.

*Note: Advisors will be encouraged to enroll entering students according to their math SAT score. Student will be given the opportunity to take the TOLEDO Exam, the night before the first day of classes each Fall Semester. Students not meeting the TOLEDO Exam requirement should be registered in MATH 111 in the Fall and should then take MATH 112 and CHEM 100 during the following Spring.

113 General Chemistry II (4)

A continuation of CHEM 111. Emphasis will be placed on chemical and physical properties of solutions, chemical equilibria, acid/base equilibria, chemical kinetics, descriptive chemistry. Less emphasis will be placed on general thermodynamics and electrochemistry. (Spring and Summer) Prerequisite: A grade of C or better in CHEM 111.

215 Quantitative Analysis (4)

A course in the fundamental principles and techniques of chemical analysis. Topics include volumetric, spectrochemical, and chromatographic methods, as well as statistical interpretation of data. Prerequisite: A grade of C or better on CHEM 113. (Fall).

227, 228 Organic Chemistry I, II (4,4)

A mechanistic approach to the chemistry of aliphatic and aromatic organic compounds. Topics include spectroscopy, stereochemistry, lipids, carbohydrates, and proteins. Prerequisite for 227: A grade of C or better in CHEM 113. Prerequisite for 228: A grade of C or better in CHEM 227.

(Please Note: There is some evidence that women in their first trimester of pregnancy should avoid inhalation of some organic vapors.)

307 Bio-organic Chemistry (2)

A continuation of CHEM 228 focusing on the chemistry of important biological molecules including carbohydrates, lipids, proteins, and nucleic acids. There is no lab associated with this course. Prerequisite: CHEM 228..

331 Inorganic Chemistry (4)

A course that is a blend of theoretical and descriptive inorganic chemistry. Topics to be considered include:

bonding, acid-base properties of inorganic compounds, and transition metal chemistry. Laboratory preparations will be included. Prerequisite: CHEM 228. (Spring - alternate years).

334 Physical Chemistry (4)

An introduction to classical thermodynamics, kinetics, and equilibrium. Specific topics include studies of the states of matter, thermochemistry, entropy, and free energy. Some aspects of electrochemical phenomena and biochemical processes may also be included. Prerequisites: CHEM 228 and MATH 122

429 Organic Preparations (2)

A laboratory course employing special techniques in the preparation of organic compounds. Prerequisite: CHEM 228.

430 Biochemistry (4) (BIOL 430)

An investigation of the properties and structures of organic molecules, with an emphasis on proteins and nucleic acid and how they relate to cellular structure and function. Three lecture and three laboratory hours each week. (Fall). Prerequisites: BIOL 111, BIOL 201, and CHEM 227.

431 Inorganic Preparations (2)

A laboratory course employing special techniques in the preparation of inorganic compounds. Prerequisite: CHEM 331.

441, 442 Special Topics (2-4)

An advanced topic of special interest designed to supplement material covered in lower level courses by including current literature. Topics vary by semester. (Fall, Spring) Prerequisites: CHEM 215, CHEM 228.

445, 446 Chemical Research (2-4)

An upper-division student in good standing is urged to pursue an experimental research project with the guidance of any member of the chemistry faculty chosen by the student. It is recommended that such projects be initiated in the fall semester.

451, 452 Literature Seminar (1,1)

Senior chemistry majors are required to participate for two semesters; others are encouraged to attend. (Fall and Spring).

Physics Course Listing (PHYS 000)

221, 222 General Physics I and II (4,4)

An algebra/trigonometry-based study of classical mechanics, heat, sound, electricity, optics and nuclear phenomena. Laboratory work is coordinated with lectures. Intended for those interested in the quantitative investigation of the natural world. Prerequisite: MATH 112

231 Introduction to Astronomy (4)

This covers the structure of the Universe we live in as well as the history of this oldest of sciences. Included is a study of the Earth/Moon system, the Solar System, the Milky Way, and Deep Space Objects. Because of the nighttime lab, this course is only offered in the Spring semester. Prerequisite: MATH 112 or permission of the instructor.

251, 252 Fundamentals of Physics I and II (4,4)

A calculus-based study of classical mechanics, heat, sound, electricity, optics and nuclear phenomena. Differential and integral calculus is used in conceptual development and problem-solving. Laboratory work is coordinated with lectures. Intended for biochemistry, chemistry, math, and pre-engineering majors. Prerequisite: MATH 122

Clinical Research

Professors: Dr. Gertz, Dr. Diliberto (Chair of Pharmaceutical Sciences), Dr. Swanson (Chair of Pharmacy Practice)

Associate Professors: Dr. Al-Achi, Dr. Holmes (Associate Dean), Dr. Jamerson, Dr. Junker, Dr. Sogol, Dr. Kathy D. Webster

Assistant Professors: Dr. Abraham, Dr. Bloom, Dr. Garrett, Dr. Nemeez

Adjunct Faculty: Dr. Bernard, Dr. Bowes, Dr. Call, Dr. Diliberto, Dr. Dueh, Dr. Durso, Dr. Fox, Dr. Hull, Dr. Johnson, Mr. Kiernan, Mr. Knight, Dr. Kramer, Dr. Lineberry, Mrs. McManus, Dr. Ridley, Dr. C Sigel, Dr. Stinnett, Mr. Young

Major in Clinical Research (CIP 51.2006)

Clinical research is a branch of medical science that determines the safety and effectiveness of medications, devices, diagnostic products, and treatment regimens intended for human use. It is also concerned with investigating the influence of population and biological diversity as well as disease states on responses to treatment. The results of clinical research studies (especially clinical trials) are essential for gaining approval for marketing new medications and devices or new indications of existing products from regulatory agencies throughout the world.

The objective of the major is to prepare students for distinguished careers in clinical research. Graduates of this program are expected to play a wide variety of roles in the clinical research and the drug development process. Clinical research has emerged as a multidisciplinary enterprise that requires a highly trained team of scientists and clinical investigators serving a variety of functions. This novel program, developed through the efforts of the School of Pharmacy faculty, adjunct faculty, and corporate partners provides BS students with the didactic and experiential training necessary for the development of diverse careers (these specific roles are listed in the next sentence) as clinical researchers in contract research organizations (CROs), pharmaceutical companies, government agencies or academia. The growing demand for high-quality clinical monitors and study coordinators suggests that students from this program will receive excellent employment opportunities immediately following graduation.

Candidates for the BS degree with a major in clinical research must complete a minimum of 49 hours in pharmaceutical sciences and clinical research courses which include PHSC 210, 220, 323/325, 324, 328, 334, 336 and 451, CLNR 362, 416, 420, 442, 450, 453, 458, 479, 530, and 558. In addition, students must also complete the General College Curriculum, including Math 111 or 122 and RELG 348, and the following ancillary courses: BIOL 111, 201, 221 and 334, CHEM 111, 113, 227 and 228.

Clinical Research Course Listing (CLNR 000)

324 Experimental Design & Biostatistics (4)

This course is intended to provide students with the basic knowledge of descriptive statistics, probability theory, hypothesis testing, and other selected statistical methods including parametric and non-parametric tests for differences in central tendency, paired comparisons, simple linear regression and one-way analysis of variance. Also discussed is the importance of appropriate statistical design in the development of experimental protocols. Course is co-listed as PHSC and PHAR 528.

RELG 348 Medical Ethics (3)

This course is a study of medical ethics from a Judeo-Christian perspective. The first part of the course examines approaches to making ethical decisions and various philosophies of medical ethics. Part two analyzes specific issues relating to birth and death. The third part investigates pharmaceutical ethics and issues related to clinical research.

362 New Drug Development (1.5)

This course provides an overview of the broad field of new drug development. While primarily designed to give students the basic knowledge required for subsequent courses in clinical research, it will also support the students' consideration of subsequent career choices. The course will cover the process of drug development from early research, discovery, and product formulation, through the requirements for proving safety and efficacy. Marketing and promotional considerations necessary for the successful introduction of a product into the marketplace will be discussed, as will the external influences that may alter the drug development process in the global market place of the twenty-first century.

410 Pharmacokinetics (2)

This course is designed to provide the student with an understanding of basic, clinically applicable pharmacokinetic formulas and the assumptions that are involved with their use in therapeutic drug monitoring. This course is co-listed as PHAR 410. Prerequisite: Permission of instructor.

416 Senior Seminar (1)

Senior Seminar provides a forum through which students chronicle their internship experience. Students present an overview of the clinical site at which they worked and provide a synopsis of their role in the organization. The student will present his/her findings from the internship to the faculty and students. Prerequisite: CLNR 420.

420 Senior Internship (14)

The internship provides practical experience at one or more clinical research sites. Students and participating institutions are matched to provide a comprehensive work experience. Prerequisite: CLNR 558 or permission of instructor.

442 Interpersonal Skills (2)

In this course, students will learn about the various factors involved in developing good interpersonal skills including: self-awareness, understanding individual differences, goal setting, listening and feedback, teamwork, leadership development and motivating others, delegation, negotiation, conflict resolution, interviewing, and presentation skills. This course will provide a forum for group discussions and team exercises.

450 Data Management (2)

This course covers topics such as the role of data management in clinical trials and the duties of the Clinical Data Coordinator. Topics include organization, collection, review, and tracking of data. Coding of adverse drug experiences, drugs and disease states, and standardized terminology are also considered.

PHSC 451 Scientific & Technical Writing (1)

The roles and responsibilities involved in scientific and technical writing are discussed in terms of types of reports and other documents that will be encountered. Examples from relevant practice settings are reviewed in class and practical exercises presented with opportunities for developing and critiquing assignments.

453 Introduction to Clinical Research (1.5)

This course will provide a broad understanding of Clinical Research- definition, methodology, conduct and applications. The course will explore basic elements of clinical research including the hierarchy of clinical trials, clinical trial design, clinical trial conduct, and safety surveillance. Application of clinical trial knowledge to specific medical practice issues will also be explored.

458 Managing & Monitoring Clinical Trials I (2)

This course is the first in a two-semester sequence designed to provide a theoretical and practical overview of the principles of managing and monitoring clinical trials. The purpose of this course is to provide students with a comprehensive understanding of clinical trial methodology in order to prepare them for a career in clinical research. The multiple practice environments in which clinical research is conducted will

be described and the various roles of involved personnel will be discussed. This course will cover clinical protocols and data collection strategies (e.g. case report forms), and an overview of regulations relevant to clinical trials including responsibilities of sponsors, investigators, institutional review boards (IRBs), and contract research organizations. In addition, students will become familiar with Good Clinical Practices (GCPs), Standard Operating Procedures (SOPs), the quality assurance process (QA), and FDA audits. Prerequisites for this course are CLNR 362 and CLNR 453.

462 Preclinical Drug Development (2)

This course provides students with an overview of the process of classical and modern drug development. The course will also provide a perspective of the interaction of research, development and marketing activities in a regulated environment. Particular emphasis is placed on promising approaches expected to lead to novel therapies and drug delivery systems within the next decade. A focus on illustrating future therapeutic targets and drug delivery systems is included. Prerequisite: CLNR 362.

474 Biopharmaceutics (3)

This course presents the biological and physiochemical factors of the body, drugs and dosage forms that influence drug availability, disposition, and pharmacological and toxicological responses. This course is co-listed as PHAR 314. Prerequisite: Permission of instructor.

479 Physical & Clinical Assessment (2)

This course is designed to introduce students to the basic principles and techniques of history taking and physical examination. Students in this course have an opportunity to develop the skills necessary to adequately follow the patient using physical assessment parameters and to monitor drug therapy when appropriate. Prerequisite: Anatomy and Physiology.

504 Special Research in Clinical Research (1 to 3)

The purpose of this elective course is to introduce the pharmacy student to methods of basic science and/or clinical research. This involves application of the scientific processes of hypothesis formation, literature evaluation, experimental design, development of teaching skills, data acquisition and analysis, and formal presentation of results.

Computer Information Systems

Associate Professor: Mr. Varma (Chair)

Assistant Professor: Dr. Tehrani

Requirements for a Major in Computer Information Systems (BBA) (CIP 52.1201)

ACCT 213, 214; BADM 221, 222, 300, 313, 314, 331, 336; CIS 101, 125, 235, 241, 250, 275, 325, 342, 345, 351, 420, 452, 462, 470 or 490; ECON 223, 224, 453.

Requirements for a Major in Computer Information Systems (AA) (CIP 52.1201)

ENGL 101, 102; MATH 111, 160; HIST 111, 112; ART or MUSC 131; one Natural Science course; RELG 125; EXER 185 and one EXER activity course; ACCT 213, 214; CIS 125, 235, 241, 250, 345, 351; ECON 223, 224.

Computer Information Systems Course Listing (CIS 000)

101* Introduction to Programming Using C++ (3)

This course is intended to provide the students with the basic concepts of C++ programming language. The evolution of the language, its constructs, and its use in the marketplace today will be examined and discussed. Additionally, platform differences and new trends in the language will also be covered. Programming assignments will be an integral part of this course. Prerequisite: None

125 Introduction to Computers (3)

A study of the fundamental components and the operational capabilities of a computer system; the computer as a resource in business organizations; the general function and purpose of the microcomputer productivity tools; the use of word processing, electronic spreadsheet, data management software, and presentation program. Emphasis is given to the lab assignments and hands-on experience. Prerequisite: None

235* Internet Applications (3)

Students will learn WWW environment, servers, browsers, and search techniques. Major topics include Web page design, Web-based multimedia/graphics, CGI, Java Script, VBScript, DHTML, Active-X Controls, CSS, and XML programming. Database applications using WWW will be discussed. New Internet technologies will also be covered. Prerequisite: CIS 101 or CIS 125.

241 COBOL Programming-I (3)

Introductory COBOL programming involves writing application programs for common business processes associated with EDP and reporting systems. Structured programming and fundamental language concepts will be emphasized. Prerequisite: CIS 125.

250 Visual Basic Programming (3)

This course provides the skills and knowledge required to fully exploit the features and capabilities of Visual Basic. The students will develop real-world Windows applications and integrate them using OLE and other advanced techniques. It is a good start for software developers, analysts, and programmers who want to prototype, build and/or integrate Windows-based applications using Visual Basic. Prerequisite: CIS 235.

275 Advanced Programming Using C++ (3)

This course includes the implementation of components of an object-oriented language, including

information hiding, data abstraction, and inheritance. The topics covered are fundamentals of C++ Programming arithmetic operations in object-oriented programming, program control, functions, arrays, elementary structures and other user-defined data types, classes, derived classes and streams. Students are expected to develop real-life business applications in C++. Prerequisite: CIS 101

325* Object Oriented Programming with JAVA (3)

In this course students will use JAVA tools and techniques to build content-rich applications. JAVA APIs to develop GUI applications and JAVA applets with interactivity, graphics, animation, sound and professional GUI design will be discussed. Object-oriented techniques will be applied to build applets and Windows applications. Prerequisite: CIS 235

342 COBOL Programming-II (3)

Advanced programming concepts in COBOL would include array processing, table handling, file processing, report writer, and object-oriented programming. Business applications with extended scope and complex data structure is emphasized. Students prepare programs from applications commonly encountered in business and industry. Prerequisite: CIS 241.

345 Database Management (3)

The structure, design, and development of databases are investigated with emphasis on using the database management software as an integral component of an information system. Emphasis is given to relational databases, object-oriented databases, client-server databases, enterprise data modeling, Internet database environment, and data warehousing. Prerequisite: any one of the following courses - CIS 241, 250, 275 and 325.

351 Systems Analysis (3)

The analysis and design of business systems. The students will learn the concepts involved in SDLC approach used in system design and development including all aspects of the analysis, design, implementation, and evaluation of a computer system. Use of CASE software will be emphasized. Prerequisite: any one of the following courses - CIS 241, 250, 275 and 325.

420 Data Communications (3)

The concepts of data communications using OSI model. The protocols and the technologies associated with each layer will be covered. Emphasis will be given to network design/development, Internet/Intranet, TCP/IP, Physical Layer, Data Link Layer, Network Layer, LAN, WAN, MAN, High-Speed LANs, network security, and network management. Prerequisite: CIS 345 or CIS 351.

452 Computer Information Systems Management (3)

The course includes management of enterprise information infrastructure and the deployment of its components. These components include EDP, management reporting, DSS, Electronic Commerce, EDI, Supply Chain Management, ERP, Intelligent Support Systems, Data Warehousing/Mining, BPR, Knowledge Management, IT planning, and information security. Prerequisite: CIS 420

462 Computer Information Systems Design Project (3)

Students are provided with the opportunity to function in a more realistic business environment. The project will require students to apply their classroom knowledge to design and develop a project using structured systems development methodology. Systems flow charts, data/process models, forms design, report specifications, programming, and documentation would be produced. The systems development life cycle (SDLC) will be used to identify and complete various phases of the project. Students will submit a comprehensive report and present it in the class with supporting documentation for final evaluation. Prerequisite: Completion of all CIS courses.

470 Research Topics (3)

This course is designed to give students an opportunity to develop skills in one or more areas of Computer Information Systems. These areas may include problem solving using systematic approach, systems

analysis and design techniques, data communication, decision-making techniques, applications development in business environment, programming techniques, database development, information retrieval, and E-commerce. Students will expand the scope of problem solving from a programming to a systems viewpoint. Prerequisite: Completion of all CIS courses and superior academic performance in all programming courses, Database Management (CIS 345), Systems Analysis Design (CIS 351), and Data Communication (CIS 420).

480 Professional Development Series (3)

This course provides a certification program for seniors using a CIS elective as a placeholder for various certificates such as A+, Network+, and i-Net+. The course will allow seniors to earn 3 semester hours of elective. *The external exam is mandatory in this course.* The course will normally be offered on Saturdays with intensive on-line and hands-on laboratory assignments. The enrollment will be limited to the CIS seniors. Prerequisite: All required CIS courses must have been completed with superior academic performance.

490 Internship (3)

This course provides students with productive, on-the-job experiences and/or special assignments, which help bridge the gap between the academic and business world. Students will work in an organization independent of the University. Students doing an internship are required to meet with the supervising instructor at least once per week on campus to discuss their progress. The supervising instructor will closely monitor the progress of an intern and evaluate his or her experience in accordance with the stated objectives. The employer will complete a monthly/overall performance evaluation form. The supervising instructor will review these forms for final grades. Strict standards are applied, and the Department Chair and the employer must approve the internship. Prerequisite: Juniors and seniors with an overall grade point average of 2.0 or greater and superior academic performance.

* These courses are cross-listed with Computer Science curriculum.

Computer Science

Professors: Dr. Norwood (Chair), Dr. Taylor

Associate Professors: Dr. Kiu, Mr. Thomas, Mrs. Todd

Assistant Professors: Miss Walker

Adjunct Faculty: Mr. Wong, Dr. Yang, Mr. Zhang

Requirements for a Major in Computer Science (CIP 11.0101)

The candidate must complete 36 hours of computer science courses including Computer Science 101, 102, 211, 212, 311, 340, and 411 with a "C" average or better. The candidate must have courses in a second approved computer language and complete Mathematics 122, 223, and 335. Recommended Mathematics 224 and 333. Students may receive advanced placement.

Requirements for a Minor in Computer Science

A candidate must successfully ("C" average or better) complete Math 122 and 18 hours of computer science courses containing CSC 101, CSC 102, CSC 211, CSC 212, CSC 311, and a second computer language.

Those students who inform the Mathematics/Computer Science Department of their intention to minor in Computer Science prior to the completion of 9 semester hours of Computer Science courses will receive a programming certificate when they successfully complete all requirements of the minor.

Computer Science Course Listing (CSC 000)

101 Introduction to Computer Science (3)

This course is intended to provide the student with the basic concepts of compilers and the beginning principles of a scientific programming language. The course will cover up to and include multidimensional arrays. (Current language is C++).

102 Intermediate Programming Concepts (3)

A continuation of CSC 101, this course emphasizes program design. Topics covered include string handling, pointers, and files. Prerequisite: CSC 101 or equivalent

211 Assembly Language (3)

This course covers computer organization, operation, and data representation. Emphasis will be on writing programs in an assembly language. Prerequisite: CSC 101.

212 Operating Systems (3)

This course covers the development of operating systems, CPU scheduling, memory management, file systems, disk scheduling, I/O devices, processing of data sets. Prerequisite: CSC 211.

273 Introduction to PASCAL (3)

An introduction to the basic concepts of programming in PASCAL.

280 Visual Basic Programming (3)

This course examines the basic concepts of the Microsoft Visual Basic programming language and the associated visual development environment. A powerful Rapid Application Development (RAD) package, VB has fast become an industry standard for application development in the Microsoft Windows™

desktop environment. Programming assignments to demonstrate proficiency with the concepts introduced will be a key part of this course.

311 Data Structures (3)

This course covers algorithms associated with data structures. Topics include list, stacks, queues, arrays, strings, trees, double-linked list, and multi-linked structures. Prerequisite: CSC 102.

325 Object Oriented Programming – Java (3)

This course will cover programming in the Java Language, the language of the Internet. The course will cover a history of the rapid development of Java as a computer language for "write once, run anywhere".

326 Java Programming II (3)

This course introduces the advanced techniques in Java programming. The Java Foundation Classes and extension packages will be discussed in this course. Advanced techniques and issues of multithreaded programming in Java will also be discussed. Prerequisite: CSC 325.

331 Programming in the World Wide Web (3)

This course introduces the cutting edge technologies in the World Wide Web. Latest technologies and standards related to HTML and XML will be discussed. Java Server Page (JSP), Java Servlets, and programming techniques for application development on HTTP servers will be explored. Also discussed will be web client side programming, such as Javascript, Simple Object Access Protocol (SOAP) and SML Protocol (SMLP) will be introduced. Prerequisite: CSC 325.

335 Operations Research (3)

An introduction to the methods and procedures of operations research. Topics include statistical analysis, simulation, mathematical modeling, probability theory, and reliability.

340 Discrete Mathematics (3)

This course covers the following topics: sets, symbolic logic, relations, functions, mathematical induction, recurrence equations, trees, spanning trees, and graph theory.

361 Unix System Management (3)

CSC 361 provides the student with an overview of the UNIX Operating System and the fundamentals to managing a UNIX-based environment. This course will discuss the history of UNIX and the various versions in the market today. File systems, users, devices, hardware management, and network functions will be explored. An IBMRS6000 server will be used to demonstrate all topics discussed in class and will be available for use by the students to explore the unix world on their own. Prerequisite: An understanding of operating systems in general. Familiarity with C programming will be a plus.

376 Introduction to Numerical Methods (3)

Concerned with the practical solution of problems on computers

383. Data Communications (3)

Concepts of communication networking, including connection-oriented and connectionless, layered architecture, clients & servers, packet switching LAN, WAN.

385 Internetworking with TCP/IP (3)

This course introduces the basic concepts of internetworking. The basic architecture of the Internet will be discussed. Several protocols of the TCP/IP protocol suite will be introduced. Internetworking techniques using TCP/IP sockets will be discussed.

410 Object Oriented Programming (3)

An in depth study of the methods of object-oriented programming using Visual Age C++.

411 Computer Organization and Logic (3)

This course covers the following topics: logic circuits, organization of computer components, and computer systems.

412 Theory of Programming Languages (3)

A comparison of existing programming languages including the design and structure of the programming languages.

420 Data Warehousing and Data Mining (3)

This course introduces the basic concepts of data warehousing and data mining. Data warehouse is an enterprise-wide database architecture that has a big impact on decision support systems and online analytical processing (OLAP) systems designs. This course will also discuss different methods used in data mining, a fast growing discipline that tries to discover information from a huge amount of data.

430 Introductions to Artificial Intelligence and Expert Systems (3)

This course introduces the basic concepts of artificial intelligence. Formalized symbolic logics, fuzzy logic and different probabilistic reasoning theories will be discussed in this course. This course will also introduce different architectures of expert systems. Knowledge representation and acquisitions methods will also be discussed.

450 Selected Topics (3)

Selected Topics is a course established at the request of the student and faculty member to cover a topic that is not found in another course.

470 Internship (3)

This course requires 130 hours work in a related field with approval prior to beginning work.

Economics

Professor: Dr. Hsiao, Dr. Mostashari (Associate Dean), Dr. Zinkhan (Dean of Business School)

Associate Professor: Dr. Broadhurst (Chair), Dr. Smith

Assistant Professor: Dr. Harriss, Dr. Ruble, Dr. Yonai

Instructor: Mr. Ballard

Requirements for a Major in Economics (BS) (CIP 45.0601)

ACCT 213, 214; BADM 300, 314, 345; CIS 125, 235; ECON 223, 224, 333, 334, 453, 459 and twelve semester hours of economics. Electives must be selected from junior and senior-level courses. In addition to the above electives, the student must complete MATH 122.

Requirements for a Major in General Economics (AA) (CIP 45.0601)

CIS 125; ECON 223, 224, and six hours of economics electives selected from 300 and 400 level courses; ENGL 101, 102, and any one of 201, 202, 203, or 204 courses; PE 111 or 112, 185; Fine Arts 131; six semester hours of Government/Sociology electives; HIST 111, 112; MATH 111, 160; RELG 125; one laboratory science course from Biology, Chemistry, Environmental Science, or Physics; nine semester hours of unrestricted electives.

Economics Course Listing (ECON 000)

223 Macroeconomics (3)

A study of the national economy with emphasis on economic institutions, determination of national income, economic fluctuations, functions of money and banking, the economic role of government, labor problems, international trade, and economic growth.

224 Microeconomics (3)

A study of the individual business firm, with emphasis on an analysis of demand, supply, and costs; production and pricing under various market conditions; allocation of economic resources and determination of the shares of the national income paid to the different factors of production.

333 Intermediate Economic Theory (3)

Analysis of the determination of prices and of market behavior including demand, costs and production, pricing under competitive conditions, and pricing under monopoly and other imperfectly competitive conditions. Prerequisites: ECON 223 and 224.

334 Money, Income, and Employment (3)

A study of the method and concepts of national income analysis with particular reference to the role of monetary and fiscal policy in maintaining full employment without inflation. Prerequisites: ECON 223 and 224.

357 Public Finance (3)

A study of the revenues and expenditures of federal, state, and local government with an analysis of the types of taxes and expenditures, and of government policy and its impact on full employment, economic growth, and national income. Prerequisites: ECON 223 and 224.

448 International Finance (3)

Topics include foreign exchange markets, exchange rate determinations, balance of payment problem, open macroeconomic policy and international financial organization. Prerequisites: ECON 223 and 224.

449 International Trade (3)

A study of positive and normative theories of international trade. Topics include: Determinations of international trade, welfare implications of international trade, commercial policies, and economic integration. Prerequisites: ECON 223 and 224.

453 Money and Banking (3)

The function and development of money, credit, and banking, with emphasis on the Federal Reserve System and its policies for maintaining economic stability. Prerequisites: ECON 223 and 224.

454 Labor Economics (3)

An economic analysis of labor-market conditions and labor-related issues including unemployment, wage determination, working hours, trade unions, and government policy. Human capital theory is also introduced. Prerequisites: ECON 223 and 224.

455 Comparative Economic Systems (3)

Comparative analyses of the economic theories, institutions, and operation of communist, socialist, fascist, and capitalist systems. Prerequisites: ECON 223 and 224.

456 History of Economic Doctrine (3)

A survey of the development of economic thought from ancient times until the present, the relation of economic doctrines to the problems of the period, and to the other sciences. Prerequisites: ECON 223 and 224.

459 Senior Seminar in Economics (3)

Selected topics with small classes. Prerequisites: ECON 223 and 224.

460 Independent Study (3)

Offered with permission of department chairman.

490 Economics Internship (3)

Economics-related employment experience with an approved organization. Related term paper required. Prerequisites: junior standing (at least), declared major in Economics, overall grade point average of 2.0 or greater, and completion of an independent study contract.

English

Professors: Dr. Vaughan (Chair)

Associate Professors: Dr. Davy, Dr. Peterman, Dr. Rambo, Dr. Tate

Assistant Professors: Dr. Waldron, Ms. Hanemann

Instructors: Mr. Salsbury

Adjunct Faculty: Ms. Davy, Mr. Stewart, Ms. Ramey, Ms. Jefferds, Ms. Wiggins, Ms. Cannady, Mr. Davis

English Requirements in the General College Curriculum

All students must complete ENGL 100-102 (Freshman Composition) and 6 hours of 200-level courses in British or American literature. ENGL 101 (or equivalent placement) is a prerequisite for ENGL 102, and ENGL 102 is a prerequisite for all English courses numbered 201 and above. Students may take the 200-level courses in any order and combination, but it is recommended that they be taken in the appropriate sequence. Entering freshmen may exempt ENGL 100 by a verbal SAT score of 450 or better. ENGL 101 may be exempted with a verbal SAT score of 700 or better and combined with a 3.5 or better in high school English.

Requirements for the Bachelor of Arts Degree with a Major in English (CIP 23.0101)

The English major is designed to give the student a broad historical perspective of British and American literature. The student majoring in English can be a general English major, or may take additional courses in order either to gain licensure to teach or to complete the Pre-Law Track. The general English major must complete the following:

- A. ENGL 100 (or exemption)
ENGL 101 (either exemption or equivalent placement)
ENGL 102
(i.e. normally 6 hours)
- B. ENGL 201
ENGL 202
ENGL 203
ENGL 204
(i.e. 12 hours: 6 hours count toward the core requirements and 6 hours count in the English major)
- C. One of the following:
ENGL 301 (Creative Writing)
ENGL 302 (Advanced Writing)
ENGL 303 (Advanced Grammar)
ENGL 424 (Rhetoric and Persuasion)
- D. At least three period surveys of British literature:
ENGL 401 (Medieval Literature)
ENGL 403 (English Renaissance Literature)
ENGL 404 (Eighteenth-Century Literature)
ENGL 405 (Romantic Period)
ENGL 406 (Victorian Period)

- E. Either one of the following:
ENGL 407(Nineteenth-Century American Literature)
ENGL 415(History of American Fiction)
- F. One course in the Twentieth-Century:
ENGL 408(Twentieth-Century Literature)
ENGL 416(Mod./Cont. Fiction)
ENGL 417(Mod./Cont. Poetry)
- G. ENGL 410(Shakespeare)
- H. Either one of the following:
ENGL 409(Chaucer)
ENGL 411(Milton)
- I. Two electives from the upper level grammar writing, or British or American literature courses.

All students majoring in English must complete a minimum of 42 hours in English beyond ENGL 102 with a "C" or better in all English courses. It must be stressed that 42 hours is the minimum and that the English major is encouraged to use electives to broaden his/her experience in literature and writing.

Requirements for Teacher Licensure Track (CIP 13.1305)

The English/Education track differs from the general English major in that ENGL 302 (Advanced Writing) and ENGL 303 (Advanced Grammar) must both be taken to complete the licensure process; these courses may also be used to help satisfy English major requirements (C) and (H). The student also must take the Methods in Teaching course (ENGL 453), although it cannot be applied to the elective requirement (H) for the English major. The English/Education track must also maintain a 2.5 grade-point average in the major courses, including (I), and complete the licensure requirements of the School of Education.

Requirements for English Pre-Law Track (CIP 23.0101/22.0001)

The English Pre-Law Track is a writing-intensive track geared toward preparing the English major for the study of law. In this track some of the core curriculum courses are required or highly recommended, some English requirements are changed, and specific government/history courses are required. These courses can also be used to meet the requirements of the core curriculum.

The core requirements recommended or required are: three of the sophomore level courses rather than the four required for the other two tracks: Latin, Greek, or German (recommended); RELG 224 (required); PHIL 221(required); HIST 221-222 (required).

The English courses beyond the core courses are:

ENGL 302 (Advanced Writing)
ENGL 303 (Advanced Grammar)
Three courses chosen from 401-6
ENGL 407 (19th Century American Literature) or ENGL 415
(History of American Fiction)
ENGL 408 or ENGL 416 or ENGL 417
ENGL 409 (Chaucer) or ENGL 411 (Milton)
ENGL 410 (Shakespeare)
ENGL 424 (Argument and Persuasion)

The specific government/history courses are:

GOVT 229 (National Government)
 GOVT 449 and Government 450 (Constitutional Law I and II)
 GOVT 443 or 445 or 446 or 447 (Political Thought)
 GOVT 451 (Seminar on Constitutional Law)

Requirements for a Minor in English

The minor in English requires a minimum of 21 hours of English beyond the core requirements. As in case of the major, the student seeking a minor in English must have a "C" or better in all English courses. The student must take English 410 (Shakespeare) and either English 409 (Chaucer) or English 411 (Milton). Five more courses must be selected from the English 300, 400, and 500 level offerings.

English Course Listing (ENGL 000)

100 English Fundamentals (3)

A review course in English fundamentals without the extensive essay writing of English 101.

101 English Freshman Composition I (3)

A course designed to teach the student mechanical and rhetorical skills required for composition at the college level.

102 English Freshman Composition II (3)

A course designed to enhance writing, research, and reading skills directed toward literary analysis. Prerequisite: English 101.

201 British Literature I (3)

A survey of British literature from *Beowulf* through the Eighteenth Century. Prerequisite: English 102.

202 British Literature II (3)

A survey of British literature from the romantic period through the Twentieth Century. Prerequisite: English 102.

203 American Literature I (3)

A survey of American literature from the colonial period to 1865. Prerequisite: English 102

204 American Literature II (3)

A survey of American literature from 1865 to the present. Prerequisite: English 102.

205 World Literature I (3)

A survey of world literature, primarily in western culture, to the seventeenth century.

206 World Literature II

A survey of the diverse literatures of the world, focused by the instructor.

301 Creative Writing (3)

A course designed to intensify the student's practice of writing poetry and fiction and, therefore, enhance the critical skills and appreciation of all literature. Open to all students.

302 Advanced Writing (3)

A course designed to improve the student's writing skills beyond those taught at the lower division level.

303 Modern Grammar (3)

An examination of traditional and modern grammars.

401 Medieval Literature (3)

An exploration of Medieval literature prior to 1500 and exclusive of Chaucer.

403 English Renaissance (3)

An analysis of the prose and poetry from the late sixteenth century through 1660. Exclusive of Milton poetry and of Shakespeare's dramatic works.

404 Eighteenth-Century Literature (3)

An exploration of the literature from the Restoration through the beginnings of Romanticism.

405 Romantic Poetry and Prose (3)

An examination of the major poets and prose writers and their sources.

406 Victorian Literature (3)

An exploration of the major post-Romantic literature of the Nineteenth Century and its relationship to the social concerns of the day.

407 Nineteenth-Century American Literature (3)

A probing of major literary examples of the American mind in the Nineteenth Century.

408 Twentieth-Century Literature (3)

A survey of the major writers and movements in British and American literature from World War I through World War II.

409 Chaucer (3)

A study of the major poems of Chaucer in their historical and literary contexts.

410 Shakespeare (3)

A study of representative Shakespeare plays, criticism of his plays, Elizabethan theater, and the history of the period.

411 Milton (3)

A study of the representative works of Milton in their historical and literary contexts.

412 The Lyricist (1,2,3 credit hours per semester)

A total total of 6 credits to be counted toward the B.A. A course designed to teach students how to judge poetry, how to edit a quality-oriented small magazine, and how to use desk-top publishing methodology. Prerequisite: instructor's approval.

413 English Drama (3)

An examination of English drama from the Medieval period through the present.

414 History of the British Novel (3)

A study of representative novels of the Eighteenth and Nineteenth Centuries.

415 History of the American Novel (3)

A study of the distinctly American qualities of fiction, with emphasis on the novel as it developed between 1800 and 1914.

416 Modern/Contemporary Fiction (3)

A course probing the works of representative prose fiction writers active since World War II, with a primary emphasis on the Americans writers.

417 Modern/Contemporary Poetry (3)

A course probing the works of representative poets since World War II, with a primary emphasis on American writers.

418 Southern American Literature (3)

A survey of representative writers of the South.

419 Seminar (3)

Specialized topics in British literature, art, and society; American literature, art, and society.

420 Independent Study (3)

An independent study based on the student's interests or need of specific courses.

422 History of Criticism (3)

A study of the literary critics and methodologies from Aristotle to the present day.

424 Rhetoric and Persuasion

An intensive study of the development and presentation of argument in writing.

453 Methods in Teaching English (3)

A course designed to teach how to teach English.

498 Honors Course (3)

A course consisting of heavy reading assignments from the Recommended Reading List. The work will be done over more than one semester with selected teachers. The number of units awarded in the final semester will depend on the agreement reached between the major professor and the student.

499 Honors Thesis (3)

A specific research project of a writer, era, idea, or work. The Honors Thesis will be done in the senior year and will be viewed as an introduction to graduate work.

Exercise Science

Professor: Dr. Freeman (Chair)

Associate Professors: Dr. Bergemann, Dr. Woolard

Assistant Professor: Ms. Watkins

Instructors: Mr. Baker, Ms. Weiss

Adjuncts: Ms. Ellis, Dr. Williamson

Exercise Science and the General College Curriculum

The Department offers a diverse selection of activity courses as well as teaching-, science- and business-oriented major programs to prepare students for work in the sport, fitness, and wellness fields. Each major program includes cognate courses in other departments and offers on-site work experiences as part of the program.

All non-majors must take PE 185 and 1 semester hour of activity courses (PE 111 or 112) to meet their General College requirement. All students in PE 185 classes must wear the designated uniform and shoes appropriate to the activity. Uniforms may be purchased at the bookstore.

PE 185 Lifetime Wellness (2)

Required of all non-majors. Guides the student in leading a healthier life. Classroom lectures cover topics that include nutrition, the relationship between fitness and wellness, cardiovascular disease risk management, cancer risk management, stress management techniques, AIDS and sexually transmitted diseases, smoking cessation, cardiovascular assessment and exercise prescription, body composition assessment and weight control, and other relevant wellness and fitness issues. Lectures are supplemented by laboratory and exercise activities. Prerequisite: A completed physical examination on file at the Infirmary.

PE 111-112 Elective Activity Courses (1)

One semester hour required of all non-majors. Emphasis on developing skills to enjoy and gain health benefits from the activity. The following activities are offered at the beginning level, and some are offered at the intermediate and/or advanced levels. New courses will be added to reflect student interests. Lab fees may be charged for some courses.

Aerobic Dance, Badminton, Dance (Aerobic, Social, Square), Golf, Jogging, Lifeguard Training, Scuba Diving, Self Defense, Skiing, Softball, Strength Training, Swimming, Tennis, Volleyball, Walking Fitness, and Water Safety Instructor.

Any individual unable to participate successfully in either a walking program or a jogging/walking program may meet the General College physical education requirement by taking EXER 202. The request for this exception is made through the University Infirmary to the Department Chairman.

Department & Course Descriptions Majors in the Exercise Science Curriculum

Athletic Training
Exercise Science
Fitness Wellness Management
Physical Education
Physical Education with Teacher Licensure

Physical Education and Athletic Training with Teacher Licensure Sport Management

The Department has printed copies of the course requirements and details of each major program. It is available at Carter Gym, Room 100. The summarized course requirements for each program are as follows:

Athletic Training Major (CIP 51.0913)

EXER 201, 221, 311, 312, 313, 321, 326, 412, 423, 424, 425, 426, 432, 433.

Exercise Science Major (CIP 31.0505)

EXER 201, 221, 321, 326, 333, 421, 425, 426, 431, 432, 450, 452, 461, 492. Cognate: CHEM 111, 113; PHYS 221, 222; PSYC 232. Recommended: MATH 122, EXER 490 or 494.

Fitness Wellness Management Major (CIP 31.0599)

EXER 131 or 185 & 111/112; 201, 202, 221, 311, 321, 326, 338, 425, 426, 431, 432, 450, 452, 461, 492. Cognate: ACCT 213; BADM 221, 313, 331, 332; ECON 224; PSYC 232. Recommended: EXER 494.

Physical Education Major (CIP 31.0501)

EXER 131, 201, 202, 221, 321, 421, 425, 426, 431, 432, 9 s.h. EXER electives at 300-level or higher. Cognate: 18 hours in another field (Business or Science recommended. See your adviser).

Physical Education Major with Teacher Licensure (CIP 13.1314)

EXER 131, 132, 201, 202, 221, 311, 325, 331, 333, 338, 339, 425, 431, 432, 441; EDUC 221, 385, 431; PSYC 260; Teaching Block (EDUC 441, 453, 454, 458). Recommended: EXER 321 and 336. See adviser for other requirements.

Physical Education and Athletic Training Majors with Teacher Licensure (CIP 13.1314/51.0913)

EXER 131, 132, 201, 202, 221, 311, 312, 313, 314, 321, 326, 331, 333, 338, 339, 412, 424, 425, 426, 431, 432, 441; EDUC 221, 385, 431; PSYC 260; Teaching Block (EDUC 441, 453, 454, 458). Recommended: EXER 336. See adviser for other requirements.

Sport Management Major (CIP 31.0504)

EXER 201, 221, 230, 321, 325, 336, 421, 431, 432, 461, 462, 6 s.h. EXER electives at 300-level or higher. Cognate: ACCT 213; BADM 221, 313, 331, 332; ECON 224; THEA 115; PSYC 232. Recommended: EXER 494.

Minor in Sport Business Program Requirements:

EXER 201, 230, 431, 461, 462.

Exercise Science Course Listing (EXER 000)

131 Fitness for Majors (3)

Classroom lectures cover topics that include nutrition, the relationship between fitness and wellness, cardiovascular disease risk management, stress management techniques, cardiovascular assessment and exercise prescription, body composition assessment and weight control, and other relevant wellness and fitness issues. Lectures are supplemented by laboratory and exercise activities (stretching, weight training, walk/jog, dance exercise, swimming, cycling, racquet sports, e.g., tennis, badminton, racquetball, and outdoor activities). A swimming test must be passed as part of the course requirement. Prerequisite: A completed physical examination on file at the Infirmary.

132 Sport Skills and Principles (3)

Tumbling, Volleyball, Basketball, Soccer, Track and Field, and Softball.

EXER 131-132 are laboratory courses for physical education majors, with an emphasis on performance skill development. The instructors will integrate teaching progressions into the acquisition of skills. Classes meet six hours per week for the semester.

201 Foundations of Exercise Science (3)

An introduction to the Department's major courses of study. Overview of the professional areas of exercise science, physical education and sport, emphasizing historical, philosophical, and socio-psychological foundations and their implications for contemporary society. Includes the study of current issues, problems, ethical concerns, careers, and future directions of the field.

202 Lifetime Health (3)

Emphasis on the impact of personal health, fitness, and wellness in everyday lives within the school and community by participating in the proper exercise and nutritional programs. For majors only.

221 Computer Applications in the Exercise Sciences (3)

Introduces the application of technology in the practice and management of human fitness, wellness, and sport. Demonstrates the uses and value of types of hardware and software. Gives hands-on experience in using a variety of software applications, including word processing, spreadsheets, database operations, and major-specific software. For majors only.

224 First Aid and CPR (2)

The basic principles of first aid and the practical use of cardiopulmonary resuscitation when cardiac arrest is encountered. Students are certified for the one and two person procedure and reviving an infant. Includes proper use of the Heimlich maneuver for victims of choking. For majors and lifeguard trainees only.

230 History of American Sport (3)

Surveys the development of American sport from colonial times to the present day. Topics include the influence of the shift from an agrarian to an urban society, the search for the American character, the Olympic Games (ancient and modern), the end of amateurism in sport, sport as politics, the drug crisis, the impact of technology on sport, and the shift to the professional marketing and entertainment model by the end of the 20th century. Cross-listed as HIST 230. Counts as Social Science elective. Offered in even years (2004, 2006), Spring. Prerequisite: HIST 111-112.

241-247 Theory of Coaching (2)

Methods and materials of seasonal planning, training, officiating, and game strategy in each sport. Offered on request.

241 Baseball

243 Basketball

244 Soccer

245 Softball

246 Track and Field

247 Volleyball

311 Care and Prevention of Athletic Injuries (3)

Provides a basic introduction to the concepts, skills, and techniques used in the prevention and care of common athletic injuries. Prerequisite: BIOL 221 with minimum grade of "C".

312 Lower Extremity Evaluation and Assessment (3)

Theory and practice combine to provide a realistic approach to orthopedic joint evaluation and assessment. Lower extremity joints are investigated. Provides information needed to recognize, test, and assess

orthopedic conditions. Students are expected to have a working knowledge of anatomy. For majors only. Prerequisite: EXER 311 with minimum grade of "C".

313 Upper Extremity Evaluation and Assessment (3)

Theory and practice combine to provide a realistic approach to orthopedic joint evaluation and assessment of the upper extremity joints, including the abdomen and thorax. Provides information needed to recognize, test, and assess orthopedic conditions. Students will be expected to have a working knowledge of anatomy. For majors only. Prerequisite: EXER 311 with minimum grade of "C".

321 Sport and Exercise Nutrition (3)

This course covers the principles of sound nutrition for the exercising individual, the athlete, and the average individual in society. The physiological needs of the human body; the way that foods, vitamins, enzymes, and minerals are used; and the false information concerning nutrition, diet, weight loss, and enhancing human performance will be discussed.

325 Applied Biomechanics (3)

This course examines the mechanical principles underlying human movement. It is designed to give a non-mathematical, applied introduction to the analysis of sport skills for non-specialists. Cannot substitute for EXER 426.

326 Anatomical Kinesiology and Muscle Function (3)

This is a functional anatomy course that studies the human body's ability to move. The focus is on the skeletal, muscular, neuromotor control, structural, and functional aspects of human motion. Prerequisite: BIOL 221 with minimum grade of "C".

331 Motor Development (3)

An investigation of motor development as an important component of the foundation needed to understand human behavior as it relates to teaching, learning and performing motor skills. The course explains the motor development process and its impact on the acquisition and refinement of physical skills. Offered even years (2004, 2006), Fall.

333 Motor Learning (3)

An investigation of motor learning as an important component of the foundation needed to understand human behavior as it relates to teaching, learning, and performing motor skills. The course explains the process by which humans acquire and refine physical skills, as well as the stages of skill learning and development. Offered odd years (2003, 2005), Fall.

334 Elementary School Physical Education and Health Methods (3)

An investigation of the principles, practices, and procedures of teaching physical education in the elementary school with emphasis on curriculum development and methods and materials involved in teaching. For elementary education majors only.

335 Introduction to Athletic Administration (3)

An investigation of the administration of sports programs at the high school and college levels. Topics include governance structures, facility management, human relations, staff motivation, legal liability, scheduling, staffing program development, and other aspects of athletic management for physical educators, coaches, and athletic directors.

336 Sport Coaching Principles (3)

Basic principles of coaching youth sports from the elementary grades through the high school level. Includes an overview of philosophy and ethics, physiology, biomechanics, psychology, and sports medicine. Emphasis on providing a healthy, enjoyable sports experience at an appropriate level of training.

338 Adapted Physical Education (3)

Teaches the modification of physical activities for people with disabilities preventing their unrestricted participation in vigorous activities. Includes study of the social and psychological problems of mainstreaming. Field work with disabled persons required.

339 Movement Experiences for Children (3)

Studies the overall development of children in grades K-6. Emphasizes planning movement experiences based on individual needs. Includes observation and teaching experience in an elementary school. Offered even years, Fall (2004, 2006).

412 Medical Conditions and Topics in Athletics (3)

Provides an overview of non-orthopedic medical conditions that may affect athletic participation, including: skin disorders, eating disorders, anemia, diabetes, asthma, closed head injury, systemic conditions, blood-borne pathogens, and emotional stress. Also discusses administrative concerns in athletic training. For majors only. Prerequisite: EXER 311 with minimum grade of "C".

420 Sport Marketing (3)

Studies the theory and application of marketing to the sport and sport business settings. The emphasis is upon real-world application and examines both service- and product-related educational and business applications.

421 Sport Psychology (3)

The psychological foundations that underlie sport and physical performance, with the emphasis on application rather than theory. Includes motor skill learning, motivation, social interaction, mental training, and the effects of stress, injury and burnout. Examines goal setting, characteristics of peak performance, relaxation, imagery training, and implementing psychological training programs. Offered even years (2004, 2006), Fall. Prerequisite: PSYC 222.

423 Exercise Therapy (3)

Discusses the principles and techniques of rehabilitation, therapeutic modality applications, conditioning, and the return of individuals to sport. Topics will include pain theory and control, proprioceptive neuromuscular facilitation, joint mobilization, muscular strength and flexibility. For majors only. Prerequisite: EXER 311 with minimum grade of "C".

424 Therapeutic Modalities (3)

Examines the treatment of orthopedic injuries using thermotherapy, hydrotherapy, electrotherapy, and acoustic therapy. For majors only. Prerequisite: EXER 311 with minimum grade of "C".

425 Exercise Physiology (3)

Studies the response and adaptation of the body to exercise. Includes effects of diet, environmental conditions, and gender. Prerequisite: BIOL 221 with minimum grade of "C".

426 Biomechanics (3)

Studies the mechanics of motion applied to human movement and fitness and sport skills. Math 111 is recommended before taking this course. Prerequisite: BIOL 221 with minimum grade of "C".

431 Program Management (3)

Studies the principles of managing physical education, intramural, and athletic programs, and sport and fitness businesses. Topics include facility management, human relations, staff motivation, legal liability, scheduling, staffing, and related duties of facility managers, physical educators, athletic directors, and coaches.

433 Administration of Athletic Training Programs (3)

Studies the standards, policies, procedures and problems of managing athletic training programs for high schools, colleges, and professional organizations. For majors only.

432 Research Methods in Exercise Science (3)

Introduces design and application of research projects measuring cognitive, affective and psychomotor performance. Includes use of statistical procedures and interpretation of published research in the discipline. Prerequisites: MATH 160 with minimum grade of "C".

441 Secondary Physical Education and Health Methods (3)

Covers the needs of students (Grades 7-12) in physical education and health. Students learn and analyze appropriate activities, plan instructional units, and develop yearly programs. Includes observation and teaching experience in a secondary school. Offered odd years (2003, 2005), Fall.

450 Design of Strength and Conditioning Programs (3)

Applies the study of bioenergetic, neuromuscular and cardiorespiratory physiology to the principles of designing strength and conditioning programs. Elite performance in various sports is examined for energy system, biomechanical and kinesiological factors. Offered in odd years (2003, 2005), Spring. Prerequisites: BIOL 221; EXER 326, 425.

452 Exercise Testing and Prescription (3)

The screening, testing and design of cardiovascular, strength, and other exercise programs for those who are at risk for Coronary Heart Disease or have a metabolic condition that requires special types of exercise prescription. Offered in even years, Spring (2004, 2006). Prerequisites: BIOL 221, EXER 425; current CPR.

461 Sport Entrepreneurship (3)

Studies the start-up process of the private sport-related business. Students work in teams with assigned and original ideas to analyze the potential for the enterprise, develop the business and marketing plans, and plan the process of acquiring financing. The emphasis is upon real-world application and examines both service- and product-related businesses. Prerequisite: Senior year.

462 Advanced Sport Management (3)

A study of theory and its application in sport management, including topics such as basic management, personnel, ethics, communications, sport economics, accounting and budgeting, sport marketing, sports law, computer applications, research, and the future of sport management.

490 Directed Study (3)

On-campus study or research experience appropriate to the major course of study. Arranged through the Department Chairman. Requires permission of adviser and Chairman.

492 Practicum (3)

Beginning on- or off-campus work experience appropriate to the major course of study. Requires permission of adviser and Chairman.

494 Internship (6)

Supervised field experience in off-campus setting appropriate to the major course of study. Work is performed under a contract signed by the student, the Chairman, and a representative of the sponsoring organization. May be taken at any time in the calendar year, if arranged by the start of the appropriate academic term. Requires permission of adviser and Chairman.

496 Research Project (3)

Provides advanced students with the opportunity to conduct a worthy research project under the direction of an experienced researcher in the field. Prepares students for graduate and professional level research. The proposed study must be approved by the student's adviser and the Department Chairman.

Family and Consumer Sciences

Professor: Dr. Nery, (Acting Chair)

Associate Professor: Dr. Calloway

Assistant Professor: Unfilled

Adjunct Instructors: Ms. Bortz, Ms. King, Dr. Smith, Ms. Walker, and Ms. Wiggins.

Requirements for a major in Family Studies.

A candidate for the Bachelor of Science degree with a major listed below must satisfactorily complete the general college curriculum and courses specific to the major. A total of one hundred twenty eight (128) semester hours are needed for graduation.

Family Studies Major:

Core courses: FCSI 341 (education concentration substitute PSYC 260), 365, 401, 445, RELG/SOCI 340

Concentrations:

1. Child Development Concentration (CIP 19.0706)

FCSI 221, 337, 338, 340, 342, 373, 402, 454, 455, 490, 515, 530, 540, 551, Music 319 and 320. Electives (6 hours from FCSI 345, SOCI 345, 359, 360, 450; 6 hours from FCSI 111, 213, 227, 332).

Prepares students for careers in early childhood settings and agencies serving young children and their families.

2. Family Concentration (CIP 19.0701)

FCSI 221, 345, 454, 455, 490, 540, 551, DRAM 115, SOCI 360, Electives (6 hours from FCSI 337, 338, 340, 342, 373, 402, 515; 6 hours from FCSI 111, 213, 227, 332; 6 hours from FCSI 450; SOCI 226, 359, 345, PSYC 232, 260, 364)

Prepares students for careers that serve individuals and their families.

3. Family and Consumer Sciences Education Concentration (CIP 13.1308)

FCSI 111, 213, 227, 300, 332, 334, 402, 448, EDUC 221, 441, 431, 452, 453, 454, 458, electives.

Prepares students for licensure by the state of North Carolina to teach Family and Consumer Sciences in public school settings at both the middle and secondary levels.

Family Studies Minor:

The minor consists of 18 hours of credit. Requirements for the Family Studies minor include: FCSI 365, either FCSI 551 or SOC/REL 340, one of the following courses in Human Development EDUC 341 or PSYC 260. (Social work majors may use SOWK 350 and 351). The remaining nine hours will be selected from Family and Consumer Science courses as approved by the advisor.

Family and Consumer Sciences Course Listing (FSCI 000)

Family Studies:

111 Introduction to Foods and Nutrition (3)

A study of the scientific principles of food selection and preparation. Emphasis is on selection, purchasing, food preparation, storage, and preservation of foods. Laboratory work coordinated with lectures.

221 Food Service Management (3)

A study of procurement methods, principles and processes in food service. Includes discussion of purchasing activities and product information, selection of food service furnishings and equipment.

227 Nutrition (3)

A study of the fundamentals of human nutrition, with emphasis on nutrients and factors which affect their utilization in the human body.

213 Interior Environment (3)

A study of planning and furnishing houses from an aesthetic and functional standpoint. Practical problems of home planning in relation to family needs and income; the selection, construction, and use of furnishings exemplifying good taste and individuality are included.

300 Family and Consumer Sciences Secondary School Practicum (2)

Supervised classroom observation for ninety hours with an opportunity for experience in writing lesson plans, constructing assessment instruments, and assisting in the classroom in an approved middle or secondary school. For students whose concentration is in family and consumer science education.

332 Clothing Construction and Textiles (3)

A study of properties, composition, identification, and manufacturing procedures of textiles and construction techniques along with evaluation of garment construction. Laboratory experience involving the application of construction techniques including pattern selection, fabric selection, alteration, garment fit in addition to and care and use of textile products.

334 Methods/Curriculum Development (3)

A study of the principles of planning and evaluating the family and consumer science education curriculum with emphasis on time management. Instructional planning and behavior management. The selection, development, and use of methods and materials appropriate for teaching family and consumer sciences in grades 7-12.

337 Infants (3)

A study of the theoretical foundations of infant development. Prenatal considerations for the expectant mother are addressed. Includes the development of both younger and older infants, the development of the immune system, and program issues related to the needs of infants. Methods of developing, implementing, and evaluating infant programs are emphasized. Students participate in field experiences concerning infants. Offered fall semester.

338 Preschool Curriculum (3)

A course designed to enable students to become knowledgeable about program components and learning strategies for young children age three through kindergarten. The role of families in early childhood programs is also studied. Students design curriculum activities that integrate developmentally appropriate levels of ability. A field experience in a quality preschool setting is included. Prerequisite: FCSI 337 or FCSI 340.

340 Toddlers (3)

A study of the theoretical foundations of toddler development. Developmentally appropriate practices with emphasis on language arts and communication skills, drawings, health, and hygiene. Symbolic thought, concentration, reasoning and concept acquisition, self-worth and self-esteem, parental involvement, appropriate curriculum, and the importance of forming correct eating habits are discussed. Students participate in field experiences concerning toddlers. Taught in spring semester. Prerequisite FCSI 337.

341 Child and Adolescent Development (3)

A study of prenatal development and infancy, the physical growth, development of motor abilities, and language and thought of the child and adolescent; children's play and interests, adolescent interests, emotional factors, parent-child relationships; and psychosocial development.

342 Children's Health Wellness and Safety (3)

Data dealing with vital statistics and advances in technology. The major focus on nutrition, good health habits, hygiene, and screening measures of wellness. Emphasis is also placed on National Safety Standards for toys, equipment, and playground facilities. Prerequisite: FCSI 337, 340, or 341.

345 Adult Development (3)

Developmental changes of adults from young adulthood through late life are examined. Emphasis is placed on the major stages of adulthood as they relate to the adults' individual adjustment and family functioning.

365 Family Relationships (3)

A study of factors that enhance or inhibit the development and maintenance of marital and family relationships over the life cycle. Intra-personal issues and interpersonal dynamics and the influence of these issues and dynamics on the development and maintenance of relationships will be examined.

373 Exceptional Children (3)

A study of issues related to the identification, assessment, and instruction of children with special needs, including the academically gifted. The course includes an examination of current definitions of exceptionality, legal issues, teaching strategies, coordination with families and community agencies, and the professional responsibility of the teacher.

401 Seminar (3)

A study of the past, present, and future of family and consumer sciences. Emphasis on career opportunities and career choices. Includes the principles of personal development, preparation of job resumes, job interviews, and global concerns of the environment.

402 Administrations of Children's Programs (3)

A course designed to enable students to become knowledgeable about programs designed for children birth through age five, program components and learning strategies for young children. Programs discussed include, but are not limited to Head Start, Even Start, Smart Start, Child Advocacy Groups, Resource and Referral Agencies, and other national and state agencies and organizations whose major emphasis is childcare for young children. Prerequisite: FCSI 337, 338 or 340.

445 Consumer Economics (3)

A study that focuses on the management of resources for the purpose of attaining consumer goods and services. Emphasis is on the role of the consumer and the study of problems related to personal and family buying and financial management.

448 Job Training/Occupational Information (3)

A study and analysis of vocational education including its history, philosophy, and objectives. Emphasis is placed on occupational exploration and occupational family and consumer sciences. Sources and uses of occupational information are explored. Family and consumer science related occupational clusters are discussed in relation to entry and exit related occupations and observation of exploratory middle grade programs and occupational family and consumer science programs. Work experience in at least two of the occupational clusters is required.

450 Women in Our Culture (3)

A course examining the major contributions of women to society and culture. This course encourages students to become knowledgeable about the influence of women on a global level regarding law, public

policy, education, architecture, furniture, politics, employment, the economy, religion, health, medicine and the media.

454 Professional Orientation in Family Studies (3)

This course is designed to assist students in evaluating their competencies, abilities, aptitudes, and interests related to career development; examining career opportunities related to children and families; and establishing professional relationships. Prerequisite for FCSI 455: Child Development and Family Internship. Open to Family Studies majors and minors only.

455 Child Development and Family Studies Internship (3)

An internship program in a cooperating public, private, profit, or non-profit agency, organization, or business in accordance with the major course of study of the student. Total Hours: 150 working hours. Prerequisites: consent of instructor and FCSI 337,338,340,402, and 454; or FCSI 365 and 454.

457 Family and Consumer Sciences Internship (3)

A 150-hour internship program in a cooperating agency. The internship may take place in a public, private, profit, or non-profit agency or organization, and includes a required written project. FCSI 455 is a prerequisite. The two internships cannot be at the same location. Open to Family Studies majors and minors only.

490 Parenting (3)

A study which examines the changing nature of parenting across the life cycle including: transition to parenthood, early parent-child relationships, parenting adolescents, and the relationship between aging parents and adult children.

515 Young Children's Literature (3)

An examination of developmentally appropriate literature for young children. Emphasis will be placed on understanding what constitutes developmentally appropriate literature.

530 Program Assessments and Evaluation (3)

The course focuses on demographic data used by federal, state, and county agencies and organizations in putting into place new programs and strengthening existing programs which affect children birth to age 5, their families, before-and-after-school programs, and the aging population. Emphasis will be placed on developing good survey questions and the tabulation of data for planning and implementation of programs. The use of data in grant writing will be emphasized.

540 Family Ethics and Policies (3)

This course will assist students in the examination of the character and quality of human social conduct and the ability to critically examine ethical questions and issues. In addition, this course will explore public policy procedures and survey issues that currently affect families.

551 Family Issues (3)

A course designed to introduce the student to a number of issues/topics that characterize or impact contemporary American families. The examination of family theories and research related to families will be emphasized.

556 Literature for Children and Young Adults (3)

A survey of literature for children and young adults with emphasis on criteria for selecting materials appropriate to the interests, needs, and abilities, of elementary and middle grades students; techniques for promoting reading; application to the elementary and middle school curriculums; and trends and recent research in the area.

Foreign Languages

Professor: Dr. Steegar (Chair)

Associate Professors: Dr. Jones, Dr. Ortiz, Dr. Penny

Assistant Professor: Mr. Rivera

Adjunct Faculty: Mrs. Caglayan, Mr. Dow, Mrs. Hood

Foreign Languages and the General College Curriculum

fulfillment of the foreign language requirement at Campbell University depends on the degree sought by the student as follows:

1. Students pursuing the B.S. or B.S.W. degree must pass either the 201-level course in the language or attain a satisfactory score on a nationally-normed equivalency examination approved in advance by the Chair of the Foreign Language Department.
2. Students pursuing the B.A. degree must pass either the 202-level course in the language or attain a satisfactory score on a nationally-normed equivalency examination approved in advance by the Chair of the Foreign Language Department.
3. Students pursuing the B.B.A. degree are required to complete two foreign language courses. This requirement may be met by presentation of two or more high school units (years) in the same language.

The student may choose from the following languages currently offered at Campbell: French, Greek, Latin, and Spanish.

Students whose native language is not English are exempt from the foreign language requirements; however, they must complete both English 101 and 102 with a grade of "C" or better.

Students in the Lundy-Fetterman School of Business must have two years of high school language or pass 101 and 102 of the same language at Campbell University.

Requirements for a Major in French (CIP 16.0901)

To achieve a major in French, the student must complete the following: FREN 201-202 Intermediate French, 221, 222 Survey of French Literature, 231-232 French Composition and Conversation, 300 History and Civilization of France, 305 Phonetics and Pronunciation of French, and three additional French courses above the intermediate level.

Requirements for a Major in Spanish (CIP 16.0905)

To achieve a major in Spanish, the student must complete the following: SPAN 201-202 Intermediate Spanish, 221, 222 Survey of Spanish Literature, 231-232 Spanish Composition and Conversation, 241, 242 Survey of Spanish-American Literature, 305 Spanish Phonetics and Pronunciation, and 341, 342 Spanish/Latin-American Civilization.

Requirements for Teacher Licensure in French (CIP 13.1325) or Spanish (CIP 13.1330)

The requirements for those majoring in French or Spanish and who seek licensure to teach in levels K-12 are the same as above but with the following additions: FREN or SPAN 400 (Methods and Materials of

Romance Language Teaching) and the completion of the professional education sequence in the School of Education.

Requirements for a Minor in a Foreign Language

A minor in French or Spanish requires eighteen hours beyond the 102 level. Prerequisites: Students enrolling in courses above the 202 level must have completed French or Spanish 101, 102, 201, 202, or the equivalent.

French Course Listing (FREN 000)

101-102 Elementary French I, II (3, 3)

Introduction to the basic skills of the language: reading, writing, speaking, aural comprehension, and culture. In French 101 emphasis is on vocabulary, use of articles, present tense of regular and irregular verbs, the imperative and numbers. French 102 covers the *passé composé*, telling time, object pronouns and the imperfect tense.

201-202 Intermediate French I, II (3, 3)

Review and development of the basic skills, continued exposure to cultural elements. French 201-202 cover formation and use of the subjunctive, negatives, relative pronouns, the future and conditional tenses. There is extensive reading and discussion in French. Prerequisites: FREN 101, 102 or equivalent placement.

221, 222 Survey of French Literature (3, 3)

Introduction to the masters of French literature and their major works. 221 begins with the *Chanson de Roland* and ends with the major authors of the 18th century. 222 begins with the major authors of the 19th Century and continues to the present.

231-232 French Composition and Conversation (3, 3)

Emphasis is on improving competency in speaking and understanding standard French and on developing proficiency in the written language.

300 History and Civilization of France (3)

Traces the origins and development of French history and civilization, highlighting topics such as geography, education, religion, immigration, and the political system.

301 Advanced French Grammar (3)

An intensive review of French grammar with emphasis on the more advanced points of grammar including the verb system and idiomatic usage.

305 Phonetics and Pronunciation of French (3)

Individual instruction in French pronunciation, corrective techniques and practice in phonetic transcription.

310 Business French (3)

An introduction to business practices in France, writing a resume and cover letter, interviewing for a job, etc.

331-332 Advanced Composition/Conversation (3, 3)

Continued emphasis (from 231-232) is on improving competency in speaking and understanding French and in developing competency in the written language. Materials include real-time tapes of French newscasts. The students base their work on listening, transcribing, discussing and writing about the material.

400 Methods and Materials of Romance Language Teaching (3)

A fundamental methods course for teachers of K-12 foreign languages. Topics of lectures, discussions and

reading include the historical evolution of language, adapting methods to situational needs, resources for foreign language teachers, integrating the foreign language into the content areas, teaching language in context, testing, and evaluation. Projects include presenting a lesson plan unit in class, videotaping and critiquing a lesson in class, presenting a focused research study with conclusions, and reporting conference and research proceedings. Required for K-12 licensure.

410 Special Topics in Literature (1-3)

Investigation of topics in literature under the supervision of an instructor, reading, textual analysis, discussion, and term paper.

440 Seventeenth-Century French Literature (3)

A study of French Classicism concentrating on the works of Corneille, Racine, Moliere, Pascal, Bossuet and Boileau

450 Eighteenth-Century French Literature (3)

A survey of major texts of the "philosophes" concentrating on Diderot, Voltaire, Rousseau and Montesquieu.

460 Romanticism and Realism (3)

The first part of the 19th century in French literature, including major works of authors from Chateaubriand to Flaubert.

470 Symbolism and Naturalism (3)

Major works of French authors in the latter part of the 19th Century.

480 Twentieth Century French Literature (3)

Reading and discussion of literary movements and the major writers of poetry, theater and the novel in the 20th century.

Greek Course Listing (GREE 000)

101-102 Elementary Greek (3, 3)

A survey of the elements of Hellenistic (koiné) Greek grammar, illustrated systematically from the Greek New Testament.

201-202 Intermediate Greek (3, 3)

Readings from the Greek New Testament with a review of grammar at the intermediate level. Introduction to Greek-based exegetical tools and the textual apparatus. Prerequisites: GREE 101 - 102.

Spanish Course Listing (SPAN 000)

101-102 Elementary Spanish I-II (3, 3)

Introduction to the basic skills of reading, writing, speaking, aural comprehension, and culture in a contextualized format. Grammatical concepts include the usage of present tense of regular, irregular and stem-changing verbs, present progressive tense, articles, concepts of noun/adjective agreement, prepositions, preterit and imperfect tenses of regular, irregular and stem-changing verbs, reflexive verbs, direct and indirect object pronouns, an introduction to commands, and the subjunctive mood. Vocabulary is presented in thematic units. No prerequisites.

201-202 Intermediate Spanish I-II (3, 3)

Continued practice in the basic skills; review of grammar; reading of selected literary texts, and continued study of cultural elements. Grammatical concepts include the usage of the present and past subjunctive mood, the perfect tenses, and conditional verb forms. Spanish 202 incorporates brief readings and

discussions based on literary works in the form of short stories, poems, and essays from Latin American and Spanish authors. Prerequisites: SPAN 101-102 or equivalent placement.

221, 222 Survey of Spanish Literature (3, 3)

Introduction to the masters of Spanish literature and their major works. 221 studies works from the 12th to the 18th centuries including *El cantar del mío Cid*, *La Celestina*, *Don Quijote*, and works of Lope de Vega and Calderon de la Barca.. 222 studies authors from the 19th and 20th centuries including Unamuno, Baroja, Ortega, García Lorca and Cela.

231-232 Spanish Composition and Conversation (3, 3)

Emphasis on improving competency in speaking and understanding Latin American and Castilian Spanish and developing proficiency in the written language. Methods of instruction include lecture, group discussion, and essay writing as a process. Textual materials used include current events from news sources and the internet, essays from the textbook, and student essays for presentation and critique.

241 Survey of Spanish-American Literature I (3)

Introduction to the texts characteristic of the Spanish American colonial period, which includes vestiges of medieval thought in Renaissance literature, Renaissance literature, the Baroque, Neoclassic and Romantic literature. The time period covered is from 1492 to the late 1880's. Representative authors of the chronicle, the travel diary, the protonovel, novel, short story, and essay are discussed, along with samples from each genre. Pre-Columbian texts in transliteration are discussed as well.

242 Survey of Spanish-American Literature II (3)

A continuation of the first survey course (241) with an historical focus on the literary movements and authors in Latin America from 1880 to the present. Reading and discussions focus on representative authors of this period. Literary periods include late Romanticism, Modernism, Vanguard, Boom and Post-Boom.

301 Advanced Spanish Grammar (3)

Study of and practice with more elaborate and idiomatic grammar forms used in articles and literary texts. Grammar is observed contextually and is incorporated into compositional and essay production.

305 Spanish Phonetics and Pronunciation (3)

A study of phonetic transcription and individual instruction in Spanish pronunciation. The phonetic alphabet and pronunciation practice are incorporated into the study.

310 Business Spanish (3)

Introduction to business practices and interactional modes in Spain and Latin America. Practice in writing resumes, queries, and cover letters.

320 Spanish Literature/Middle Ages through Renaissance (3)

A survey of major writers and genres in Spanish literature including the early poetry of the *jarchas*, *El Cantar de Mio Cid*, *Don Juan Manuel*, *Archipreste de Hita*, and *La Celestina*.

331-332 Advanced Composition/Conversation (3, 3)

Continued emphasis (from the 231 and 232 classes) is on improving competency in speaking and understanding Latin American and Castilian Spanish and developing proficiency in the written language. There is a greater emphasis on speaking proficiency. Methods of instruction include lecture, group discussion, and essay writing as a process. Textual materials used include current events from news sources and the internet, essays from the textbook, and student essays for presentation and critique.

341, 342 Spanish/Latin-American Civilization (3, 3)

Part I -- Traces the origins and development of Spanish history and civilization from medieval to modern times. Part II -- A study of Latin America from pre-Columbian to modern times.

400 Methods and Materials of Romance Language Teaching (3)

A fundamental methods course for teachers of K-12 foreign languages. Topics of lectures, discussions and reading include the historical evolution of language, adapting methods to situational needs, resources for foreign language teachers, integrating the foreign language into the content areas, teaching language in context, testing, and evaluation. Projects include presenting a lesson plan unit in class, videotaping and critiquing a lesson in class, presenting a focused research study with conclusions, and reporting conference and research proceedings. Required for K-12 licensure.

410 Special Topics in Literature (1-3)

Investigation of topics in literature under the supervision of an instructor, reading, textual analysis, discussion, and term paper.

420 Latin American Short Story (3)

A study of the short story and essay focusing on Latin American authors from the late 19th to the mid-20th centuries, including Esteban Echeverría, Tomás Carasquilla, Javier de Viana, Rubén Darío, Rafael Arrevalo Martínez, Horacio Quiroga, Jorge Luis Borges, Gabriel García Márquez, and Luisa Valenzuela.

440 Spanish Golden Age (3)

A study of major writers of the Spanish Golden Age excluding Cervantes. Included are Garcilazo de la Vega, the anonymous writer of *Lazarillo de Tormes*, Lope de Vega, Quevedo, and Calderón de la Barca.

450 Cervantes (3)

A study on the literary works of Don Miguel de Cervantes with emphasis on *Don Quixote*. Other works include his *Entremeses* and the *Novelas ejemplares*.

460 Nineteenth-Century Spanish Literature (3)

A survey of Romanticism, Realism, and Naturalism which includes philosophers and writers such as Gustavo Adolfo Becquer, Benito Pérez Galdós, and Emilia Pardo Bazán.

470 Generation of 1898 (3)

A survey of major writers of the Spanish Generation of '98 including Antonio Machado, Azorín, Pío Baroja, and del Valle Inclán, and Unamuno.

480 Twentieth-Century Spanish Literature (3)

A survey of major writers of 20th Century Spain including José Ortega y Gasset, writers of the Generation of '27 such as Jorge Guillén, Pedro Salinas, Rafael Alberti, and Federico García Lorca.

Latin Course Listing (LATN 000)**101-102 Elementary Latin (3, 3)**

Introduction to the pronunciation, grammar, and vocabulary. The course includes the reading of prose and a survey of the history and civilization of Rome.

201-202 Intermediate Latin (3, 3)

Continuation and review of Latin grammar. The course includes readings in Latin prose and a continuation of the survey of Roman history and civilization. Prerequisites: Latin 101-102 or equivalent placement.

Government and Criminal Justice

Associate Professors: Dr. Schroeder, Dr. Thornton, Dr. Gay

Assistant Professors: Dr. Platt

Adjunct Professors: Ms. Cowling, Mr. McLaughlin, Mr. Slattery, Mr. Trogon, Mrs. Wood, Mr. Woodlief

Requirements for a Major in Government (CIP 45.1001)

Candidates for a major in government must complete with a "C" average or better, at least 37 hours in government courses. Included in the 37 hours must be Government 260, at least three hours in public policy and administration (Government 334, 336, 337, 338, or 340), three hours in international studies (Government 343, Government 345, Government/History 403, or Government /History 448), three hours in political theory (Government/History 443, 445, 446, or 447), three hours of constitutional development (Government/History 449 or 450), and the four hour senior seminar (Government 451, 461, or 471).

Requirements for a Minor in Government

Students pursuing a minor in government must complete, with a "C" average or better, 24 semester hours of government courses, including Government 229, Government 230, and one course from at least three of the following four areas: public policy and administration; international studies; political thought; or constitutional development.

Pre-law with a Major in Government (45.1001/22.0001) or History (CIP 54.0101/22.0001)

Law schools want students who think rationally and logically, express themselves clearly and coherently in both oral and written form, possess a broad education in the liberal arts, and have specialized in an appropriate academic major. Campbell University's Department of Government, History and Justice has a curriculum to aid students wishing to demonstrate such qualifications.

The program meets all college requirements for a Bachelor of Arts degree and gives the students a major in government (political science) or history. The program, which is broad enough to provide students the specific courses needed to prepare them for the study of law, includes 6 hours of United States history, 6 hours of British history, 3 hours of political thought, 3 hours of logic, 6 hours of economics, 3 hours of public speaking, 3 hours of psychology, 6 hours of constitutional development, 6 hours of business and/or accounting classes, and 3 hours of advanced writing. The curriculum also includes Government 300, Introduction to Law, which is taught by faculty from the Norman Adrian Wiggins School of Law. To meet the foreign language requirement, pre-law students, though not required, are encouraged to take Latin.

Public Administration/Public Policy with a Major in Government (CIP 45.1001/44.0401)

The program in Public Administration/Public Policy modifies the government major by requiring more of the required 37 semester hours of government courses to focus on public policy and administration and the students complete Government 454 (internship) and Government 461 (senior seminar). The program also requires a student to take Government 334 or Government 337, Government 338, Government 340, Government 442, Business Administration 332, Communications 200, 210, or 220, Psychology 222 or Sociology 225, and Theater 115.

International Studies with a Major in Government (CIP 45.1001/45.0901) or History (CIP 54.0101/45.0901)

The program in International Studies adapts the government major by requiring more of the required 37

semester hours of government of history course focus on international relations. International Studies students are required to take Geography 113 or 114, Government 343, Government 345, Government/History 403, one of the Government/History 443, 445, 446, or 447 series, Government/History 448, Government/History 449 or 450, Religion 251, and Sociology 345. The students should advance through the 221/222 level of a foreign language and include an economics class in addition to the two required for the government major. Government and History majors with an International Studies concentration will respectively complete Government 471 or History 451 as their senior seminar.

Requirements for a B.A. in Criminal Justice Administration (CIP 43.0103)

Students who wish to acquire a Bachelor of Arts degree with a major in Criminal Justice must, in addition to the General College Curriculum, complete the following courses with a "C" average or better: Criminal Justice 231, 232, 280, 339, 360, 361, 362, 430, 440, 454, and 481; as well as 9 hours in Government (Government 229, 230, and 260). Additionally, students must complete 18 hours of electives. Criminal Justice majors are strongly encouraged to use their elective hours to select a minor or other concentration that is complementary to the field in which they wish to work. Electives should be selected in consultation with their advisor.

Requirements for a Minor in Criminal Justice Administration

Students who wish to minor in Criminal Justice Administration must complete the following courses with a "C" average or better: Criminal Justice 231, 232, 280, and 440, as well as Government 229. Additionally, students must complete 9 hours of electives from any of the following courses: Criminal Justice 300, 310, 339, 360, 361, 362, 420, 430, or 470.

Requirements for a B.S. with a Major in Social Sciences (Concentration in Government) (CIP 45.0101)

Candidates must complete, with a "C" average or better, at least 54 semester hours in the social sciences distributed as follows: 24 hours in government; 12 hours of history (111-112, 221-222); and six hours each in economics, geography, and sociology. Those government courses must include Government 229, Government 230, and one course each in three of the four following areas: public policy and administration, international studies, political thought, or constitutional development.

Requirements for Teaching Licensure in Social Studies (CIP 13.1318)

Students majoring in Social Sciences (Concentration in Government) who desire licensure to teach social studies in North Carolina secondary schools must complete, with a "C" average or better, at least 24 semester hours in government, 12 semester hours in history, and 6 semester hours each in economics, geography, and sociology. All prospective teachers must possess a 2.5 average overall in order to be admitted to the teacher education program where they will complete the School of Education requirements for licensure.

Double Major

Along with guidelines set forth in this catalog in the Chapter entitled "Academic Programs and Regulations", students wanting to pursue two majors must choose a "governing" major and meet the additional requirements of: (1) maintaining a 3.0 average and (2) taking the Seminar for the "governing" major, and possibly an additional seminar depending on the adopted curriculum (See your advisor).

Government Course Listing (GOVT 000)

229 The National Government (3)

This general introduction to the study of American government focuses on the federal level with special attention to the framing of the U.S. Constitution, the general organization and functioning of the national government, the nature of federalism, political parties, elections, and current issues of public policy at the national level. (Prerequisite for most government courses.)

230 State and Local Government (3)

This course gives special attention to federal-state relations and to the workings of state government in policy areas such as taxation, budgeting, and education. The politics of state government are closely examined. Local government is considered, but to a lesser degree. Prerequisite: Government 229.

232 State Legislative Politics (3)

This independent course teaches the legislative process while preparing student-delegates for the convocation of the North Carolina Student Legislature held annually in Raleigh. Students are required to gain a working familiarity with Robert's Rules of Order, participate in the research and writing of the bill(s) to be introduced at the state meeting, and (for full credit) write a formal policy position paper. (Registration is by approval of the professor.)

260 Scope and Methods of Political Science (3)

An introduction to theory, hypothesis generation, data collection, data analysis, computer usage, and research methods of political science. This course culminates with student preparation of a research project or grant proposal. Prerequisites: Government 229 and Math 160.

300 Introduction to Law (3) (Hist 300, Crim 300)

An introduction and survey of the field of law for students interested in understanding the diverse nature of the field of jurisprudence and legal studies. Prerequisites: Government 229, 230, and junior status.

306 World Civilization II (3) (Hist 306)

An introduction to the historical development of World Civilization from the Scientific Revolution to 2001. This class is not a substitute for Western Civilization but counts as a Non Western class. Prerequisite: History 111-112; History 221-222 are recommended.

315 The Cold War (3) (Hist 315)

An introduction to the Cold War era in 20th century East-West diplomatic history, with emphasis on the period 1945-1991. Prerequisites: Government 229 and History 112.

322 Latin America: An Area Study (3) (Hist 322)

A historical survey of the society, culture, and politics of the principal Latin American nations in the 20th century. The course will emphasize the national period and the intellectual, political, international, economic, and social course of contemporary Latin American history. Prerequisites: Government 229, History 112.

323 The Presidency (3) (Hist 323)

An interdisciplinary approach to the study of the United States Presidency. Prerequisite: Government 229.

324 Congress (3) (Hist 324)

An interdisciplinary approach to the study of the United States Congress. Prerequisite: Government 229.

334 Public Budgeting (3)

An in-depth study of public finance and budgeting; applications, systems, and impacts. Prerequisites: Government 229 and Government 230.

335 Congress and the Presidency (3) (Hist 335)

This course analyzes two of the major branches of our national government in terms of their structure, motivations, and processes, placing them within the context of the American political system. Prerequisite: Government 229

336 American Political Parties (3)

The main topics considered are the origins and development of American political parties, their functions, organizations, regulations, campaign methods, and conduct of elections. Prerequisite: Government 229.

337 Municipal Government (3)

The history, organization, and administration of American municipal corporations are studied in some detail. Special attention is given to intergovernmental relations and the current concerns of metropolitan governance. Prerequisite: Government 230.

338 Introduction to Public Administration (3)

This course explores philosophies and processes of administration of public and quasi-public organizations as they manifest themselves in the American bureaucratic structure. Detailed attention will be given to identifying those tasks best accomplished by the public sector, the problems of organizing and staffing government agencies, the efforts to keep governmental agencies politically accountable, and the means and mechanisms for implementing governmental decisions. Prerequisites: Government 229 and 230.

339 Ethics in Government (3) (Crim 339)

This course will help students better understand the ethical and moral dilemmas pressed upon government in today's society. The most notable approaches to ethics, values, and morality in government by prominent theorists in the field will be studied. Important concepts will be examined, such as administrative responsibility, mental attitudes, public interest, personal codes, paradoxes of procedure, and ethical and moral value systems. Prerequisites: Government 229 and 230.

340 Introduction to Public Policy (3)

This course inquires into the nature of the public policy-making process as it reveals itself in the initiation, formulation, and implementation of policy. Students will also analyze and evaluate selected national policies while examining and utilizing various analytical approaches. Prerequisites: Government 229 and 230.

342 Eastern Europe: An Area Study (3) (Hist 342)

A survey of the recent history, culture, politics, and political institutions of Eastern Europe and the Soviet successor states. Prerequisites: Government 229 and History 111-112.

343 Introduction to Comparative Foreign Government (3)

This course introduces students to the recent histories, political cultures, government structures, political processes, and current situations of selected democratic, totalitarian, and developing countries. Prerequisite: Government 229.

345 International Relations (3)

An introduction to politics among nations. Emphasizing the historical development of the international state system, this course focuses on the problems of war, development, and trade in the international system, while also including some attention to international organizations and international law. Prerequisite: Government 229.

351 South Asia: An Area Study (3) (Hist 351)

An introductory survey of the recent history, culture, and political institutions of South Asia from Afghanistan to Burma with particular emphasis on India, Pakistan, and Bangladesh. Attention will also be devoted to Indian and Muslim influences on Southeast Asia. Prerequisites: Government 229 and History 111-112.

352 East Asia: An Area Study (3) (Hist 352)

An introductory survey of the recent history of the culture, society, politics, and intellectual development of East Asia, with particular emphasis on the cultural heritage and contemporary issues of China and Japan. Prerequisites: Government 229 and History 111-112.

353 Africa: An Area Study (3) (Hist 353)

A survey of the history of sub-Saharan Africa from the earliest times to the present. Emphasis will be on the period from the mid-19th century to the present with a special focus on current economic, social, and political problems. Prerequisites: Government 229 and History 111-112.

354 Southeast Asia: An Area Study (3) (Hist 354)

An introductory survey of the recent history, culture, and political institutions of Southeast Asia. Imperialism and twentieth century conflicts will receive particular attention. Prerequisites: Government 229 and History 111-112.

357 The Middle East and North Africa: An Area Study (3) (Hist 357)

An introductory survey of the recent history, culture, and political institutions of this predominantly Islamic area. Particular emphasis will be placed on those political developments since the mid-19th century that help explain the current problems of the countries in this area. Topics to be covered include the Arab-Israeli conflict, oil and the Persian Gulf, the Lebanese civil war, and the rise of Islamic fundamentalism. Prerequisites: Government 229 and History 111-112.

402 American Economic History (3) (Hist 402)

This course traces the evolution of the economy of the United States, which it analyzes in terms of developments in agriculture, commerce, and industry, with particular emphasis on technology and the changing role of government. Special attention is given to the rise of modern corporations. Prerequisites: History 221- 222.

403 History and Politics of International Economic Relations (3) (Hist 403)

This course will investigate at the international level the interaction of political and economic factors in the creation and distribution of wealth and power. Adopting a historical approach, the course will examine the forces and trends involved in the emergence of today's global political economy and then turn to current issues, including production, trade and protectionism, monetary and financial relations, and problems of economic development and environmental degradation. Prerequisites: History 112 and Government 345.

420 History of American Intelligence (3) (Hist 420)

This course will have students understand intelligence as it relates to American interests and national security. Prerequisites: Government 229 and History 222.

442 Organization Theory (3) (Hist 442)

This course enables students to increase their understanding of how organizations can more effectively meet their objectives. Several major concepts will be examined, clarifying how organizations work and what alternative organizational strategies and structures exist. The concepts of power, resource allocation, work environment, and goals will be closely examined. Prerequisite: Government 338 or 340.

443 Medieval Political Thought (3) (Hist 443, Phil 443)

A survey of the major political thinkers of the medieval period, this course focuses on the Christian writers of Western Europe, including St. Augustine, St. Thomas Aquinas, Marsilius of Padua, John Duns Scotus, and William of Ockham. There is some analysis of Muslim and Jewish thinkers as well. Prerequisites: Government 229 and History 111.

445 Modern European Political Thought (3) (Hist 445, Phil 445)

This course analyzes the main currents of European political thought in terms of their historical setting and philosophical background. Prerequisites: Government 229 and History 111-112.

446 American Political Thought (3) (Hist 446)

The main currents of American political thought, from colonial beginnings to the present, are analyzed in terms of their historical setting and philosophical background. Prerequisites: Government 229 and History 221-222.

447 Ancient Political Thought (3) (Hist 447, Phil 447)

A survey of the political writings of Plato and Aristotle, this course focuses on analyses and evaluations of political ideas as well as their historical settings. Prerequisites: Government 229 and History 111.

448 Twentieth-Century American Foreign Policy (3) (Hist 448)

This course examines the origins, formulation, and implementation of American foreign policy in the 20th century. Prerequisites: Government 229 and History 222.

449, 450 The Development of the American Constitution (3, 3) (History 449, 450)

This account of the living Constitution traces practices, customs, traditions, and fundamental legal ideas in their historic setting as they make up the body of American constitutionalism today. Prerequisites: Government 229 and History 221 or 222, as appropriate.

451 Seminar on Constitutional Law (4)

This seminar requires students to make a detailed examination of the Supreme Court's landmark cases and their implications. Prerequisites: Government 449 or 450 and approval of the instructor.

454 Internship (3) (Hist 454, Crim 454)

An internship is a supervised work experience with selected law firms, public agencies, political campaign, noted public figures and non-profit agencies. Approval of instructor is required.

458 Mock Trials (4) (Hist 458, Crim 458)

This course will provide students with the fundamentals of courtroom proceedings. This will occur in conjunction with the annual Mock Trials case analysis and team development activities.

459 Contemporary Issues and Conferences (1-3) (Hist 459)

This course is designed to encourage student participation in such programs as the Model United Nations, Model Arab League, and other intercollegiate conference activities and special programs of study. A student must secure the permission of the instructor in order to enroll in Government/History 459.

460 Special Topics (3) (Hist 460)

Special Topics is a tutorial course established at the request of the student and faculty member when special needs or circumstances require examination of subject matter not otherwise included in the academic program. (By arrangement with the instructor.)

461 Seminar in Public Administration (4)

This seminar will allow students to integrate concepts and theories they have learned from earlier policy and administration courses as they complete an extensive case of study of some particular governmental policy area. This will include reading several well-known public administration theorists as well as criticism and analysis of research presented to the class. Prerequisites: Government 338 or 340, 441, and Senior status, with permission of the instructor.

471 Seminar in International Studies (4)

An in-depth examination of fundamental questions in international relations. These include causes and effects of armed conflict, both among and within states, the interaction of political and economic factors in shaping the international system, and the tension between economic development and environmental degradation at the global level. Students will write a seminar paper focusing on a selected aspect of these themes. Prerequisite: Permission of the instructor.

Criminal Justice Administration Course Listing (CRIM 000)

231 Introduction to Criminal Justice (3)

This is a survey course designed to acquaint students with institutions and processes of criminal justice – police, courts, and corrections. Prerequisite: None.

232 Introduction to Criminology (3)

This course will provide an in-depth analysis of criminality, including the etiology (origin) of crime, and the extent and nature of crime within American society. The primary theories of criminality will be critiqued. Prerequisite: None.

280 Introduction to Law Enforcement (3)

This survey course will acquaint students with the various historical and operational aspects of the law enforcement process including an analysis of several intractable and endemic problems of policing a free society. Prerequisite: None.

300 Introduction to Law (3) (Govt 300, Hist 300)

An introduction and survey of the field of law for students interested in understanding the diverse nature of the field of juris prudence and legal studies. Prerequisites: Government 229, 230, and junior status.

310 Victimology (3)

This course will examine various issues attending victimology, including, but not limited to: critical issues in the measurement of victimization, victimization characteristics, the victim's role and experience in the criminal justice system, emerging victim compensation and restitution programs, domestic violence, how to prevent personal victimization, and issues of restorative justice. Contemporary political, philosophical, social, legal, and administrative issues facing victims will also be addressed. Prerequisite: Completion of at least 12 hours of criminal justice courses.

339 Ethics in Government (3) (Govt 339)

This course will help students better understand the ethical and moral dilemmas pressed upon governmental employees in today's society. The most notable approaches to ethics, values, and morality in government and criminal justice by prominent theorists in the field will be studied. Important concepts will be examined, such as administrative responsibility, mental attitudes, public interest, personal codes, paradoxes of procedure, and ethical and moral values systems. Prerequisites: Government 229 and 230.

360 Criminal Justice Administration (3)

This course introduces students to issues involved in criminal justice administration, including organizational theory, awareness of how CJ organizations function within the system, the impact of politics and government on CJ operations, the importance of competent leadership, and the endemic problems of fair and humane treatment in administering justice. Prerequisite: Criminal Justice 231.

361 Criminal Law (3)

Students are introduced to constitutional, criminal, and civil law as it is applied to the provision of justice in America. Prerequisites: Criminal Justice 231 and Government 229.

362 Juvenile Justice (3)

This course will acquaint students with various theories of delinquency, street gangs, school violence, and the institutional and community-based approaches of dealing with juveniles. Prerequisites: Criminal Justice 231, 232.

420 Criminal Investigation (3)

This course will acquaint the student with the various procedures of basic criminal investigation. The course focuses on the techniques used by all investigators who are called upon to reconstruct major

criminal offenses and collect evidence from crime scenes. Some criminalistic and forensic aspects will also be introduced. Prerequisite: Completion of at least 12 hours of criminal justice courses or permission of instructor.

430 Correctional Philosophies and Issues (3)

An in-depth survey of correctional philosophies and issues, including discussion of how philosophies have been translated into policies that favor incarceration. The impact of societal structures, organizations, and beliefs will be discussed in relation to the formulation and execution of correctional philosophies.

Prerequisites: Criminal Justice 231 and 360, or permission of instructor.

440 Theory of Justice (3)

This course will give students an understanding of the major endemic controversies surrounding the field of criminal justice. Included will be an in-depth critical analysis of how world-views are formed, what does a Christian view of justice entail, and how that view of justice differs from both classical or contemporary views of justice. Additionally, various policy developments that focus on particular criminal justice issues will be examined. Prerequisites: Criminal Justice 231 and 232.

454 Internship (3) (Govt 454, Hist 454)

An internship is a supervised work experience with selected law firms, law enforcement agencies, correctional agencies, or non-profit organizations, designed to give students actual experience in a particular area of criminal justice. (Open only to Criminal Justice majors with approval of the professor.)

458 Mock Trials (4) (Govt 458, Hist 458)

This course will provide students with the fundamentals of courtroom proceedings. This will occur in conjunction with the annual Mock Trials case analysis and team development activities.

460 Independent Study (3)

Independent study of special topics is established at the request of the student and faculty member when special needs or circumstances require examination of subject matter not otherwise included in the academic program. (By arrangement with the instructor).

470 Critical Issues in Criminal Justice (3)

The focus of this course varies from year to year, but selected topics will address endemic and/or emerging issues related to criminal justice. The course will allow students to extensively study and critically analyze a topic of high interest related to the field of criminal justice and justice administration. Examples of focus topics include, but are not limited to, are police tactics, domestic violence, the media and violence, terrorism, serial killers, criminal profiling, community-oriented policing, private security, race and crime, critical issues in policing, and organized crime. Prerequisite: Completion of at least 12 hours of criminal justice courses or permission of instructor. Student may take this course twice for a total of 6 hours toward graduation.

481 Seminar in Criminal Justice (4)

This is a capstone course that requires seniors to use theoretical perspectives from criminology and other criminal justice-related areas to formulate a policy-related question pertaining to the study of crime, criminality, and responses to crime and criminality. The student will develop a research topic, develop and administer a survey instrument, collect and analyze data, and prepare an executive summary paper and PowerPoint presentation to report the findings of their research. Skills and concepts developed in previous classes form the foundation for this course. Prerequisites: Criminal Justice 231, 232, 440, Government 260 and Senior Status.

History and Geography

Associate Professors: Dr. Martin (Chair), Dr. Johnson, Dr. McNair

Assistant Professors: Dr. Stanke, Dr. Platt

Adjunct Professors: Dr. Faulkner, Ms. Davis, Mr. Lloyd, Mr. Melvin, Mr. Mercogliano, Mr. Nathaniel, Mr. Slattery, Mr. Tuck

Requirements for a Major in History (CIP 54.0101)

Candidates for the major in History must, in addition to the general curriculum, complete at least 37 semester hours in history with a "C" average or better, to include History 111-112, History 221-222, History 444, History 451, and at least six credit hours of upper-division (300 and 400) courses in each of the following three areas: European history; United States history; and Non-Western history. Candidates must, in addition, complete the following related courses: Government 229, Economics 223 and 224 (American Economic History may be substituted for the latter), and Geography 114. History majors should fulfill the college mathematics requirement by taking Mathematics 111 and Mathematics 160.

Requirements for a Minor in History

Students pursuing a minor in history must select a focus and complete, with a "C" average or better, a minimum of 24 semester hours of history courses, including History 111, 112, 221, and 222. Those pursuing a minor in history must also focus at least 6 semester hours on upper-division (300 and 400 level) courses in one of three areas: U.S. history; European history; Non-Western history.

Pre-law with a Major in History (CIP 54.0101/22.0001) or Government (45.1001/22.0001)

Law schools want students who think rationally and logically, express themselves clearly and coherently in both oral and written form, possess a broad education in the liberal arts, and have specialized in an appropriate academic major. Campbell University's Department of Government, History and Justice has a curriculum to aid students wishing to demonstrate such qualifications.

The program meets all college requirements for a Bachelor of Arts degree and gives the students a major in government (political science) or history. The program, which is broad enough to provide students the specific courses needed to prepare them for the study of law, includes 6 hours of United States history, 6 hours of British history, 3 hours of political thought, 3 hours of logic, 6 hours of economics, 3 hours of public speaking, 3 hours of psychology, 6 hours of constitutional development, 6 hours of business and/or accounting classes, and 3 hours of advanced writing. The curriculum also includes Government 300, Introduction to Law, which is taught by faculty from the Norman Adrian Wiggins School of Law. To meet the foreign language requirement, pre-law students, though not required, are encouraged to take Latin.

International Studies with a Major in History (CIP 54.0101/45.0901) or Government (CIP 45.1001/45.0901)

The program in International Studies adapts the government major by requiring more of the required 37 semester hours of government of history course focus on international relations. International Studies students are required to take Geography 113 or 114, Government 343, Government 345, Government/History 403, one of the Government/History 443, 445, 446, or 447 series, Government/History 448, Government/History 449 or 450, Religion 251, and Sociology 345. The students should advance through the 221/222 level of a foreign language and include an economics class in addition to the two required for the government major. Government and History majors with an International Studies concentration will respectively complete Government 471 or History 451 as their senior seminar.

Requirements for a B.S. with a Major in the Social Sciences (Concentration in History) (CIP 45.0101)

The candidate must complete, with a "C" average or better, at least 48 semester hours in the social sciences distributed as follows: twenty-four hours in history; six hours each in economics, sociology, geography, and government. In addition to History 111, 112, 221, and 222, the 24 hours of history must include at least 12 semester hours of upper-division (300 and 400 level) courses with at least 3 hours in each of the following areas: U.S. history; European history; Non-Western history.

Requirements for Teacher Licensure in Social Studies (CIP 13.1318)

Students majoring in either history or the social sciences (history) who desire licensure to teach social studies in the secondary schools of North Carolina must complete, with a "C" average or better, at least twenty-four semester hours in history and 6 semester hours each in economics, geography, government and sociology. For the specific courses required, the candidate seeking licensure should consult both the appropriate departmental bulletins and the School of Education. All prospective teachers must possess a 2.5 average overall in order to be admitted into the teacher education program, where they will complete School of Education requirements for licensure.

Double Major

Along with guidelines set forth in this catalogue in the Chapter entitled "Academic Program and Regulations", students wanting to pursue two majors must choose a "governing" major and meet the additional requirements of: (1) maintaining a 3.0 average and (2) taking the Seminar for the "governing" major, and (3) possibly an additional seminar depending on the adopted curriculum (See your advisor).

Geography Course Listing (GEOG 000)

113 Introduction to Geography (3)

A survey of the natural landscape and the forces acting upon it. The course provides an introduction to geological and meteorological processes affecting the earth, as well as addressing the political, economic, and social changes influenced by geographic movements.

114 World Regional Geography (3)

The basic objective of this course is to analyze various world regions with respect to the influence of physical and cultural environments in both spatial and temporal contexts.

History Course Listing (HIST 000)

111, 112 Western Civilization (3,3)

This survey of Western Civilization from ancient times to the present gives attention to the origins of civilization and relations between the Western and non-Western areas of the world.

Hon 211, 212 (3,3)

Honors 211 and 212 will introduce the history of Western thought and civilization to Honors Program students through original works (in modern translation). These courses will also emphasize the development of Christianity within the history of Western culture and thought. Honors 211 and 212 will have a historical framework, but will also give consideration to developments in the arts and sciences as well. Honors courses, when taught through this department, may, at the discretion of the chairman, substitute for courses of substantial equivalency.

221, 222 United States History (3,3)

With special attention to the development of national politics and governmental institutions, the growth of the nation's economy, the American diplomatic tradition, and the evolution of American society, this course

surveys United States history from the early American pre-colonial period to the present. Prerequisites: History 111-112.

230 Sports History (3) (Exer230)

The history and development of American sports programs and events from early America through the current period. Prerequisites: History 111-112.

300 Introduction to Law (3) (Govt 300, Crim 300)

An introduction and survey of the field of law for students interested in understanding the diverse nature of the field of legal studies. Prerequisites: Government 229, 230, and junior status.

305 World Civilization I (3)

An introduction to the historical development of World Civilization from its pre-history and ancient beginnings to the early modern age. This class is not a substitute for Western Civilization but counts as a Non-Western class. Prerequisites: History 111-112; History 221-222 are recommended.

306 World Civilization II (3) (Govt 306)

An introduction to the historical development of World Civilization from the Scientific Revolution to 2001. This class is not a substitute for Western Civilization but counts as a Non-Western class. Prerequisites: History 111-112; History 221-222 are recommended.

310 The American Military Experience (3) (MSci 310)

This survey of American warfare and military institutions gives particular emphasis to grand strategy, theater-level operations, civil-military relations, technological development, military leadership, and the impact of war on American society. Prerequisites: History 111-112; History 221-222 recommended.

315 The Cold War (3) (Govt 315)

An introduction to the Cold War era in 20th century East-West diplomatic history, with emphasis on the period 1945-1991. Prerequisites: Government 229, History 112.

322 Latin America: An Area Study (3) (Govt 322)

An historical survey of the selected Latin American nations through the 20th century, the course will emphasize the national period and the intellectual, political, social, international, and economic facets of contemporary Latin America. Prerequisites: Government 229 and History 112.

323 The Presidency (3) (Govt 323)

An interdisciplinary approach to the study of the United States Presidency. Prerequisite: Government 229.

324 Congress (3) (Govt 324)

An interdisciplinary approach to the study of the United States Congress. Prerequisite: Government 229.

325 Modern Germany (3)

A historical survey of early and modern Germany; emphasis will be placed on changes with regard to culture, economy, society, and political systems. Prerequisites: History 111-112.

331 History of North Carolina (3)

With an eye to meeting the special needs of those seeking teacher certification, this course surveys the state's political and economic history from the earliest colonial beginnings to the present. Prerequisites: History 221 or 222.

332 North Carolina: Its Geography and People (3)

With an eye toward meeting the special needs of those seeking teacher certification, this course examines in depth the geography and social history of North Carolina. Prerequisites: History 221 or 222.

334 American Christianity (3) (Relg 334)

A study of the history, ideas, and influences of Christianity in America. Prerequisites: History 221-222.

335 Congress and the Presidency (3) (Govt 335)

This course analyzes two of the major branches of our national government in terms of their structure, motivations, and processes, placing them within the context of the American political system. Prerequisite: Government 229

336 General Church History (3) (Relg 336)

Historical study of the major movements and ideas in the church. Prerequisites: History 111-112.

340 Ancient Greece and Rome (3)

A survey of ancient Greece and Rome and their great traditions of democracy, monarchy, philosophy, art, architecture and drama. Students analyze the development of Greek civilization, from the rise of the city-state system, the golden age of Athens and Sparta, concluding with the Greek Empire created by Alexander the Great. Students also address the formation of the Roman Republic, its conquest of Mediterranean world, its ultimate collapse and the rise of the Roman Empire. Prerequisites: History 111-112.

342 Eastern Europe: An Area Study (3) (Govt 342)

A survey of both the recent history, culture, and politics and the political institutions and processes of Eastern Europe and the Soviet successor states. Prerequisites: Government 229 and History 111-112.

343 Medieval England (3)

This survey of the history of the British Isles from the earliest times to around A.D.1307 gives particular emphasis to English constitutional history from 500 to 1307. Prerequisites: History 111-112.

344 Stuart England (3)

This survey of English history during the time of the Stuarts (1603-1714) emphasizes the constitutional struggles of that period. Prerequisites: History 111-112

350 Renaissance and Reformation (3)

A survey of these two movements that dramatically altered the course of Western History and mark the transition from the Middle Ages to the Early Modern Period. Students analyze the intellectual history of these movements, as well as the political and economic changes of the age, and the tremendous religious upheavals of the sixteenth century. Prerequisites: History 111-112.

351 South Asia: An Area Study (3) (Govt 351)

An introductory survey of the recent history, culture, and political institutions of South Asia from Afghanistan to Burma, with particular emphasis on India, Pakistan, and Bangladesh. Attention will also be devoted to Indian and Muslim influences on Southeast Asia. Prerequisites: Government 229 and History 111-112.

352 East Asia: Area Study (3) (Govt 352)

An introductory survey of the recent history of the culture, society, politics, and intellectual development of East Asia, with particular emphasis on the cultural heritage and contemporary issues of China and Japan. Prerequisites: Government 229 and History 111-112.

353 Africa: An Area Study (3) (Govt 353)

A survey of the history of sub-Saharan Africa from the earliest times to the present. Emphasis will be on the period from the mid-19th century to the present, with a special focus on current economic, social, and political problems. Prerequisites: Government 229 and History 111-112.

354 Southeast Asia: An Area Study (3) (Govt 354)

An introductory survey of the recent history, culture, and political institutions of Southeast Asia. Imperialism and twentieth century conflicts will receive particular attention. Prerequisites: Government 229 and History 111-112.

357 The Middle East and North Africa: An Area Study (3) (Govt 357)

An introductory survey of the recent history, culture, and political institutions of this predominantly Islamic area. Particular emphasis will be placed on those political developments since the mid-19th century that help explain the current problems of the countries in this area. Topics to be covered include the Arab-Israeli conflict, oil and the Persian Gulf, the Lebanese civil war, and the rise of Islamic fundamentalism. Prerequisites: Government 229 and History 111-112.

359 The Colonial and Revolutionary Periods in American History (3)

Beginning with the voyages of discovery and ending with the Battle of New Orleans, this course emphasizes the development of political, economic, and social institutions as well as the changes that took place during the Colonial and Revolutionary periods. Prerequisite: History 221.

362 The Old South (3)

This course examines the social, economic, and political history of the South from colonial settlements through the end of the Civil War. Prerequisite: History 221.

363 The Civil War (3)

This course examines the Civil War - Reconstruction period from political, social and economic perspectives. Prerequisite: History 221.

364 The New South (3)

A survey of the economic, social, and political development of the Southern United States since 1870. Prerequisites: History 221-222.

400 Early Modern Europe—1648 to 1815 (3)

A survey of European History from the Treaty of Westphalia to the end of the Napoleonic era, with special attention paid to the major developments of the time, including the Revolution in England, Louis XIV, Old Regime Europe, the Enlightenment, the French Revolution and the rise and fall of Napoleon. Prerequisites: History 111 - 112.

402 American Economic History (3) (Govt 402)

This course traces the evolution of the economy of the United States, which it analyzes in terms of developments in agriculture, commerce, and industry, with particular emphasis on technology and the changing role of government. Special attention is given to the rise of modern corporations. Prerequisites: History 221-222.

403 History of Politics of International Economic Relations (3) (Govt 403)

This course will investigate at the international level the interaction of political and economic factors in the creation and distribution of wealth and power. Adopting a historical approach, the course will examine the forces and trends involved in the emergence of today's global political economy and then turn to current issues, including production, trade and protectionism, monetary and financial relations, and problems of economic development and environmental degradation. Prerequisites: History 112 and Government 345.

420 History of American Intelligence (3) (Govt 420)

This course will have students understand intelligence as it relates to American interests and national security. Prerequisites: Government 229 and History 222.

433 The United States in the 19th Century (3)

This colloquium reviews the 19th century sectional crisis, the continuity of the nation's 19th-century development, the period from the Age of Jackson to the Populist Revolt. Prerequisite: History 221-222.

434 The United States in the 20th Century (3)

This colloquium will examine the period from Progressivism to the Great Society, and will consider topics selected from the principal economic, social, and political developments that have shaped the history of the United States in the 19th and 20th centuries. Prerequisites: History 221-222.

441 Western European Area Study (3)

A survey of the recent history, culture, and politics of Western Europe. Prerequisites: Government 229 and History 111-112.

442 Organizational Theory (Govt 442)

This course enables students to increase their understanding of how organizations can more effectively meet their objectives. Several major concepts will be examined, clarifying how organizations work and what alternative organizational strategies and structures exist. The concepts of power, resource allocation, work environment, and goals will be closely examined. Prerequisite: Government 338 or 340.

443 Medieval Political Thought (3) (Govt 443, Phil 443)

A survey of the major political thinkers of the medieval period, this course focuses on the Christian writers of Western Europe, including St. Augustine, St. Thomas Aquinas, Marsilius of Padua, John Duns Scotus, and William of Ockham. There will be some analysis of Muslim and Jewish thinkers, as well. Prerequisites: Government 229 and History 111.

444 Modern Europe (3)

A survey of the recent history, culture, and politics and the politics of Twentieth Century Europe from the First World War to the end of the Cold War and the collapse of communism. Prerequisites: Government 229 and History 111-112 (is to be taken prior to the seminar in History, History 451).

445 Modern European Political Thought (3) (Govt 445, Phil 445)

The main currents of European political thought are analyzed in terms of their historical setting and philosophical background. Prerequisites: Government 229 and History 112.

446 American Political Thought (3) (Govt 446)

The main currents of American political thought, from colonial beginnings to the present, are analyzed in terms of their historical and philosophical background. Prerequisites: Government 229 and History 111-112.

447 Ancient Political Thought (3) (Govt 447 and Phil 447)

A survey of the political writings of Plato and Aristotle, this course focuses on analyses and evaluations of political ideas as well as their historical settings. Prerequisites: Government 229 and History 111.

448 American Foreign Policy in the Twentieth Century (3) (Govt 448)

This course examines origins, formulation, and implementation of American foreign policy in the 20th century. Prerequisites: Government 229 and History 222.

449-450 The Development of the American Constitution (3,3) (Govt 449-450)

This account of the living Constitution traces practices, customs, traditions, and fundamental legal ideas in their historic setting as they make up the body of American constitutionalism today. Prerequisites: Government 229 and History 221 or 222, as appropriate.

451 Seminar: Historiography and Historical Writing (4)

The course combines readings from several well-known modern historians with research, writing, and extensive criticism of papers produced by members of the seminar. Required of all history majors. (Approval of the instructor is required, plus History 111-112 and 444.)

453 Methods of Teaching Social Studies (1.5)

A study of the methods of teaching social studies in the secondary school, this course places emphasis on the practical development of useful teaching materials. (Restricted to students seeking North Carolina teaching licensure.)

454 Internship (3) (Govt 454, Crim 454)

The internship program is a supervised work experience with selected public or private agencies, museums, archives, or similar institutions and activities with a historical purpose. (Approval of the instructor is required.)

459 Contemporary Issues and Conferences (1-3) (Govt 459)

This course is designed to encourage student participation in such programs as the Model United Nations and other intercollegiate conference activities and special programs of study. A student must secure the permission of the instructor in order to enroll in Government/History 459.

460 Special Topics (3)

Special Topics is a tutorial course established at the request of the student and an agreement with a faculty member when special needs or circumstances require presentation of subject matter not otherwise included in the academic program. (By arrangement with the instructor).

Mass Communication

Associate Professors: Ms. Ross

Assistant Professor: Dr. Farmer

Adjunct Instructors: Mr. Autry, Mr. Baez, Mr. Clark, Mr. Cordle, Mr. Lippard, Ms. Masley, Mr. Mitchell, Mr. Stump, Ms. Surles, Mr. Walser

The Department of Mass Communication prepares students for careers in broadcasting, public relations, advertising, and print journalism. The professional curriculum concentrates on the development of practical skills needed for success in the mass media industries. The curriculum emphasizes production, management, and writing skills. In addition, the department offers courses in photography, Internet research, animation, Web page design, and multimedia production.

Requirements for a Major in Mass Communication

Mass Communication majors specialize in one of four areas or sequences: broadcasting (radio and television), public relations (internal and external), advertising (account services and creative services), or print journalism (newspaper and magazine).

Broadcasting (CIP 09.0701)

Core: COMM 200, 210, 225A or an approved speech course

Ethics Segment: RELG 224 (replaces one-half of the general religion requirement) or COMM 250

Management Segment (one of the following courses): COMM 330, or 334

Production Segment (one of the following courses): COMM 322 or 324/324L

Writing Segment: COMM 300 and 217/340

Research Segment: COMM 310

Practicum Segment: Five hours of practicum credit, including a minimum of two hours from COMM 481/482/483 and a minimum of three hours from COMM 465/466/467

Cognate Segment: Complete two advanced mass communication courses or other courses in designated subject areas. *The Broadcast Curriculum Guide* includes a complete list of approved cognate courses.

Public Relations (CIP 09.0902)

Core: COMM 200, 211, 320 or an approved speech course

Ethics Segment: RELG 224 (replaces one-half of the general religion requirement) or COMM 250

Management Segment (one of the following courses): COMM 331, or 335.

Production Segment (one of the following courses): COMM 322, 324/324L, 357, 358.

Writing Segment: COMM 300 and 341

Research Segment: COMM 310

Practicum Segment: Five hours of practicum credit, including a minimum of two hours from COMM 352, 460, 461, and a minimum of three hours from COMM 465/466/467.

Cognate Segment: Complete two advanced mass communication courses or other courses in designated subject areas. *The Public Relations Curriculum Guide* includes a complete list of approved cognate courses.

Print Media (CIP 09.0401)

Core: COMM 200, 212, 320 or an approved speech course.

Ethics Segment: RELG 224 (replaces one-half of the general religion requirement) or COMM 250

Management Segment: COMM 332

Production Segment: (One of the following courses) COMM 321, 325, 328, 357, 358

Writing Segment: COMM 300 and 342

Research Segment: COMM 310

Practicum Segment: Five hours of practicum credit, including a minimum of two hours from COMM 460, 461, 471, 472, 473, and a minimum of three hours from COMM 465, 466, 467.

Cognate Segment: Complete two advanced mass communication courses or other courses in designated subject areas. *The Print Media Curriculum Guide* includes a complete list of approved cognate courses.

Advertising (CIP 09.0903)

Core: COMM 200, CADV 213, COMM 320 or an approved speech course

Ethics Segment: RELG 224 (replaces one-half of the general religion requirement) or COMM 250

Management Segment: CADV 336

Writing Segment: COMM 300 and CADV 343

Production Segment: (One of the following courses) ART 101, 102, 206, COMM 322, 324/324L.

Practicum Segment: Five hours of practicum credit, including a minimum of two hours from COMM 352, 461, 462, 463 and a minimum of three hours from COMM 465, 466, 467.

Cognate Segment: Complete one advanced mass communication courses or other courses in designated subject areas. *The Advertising Curriculum Guide* includes a complete list of approved cognate courses.

(Note: Students who take COMM 250 to meet the Ethics Segment requirement will need to take a second course in religion to meet the General Education religion requirement.)

Requirements for a Minor in Mass Communication

A minor in mass communication requires the completion of a sequence core and fifteen additional hours of approved courses in that sequence.

Mass Communication Course Listing (COMM 000)

130 Sports Reporting (3)

This course is designed to train students in the basics of broadcast sports reporting. The course will cover sports gathering/writing, sports presentation skills, sports production and sportscast production. At the end of this course, the student should be able to locate and cover local and campus sports events, write original sports stories, conduct/produce an interview, and assist in the production of a game broadcast. Registration requires permission of the professor.

200 Introduction to Mass Communication (3)

This course builds on the origins and structures of mass media, their roles in society, and selected theories of mass communication. This course is a prerequisite for COMM 210, 211, 212, and CADV 213.

210 Introduction to Broadcasting (3)

A study of radio and television, which includes the history of the industries, programming, sales,

management and regulation. The course also covers the operation of basic broadcast equipment. This course is a prerequisite for all other broadcast courses. Prerequisite: 200.

211 Introduction to Public Relations (3)

Introduces students to the body of knowledge underlying the public relations process, explores the role of public relations in contemporary American society, and examines both the job skills utilized in the field and the job assignments of public relations professionals. This course is a prerequisite for all other public relations courses. Prerequisite: 200.

212 Introduction to Print Media (3)

This course emphasizes the basic skills of journalism. Though a variety of practical exercises, students are taught to recognize, understand, report, and write news. The Associated Press Stylebook is emphasized. This course is a prerequisite for all other print media courses. (A lab fee is required.) Prerequisite: 200.

220A Desktop Publishing

This course introduces the student to theory and techniques of print production using a desktop publishing system. During the course, the students will learn how to produce basic newsletters, brochures, logotypes, and other projects using industry-standard computer software. (A lab fee is required.) Registration requires the permission of the department chair.

220B Advanced Desktop Publishing

This course builds on the basic skills developed in COMM 220A. During this course, the students produce more advanced projects, including complex small, medium, and large format publications. The course also includes related software packages and advanced graphic and photograph manipulation. (A lab fee is required.) Prerequisite: 220A.

220C Web Page Design

This lab/course examines the principles and techniques of effective Web page design. The topics include HTML, graphics "helper" programs, audio, and video. During the course, students will create and display their Web pages on the Internet.

220D Advanced Web Page Design

This lab/course builds on the skills developed in basic Web page design. The sites developed in this course use the latest production techniques and Internet developments.

220E Computer-Based Graphic Design

In this course, students will learn how to use the computer as a graphic illustration and design tool. The course concentrates on the use of the CorelDraw software package. The course will cover logotype design, illustration, graphics, type manipulation, and the creation of original art with the computer. (A lab fee is required.)

220F Advanced Computer Graphic Design

This course builds on the fundamentals of computer-based graphic design covered in 220E. The course concentrates on the use of the Adobe PhotoShop software package. This more advanced course emphasizes the use of sophisticated raster-based and vector-based graphic design and illustration programs. The course also explores the appropriate use of special effects, filters, and manipulation techniques in communication of information. Prerequisite: 220D

225A Speech for Radio and Television

This practical course examines the skills needed for a position as a radio announcer and television reporter/anchorperson. The areas of study include announcing techniques and camera presence. Prerequisite: 200.

225B Radio Production

Among the subjects covered in this course are equipment operation, field and studio recording, editing, and production techniques. The students are required to produce a variety of radio programming elements. Prerequisite: 200.

225C Electronic News Gathering

Through this course, students develop the basic skills required to operate portable television equipment and video editing systems. In addition, the course emphasizes the process of shooting and editing a television news story. (A lab fee is required.) Prerequisite: 324/324L.

225E Television Reporting

This lab/course examines the presentation of news from the field (stand-ups, live shots) and in the studio (anchoring, bureau reporting). The emphasis of the lab is the clear, accurate, and compelling presentation of news.

225F Introduction to Photography

The course introduces the student to the basics of 35mm photography. The course will examine camera and film basics, shooting, lighting, production, and the development of 35mm film. Students must provide their own 35mm SLR camera. This course is a prerequisite for all other photography courses. (A lab fee is required.) Registration requires the permission of the department chair.

225G Advanced Photo Production

This course builds on the skills covered in the basic photography class. The course covers medium format, portrait and color photography. The students work with a large variety of complex photographic equipment. (A lab fee is required.) Prerequisite: 225F.

225H Photojournalism

This course explores the theory and practice of producing news events and feature photographs. Special attention is paid to news gathering, composition, working under difficult situations, and ethics. Students must provide their own 35mm SLR camera. (A lab fee is required.) Prerequisite: 225F.

225I Broadcast Sales and Advertising

Explores the process of planning, creating, and selling broadcast advertising. The course covers salesmanship and the creative and technical production processes. During the course, the students prepare a broadcast sales plan. Prerequisite: 200.

225J Advanced Electronic News Gathering

This course builds on the skills developed in the television production and the basic electronic news gathering classes. The students produce specialized television news packages, including features, sports stories and short stories. Further, the students learn how to integrate their news packages into a full-length newscast. (A lab fee is required.) Prerequisite: 225C.

225K Advanced Radio Production: Sports Broadcasting

In this course, students will learn advanced radio production techniques. The course covers a specific, specialized topic each semester. Typical topics include long-form radio production, radio drama and sports production (play-by-play, color, etc...) (A lab fee is required.) Prerequisite: 225B.

250 Issues and Ethics in Mass Communications (3)

Examines some of the major issues faced by professionals in the mass media industries. The issues covered include obscenity, regulation, public service, media ownership, and ethical codes. Prerequisite: 200.

300 Writing for the Mass Media (3)

This course is designed to help students master the fundamentals of writing for the mass media and includes instruction in grammar, spelling, punctuation, and word usage. Writing for the media differs from

other forms of conventional writing. This course is devoted to helping students understand the power of language by focusing on sentence structure and emphasizing clarity, conciseness and unity. (A lab fee is required.) Registration requires permission of the department chairman.

305 Visual Communication within Mass Communication

This course examines the use of aural and visual imagery to communicate information that informs, entertains, persuades and sells. The course includes various forms of mass communication, including print, broadcast, new media, as well as non-traditional methods of communication.

310 Research Methods in Mass Media (3)

This course explores the central role of research, both quantitative and qualitative, in effective mass communication. The structure of the course is designed to aid students in understanding and applying research, hypothesis development, research project design, instrument design, data acquisition, analysis, interpretation, application, evaluation, etc...The course will emphasize the uses of research in advertising, broadcast, print media, and public relations.

321 Reporting (3)

This course emphasizes the basic skills needed in entry-level reporting positions with newspapers. The areas covered in the course include information gathering, news judgement, documentation, and news writing. (A lab fee is required.) Prerequisite: 212.

324 Television Production (3)

This course examines the basic elements of television production: the principles of videography, camera operation, lighting, audio, and production management. Students must take COMM 324 and COMM 324L during the same semester. Registration requires the permission of the professor.

324L Television Production Lab

During the lab sessions, the students will work with studio cameras, audio equipment, lighting grid, switcher, VCR's, and character generator to produce a variety of video programs. Students must take COMM 324 and COMM 324L during the same semester.

325 Features (3)

Examines the special requirements of magazine and newspaper feature writing. The course includes the recognition, shaping, reporting, and writing of feature ideas in a publishable form. (A lab fee is required.) Prerequisites: 212.

328 Copy Editing (3)

This practical course is designed to teach students basic copy editing skills. Students are taught news judgment, proofing, copy correction, headline writing, and the other functions of the copy desk. Prerequisites: 212.

329 On-Line Mass Communication (3)

This course will acquaint students with the various implications of the Internet as the newest mass medium. Students will learn how media outlets, both print and broadcast, are using the Internet and what makes for successful, popular media Web sites. They will also learn how the Internet is evolving as a mass medium, much the same way other media technologies have diffused throughout society.

330 Broadcast Management (3)

This course examines the various aspects of a broadcast manager's job: budgeting, employee management, government regulation and planning. The course culminates in the development of a management plan for a local station. Prerequisite: 210.

331 Public Relations Management (3)

This course examines the responsibility of managing a public relations unit or counseling agency and the challenges of functioning in a staff position as a part of organizational management. Prerequisite: 211.

332 Newspaper Management (3)

This course examines newspaper publishing as a business. Through the study of the editorial, advertising, and circulation functions, the students learn the basics of planning and operating a newspaper. Prerequisite: 212.

334 Broadcast Programming (3)

Examines the process of programming radio and television stations. Covers formats, programming tactics, scheduling, purchasing and promotion. This course includes a group television programming project. Prerequisite: 210.

335 Public Relations Campaigns (3)

Study and practice in the process of preparing the public relations campaign including problem/opportunity identification, research, planning, execution, and evaluation. Includes writing and preparation of materials using microcomputer equipment and presentation of campaigns prepared by students. (A lab fee is required.) Prerequisites: 211 and 341.

340 Radio and Television New Writing (3)

A study of broadcast news judgment, news gathering techniques, and the process of writing news for radio and television. The course concentrates on the development of news writing skills and style. (A lab fee is required.) Prerequisite: 210.

341 Public Relations Writing (3)

Study of the reasons for and use of various styles of writing utilized in public relations, and intensive writing practice using microcomputers. Course emphasis is on writing skills, style, and grammar. (A lab fee is required.)

342 Advanced Print Media (3)

This course emphasizes specialized reporting skills and techniques. Students will learn advanced skills in interviewing, observing, and conducting surveys. Students will be exposed to the basics of interpretive, analytical, and investigative reporting. (A lab fee is required.) Prerequisite: 212.

345 Mass Media Law (3)

This seminar course examines the legal concepts that shape the development and operation of each mass media industry. Further, the course will explore the legal concepts of greatest concern to professionals in advertising, broadcasting, print media and public relations. Registration requires the permission of the professor.

346 Advanced Television Production

This course builds on the skills developed in the television production class. Through this course the students develop skills in directing a series of commercials, public service announcements, and long form programs, such as newscasts, public affairs programs, and entertainment programs. The course emphasizes the use of emerging technologies, such as multimedia systems. (A lab fee is required.) Prerequisite: 324/324L.

347 Digital Video Production (3)

Scripting, producing, directing, and editing of longer form, non-news television programs using the tools of digital electronic field production (EFP). Lectures and arranged labs teach the fundamentals of EFP camera operation, lighting, audio, digital editing, and other post-production tools. Each student will participate in origination of two portfolio-worthy video productions. Prerequisite/Co-requisite: At least one of the following: COMM 217, 300, 340 or permission of the instructor.

352 Communication Plus Seminar (1-3)

Through this course, students operate an advertising/public relations agency. The agency offers both creative and account services. The students solicit clients, conduct research, and plan and produce advertising and public relations campaigns. The agency's clients have included the admissions office, non-profit organizations. Students must apply for admission to this course.

353 Publication Design (3)

This course emphasizes the development of basic design skills. The course will cover the creation of basic and advanced publication formats, such as multi-fold pamphlets and brochures, newsletters, logotypes, and small-format newspapers. (A lab fee is required.) Prerequisites: 220A.

354 Magazine Production (3)

This course covers the basic skills required to plan, write, design, and produce a magazine. The course culminates in the production of a small-format magazine. Students enrolling in this class should have a thorough knowledge of basic news writing. (A lab fee is required.) Prerequisite: 212.

355 Mass Communication Seminar (3)

In these advanced courses, students explore special topics under the direction of faculty members. Typical seminar topics include: Advanced Television Reporting, Television Directing, Advertising and Promotion, Editing Public Relations Publications, and New Technologies. Registration requires the permission of the department chair. (A lab fee is required.)

365 Multimedia Production (3)

An introduction to the use and production of multimedia in advertising, business, and education. The course will examine the integration of computer, print, photographic, audiographic, and videographic media. Further, the course explores the process used in designing and creating multimedia productions. Prerequisite: Permission of the department chair.

402 Senior Project (3)

A supervised project designed to enable the senior mass communication major to demonstrate his/her mastery of required skills. Through the project the student must demonstrate his/her ability to complete a professional-quality product. This project is offered in lieu of an internship. Registration requires the permission of the department chair.

460 Communication Project (2)**461 Communication Project (3)**

A supervised project in an on-campus mass communication agency. Through the project, students gain practical skills and work experience. In past semesters, students have worked with the campus radio station, closed circuit television system, sports information office, campus publications, news bureau, and public relations offices. Registration requires the permission of the chair.

465 Internship (3)**466 Internship (4)****467 Internship (6)**

A supervised off-campus work project with an approved agency. Through the internship, students gain practical skills, employment contacts and work experience. Students have worked with national networks, television and radio stations, newspapers, public relations and advertising agencies, state government, and video production organizations. Registration requires approval of the department's internship committee.

471 Newspaper Practicum (1)**472 Newspaper Practicum (2)****473 Newspaper Practicum (3)**

Students gain practical skills and work experience with the campus newspaper, *The Campbell Times*. Staff members serve in editorial, reporting, or sales positions. Registration requires the permission of the advisor.

476 Yearbook Practicum (1)**477 Yearbook Practicum (2)****478 Yearbook Practicum (3)**

The University's yearbook, *The Pine Burr*, is produced in this course. Students gain practical skills and experience on the yearbook staff through editorial and reporting positions. Registration requires the permission of the advisor.

481 Broadcast Practicum (1)**482 Broadcast Practicum (2)****483 Broadcast Practicum (3)**

An advanced, supervised work project in an on-campus telecommunication agency. Through the project, students develop and refine specialized broadcast-related skills. Typical projects include the development of audio and video projects, and management positions with the campus radio station. Registration requires the permission of the department chair.

Communication/Advertising Course Listing (CADV 000)

213 Introduction to Advertising (3)

This course exposes the students to the basics of advertising: history, theory, practice, and ethics. The students will also examine types of advertisers and methods of advertising. This course is a prerequisite for all other advertising courses. Prerequisite: COMM 200.

336 Creative Campaign Production (3)

Through this course, the student will learn the theory and techniques involved in producing a complete advertising campaign for an actual client. The finished campaign includes a creative platform, television advertisement, radio advertisement, print advertisement, outdoor, transit or point-of-purchase advertisement, and a complete presentation to the client. (A lab fee is required.) Prerequisite: CADV 213.

343 Advertising Copy Writing (3)

This course is designed to help the student develop the practical and creative skills required to write copy for public service and commercial announcements. The course will cover radio and television commercial copy, print ad copy, display copy, billboard and transit ad copy. Prerequisite: CADV 213.

351 Media Buying (3)

This course examines audience estimates and the purchasing of media space and time. Includes the study of survey research, frequency and quintal distribution, interpretation of statistical data, demography, and psychographics. Prerequisite: CADV 213.

Mathematics

Professors: Dr. Norwood (Chair), Dr. Taylor

Associate Professors: Dr. Kiu, Mr. Thomas, Mrs. Todd

Assistant Professors: Miss Walker

Adjunct Faculty: Mr. Bryant, Miss Manhart, Dr. Yang

Mathematics and the General College Curriculum

Successfully complete MATH 122 or two mathematics courses numbered 111 and above as selected by the major department (CSC 101 or PHIL 221 may be selected).

Requirements for a Major in Mathematics (CIP 27.0101)

The candidate must complete, with a "C" average or better, a minimum of 36 semester hours, with 18 of the semester hours at the 300 level or above and including Math 224, 333, 335, 441 and at least one course from Math 271, 273, or 278. Students may receive advanced placement for Math 122 or 223.

Requirements for a Minor in Mathematics

A student must complete, with a "C" average or better, 18 semester hours including Math 122, 223, 224 and two additional approved courses above the 224 level.

Requirements for Teacher Licensure in Mathematics (CIP 13.1311)

A student who desires licensure for teaching mathematics in the secondary schools must include in his major, courses in linear algebra, geometry, probability and statistics, modern algebra, and computer science.

Pre-Engineering Program (CIP 27.0199)

Campbell University offers a two year program in pre-engineering. The program has been approved by the Subcommittee on Engineering Transfer for transfer to the engineering programs at North Carolina A & T State University, North Carolina State University, and the University of North Carolina at Charlotte. General Requirements for Pre-Engineering Program: MATH 122, 223, 224, 273, 337; CHEM 111, 113; PHYS 251, 252; ENGL 101, 102; PE 111, 185; Electives 21 hours.

Mathematics Course Listing (MATH 000)

110 Fundamentals of Mathematics (3)

(Credit in Math 110 does not satisfy the General Mathematics requirement. If a student has credit in any other mathematics course, he may not enroll in Mathematics 110.) Basic skills are emphasized-addition, subtraction, multiplication and division of fractions; rules of exponents; solving linear equations; graphs; "word" problems.

111 College Algebra (3)

(Credit in Math 111 is not allowed if students have credit in Math 122.) A basic study of logic, structure, and foundations of algebra. Major topics include functions, inequalities, equations, roots, radicals and exponents.

112 Trigonometry (3)

A study of trigonometric functions, derivation of formulas, the solution of right and oblique triangles with practical applications, solving trigonometric equations, and verifying trigonometric identities, other topics

include vectors, complex numbers, and logarithms. Prerequisite: A student should be proficient in algebra and geometry

118 Mathematics for Liberal Arts(3)

Topics included: symbolic Logic, truth tables, analyzing arguments, sets and counting, probability, expected value, sample data, measures of central tendency, interest, annuities, amortized loans, geometry, matrices, Markov chains, linear programming

122 Analytic Geometry and Calculus I (4)

Topics included: directed distance, slope of straight line, equations of a line, angle between two lines, conic sections, functions of one variable, graphs of functions, limits, continuity, derivatives, differentials, related rates, maximum and minimum problems, Rolle's and mean value theorems, integration, area, properties of the definite integral, and application of the definite integral.

160 Elementary Statistics (3)

Emphasis on statistical inference beginning with a study of elementary probability and continuing to "decision making" through topics that include: mean, standard deviation, analysis of variance, regression analysis of variance, regression analysis, and hypothesis testing.

203 Mathematics Principles (3)

A study of strategies to solve a variety of problems, our numeration system, number theory, geometry, and measurements. Prerequisites: Math 111, high school geometry and an elementary/middle grades education major.

223 Analytic Geometry and Calculus II (4)

Topics included: differentiation and the integration of logarithmic, exponential, trigonometric, inverse trigonometric, and rational functions, and other special forms, approximating definite integral, polar and Cartesian equations of conic sections, and hyperbolic functions. Prerequisite: Math 122.

224 Analytic Geometry and Calculus III (4)

Topics included: vectors in a plane, dot product, derivative of vector value functions, arc length, velocity vector, acceleration vector, unit tangent and normal vectors, curvature, indeterminate forms, improper integrals, vectors in three dimensions, cross product, lines in space, surfaces and revolution, limits of functions of two or more variables, continuity, partial differentiation, double and triple integrals and series. Prerequisite: Math 223.

271 Introduction to programming using C/C++ (3)

An introduction to the basic concepts of programming using the C/C++.

273 Introduction to PASCAL (3)

An introduction to the basic concepts of programming in PASCAL.

278 Introduction to Java (3)

This course will cover programming in the Java Language, the language of the Internet. The course will cover a history of the rapid development of Java as a computer language for "write once, run anywhere".

331 History of Mathematics(3)

A study of the historical development of the various branches of mathematics and, of the contributions of noted mathematicians to the science of mathematics.

333 Linear Algebra (3)

A study of the basic properties of matrices, properties of determinants, rank of a matrix, equivalent matrices, inverse of a matrix, vectors and vector spaces, linear transformations, linear operators, unit and

orthogonal transformations, characteristic equations and roots, minimum polynomial, bilinear, quadratic and Hermitian forms

335 Introduction to Probability and Statistics (3)

A study is made of mathematical models of random phenomena, mean and variance of probability law, law of large numbers, algebra of expectations, frequency distribution, generating functions, correlation, regression, analysis of variance, and hypothesis testing. Prerequisite: Math 223.

337 Differential Equations (3)

Topics included: Methods of solution of first order linear differential equations, higher order linear differential equations, higher degree differential equations, and special differential equations; operators; Laplace transforms, and applications. Prerequisite: Math 223.

340 Discrete Mathematics (3)

This course covers the following topics: sets, symbolic logic, relations, functions, mathematical induction, recurrence equations, trees, spanning trees and graph theory.

376 Introduction to Numerical Methods (3)

Concerned with the practical solution of problems on computers. Prerequisite: Math 271 or 273, Co-requisite: Math 224.

441 Introduction to Modern Abstract Algebra (3)

A study of the number system, groups, rings, integral domains, and fields. Prerequisite: Math 122 (shall have junior standing)

443 Topics in Geometry (3)

An integrated course which includes set theory, logic, a critical study of Euclidean geometry from modern postulation systems and a comparison of Euclidean geometry to elliptic, hyperbolic, and projective geometries.

445 Analysis (3)

An introduction to analysis covering the real and complex number system, basic topology, numerical sequences and series, continuity, differentiation, and the Riemann Stieltjes integral.

453 Methods of Teaching Mathematics (1.5)

A study of methods of teaching mathematics in the secondary school. A course in general methods is also required.

501 Topics in Math for Elementary Teachers (3)

Selected topics in mathematics including algebra, geometry, probability, trigonometry. For Elementary (K-4; 4-6; 6-9) Education majors only.

510 Topics in Geometry (3)

Axiomatic systems, finite and incidence geometry, neutral geometry, parallel postulate with implications, Euclidean geometry, analytic and transformational geometry, non-Euclidean geometries.

522 Number Theory (3)

The course will include divisors and prime numbers, congruencies, Euler's ϕ -function, Diophantine equations, Pythagorean triplets, quadratic reciprocity, and continued fractions.

535 Probability and Statistics (3)

Topics from probability, random variables, expectation, random sampling, test of hypotheses and regression.

540 Introduction to Topology (3)

A study of the basic concepts of general topological space including such topics as compactness, product spaces, connectedness, metric spaces and continuous functions.

545 Real Variables(3)

A study of the real numbers and real valued functions covering the topics: direct products, relations, orderings, sequences, open and closed sets, measurable sets and functions, Riemann integral, Lebesgue integral, monotone functions, absolute continuity, matrix spaces, and topological spaces

Music

Associate Professor: Dr. McKee

Assistant Professors: Dr. Whitley (Chair), Dr. Morrow, Dr. Wilson

Adjunct Professors: Ms. Anderson, Dr. Buckner, Mr. de Jong, Mr. Emerson, Mr. Honeycutt, Ms. Horton, Mrs. Hudson, Ms. LeGrand, Mr. Martin, Mr. Daniecki, Dr. Pruett, Ms. Wishart, Ms. McAdoo-Wilburn

Campbell University offers five specialized tracks in Music including Music Education (with N.C. Certification in Music Education, K-12), Church Music, Composition, Comprehensive Music, and Piano Pedagogy. Admission to the Department of Music is open to students who complete an audition for the music faculty on an intended major applied instrument or voice. In addition to the general requirements for all undergraduate degrees, the course of study in Music includes courses in Music Theory, Aural Training, Music Literature, Music History and Music Performance. Candidates for graduation must have an overall grade point average of 2.5 on all college work attempted and a grade of "C" or better on each course required in Music. Additionally, Music Education majors must have a grade of "C" or better on each course required in Education, and Church Music majors must have a grade of "C" or better on each course required in Religion.

Music Department Handbook of Policies and Guidelines

In addition to requirements published in the catalogue, the Department of Music issues a Handbook of Policies and Guidelines to each student upon entrance to the Department of Music. The Handbook of Policies and Guidelines gives specific information regarding use of Facilities, Auditions, Juries, Junior Standing, Recital Performance and Attendance, and Minor Instrument Proficiencies and Guidelines.

Requirements for a Major in Music (CIP 50.0901)

The following courses are required of all music majors on all tracks: MUSC 101, 102, 103, 104, 132, 133, 201, 202, 203, 204, 221, 223, 331, 332, and 432. Students must enroll in a major ensemble (441, 443, or 456) with each semester of major applied study. Total semesters for major applied study vary with each track. Each track requires 2 semesters of minor applied study. The minor applied study for piano majors is determined following consultation with faculty advisor. The minor applied study for all other majors is piano. Each student must meet the guidelines in proficiency (defined in Handbook of Policies and Guidelines) before the minor applied requirement is satisfied. It may be necessary to take more than 2 hours of minor applied study to meet guideline proficiency requirements. If a student can meet guideline proficiency requirements prior to 2 semesters of minor applied study, the student may opt for another minor applied study. Completion of MUSC 101-104 eliminates four hours of the natural science requirement of the General College Curriculum. Course exemption is available in Music Theory through advanced placement testing. However, students who place beyond MUSC 101, 103, 201 or 203 must substitute each exempted course with MUSC 291, 302, 401 or 402 in observance with prerequisites.

Music Education (CIP 13.1312)

The requirements include the following music courses in addition to those required of all music majors: MUSC 263, 264, 265, 266, 267, 420, 421, and 453. Seven semesters of major applied study culminating with a half recital in the seventh semester are required. Students must also complete the Professional Education sequence in the School of Education. Total number of hours: 139 ½.

Church Music (CIP 50.0999)

The requirements include the following music courses in addition to those required of all music majors: MUSC 267, 326 (keyboard majors only) or 327 (instrumental or voice majors only), 427, 428, 429, 437, 438, and 457; RELG 125, 202, 212, 222, 224, and 226. Seven semesters of major applied study culminating with a half recital in the seventh semester are required. Total number of hours: 130.

Composition (CIP 50.0904)

The requirements include the following music courses in addition to those required of all music majors: MUSC 263, 264, 265, 266, 267, 291, 302, 391, 392, 401, 402, 491, and 492. Six semesters of major applied study culminating with a half recital in the sixth semester are required. Additionally, enrollment in a major ensemble (441, 443, or 456) in the seventh and eighth semesters, and a half composition recital in the eighth semester are required. Total number of hours: 128.

Comprehensive Music Curriculum (CIP 50.0901)

The requirements include the following music courses in addition to those required of all music majors: MUSC 267, 302, 401, 402, and 461. Course of study requires 12 hours of free electives. Eight semesters of major applied study culminating with a full recital in the eighth semester are required. Total number of hours: 128.

Piano Pedagogy (50.0907)

The requirements include the following music courses in addition to those required of all music majors: MUSC 302, 324, 325, 333, 334, 425, 426, 433, 435, and 436. Eight semesters of major applied study culminating with a half recital in the eighth semester are required. Total number of hours: 130.

Prerequisites

MUSC 101 and 102 are prerequisites to all credit music courses except the following: MUSC 131, 132, 133, 321, 437, Music Ensembles, and Applied Music. MUSC 201, 202 are prerequisites to the following: MUSC 302, 331, 332, 401, 402, 432, and 457. MUSC 101, 102, and 201 are prerequisites to MUSC 291. MUSC 291, 391, 392, 491, and 492 must be taken in sequence. HIST 111 and 112 are prerequisites to MUSC 331. Exceptions to the above must be made with the consent of the instructor and the Chairman of the Department.

Requirements for a Minor in Music

A minor in music includes MUSC 101, 102, 132, 133, 221, four hours of ensemble, three hours of applied music study, performance on two informal recitals, and one additional three-hour music lecture course. MUSC 131 may be substituted for MUSC 132 and 133.

Music Course List (MUSC 000)

100 Music Fundamentals (2)

Study of the basic fundamentals and rudiments of music including major and minor scales, key signatures, intervals, solfege, introduction to harmonic analysis, elements of rhythm, and keyboard applications. This course is elective, and does not fulfill any requirement toward a degree in music.

101 Introduction to Theory (2)

The basic rudiments of music including scales, intervals, primary triads, melody, and rhythm with written and keyboard application. Brief consideration of the acoustics of music.

102 Introduction to Sight Singing and Ear Training (2)

Aural skills of music including scales, intervals, primary triads, melody, harmony, and rhythmic dictation on the elementary level.

103 Elementary Tonality (2)

Continued study of elementary music theory including melody, non-harmonic tones, secondary chords and inversions, modulations, and simple forms with written and keyboard application.

104 Sightsinging and Ear Training (2)

Continuation of aural skills of music including scales, intervals, primary and secondary triads, non-harmonic tones, melodic, harmonic, and rhythmic dictation on the upper-elementary level.

131 Music Appreciation (3)

An introduction to music through a rudimentary understanding of the principles of form and the elements of music. Various styles and types of vocal and instrumental works are studied. Historical and cultural backgrounds are included to show their influence on musical development from Gregorian Chant to the present.

132-133 Music Literature (1, 1)

A study of basic vocabulary, forms, periods, and styles of Music. An introduction to music literature for freshman music majors.

161-162 Class Piano-Elementary (1, 1)

Class instruction in piano, elementary level.

201-203 Advanced Tonality (2, 2)

A continuation of MUSC 103. Included in this study are seventh chords, altered chords, modulation, chromatic harmony, and the keyboard application of the principles studied.

202-204 Advanced Sightsinging and Ear Training (2, 2)

A continuation of MUSC 104. Advanced sightsinging and ear training.

205 History of Jazz (1)

The History of Jazz chronicles style periods and central figures in jazz history from the early 20th century until the present. This course is open to both majors and non-majors in music.

206 Handbell Ringing (1)

An introductory course to provide instruction and practice techniques so that students can gain confidence as handbell ringers, experience in leadership skills, and understanding of the structure of bell choirs and materials. The students will study a variety of published handbell music, and experiment with various ringing techniques. Students will practice through playing in an established bell choir and by observing other choirs. This course is open to both majors and non-majors in music.

207 Beginning Guitar Class (1)

An introductory course for beginning guitar including simple notation and chord reading, ensemble experience, rhythm strumming techniques, and chording for vocal accompaniment and group song.

221 Conducting (2)

A study of basic conducting techniques.

223 Advanced Conducting (2)

A continuation of 221. Class includes practical experience with ensembles.

261 Diction for Singers (1)

A course addressing pronunciation issues relating to singing in the six principal languages of western music--Latin, Italian, English, French, German, and Spanish. A central thrust of the course is the use of an familiarity with the International Phonetic Alphabet.

263 Woodwind Methods (1)

Study and practical application of the techniques of teaching and playing the flute, oboe, clarinet, saxophone, and bassoon. Designed for Music Education majors.

264 Brass Methods (1)

Study and practical application of the techniques of teaching and playing the trumpet, horn, trombone, euphonium, and tuba. Designed for Music Education majors.

265 String Methods (1)

Study and practical application of the techniques of teaching and playing violin, viola, cello, and double bass. Designed for Music Education majors.

266 Percussion Methods (1)

Study and practical application of the techniques of teaching and playing percussion instruments including snare drum, timpani, keyboard, accessories, and drum set. Designed for Music Education majors.

267 Introduction to Electronic Music (1)

A survey of the history of electronic music. Practical application of the basic techniques of tape manipulation and elementary electronic music production. Required of Music Education majors.

302 Tonal Counterpoint (3)

A study of eighteenth-century contrapuntal techniques with emphasis on the style of Bach. Linear and vertical aspects and the analytical study of contrapuntal procedures and devices creatively applied in progressive exercises.

319 Music for the Preschool (2)

A study of philosophy, methods and materials appropriate to musical development of the preschool child. Course will include basic rudiments of music and music literature for preschool classroom. Basic performance skills with voice, autoharp and Orff instrumentarium is provided.

320 Practicum in Preschool Music (1)

Practical experience and application of methods and materials acquired in Music 319. Experience features musical leadership with preschoolers in a supervised setting.

321 Music for the Classroom Teacher (3)

The methods and materials used by the classroom teacher in presenting music in the elementary grades including a review of the basic rudiments of music. Development of basic performance skills on the piano, autoharp, and the Orff instrumentarium is provided. (Not offered to music majors.)

324 Elementary Piano Pedagogy (3)

A study of the methods and materials for teaching piano on the elementary level including observation of private and class piano.

325 Advanced Piano Pedagogy (3)

A study of the methods and materials for teaching piano on the intermediate and advanced levels including observation of private and class piano.

326 Service Playing (1)

Techniques and materials used in playing for church services. The course is for the Church Music major whose principal instrument is piano or organ.

327 Organ Nomenclature (1)

An introduction to the characteristics of the organ and the technique of organ playing. For the Church Music major whose principal instrument is not organ or organ.

331 Music History to 1750 (3)

A chronological study of the development of western music from its origins with emphasis on the growth

of musical concepts. Study of composition techniques, styles, and the analysis of musical forms. Interrelation of music, painting, sculpture, literature, and architecture.

332 Music History 1750-1900 (3)

Consideration of literature, forms, and tonal concepts which emerge. Score analysis. Integration of literature, painting, sculpture, and architecture with music.

333 Clavier Literature 1550-1750 (2)

Survey of composers and their works written for the harpsichord and clavichord during the Renaissance and Baroque eras.

334 Piano Literature 1750-1900 (2)

Survey of composers and their major piano works during the Classical and Romantic eras.

401 Orchestration (3)

The study, techniques, and history of arranging for orchestra, band, and heterogeneous groups. Major project for full ensemble required.

402 Forms and Analysis (3)

A study of small and large forms from choral, piano, and symphonic literature.

420 Music Methods in the Secondary School (3)

A study of the techniques of the appropriate vocal and instrumental methods and materials for the secondary school (grades 6-12). The vocal component includes a study of the adolescent voice, organization and administration of the graded choir program, literature, materials, contest procedures and show choir. The instrumental component includes a study of beginner and intermediate methods, graded literature, organization and administration of the graded instrumental program, instrument maintenance, parade and show marching, and contest procedures.

421 Music Methods in the Elementary School (3)

A study of techniques of teaching, particular problems, and appropriate materials for elementary grades: the general music class, suitable song materials, the child voice, creativity, rhythmic activities, directed listening, elementary music theory and performance on simple instruments, such as recorder, autoharp, and the Orff instrumentarium. Laboratory experience in the public schools and University preschool music class constitute part of the program.

425-426 Supervised Teaching of Piano (3, 3)

Experience with teaching piano at various levels under the guidance and observation of the instructor.

427 Music for Children (3)

A study of the philosophy, organization, and appropriate materials for the church music program for children, preschool through age 12; particular problems, implementation of the church music program, the child voice.

428 Music for Youth and Adults (3)

A study of choral literature materials and techniques that are appropriate for use with youth and adult church choirs.

429 Church Music Philosophy and Administration (3)

Consideration of the principles and practice of the music ministry. Organization and methods used in promoting a well-rounded program of music. Definition of objectives and philosophy of the music program. A management approach to the administrative task designed to introduce those principles which should be involved in working with the total church staff and in guiding the work of others.

432 20th Century Music Literature and Theory (3)

A study of music literature of the twentieth century; trends, "isms," from the Post-Romantic to the present. Analysis and application of composition techniques of selected composers.

433 20th Century Piano Literature (2)

Survey of Composers and their major works composed for piano during the 20th Century.

434 Piano Literature (Chamber Music) (2)

A survey of composers and their major works composed for piano combined with other instruments in Chamber Ensemble.

435-436 Piano Ensemble (1, 1)

Study and performance of literature for piano ensemble at one or more pianos.

437 Hymnology(3)

The historical and systematic study of poetic hymns and metrical tunes including the contributions of various ethnic groups to the body of Christian hymnody. Role of hymn literature in worship and evangelism as found in the liturgy of various Christian denominations.

438 Service Music and Solo Literature (1)

Exploration of the historical background of types of music used in the major worship traditions. Examination of published music with emphasis on the ideal use in corporate worship. Composition of music intended to aid in leading the individual to a satisfying worship experience.

453 Music Methods and Materials (1½)

Correlated with Education 453. Designed for music education students in the "block." Includes discussion of procedures and problems particularly applicable to music education, as well as discussion of problems of student teaching. Advanced conducting included for the instrumental major.

457 Practicum in Church Music (4)

Conducted on a part-time basis during the final semester of college work. The student observes, aids, and ultimately assumes charge of rehearsals and in the worship service.

461 Recital (1)

Senior year, 50 minutes of music with program notes. A Junior recital of 25 minutes of music with program notes may be performed during the year prior to the senior recital.

465 Workshop in Orff Methodology (3)

Workshop designed to provide practical instruction for elementary music teachers in educational philosophy and methodological process of Karl Orff. Students completing this course will be certified in Orff Level I by the Americal Orff Shule-werk Association.

Ensembles**441 Campbell University Choir (1)**

Open to freshmen, sophomores, juniors, and seniors by consent of the director, based on competitive tryouts. Concerts on campus and out-of-town, including Spring Tour. Performance concerts of secular and sacred choral music. The major University Choral Ensemble.

442 Campbell Voices (1)

A vocal chamber choir comprised of select vocal students. Literature is typically diverse, both sacred and secular. Group performs both alone and with the University Choir.

443 Choral Society (1)

Open to all students, faculty, and community people with consent of the director. Society Performance of secular and sacred music.

444 Mixed Chorus (1)

Open to all students. This course is designed to provide a choral ensemble experience for non-music majors. This class focuses on the enjoyment of singing and ensemble participation, rather than applied performance.

451 Guitar Ensemble (1)

Open to all students and faculty with consent of the director.

452 Chamber Ensemble (1)

Open to all students and faculty with consent of the director.

454 Jazz Ensemble (1)

Open to all students and faculty with the consent of the director.

455 Brass/Percussion Ensemble (1)

Open to all students and faculty with the consent of the director.

456 Wind Ensemble (1)

Concentration on wind ensemble and band literature. Major University instrumental organization. Open to all students and faculty with the consent of the director. Concerts on campus and out-of-town.

458 Percussion Ensemble (1)

Open to all students and faculty with the consent of the director.

459 Woodwind Ensemble

Open to all students and faculty with the consent of the director.

460 University Pep Band(0)

A music ensemble open to students by audition. This ensemble officially represents the school at athletic events and other special occasions. No academic credit is available. Participation is noted on the student's official transcript.

Composition

These courses aim to develop the student's ability and technique in musical composition and explore the concept of musical language and rhythm. Taught as applied music.

291 Composition I (2)

An introduction to compositional styles with a concentration on early 20th-century music including impressionism, free tonality, modal writing, and pandiatonicism.

391 Composition II (2)

Further study of 20th-century composition with the emphasis on polychords, polytonality, clusters, and heightened chromaticism.

392 Composition III (2)

Examination of 12-tone and serial compositional techniques. Avant garde music is also explored.

491 Composition IV (2)

Study of electronic music from simple tape manipulation to computer music.

492 Composition V (2)

Major concentration on developing the student's own style, being eclectic from previous course work.

Applied Music List (MUS 000)

Private applied music instruction is offered on voice and the instruments listed below. Academic credit varies from 1-2 hours per semester. Music majors register for 2 hours credit on their major applied instrument or voice and meet weekly with the instructor for an hour lesson. Music minors and music majors studying a minor instrument or voice register for 1 hour credit and meet weekly with the instructor for a half hour lesson. The prefix for applied music study is "MUS." The first digit of the course listing indicates the level of study. Course listings beginning with '1' indicate freshman level of study. Numbers beginning with '2' indicate sophomore level of study, and so forth. The last two digits of the course listing indicate the specific instrument of applied study or voice. Section 1 indicates one credit hour, while section 2 indicates two credit hours.

MUS			370,	470,	Conducting
MUS	171,	271,	371,	471.	Piano
MUS	172,	272,	372,	472.	Organ
MUS	173,	273,	373,	473.	Voice
MUS	174,	274,	374,	474.	Flute
MUS	175,	275,	375,	475.	Oboe
MUS	176,	276,	376,	476.	Bassoon
MUS	177,	277,	377,	477.	Clarinet
MUS	178,	278,	378,	478.	Saxophone
MUS	179,	279,	379,	479.	Percussion
MUS	181,	281,	381,	481.	Trumpet

Pharmaceutical Sciences

Professor: Dr. Diliberto (Chair)

Associate Professors: Dr. Al-Achi, Dr. Greenwood, Dr. Holmes (Associate Dean, School of Pharmacy), Dr. Junker, Dr. Shin, Dr. Webster

Assistant Professors: Dr. Abraham, Dr. Bloom, Dr. Breivogel, Dr. Garrett, Dr. Hamrick, Dr. Mosley, Dr. Nemezz

Instructors: Ms. Kelly, Mr. Gallagher

Adjunct Faculty: Dr. Bernard, Ms. Brown, Dr. Chazotte, Dr. Garcia, Dr. Campbell, Dr. Fetterman, Dr. Green, Dr. Jiang, Mr. Kiernan, Dr. Kelsey, Dr. Pande, Dr. Pande, Dr. Parr, Dr. Spancake, Dr. Suryakusuma, Dr. Wagner, Dr. Waterhouse, Dr. Wells, Dr. Wrenn, Dr. Yates.

Major in Pharmaceutical Sciences (CIP 51.2003)

The objective of this major is to prepare students for careers in the biomedical sciences with particular emphasis on pharmaceutical sciences. Graduates will be prepared to enter research and technical positions in the health science industries or to pursue postgraduate studies.

Candidates for the BS degree with a major in the pharmaceutical sciences (BSPS) must satisfy all College of Arts and Sciences requirements as set forth in the General College Curriculum section of the university catalog. Prior to entering the major, students must have completed a minimum of 64 semester hours of college credit taken from the core liberal arts curriculum and must include the following courses or their equivalents: Basic Biology, Human Anatomy and Physiology, Microbiology and Immunology, General Chemistry (2 semesters), Organic Chemistry (2 semesters), Calculus, and General Physics (2 semesters).

North Carolina has one of the largest concentrations of pharmaceutical and biotechnology industries in the United States. It is also one of the most rapidly growing areas in the state. Currently, there are hundreds of pharmaceutical research and manufacturing sites in North Carolina. A majority of these pharmaceutical and biotechnical companies are located in nearby Research Triangle Park, but many others are situated within a one-hour drive of Campbell University.

Additionally, several major research universities and government agencies are nearby. Students may choose an internship site based upon their future career goals including academic, research, manufacturing, or regulatory sites. Many of these sites not only host senior BSPS students for their internships, but also provide opportunities for summer employment and permanent positions upon graduation.

Pharmaceutical Sciences Course Listing (PHSC 000)

210 Laboratory Safety (1)

An introduction to chemical, physical, and biological hazards associated with laboratory work. Students are introduced to laboratory worker regulations, methods for laboratory and personnel monitoring, and personal protective equipment and clothing.

Note: PHSC 210 is a prerequisite (or co-requisite) to all laboratory courses in pharmaceutical sciences.

220/220L Quantitative Laboratory Techniques (2)

An introductory laboratory course concentrating on the basic terminology and mathematical skills needed to perform routine laboratory procedures. Students learn the theory and application of appropriate techniques involved in gravimetric and volumetric analysis. Laboratory skills are honed through a series of

exercises that culminate in a comprehensive practical examination designed to test the student's ability to accurately formulate complex biochemical solutions.

323/325 General Biochemistry/Lab (3/1)

This introductory lecture and laboratory course provides an overview of the synthesis and metabolism of amino acids, carbohydrates, lipids, and nucleic acids; enzyme kinetics; bioenergetics; and macromolecular structure and function. Prerequisite: PHSC 220/220L

324 Experimental Design and Biostatistics (4)

The application of statistical analyses to the design, conduct, and interpretation of pharmaceutical research, development, testing, and manufacturing is provided in this comprehensive course. This course is co-listed as CLNR 324 and PHAR 528.

326/327 Molecular Biology/Lab (3/1)

Fundamental principles of recombinant DNA technology are presented with an emphasis on pharmaceutical applications where appropriate. Laboratory exercises provide a basic understanding of the techniques involved in biotechnology and to provide practical laboratory experience in the use of these techniques. The lecture and laboratory courses are designed to complement one another and work in tandem to give an overall view of biotechnology.

328 Introduction to Pharmacology (4)

The basic principles of pharmacology and toxicology are covered through discussion of the responses of biological systems to drugs and chemicals. The course also considers the absorption, distribution, metabolism, and excretion of xenobiotics and how these factors relate to drug action. Prerequisite: Anatomy and Physiology.

334 and 336 Scientific Literature Seminar I & II (1 and 1)

Students are introduced to literature searching and critical analysis techniques in this series of courses. The courses promote the formulation of critical thinking approaches. Special emphasis is placed on communication techniques. Students apply their knowledge and skill in the form of written and oral presentations developed by researching the current pharmaceutical and biomedical literature.

338 Product and Process Validation (2)

The principles of current good manufacturing practices (cGMP), process troubleshooting, quality control, and quality assurance are introduced. Federal regulations and documentation requirements are discussed throughout the course. The course covers in detail the theory and practices by which pharmaceutical and biotechnology processes are validated.

404 Research in Pharmaceutical Sciences (1-3)

The purpose of this elective course is to introduce pharmaceutical sciences students to methods of basic science and/or clinical research. This involves application of the scientific processes of hypothesis formation, literature evaluation, experimental design, development of technical skills, data acquisition and analysis, and formal presentation of results.

410/411 Analytical Instrumentation (3/1)

A comprehensive introductory course that provides students with an in-depth study of the theory and operation of scientific instrumentation typically found in pharmaceutical, chemical, and biotechnical research and analytical facilities. Students gain hands-on experience with a variety of spectroscopic and chromatographic instrumentation through structured laboratory experiments and student-initiated research projects. Prerequisite: PHSC 220/220L, PHSC 324 or by the permission of the instructor.

414 Research Seminar (1)

Used in conjunction with research courses PHSC 404 and 504, research seminar provides students with an opportunity to present original research work.

416 Senior Seminar (1)

Senior Seminar provides a forum through which students chronicle their internship experience. Students present an overview of the company in which they worked and provide a synopsis of their role in the organization.

418/419 Industrial Pharmacy/Lab (3/1)

This laboratory course introduces students to the preformulation and manufacturing of pharmaceutical dosage forms such as tablets, capsules, sustained release preparations, ointments, and suspensions. Students gain hands-on experience performing a variety of USP tests and unit operations. Prerequisites: PHSC 220/220L, 323/325 and 410/411.

420 Senior Internship (12-14)

The internship provides practical experience in the pharmaceutical, chemical, or biotechnology industries. Students and participating industrial facilities are matched to provide a comprehensive work experience.

438/ 439 Pharmaceutical Methodology and Bioprocessing/Lab (3/1)

In this advanced analytical techniques and instrumentation course, students are exposed to the current state-of-the-art procedures for the isolation, purification, derivatization, and characterization of complex chemical and biological samples. These techniques are then applied to practical analytical situations. Students are also provided with practical hands-on experience in USP methodology and with a comprehensive overview of bioprocessing. Prerequisite: PHSC 410

440 Physical Pharmacy (2)

Physical Pharmacy is an introductory course covering preformulations as practiced in an industrial pharmacy setting.

442 Interpersonal Skills (2)

In this course, students will learn about the various factors involved in developing good interpersonal skills including: self-awareness, perception, understanding individual differences, verbal and non-verbal communication, goal setting, listening and feedback, teamwork, leadership development, conflict resolution, motivation, negotiation, and interviewing skills. The course will provide a forum for group discussions and team exercises.

450/450L Spreadsheet/Data Analysis (1-2)

This course introduces students to advanced functions within commercial spreadsheet programs. Emphasis is placed on the utilization of macros and embedding functions as they apply to data analysis.

451 Scientific and Technical Writing (1.5)

This required course is presented to assist students in the enhancement of their skills in the areas of scientific and technical writing.

452 Pharmaceutical Utilities Systems (1-3)

This course gives students a basic overall understanding of the utility systems used in pharmaceutical manufacturing facilities. By using piping and instrumentation diagrams (P&IDs) to teach these systems, students also become familiar with one of the most commonly used types of engineering documentation in the industry. This course also covers the basic requirements for commissioning and validation of these systems.

462 and 466 Anatomy and Physiology (4 and 4)

This two-course sequence presents a comprehensive study of the structure and function of all organ systems as well as basic biochemical and biophysical principles of cellular and membrane function. Relevance to clinical states and drug action is also presented in many areas. The courses are co-listed as PHAR 302 and 306. Prerequisite: Permission of instructor.

464 Biochemistry (4)

A comprehensive course in biochemistry that discusses the metabolism of amino acids, carbohydrates, lipids, and nucleic acids. Principles of enzyme kinetics and regulation, bioenergetics, and macromolecular structure-function relationships are presented. This course is co-listed as PHAR 304. Prerequisite: Permission of instructor.

468 Clinical Biochemistry (3)

This course discusses the principles of quantitative analysis utilized in common clinical laboratory tests. An introduction to interpretation of abnormal clinical laboratory values is presented. Quantitative aspects of nutrition are presented, and regulatory effects of various hormones are described. Diseases such as arteriosclerosis and diabetes are discussed. This course is co-listed as PHAR 308. Prerequisite: Permission of instructor.

470 Immunology (4)

This course covers basic immunology and the fundamental principles relating to the immune response in normal and disease states. This course is co-listed as PHAR 310. Prerequisite: Permission of instructor.

472 Medical Microbiology (3)

The basic concepts of medical microbiology are presented. Information necessary to diagnose and manage an infected patient are covered. Current, important bacteriologic, virologic, mycotic, and parasitic pathogens and their related diseases are discussed. Clinical presentations, principles of laboratory diagnosis, and preventative measures are emphasized. Prerequisite: Immunology (PHAR 310/PHSC 470). This course is co-listed as PHAR 312.

474 Biopharmaceutics (3)

This course presents the biological and physiochemical factors of the body, drugs and dosage forms that influence drug availability, disposition, and pharmacological and toxicological responses. This course is co-listed as PHAR 314. Prerequisite: Permission of instructor.

Professional Education

Professors: Dr. Davenport, Dr. Nery (Dean, School of Education)

Associate Professors: Dr. Calloway, Dr. Enzor, Dr. Hatcher, Dr. Kendrick, Dr. Durham

Assistant Professors: Dr. Engel, Dr. Morrison, Dr. Powell

Adjunct Instructors: Ms. Blalock, Ms. Chatham, Ms. Wiggins

Director of the Teacher Education Program: Dr. Powell

Coordinator of Undergraduate Elementary Education: Dr. Powell

Coordinator of Undergraduate Middle Grades Education:

Discipline Coordinator for Biology Education: Dr. Metz

Discipline Coordinator for English Education: Ms. Hanemann

Discipline Coordinator for Foreign Languages Education: Dr. Ortiz

Discipline Coordinator for Family and Consumer Sciences: Dr. Nery

Discipline Coordinator for Mathematics Education: Ms. Walker

Discipline Coordinator for Music Education: Dr. Whitley

Discipline Coordinator for Physical Education: Dr. Woolard

Discipline Coordinator for Social Studies Education: Dr. J. Martin

Admission Policy for Teacher Education

All students desiring a program leading to teacher licensure must meet all requirements for (1) admission to the Teacher Education Program, (2) admission to practicum, and (3) admission to student teaching.

Admission to and completion of student teaching do not guarantee licensure. Licensure is contingent upon successful completion of all State Board of Education requirements for the licensure sought.

Application for admission to the teacher education program should be submitted during the second semester of the student's sophomore year. **All requirements for formal admission to Teacher Education must be met by the beginning of the semester prior to the semester in which student teaching is to be done.**

Criteria for Admission to the Program

The criteria for admission to the program include the following:

1. A grade point average of 2.5 or better in overall scholastic work; a "C" or better in all courses in the major field or concentration; a "C" or better in all required professional education courses.
2. Approval of the School of Education and the major department, if a secondary, K-12, or vocational education major.
3. No academic, disciplinary, or social probations.
4. Satisfactory scores on the Praxis I Examination, Pre-professional Skills Test (PPST).
5. Recommendation by two faculty members, one of whom must be a faculty member from Professional Education.

Applications for practicum placements must be submitted by September 15 for spring semester placements, and by February 15 for fall semester placements. Applications for student teaching placements must be submitted by February 15 for fall semester placements and by September 15 for spring semester placements.

Criteria for Admission to Student Teaching

Criteria for admission to student teaching includes the following:

1. A grade point average of 2.5 or better for all scholastic work; "C" or better in all courses in the major or concentration; and a "C" or better in all professional education courses required for licensure.
2. Endorsement by two faculty members: a faculty member in the School of Education and the major department, if a secondary, K-12, or vocational education major; two School of Education faculty members if an elementary or middle grades major.
3. No existing academic, disciplinary, or social probations.

Requirements for a North Carolina Class "A" Teaching License

To qualify for Campbell University's recommendation for an initial North Carolina Class A teaching license, a Bachelor of Arts or Bachelor of Science degree must be earned in one of the programs listed below. In addition, all professional education and licensure requirements must be met. Satisfactory scores on the Praxis I and Praxis II Examinations (including all specialty area tests required by North Carolina), must be submitted to the Dean's office, along with the other required completed forms for licensure.

Course Requirements for the Professional Education Programs

Elementary Education (K-6) (CIP 13.1202)

The elementary education (K-6) program is designed to prepare a student for licensure to teach at the elementary school level. Course requirements for the Bachelor of Science degree in elementary education are as follows:

English 101, 102, and two of the following courses: 201, 202, 203, 204, 205; Foreign Language through 201; Music 321; Art 321; Theatre 115; History 111, 112, 221 or 222, and 331 or 332; Government 229; Geography 113 or 114; Sociology 345; Math 111, 203; Psychology 222; Religion 125 and a religion elective at or above the 200-level; two laboratory science courses; Exercise Science 111 or 112, 185, and 334; Education 221, 225 341, 351, 373, 400, 401, 402, 431, 435, 448, 450, 454, 455, 456, and 457.

A grade of "C" or better must be earned in all required education courses.

Middle Grades (6-9) (CIP 13.1203)

The Bachelor of Science degree with a major in middle grades education requires two concentration areas, social studies and language arts, in addition to the core curriculum and professional education courses. All majors are required to take the following courses:

English 101, 102, and two of the following courses: 201, 202, 203, 204, 205; History 111 and 112; Government 229; Sociology 345; Foreign Language through 201; Religion 125 and a religion elective at or above the 200-level; two laboratory science courses; Mathematics 111 and 203; Exercise Science 111 or 112, 185, and 334; Psychology 222; Theatre 115; Education 221, 225, 341, 352, 400, 401, 402, 454, 455, 456, 457, and 502; plus all coursework in the following concentration areas:

Social Studies Concentration: History 221, 222, 331 or 332, 351, and 353; Geography 113 or 114; Sociology 345.

English/Language Arts Concentration: English 302; Theatre 115 and 131; Education 400, 401, 402 441.

A grade of "C" or better must be earned in all concentration area courses, as well as all education courses.

Secondary, K-12, and Vocational Education

All students seeking licensure as secondary, K-12, or vocational education teachers, are required to take Art 131, Music 131, or Theatre 131 which will meet the general education requirement for the fine arts area. They must also complete two mathematics courses as designated by the major, and all other general education requirements, including two laboratory science courses, Religion 125, a religion elective at the 200-level or above, Exercise Science 185 and 111 or 112.

Professional Education Sequence:

Students desiring licensure in a secondary school teaching area (9-12), Spanish or French education (K-12), music education (K-12), physical education (K-12) or Family and Consumer Sciences education (7-12) must meet all the criteria for admission to the Teacher Education Program and complete the following courses: Psychology 222, 260; Education 221, 385, 431, 432 (except for Family and Consumer Sciences and Physical Education majors, who complete equivalent field experiences within the majors), 441, 453, 454, the pertinent subject area methods course, and Education 458, Student Teaching.

Licensure Requirements for Secondary, K-12, and Vocational Education Majors

Biology (9-12 Licensure) (CIP 13.1322)

A minimum of thirty-five semester hours is required, including Biology 111, 201, 202, 203, 205, 327 or 542, 342, and 430 or 437; Mathematics 112 or 122, and 160; Chemistry 111, 113, and 227; Physics 221 and 222; Science Education 453; and successful completion of the general education and the professional education sequences.

English (9-12 Licensure) (CIP 13.1305)

The English major seeking teaching licensure must complete English 101 and 102; 201, 202, 203 and 204; 302 or 424, and 303; at least three of the following survey courses: 401, 403, 404, 405, and 406; 407 or 415; 408 or 416 or 417; 409 or 411; 410; 453; two approved English electives; and the successful completion of general education requirements and the professional education sequences.

French (K-12 Licensure) (CIP 13.1325)

Thirty-six hours are required in the major, including French 201, 202, 221, 222, 231, 232, 300, 301, 305 400; two additional literature courses; and successful completion of the general education and the professional education sequences.

Family and Consumer Sciences (7-12 Licensure) (CIP 13.1308)

All majors seeking licensure must complete 35 semester hours in the areas of foods and nutrition, child development, family relationships, clothing and textiles, the home and its furnishings, consumer education, career choices, curriculum methods, and field experiences. In addition, all general education requirements and the professional education sequence must be successfully completed.

Mathematics (9-12 Licensure) (CIP 13.1311)

Thirty-six hours of mathematics are required, at least 18 of which must be at the 300-level or above, including courses in linear algebra, geometry, probability and statistics, modern algebra, and computer science. In addition, all general education requirements and the professional education sequence must be successfully completed.

Music Education (K-12 Licensure) (CIP 13.1312)

All music majors are required to take Music 101, 102, 103, 104, 132, 133, 201, 202, 203, 204, 221, 263, 264, 265, 266, 267, 331, 332, and 432. Music Education also requires: Music 223, 420, and 421, and 453; half-recital the senior year; minor applied instrument; and successful completion of the general education and the professional education sequence.

Physical Education (K-12 Licensure) (CIP 13.1314)

Majors seeking Physical Education licensure must take Exercise Science (EXER) 131, 132, 201, 202, 311, 331, 333, 338, 339, 425, 426, 431, 432, and 441. In addition, successful completion of the general education requirements and the professional education sequence are required.

Social Science (9-12 Licensure) (CIP 13.1318)

Students seeking social studies teaching licensure must major in one of three disciplines: a) history, b) social science with a history concentration, or c) social science with a government concentration. All majors will complete the following core courses: six semester hours each in economics, geography, and sociology, plus History 111, 112, 221, 222, 453, and the professional education sequence. In addition, a history major must complete six hours of 300/400-level History classes in each of three areas: U.S. history, European history, and Non-Western (Third World) history. The history major will also complete History 441 (Western Europe) and History 451 (Historiography). The social science major with a history concentration will, in addition to the core courses, complete 12 hours of 300/400 level history classes; six hours of these classes will be in one of three areas: U.S. history, European history, and Non-Western (Third World) history, and three hours each will be taken in the remaining two fields. Both history and social science-history concentration majors will take Government 229 and another three-hour government course. The social science major with a concentration in government, in addition to the core courses cited above, will take Government 229, 230, three government electives, and three additional government classes, at least one each, from three of the four following groups of courses: Policy (Government 334, 336, 337, 338, or 340), International Relations (Government 343, 345, or 448), Political Theory (Government 443, 445, 446, or 447), and Constitutional Law (Government 449 or 450).

Spanish (K-12 Licensure) (CIP 13. 1330)

Thirty-six hours are required for the major, including Spanish 201, 202, 221, 222, 231, 232, 241, 242, 305, 341, 342, and 400. In addition, for Spanish Education majors, successful completion of general education requirements and the professional education sequence are required.

Education Course Listings (EDUC 000)

221 Introduction to Education (3)

A study of the development of our present-day educational system, with emphasis on historical background and development, aims of education in a democracy, duties of the teacher, purpose and development of the curriculum, facilities, support, and control of the schools. The course is designed to be a foundation for further study in education as well as a general college elective. Field experiences are included. Required of all prospective teachers. Offered in the fall, spring, and summer.

225 Writing Seminar (3)

A course designed to assist prospective teachers in further developing their own writing skills, while beginning the study of methodology for teaching writing in grades K-8. Required of all K-6 and 6-9 education majors. Offered in the fall and spring.

341 Child and Adolescent Development (3)

A course designed to provide for a study of prenatal development and infancy, the physical growth, development of motor abilities, and language and thought of the child and adolescent; children's play and interests, adolescent interests, emotional factors, parent-child relationships; and psychosocial development. Field experiences are included. Required of all prospective elementary teachers. Prerequisite: Psychology 222. Offered in the fall, spring, and summer.

351 Elementary Education Curriculum (3)

A study of the development, philosophy, and goals of the K-6 school with particular attention paid to the curriculum, organizational patterns, and classroom management. Emphasis is placed on planning and

evaluating developmentally appropriate experiences for children aged five through twelve, including those with special needs. Field experiences are included. Prerequisite: Education 221. Offered in the spring.

352 Middle Grades Curriculum (3)

A study of the development, philosophy, and goals of the 6-9 school with particular attention paid to the curriculum, organizational patterns, and classroom management. Emphasis is placed on planning and evaluating appropriate experiences for preadolescent and early adolescent students aged twelve through fourteen or fifteen. Field experiences are included. Prerequisite: Education 221. Offered in the spring.

373 Exceptional Children (3) (Psychology 373)

A study of issues related to the identification, assessment, and instruction of children with special needs, including the academically gifted. The course includes an examination of current definitions of exceptionality, legal issues, teaching strategies, coordination with families and community agencies, and the professional responsibility of the teacher. Prerequisite: Psychology 222. Offered in the fall and summer.

385 Curriculum Trends in K-12 and Secondary Education (3)

A course designed for K-12 and secondary majors incorporating curriculum trends in education. Special emphasis is placed on emerging technologies and uses of the computer for instructional programming; exceptional children including legal issues, discussion of mild disabilities, giftedness, and instructional modification. Attention is paid to developing and improving writing skills through the integration of course content with written assignments. A 20-hour field experience is included to give the students the opportunity to observe current trends in the public school setting. Required for secondary, K-12, and vocational licensure. Offered in the fall.

400 Methods of Teaching Reading (3)

This course includes a study of emergent literacy and the reading process. Students explore a variety of instructional approaches for teaching reading. They also gain understanding in appropriate assessment. Topics and areas of study will include emergent literacy, reading process, phonics, literature focus units, literature circles, and theme cycles. Prerequisite: completion of all requirements for admission to practicum. Offered in the fall.

401 Children's Literature (1)

This course includes reading and evaluating literature for children. Special emphasis is given to the integration of quality literature throughout the entire curriculum. Topics and areas of study include realistic fiction, informational books, biographies, poetry, multicultural literature, historical fiction, and modern fantasy. Prerequisite: completion of all requirements for admission to practicum. Offered in the fall.

402 Teaching Writing In The Elementary/Middle School (2)

This course includes a study of writing as it is taught in elementary and middle grades. The course concentrates on the writing process as it is applied to personal writing, informational writing, poetry, and story writing. Spelling grammar, and handwriting are also covered. Topics and areas of study include personal writing, story writing, informational writing, poetry writing, spelling, grammar, and handwriting. Prerequisite: completion of all requirements for admission to practicum. Offered in the fall.

431 Educational Psychology (3)

This course, which is open to junior and senior education majors and psychology majors, includes a study of the application of psychological principles to teaching and learning. Theories of learning, principles of motivation, intelligence, learning styles, teaching models, student assessment, and research methods are studied. Also considered are the implications for education of multicultural diversity. Throughout the course, emphasis is placed on using and learning to teach problem-solving strategies. Prerequisite: Psychology 222, with a grade of C or better. Offered in the fall and spring.

432 Practicum (1)

This course is a pre-student teaching course designed to give secondary and K-12 majors an opportunity to

observe, assist, and teach in the public schools. A minimum of 50 hours in an assigned public school classroom is required. At least ten of these hours must involve teaching. Prerequisites: Admission to Teacher Education, including a 2.5 cumulative GPA, required Praxis I scores, and grades of C or better in all professional education courses and all courses in the major. Offered in the fall and spring.

435 Mathematics for Elementary Education (2)

Techniques and methods for teaching mathematics to young children are explored. Special emphasis is given to the use of three-dimensional materials in developing mathematical concepts such as classifying, ordering, the language of sets, one-to-one correspondence, and use of cardinal and ordinal numbers. Laboratory work provides a deeper understanding of mathematical concepts and also experiences with methods and materials appropriate for classroom teaching. Prerequisites: Math 111 and 203 or equivalent. Required for elementary education licensure. Offered in the spring as part of the block prior to student teaching.

441 Teaching Reading in the Middle and Secondary School (3)

A survey course that gives consideration to the nature of reading and a variety of strategies and materials for teaching reading in the content areas. Field experiences in schools constitute part of the course requirements. Required for middle grades and secondary licensure. Offered in the spring as part of the block prior to student teaching.

448 Social Studies for Elementary Education (2)

A study of the development of multidisciplinary basic social studies concepts and understanding of individual and group relationships appropriate for young children. Emphasis is placed on curriculum development, techniques for developing classroom experiences that encourage social growth, cultural awareness, independence, and a personal value system. Required for elementary education licensure. Offered in the spring as part of the block prior to student teaching.

449 Social Studies for Middle Grades Education (2)

This course provides an integrated multidisciplinary study of the interaction of people in diverse cultural and geophysical environments for prospective teachers of preadolescent and early adolescent students. Emphasis is placed on the structure and process of the social studies involving all the social science disciplines. Specific attention is given to developing a social studies curriculum, establishing objectives, planning units, developing a general teaching model, evaluating behavioral changes, and selecting and utilizing teaching materials, specialized equipment, and resources. Required for middle grades licensure. Offered in the spring as part of the block prior to student teaching.

450 Science Curriculum, Methods, and Materials for Elementary Education (2)

This course provides a study of curricular trends, the structure of science education, and techniques of instruction. Emphasis is placed on process skills, group instruction, individualized learning through interest centers, development of natural and human field resources, and evaluation and integration of science concepts and skills into the total learning environment for young children. Required for elementary education licensure. Offered in the spring as part of the block prior to student teaching.

453 Effective Teaching Strategies (Secondary and K-12) (3)

A study of the general methods, techniques, practices, instructional materials, and teaching strategies appropriate for secondary, K-12, and vocational teaching. Required for secondary, K-12, and vocational licensure. Offered in the spring as a part of the block prior to student teaching.

454 Student Teaching Seminar (3)

A series of seminars and workshops on such topics as problem solving, classroom management, substance abuse, legal matters, professional ethics, and other issues pertinent to the needs of student teachers. Offered in the fall and spring.

455 Educational Technology Foundations

This course provides a study of the foundations and application of technology in the educational setting both as an instructional tool for students and as a professional tool for educators. A lab component is part of the course. Offered in the fall.

456 Practicum (Elementary Education and Middle Grades) (3)

The practicum is a 150-hour field experience taken during the fall semester of the senior year by all K-9 majors in conjunction with methods courses. Students observe, assist, and carry out instruction in a public school classroom under the supervision of cooperating teachers and education faculty members.

Prerequisites: Admission to Teacher Education, including 2.5 cumulative GPA, required Praxis I scores, and grades of C or better in all professional education courses. Offered in the fall.

457 Student Teaching (Elementary and Middle Grades) (6)

Student teaching is a ten-week full-time experience designed for the spring of the senior year. The student teacher observes, assists, and ultimately takes charge of regularly scheduled classes in a school. Members of the Professional Education faculty and cooperating teachers supervise and evaluate the student teacher.

Prerequisites: Admission to Teacher Education, including 2.5 cumulative GPA, required Praxis I scores, and grades of C or better in all professional education courses. Offered in the fall. Offered in the spring.

458 Student Teaching (Secondary, K-12, and Vocational) (6)

Student teaching is conducted on a full-time basis for the final ten weeks of the second semester of the senior year. The student teacher observes, assists, and ultimately assumes charge of regularly scheduled classes in a school. Each student teacher participates in planning and evaluative sessions with the education faculty and others concerned. Members of the Professional Education faculty, subject matter specialists, and cooperating teachers work together in the assignment and supervision of the student teacher.

Prerequisites: Grades of C or better in all professional educational courses (including the major), a GPA of 2.5 or better, and admission to the student teaching phase of the teacher education program. Offered in the spring.

502 The Middle School (3)

This course is designed to provide middle grades majors with the opportunity to study and discuss the middle school concept and its implications for teachers. The topics addressed include the history and rationale underlying middle and junior high schools; the various organizational patterns employed; collaboration with colleagues, administrators, and support personnel; adviser-advisee programs; exploratory experiences; working with special needs students; parent involvement; and utilizing community resources. Seniors and A-Plus-Masters' students take this course as one of the block courses that precedes student teaching. Offered in spring only.

Psychology and Sociology

Professors: Dr. Cogdill, Dr. Davenport, Dr. Taylor (Chair)

Associate Professors: Dr. Calloway, Dr. Hatcher, Dr. Kendrick, Dr. Enzor

Assistant Professors: Dr. Fragedakis, Dr. Asbury

Adjunct Instructors: Dr. Smith, Mr. Henderson, Dr. Viehe, Dr. Thomasson, Mr. Dermott

Requirements for a Major in Psychology (CIP 42.0101)

Forty semester hours of courses in the major including Psychology 222, 260, 330, 364, 368, 369, 461, 463 and 480; four psychology electives chosen from additional psychology offerings; Mathematics 160 and eight semester hours of science (Biology 111 and 221 strongly recommended) are required. No more than nine hours may be earned through practicum courses. Psychology 222 is a prerequisite to all other psychology courses.

Students considering graduate study for work in clinical or counseling psychology should take additional work in biology. Anyone planning work in experimental psychology should elect additional courses in mathematics, statistics, and chemistry. Those considering the personnel and industrial fields of psychology should elect Business Administration 331 (Management) and Economics 454 (Labor Economics).

Requirements for Psychology minor are (twenty-one hours) Psychology 222, 260, 330, 364, 368, 461, and one elective.

Psychology Course Listing (PSYC 000)

Note: Psychology 222 is a prerequisite to all other psychology courses. Psychology 222 is not recommended for Freshmen.

222 General Psychology (3)

A study of the various fields of psychology: the developmental process, learning, motivation, emotion, frustration and adjustment, attention and perception, memory and cognition, group dynamics, and abnormal behavior. Attention is given to the application of these topics to problems of study, self-understanding, and adjustment to the demands of society. Required of all prospective teachers. Psychology 222 is a prerequisite to all psychology courses. Offered in the fall, spring, and summer.

232 Social Psychology (3) (Sociology 232)

A study of the way individuals' thoughts, feelings, and behaviors are influenced by others. Topics for consideration include the manner in which status and role characteristics affect personality, the behavior of small groups, group pressure on individual judgment, leadership, crowd behavior, affiliation, and aggression. Offered in the spring.

260 Developmental Psychology (3)

A study of the course of human development from conception to death, including physical, moral, cognitive, emotional, and social development. Normal developmental tasks are also examined. Offered in the fall.

266 Statistics for the Social Sciences (3)

An introduction to the mathematical techniques used for evaluating behavioral and social science data as well as to the conceptual and theoretical framework behind many of these techniques. The semester will begin with a discussion of basic descriptive and predictive techniques (i.e., central tendency, variability, correlation and regression); but a greater part of the term will be spent discussing probability theory.

hypothesis testing and scientific decision-making. Since this is a psychology course, emphasis will be placed on statistical applications for psychological data, but these methods can be used in other fields as well. Offered in the spring.

325 Psychological Disorders of Childhood and Adolescence (3)

A study of the causes and treatment of various psychological disorders of childhood and adolescence, for example, anxiety disorders, depression, childhood schizophrenia, and autism. Offered in the fall.

330 Research Methods in Behavioral and Social Sciences (4) (SOWK 330)

An introduction to the basic research methods used in the social and behavioral sciences. Special emphasis is placed on developing the student's ability to understand and evaluate scientific research as well as to conduct and report research. Exposure to historically significant problem areas is provided. Laboratory work is an integral part of the course. Prerequisites: Math 160. Offered in the fall and spring.

364 Psychology of Human Relations (3)

A study of factors which affect human relationships, e.g. family of origin, personal values, parenting styles, making choices, personal growth, and sex roles. Offered in the fall and spring.

365 Industrial Psychology (3)

A study of psychological principles as applied to business and industry, to employer-employee relationships, and to producer and consumer behavior. Offered as needed.

368 Psychology of Learning and Cognition (3)

A survey of the major concepts and research methods for studying learning and cognition (e.g., language development, memory formation, and conditioning procedures. Offered in the spring.

369 Physiological Psychology (3)

A study of the biological correlates of behavior. Emphasis is placed on the development and organization of the nervous system, the physiological basis of motivated behavior, and the function and structure of sensory and motor systems. Offered in the fall and spring.

372 Perception (3)

A study of the organizing principles of perception. Topics such as perception of movement, depth, taste and smell, form, color, and illusions are examined. Offered as needed.

373 Exceptional Children (3) (Education 373)

A study of issues related to the identification, assessment, and instruction of children with special needs, including the academically gifted. The course will include an examination of current definitions of exceptionality, legal issues, teaching strategies, coordination with families and community agencies, and the professional responsibility of the teacher. Offered in the fall and summer.

430 Advanced Research (3)

A seminar course designed to give students experience in evaluating literature, planning and conducting original research, and technical writing aimed at publication. Emphasis will be on gaining mastery of topics by extensive literature review and on gaining critical thinking skills necessary for scientific inquiry. Prerequisites: a grade of C or better in Psychology 330 and Math 160. Instructor permission required. Offered alternate spring.

461 Abnormal Psychology (3)

A survey of the major forms of abnormal behavior of children and adults, with an emphasis on understanding the cause, treatment, and prevention of these disorders. Prerequisites: Nine semester hours of psychology. Offered in the spring.

463 Educational and Psychological Testing (3)

A study of the principles of educational and psychological testing in the areas of aptitude, achievement, personality, interests, and attitudes. An examination of the various types of tests through using test manuals and the tests themselves. The application of these tests to educational and psychological measurement is addressed. Offered in the spring.

467 Advanced Behavioral Statistics (3)

An exploration of quantitative methods of data analysis, including: higher order analysis of variance, factor analysis, multiple regression and other multivariate techniques. Emphasis is placed on the logic and utility of statistical techniques and on computer applications of data analysis. Prerequisites: a grade of C or better in Psychology 330 and Psychology 266. Instructor permission required. Offered as needed.

471 Clinical Psychology (3)

A survey of the field of clinical psychology, with emphasis on the major positions in which clinical psychologists are employed and their principal activities. Prerequisites: Psychology 364 and 461. Offered in the fall of even years.

475 Theories of Personality (3)

A survey of the major personality theories ranging from Freud's theory to Existentialism. This is a seminar for psychology majors or minors only. Offered in the fall of odd years.

480 History of Psychology (3)

A study of the important figures, concepts, schools, and systems of psychology from the early Greek philosophers to the present; an exploration of the development of psychological research and theory within the modern and post-modern sociopolitical context; and a re-evaluation of psychology's heritage from the perspective of a Christian worldview. Offered in the fall.

490 Practicum: Mental Retardation (3)

A practicum in a setting for the developmentally disabled or an institution for the mentally retarded. At the institution, students are given the opportunity to become involved in various programs that allow for the practical application of coursework. Supervision is arranged through the staff of the institution and the faculty at Campbell. The student participates in a seminar and also writes a paper concerning his or her experiences. Offered in the fall and spring only through the main campus.

492 Practicum: Techniques in Counseling (3)

Work for approximately a half-day per week in an applied setting with a mental health counselor, public school counselor, probation officer, or psychologist. Students also participate in an on-campus seminar involving readings and discussions of various aspects of counseling. They write papers related to an aspect of counseling and their work experiences. They also develop and write papers concerning their philosophy and theory of counseling. Supervision is jointly arranged by the staff of the applied setting and the faculty. Offered in the fall only through the main campus.

497 Internship (6)

Full-time work for selected upper class students in a human services setting during a summer session. The students are supervised by the staff of the institution and Campbell faculty and are involved in activities with a staff psychologist or mental health counselor at the respective institution or agency. Offered in the summer only through the main campus.

499 Directed Study (1-3)

A directed study designed to permit an advanced psychology major to investigate in detail specific problem areas relating to his or her primary field of interest. Permission must be obtained from the instructor, chair, and dean.

526 Drug Treatments of Psychological Disorders (1)

An overview of the psychotropic medications that health care providers prescribe for various emotional, mental and behavioral disorders. Class discussion will begin with some basic issues in drug action (i.e., potency, efficacy, primary effects and side effects, administration, distribution and metabolism). Focus will be on educating non-medical professionals about the use of drug treatments for conditions like depression, excessive anxiety, ADHD, schizophrenia and others. Offered alternate spring.

Sociology Course Listing (SOCI 000)

Please Note: Although the School of Education does not offer a major or minor in Sociology, the courses listed below fill General College Curriculum and other requirements and may also be taken as electives.

225 Principles of Sociology (3)

A study of human social interaction and society. Specific topics include cultural variations, socialization, social inequality, collective behavior, and global ecology. Offered in the fall and spring.

226 Social Problems (3)

The nature and extent of social problems in contemporary life examined in terms of causes and constructive methods of prevention and treatment. Offered in the fall and summer.

232 Social Psychology (3) (Psychology 232)

A study of forms of interaction of personalities which characterize social life. Topics for consideration include the manner in which status and role characteristics affect personality; the behavior of small groups studied experimentally, group pressure on individual judgment, rumor, leadership, crowd behavior, and social movement. Offered in the spring.

340 The Family (3) (Religion 340)

A socio-cultural study of the family as an institution with emphasis on the family in its current cultural setting. Topics studied include family dynamics as they arise in the family life cycle. The religious dimension of the family is explored. Prerequisite: Religion 101.

344 Sociology of Religion (3) (Religion 344)

An investigation of the socio-cultural structure of American Christianity. The meaning and belonging functions of religion are explored.

345 Human Diversity (3) (Social Work 345)

A study of the biological, psychological, social, and cultural dimensions of human diversity. All elementary and middle grades education majors must complete this course.

359 Juvenile Delinquency (3)

A study of delinquency as a form of socially deviant behavior. Its definition and extent, the limitations of statistics, theories of causation, the delinquent subculture, prevention, and treatment are explored.

360 Gerontology (3)

A study of the biological, sociological, psychological, and behavioral changes occurring in later life, from the standpoint of both the individual and society.

450 Women In Our Culture (3) (Family and Consumer Sciences 450)

A course examining the major contributions of women to society and culture. This course encourages students to become knowledgeable about the influence of women on a global level regarding law, public policy, education, architecture, furniture, politics, employment, the economy, religion, health, medicine, and the media. Open to all students

Religion and Philosophy

Associate Professors: Dr. Jonas (Chair), Dr. Penny

Assistant Professors: Dr. Lopez, Dr. English

Professor Emeritus: Dr. Keyser

Adjunct Faculty: Dr. Whiteman, Dr. Simmons, Dr. Eddy, Dr. Vandergriff

Objectives of the Religion and Philosophy Department

A. To offer required courses in the basic curriculum designed to acquaint students with their Judeo-Christian and Western philosophical heritage.

B. To offer advanced elective courses in religion, Christian ministries, and philosophy for those students who desire to explore, beyond an introductory level, specific subjects due to personal interest.

C. To offer concentrations and/or minors in religion and philosophy for those students who have more intense personal and academic interests in such areas of study.

D. To offer a Bachelor of Arts degree with majors in religion, religion and Christian ministries, and religion and philosophy as pre-seminary and/or pre-vocational preparation for students entering a religious or church-related vocation or otherwise desiring to major in religion.

Religion/Philosophy and the General College Curriculum

Candidates for degrees requiring three hours of religion must take RELG 125.

Candidates for degrees requiring six hours of religion must take RELG 125 (An exception is religion majors, who will normally satisfy this requirement by taking RELG 202 and 212.) and a second course chosen from the following religion courses: RELG 202, RELG 212, RELG 222, RELG 224, RELG 236, RELG 251, RELG 340.

Religion and/or philosophy courses count toward fulfilling the social science/humanities requirement of six hours. Moreover, PHIL 221 (Logic) can count as three of the six hours required in mathematics. Philosophy courses do not count toward fulfilling the religion requirement unless they are cross-listed as religion.

Requirements for a Major in Religion (CIP 38.0201)

Some students who major in religion will choose to follow a general course of study. Such students will complete a curriculum which consists of thirty-seven hours of religion beyond the General College Curriculum requirements. Students on the general religion track normally will take RELG 202 Old Testament Survey and RELG 212 New Testament Survey to satisfy the General College Curriculum religion requirement and must take PHIL 121 Introduction to Philosophy to satisfy three hours of the social science/humanities requirement. Students in this curriculum are required to complete the following:

A. A departmental core of twelve semester hours beyond the General College Curriculum, consisting of RELG 222 Christian Beliefs, 224 Christian Ethics, 236 Introduction to Church History, and 226 Introduction to Church Ministry.

B. Three semester hours from each of the following areas:

1. Biblical Studies: RELG 302 Prophetic Literature, 304 Poetic and Wisdom Literature, 313 Teachings of Jesus, 314 Paul, and 317 John.
2. Historical Studies: RELG 334 American Christianity and 335 Baptist History
3. Theological Studies: RELG 321 Contemporary Theology, 323 Philosophy of Religion, 324 Ancient and Medieval Theology/Philosophy, 325 Modern Theology/Philosophy.
4. Religion and Society Studies: RELG 340.

C. Nine additional hours of religion (at least three-hours of which must be a 300-level course).

D. RELG 402 Senior Seminar.

Requirements for a Major in Religion and Christian Ministries (CIP 38.0299)

Some students will desire to combine their interests in the above-mentioned academic areas with specific preparation for church-related ministries. A Religion and Christian Ministries curriculum is available to give students some basic preparation in pastoral ministry, youth ministry, education ministry, and missions ministry. (Programs in church music are also available through the Department of Music.) Students normally will take RELG 202 Old Testament Survey and RELG 212 New Testament Survey to satisfy the General College Curriculum religion requirement and must take PHIL 121 Introduction to Philosophy to satisfy three hours of the social science/humanities requirement.

Religion and Christian Ministries students are required to complete the following:

A. A departmental core of twelve semester hours beyond the General College Curriculum, consisting of RELG 222 Christian Beliefs, 224 Christian Ethics, 236 Introduction to Church History, and 226 Introduction to Church Ministry.

B. Three semester hours from each of the following areas:

1. Biblical Studies: RELG 302 Prophetic Literature, 304 Poetic and Wisdom Literature, 313 Teachings of Jesus, 314 Paul, and 317 John.
2. Historical Studies: RELG 334 American Christianity and 335 Baptist History
3. Theological Studies: RELG 321 Contemporary Theology, 323 Philosophy of Religion, 324 Ancient and Medieval Philosophy, 325 Modern Theology/Philosophy.
4. Religion and Society Studies: RELG 340 Family.

C. Nine hours chosen from RELG 228 Missions Ministry or RELG 251 World Religions; 262 Introduction to Christian Education; 360 Pastoral Ministry; 362 Youth Ministry; Music 427 Music for Children, or 428 Music for Youth and Adults, or 429 Church Music Administration, or 437 Hymnology; THEA 301 Theatrical Production in Church Environment.

D. RELG 402 Senior Seminar.

Requirements for a Major in Religion and Philosophy (CIP 38.999)

Students who choose to major in religion and philosophy are required to take twenty-one hours of religion beyond the General College Curriculum requirement (normally satisfied by taking RELG 202 Old Testament Survey and RELG 212 New Testament Survey) and nineteen hours of philosophy, including PHIL 121 Introduction to Philosophy (which also satisfies three hours of the social science/humanities requirement in the General College Curriculum). The Religion and Philosophy major will complete the following requirements:

A. A departmental core of twelve semester hours beyond the General College Curriculum, consisting of RELG 222 Christian Beliefs, 224 Christian Ethics, 236 Introduction to Church History, and 226 Introduction to Church Ministry.

B. Three semester hours from each of the following areas:

1. Biblical Studies: RELG 302 Prophetic Literature, 304 Poetic and Wisdom Literature, 313 Teachings of Jesus, 314 Paul, and 317 John.
2. Historical Studies: RELG 334 American Christianity and 335 Baptist History
3. Religion and Society Studies: RELG 340 Family

C. Twelve hours of philosophy including PHIL 221 Logic, 323 Philosophy of Religion, 324 Ancient/Medieval Philosophy/Theology, 325 Modern Philosophy/Theology. (Philosophy 121 Introduction to Philosophy must be taken and will normally be counted toward the social science/humanities requirement in the General College Curriculum.)

D. PHIL 402 Senior Seminar.

Other Departmental Requirements for Majors

A. Residence requirement: All students majoring in religion are required to complete a minimum of eighteen hours of advanced courses at Campbell.

B. Grade point average requirements for graduation: The major must have an overall average of "C" or better for each of the following categories of courses: all work attempted; all work attempted at Campbell; all religion courses attempted; all religion courses attempted at Campbell.

C. English requirement: Any departmental major may be required to take an English proficiency test. If the student requires additional English studies, placement will be made by the English Department.

Requirements for a Minor/Concentration in Religion or Philosophy

A minor/concentration is offered in religion and philosophy. Students must complete eighteen hours beyond the General College Curriculum requirements, with nine hours numbered 300 and above. Courses are to be chosen under the guidance of the department chairman or a religion faculty adviser.

Religion Course Listing (RELG 000)

125 Introduction to Christianity (3)

A study of the biblical foundations, historical development, and traditional beliefs and practices of Christianity and its impact on Western culture and on the lives of those who embrace it. Religion 125 is prerequisite to all other religion courses (except for Religion majors, who normally begin with 202 and 212).

200 Special Topics in Ministry (3)

Special topics related to the practice of Christian ministry are explored.

202 Old Testament Survey (3)

A survey of the Old Testament designed to introduce the student to the history, literature, and religion of ancient Israel.

212 New Testament Survey (3)

A survey of the literature of the New Testament in the context of the early Christian church.

222 Christian Beliefs (3)

A systematic study of fundamental beliefs within the Christian faith. Concepts discussed include: God, revelation, faith, Christ, Holy Spirit, history, evil, and eschatology.

224 Christian Ethics (3)

A study of the Judeo-Christian heritage in ethics with attention to its Biblical and theological foundations. In addition, there will be an examination of how Christian ethics bears upon various contemporary moral issues.

226 Introduction to Church Ministry (3)

A study of the history, theology, and practice of the Christian ministry. Attention is given to the concept of "call" and to deciding upon a specific area of church-related vocation.

228 Missions Ministry (3)

A study of the history and practice of Christian missions with special emphasis on contemporary philosophies and practices of missions.

236 Introduction to Church History (3)

A historical study of the major movements, people, and thoughts throughout the history of the Church.

251 World Religions (3)

A survey of the major religions of the world.

262 Introduction to Christian Education (3)

A leadership approach to the administrative task. The course offers an introduction to principles which should be employed by those who hold church leadership responsibilities.

302 Prophetic Literature of the Old Testament (3)

A study of selected prophets in their historical contexts. Prerequisite: RELG 202.

304 Poetic and Wisdom Literature (3)

A study of Old Testament poetic and wisdom literature in its cultural setting with special emphasis on the Psalms. Prerequisite: RELG 202.

313 Teachings of Jesus (3)

A study of the message of Jesus recorded in the first three Gospels with special attention given to the Sermon on the Mount and the parables of Jesus. Prerequisite: RELG 212.

314 Paul (3)

A study of Paul's life, letters, and thought based on the letters and Acts critically examined. Prerequisite: RELG 212.

317 The Gospel of John (3)

A study of the fourth Gospel through an extensive investigation of the book itself along with a special consideration of its historical setting and its meaning for today. Prerequisite: RELG 212.

321 Contemporary Theology (3)

A study of major nineteenth- and twentieth-century theologians beginning with Schleiermacher. Theological views discussed include: speculative idealism, liberalism, neo-orthodoxy, existentialism, and death of God theology. Prerequisite: RELG222.

323 Philosophy of Religion (3) (Philosophy 323)

An examination of basic issues in philosophy of religion. Included in the discussion are: the relation between faith and reason, God's existence, the problem of evil, man's nature and destiny, the function of religious language, and others. Prerequisite: RELG222 or PHIL 121.

324 Ancient and Medieval Theology and Philosophy (3) (Philosophy 324)

A historical survey of theology and philosophy, beginning with the ancient Greeks and extending through the Middle Ages. Treatment is given to Plato, Aristotle, the apostolic fathers, the apologists, Tertullian, St. Augustine, and St. Thomas Aquinas. Prerequisite: RELG 222 or PHIL 121.

325 Modern Theology and Philosophy (3) (Philosophy 325)

A historical survey of theology and philosophy from the time of the Reformation into the contemporary period. Attention is given to Luther, Calvin, the Pietists, the rationalists, the empiricists, and Kant. Prerequisite: RELG222 or PHIL 121.

334 Religion in America (3) (History 334)

A study of the history, ideas, and influence of religion in America. Prerequisite: RELG 236

335 Baptist History (3)

A study of Baptists, including their origins, history, principles, and practices. Prerequisite: RELG 236

340 Family (3) (Sociology 340)

A socio-cultural study of the institution of the family as it exists in a cultural setting. Key emphasis is given to the American family system and the crucial issues that affect its welfare. Topics include mate selection, husband-wife relationships, marital interactions, marital disruption, and dual career marriages.

360 Pastoral Ministry (3)

A study of the multiple roles of the pastor, including preaching, worship leadership, and congregational care.

362 Youth Ministry (3)

A study of the social and spiritual development of young people. The course will seek to equip the youth minister with cognitive skills, resources, and techniques for ministry with young people through the church. A library of resources for youth programs and projects will be developed for use by the student carrying out a comprehensive youth program in a local church.

402 Senior Seminar (4) (Philosophy 402)

Advanced investigation and research on selected topics in biblical studies, church history, theology, and philosophy. (Cross-lists as Philosophy 402 whenever seminar topic is appropriate.)

Philosophy Course Listing (PHIL 000)**121 Introduction to Philosophy (3)**

An examination of basic philosophical issues which arise in the fields of ethics, political philosophy, theory of knowledge, philosophy of religion, and metaphysics.

221 Logic (3)

A study of proper procedures in reasoning. Attention is given to informal fallacies, Aristotelian logic, and modern symbolic logic.

323 Philosophy of Religion (3) (Religion 323)

An examination of differing views on basic issues in philosophy of religion. Included in the discussion are: the relation between faith and reason, God's existence, the problem of evil, man's nature and destiny, the function of religious language, and others.

324 Ancient and Medieval Philosophy and Theology (3) (Religion 324)

A historical survey of philosophy and theology, beginning with the ancient Greeks and extending through

the Middle Ages. Treatment will be given to Plato, Aristotle, the apostolic fathers, the apologists, Tertullian, St. Augustine, and St. Thomas Aquinas.

325 Modern Philosophy and Theology (3) (Religion 325)

A historical survey of philosophy and theology from the time of the Reformation into the contemporary period. Attention is given to Luther, Calvin, the Pietists, the rationalists, the empiricists, and Kant.

443 Medieval Political Thought (3) (Government/History 443)

A survey of the political thinkers of the medieval period, this course focuses on the Christian writers of Western Europe including St. Augustine, St. Thomas Aquinas, Marsilius of Padua, John Duns Scotus, and William of Occam. There will be some analysis of Muslim and Jewish thinkers as well. Prerequisites: HIST 111 and GOVT 229.

445 Modern European Political Thought (3) (Government/History 445)

The main currents of European political thought are analyzed in terms of their historical setting and philosophical background. Prerequisites: HIST 112 and GOVT229.

447 Ancient Political Thought (3) (Government/History 447)

A survey of the political writings of Plato and Aristotle, this course focuses on analyses and evaluations of political ideas as well as their historical settings. Prerequisites: HIST 111 and GOVT 229.

Greek Course Listing (GREE 000)

101-102 Elementary Greek (3,3)

A survey of the elements of Hellenistic (koiné) Greek grammar, illustrated systematically from the Greek New Testament.

201-202 Intermediate Greek (3,3)

Readings from the Greek New Testament with a review of grammar at the intermediate level. Introduction to Greek-based exegetical tools and the textual apparatus. Prerequisites: GREE 101 - 102.

Social Work

Professor: Dr. Kledaras (Chair)

Assistant Professor:

Adjunct Instructors: Ms. Murphy, Ms. Kane

The social work program is accredited by the Council on Social Work Education. The social work major is designed to prepare students for entry-level generalist social work practice with individuals, families, groups, organizations, and communities.

Academic credit for life or previous work experience will not be given in lieu of courses prefixed SOWK nor for the social work field practicum. The major leads to the Bachelor of Social Work degree.

All candidates for a major in social work must be officially admitted to the social work program. The standards for admission to the program include:

1. Satisfactory progress and completion of the general college curriculum requirements. Social Work 201 and 290 with a grade of "C" or better.
2. Minimum grade point average of 2.25 on all work attempted.
3. Approval of faculty in the social work program.

Requirements for a Major in Social Work (CIP 44.0701)

Social Work 201, 290, 320, 321, 330, 340, 341, 350, 351, 480, 481, 490, and 491; Biology 111, Biology 221; Sociology 225, 340, and 345; and Psychology 222, 364, and 461. The required mathematics course is Math 160. Sociology 340 may be counted as Religion 340.

Upper level courses in social work are open only to normally admitted majors. Electives should be supportive of the major and approved in consultation with the social work faculty advisor.

Social Work Course Listing (SOWK 000)

201 Introduction to Social Work (3)

A course offering students, who think they would like to work with others, an opportunity to explore the field of professional social work and to assess their own aptitude and interest in a major in social work. Students planning careers in related professions such as criminal justice, ministry, or allied health may wish to learn about social work, as well. The course includes a brief history of the profession and an overview of major social welfare needs and services in the U.S. Problems which social workers encounter in their practice with individuals, families, groups, organizations, and communities are presented and a generalist problem-solving perspective is introduced. Students visit social work agencies and meet professional social workers. Offered in the fall and spring.

290 Early Field Experiences in Social Work (3)

A course designed for students exploring social work as a career choice. It is coupled with Introduction to Social Work (201) to provide an opportunity to observe the people, places, and processes of helping. Students are assigned to a human service agency for a minimum of 65 hours during the semester. Written requirements include a journal and descriptive agency analysis. Field faculty and students complete a written evaluation of performance in the agency setting. Prerequisites: 2.0 GPA, and permission of the Field Coordinator. Students must apply by March 15th for the fall semester and by October 15th for the

spring semester. It is recommended that SOWK 201 be taken and completed with a grade of C or better prior to taking SOWK 290. Offered in the fall and spring.

320 Social Work Practice Methods I (3)

A course for exploring the dynamics of the helping process, with opportunities to practice skills, gain knowledge, and integrate personal and professional values in the helping relationship. A problem-solving model is presented for generalist practice with individuals and families. Prerequisite: Formal admission to the major. Offered in the fall.

321 Social Work Practice Methods II (3)

A course providing opportunities for students to become knowledgeable about and skillful in professional helping relationships with groups, organizations, and communities. The problem-solving method is utilized in depth and skills for working with diverse populations are strengthened and expanded. Prerequisites: Formal admission to the major and completion of SOWK 320 and SOWK 350. Offered in the spring.

330 Research Methods in Behavioral and Social Science (4) (Psychology 330)

A course providing an introduction to basic research methods. Emphasis is placed on the student's ability to locate and understand scholarly articles, and to conduct elementary research for social work practice, including single case system designs, brief surveys, and simple program evaluation, as well as the preparation of the research report. This is a laboratory course. Prerequisites: Formal admission to the program and completion of Mathematics 160. Offered in the Spring.

340 Social Welfare History and Systems (3)

341 Social Welfare Systems and Services (3)

Two courses focusing on historical, economic, political, and philosophical foundations of American social welfare policy. In the first semester the origins of social welfare and the history of social welfare and social work in the United States are presented. Concepts important to understanding social welfare policy and delivering services to clients of various backgrounds and differing life experiences are studied, including that of social justice in the light of our Judaeo-Christian heritage. The impact of discrimination in American history is assessed, with a consideration of how societal inequities might be remedied. In SOWK 341 students engage in social policy analysis, in the study of social welfare systems and services, and formulate social policy recommendations in the form of written legislative testimony. Social welfare services are studied, with application to specific case situations. Students are introduced to an overview of the legal system, and to the legislation and regulations pertinent to social work generalist practice. Prerequisite: Formal admission to the program, and completion of Sociology 225. Offered in the fall and spring respectively.

345 Human Diversity (3) (SOC1 345)

A study of the biological, psychological, social, and cultural dimensions of human diversity. All elementary and middle grades education majors must complete this course. Offered in the spring.

350-351 Human Behavior in Social Environment (3,3)

Two courses presenting an ecological perspective on the development and functioning of individuals, families, structured groups, communities, and organizations. The dual perspective of the developing individual over the life course and the environmental processes provides the framework for understanding human behavior. Emphasis is placed on life transitions and events, diverse social environments, contexts that support or inhibit human development, functioning, and variations in development, and functioning which arise from cultural processes, race and ethnicity, gender, sexual orientation, disability, socioeconomic status, and rural/urban differences. Prerequisites: Formal admission to the program, and completion of Biology 221, Sociology 225 and Psychology 222. Offered in the fall and spring respectively.

360 Topics in Social Work (1-3)

An upper-level elective open to majors and to selected junior or senior non-majors with approval of the instructor. Topics vary from semester to semester and the course may be repeated for credit with different

topics. Topics in the past have included social work with older persons, social work with women, and social work with alcohol and drug dependent clients and families. Offered as needed.

480-481 Practice Seminar (3,3)

A practice seminar directed toward helping the student integrate field and classroom experiences and to strengthen understanding and application of generalist practice, social work research knowledge and skills, and ability to work with diverse populations in a variety of settings. Enrollment must be concurrent with SOWK 490 and SOWK 491. Offered in the fall and spring respectively.

490-491 Field Practicum I and II (6,6)

Social work practice in an approved agency under MSW supervision for a minimum of 450 clock hours, 225 hours each semester. Students are responsible for expenses and must possess a valid North Carolina driver's license and motor vehicle insurance. A completed request for placement must be turned in to the Field Coordinator by midterm of the semester prior to placement. Prerequisites for SOWK 490 and 491: Completion of all Social Work courses. Offered in the fall and spring respectively.

Theatre Arts

Assistant Professors: Ms. Martin, Mr. Wallace

Adjunct Faculty: Mr. Johnson

Students wishing to major in Theatre have the option of choosing from two areas of concentration: Theatre Arts or Drama & Christian Ministry. Candidates for graduation must have an overall "C" average in all college work attempted and a minimum grade of "C" in each course required in the major.

Each Theatre Arts and Drama & Christian Ministry major is required to participate in the theatrical productions of the department every semester. To meet this requirement, all majors must register for one section of Practicum (THEA 224, 225, 226, 227, 228, 229, 230, 231) each semester.

Theatre Arts Core Classes

The following courses (29 credit hours) are required of all majors:

THEA 113 Vocal Performance or 115 Public Speaking (3)
 THEA 220 Stagecraft Lab (1)
 THEA 221 Stagecraft (3)
 THEA 224, 225, 226, 227, 228, 229, 230, 231 Practicum (.5 each)
 THEA 241 Acting (3)
 THEA 242 Directing (3)
 THEA 321 Scene Design or 323 Stage Lighting or 328 Costume Design (3)
 THEA 331 Theatre History to 1800 (3)
 THEA 332 Theatre History from 1800 (3)
 THEA 329 Costume Construction (3)

Theatre Arts Curriculum (CIP 50.0501)

Theatre Arts majors will take the 50 to 61 credit hours required by the General College Curriculum, the 29 credit hours of the Theatre Arts Core Classes, 18 credit hours of THEA elective courses, and 20 to 31 hours of General Elective courses.

As a Theatre Arts major, students can choose an emphasis in one of several areas including: Acting, Directing, Stage/Lighting Design, Playwrighting, Technical Direction, Musical Theatre, Stage Management, Theatre Management, etc.. Elective courses (both Theatre Arts courses and General Electives) will be selected under the supervision of advisors to support the student's choice of emphasis.

Drama & Christian Ministry Curriculum (CIP 50.0599)

Drama & Christian Ministry majors will take the 50 to 61 hours required by the General College Curriculum (to include RELG 202 (New Testament) and RELG 212 (Old Testament)), the 29 credit hours of the Theatre Arts Core classes, 8 to 19 hours of General Electives, as well as the following 30 hours:

RELG 226 Introduction to Christian Ministries (3)
 RELG 236 Church History (3)
 RELG 222 Christian Beliefs or 224 Christian Ethics (3)
 RELG 340 Family (3)
 RELG 362 Youth Ministries (3)
 MUSC 427 Music for Children (3)
 THEA 272 Puppetry (3)
 THEA 292 Stage Management (3)
 THEA 301 Theatrical Production in a Church Environment (3)
 THEA 342 Advanced Directing (3)

Theatre Arts Minor

The following are required for a minor in Theatre Arts: THEA 131, 220, 221, 224, 225, 226, 227, 241, 242, 331 or 332, plus six hours of THEA electives. Acting or crewing in at least one departmental production is also required.

Theatre Arts Course Listing (THEA 000)

113 Vocal Performance (3)

A basic course in vocal production designed for the development of a more efficient and pleasing voice for actors, radio and television announcers, lawyers, and those desiring vocal improvement. Special attention is given to relaxation, breathing, vocal gesture and emotion, and the process of verbalization.

114 Dialects for the Actor (3)

This course is designed to assist the actor in developing techniques used for creating different dialects required for performance of certain works of dramatic literature.

115 Public Speaking (3)

A study of the principles of oral communication designed to increase a student's skill in presenting ideas through speech, and developing vocal, physical, critical, and analytical skills through actual speech performance.

131 Introduction to Theatre (3)

A broad survey of theater from its origins to modern times. Work on current productions is required.

132 Theatre Lab (1)

An optional lab that can accompany THEA 131. Requires work on current productions.

220 Stagecraft Lab (1)

A required lab to accompany THEA 221. Requires work on current productions.

221 Stagecraft (3)

An applied study of the fundamentals of technical theatre, including scenic construction, painting, properties, and rigging. A working knowledge of tools and materials will be developed in a laboratory situation. Concurrent enrollment in THEA 220 required.

222 Drawing and Rendering for the Stage (3)

A course specializing in drawing, sketching and rendering for the theatre.

223 CADD Computer Assisted Drafting and Design (3)

A course in Computer Assisted Drafting and Design for the stage. Basic tasks including drawing lines, shapes, and freehand objects, then progressing from flats and other scenic pieces to floor plans, front elevations and working drawings. Basic familiarization with ClarisDraw and MiniCad applications. Prerequisite: THEA 221 or 222.

224, 225, 226, 227, 228, 229, 230, 231 Theater Practicum (0.5 credit hour each)

Each Theatre Arts and Drama & Christian Ministry major is required to participate in the theatrical productions of the department every semester. Assignments will be made for the practical applications of basic theater skills.

241 Acting (3)

A course that teaches the actor to use the fundamental tools of the craft – voice, body and imagination – through exercises, improvisations, and simple character development.

242 Directing (3)

An introductory course in the fundamentals of stage directing. (Prerequisite: THEA 241 or permission)

251 American Musical Theatre (3)

A survey of the history and development of musical theatre in the United States.

261 Playwriting (3)

An introductory course in the writing of plays. Projects can include scenes, one-acts, and development of full-length scripts.

271 Stage Makeup (3)

A basic study of the design principles and application of stage makeup.

272 Puppetry (3)

An introductory course in the creation and manipulation of puppets and creation of scripts for puppet shows. Course will culminate with a publicly performed puppet show.

281 Summer Theatre Production (3)

This course offers classroom and hands-on work on a summer theatre production. Classroom work will center on basic technical operations, actor workshops, and specialty subjects as production needs demand.

282 Advanced Summer Theatre Production (3)

This course offers advanced hands-on work and supervisory positions on a summer theatre production. Includes acting, stage management, and technical crew work.

291 Theatre Management (3)

An introductory course in theatre management studying the fundamentals and methods of theatrical producing, business management, audience analysis, press relations and publicity, advertising, and audience engineering and psychology. Projects can include work on a main stage production.

292 Stage Management (3)

An introductory course in stage management familiarizing the student with the practices of the stage manager. Includes tasks required before rehearsals begin, during readings and rehearsals, during production, and during post-production. Projects include assembly of a promptbook and associated paperwork.

301 Theatrical Production in a Church Environment (3)

An introduction to the philosophical and practical aspects of dramatic production in church settings. Topics include: history of the use of drama in the church, historical and contemporary attitudes towards drama in the church, types of church drama, script selection, script writing, and the unique challenges of overall production management of church drama. Projects can include performance in a church setting.

320 Lighting Lab (1)

A required lab to accompany THEA 323. Requires work on current productions.

321 Scene Design (3)

An introduction to the basic principles and techniques of scenic design in theory and application with a practicum in analysis, layout, drawing, and color. (Prerequisite: THEA 22 1)

322 Scene Painting (3)

An introduction to the techniques and materials that form the foundation of traditional scene painting.

323 Stage Lighting (3)

A study of theatrical lighting design and equipment with a practicum in the use of lighting instruments, control systems, color media, production techniques, and lighting design. Concurrent enrollment in THEA 320 required.

324 Advanced CADD (3)

An advanced course in CADD involving perspective, rendering, and lighting design layout on the Macintosh computer and use of the most current design and lighting applications. Prerequisite: THEA 223.

327 History of Costume (3)

A course that explores the history of costume from ancient times to the present, including study of the various the influences on clothing development.

328 Costume Design (3)

A course emphasizing the design of costumes for the stage. Includes drawing, sketching, rendering of ideas for costumes, and fabric selection.

329 Costume Construction (3)

A course that covers various costuming techniques, including stitching and construction of costumes. May include patterning, draping, dyeing.

331 Theatre History to 1800 (3)

A study of theatre history and dramatic literature from the Classical Greeks to 1800.

332 Theatre History from 1800 to the Present (3)

A study of theatre history and dramatic literature from 1800 to the present day. (Prerequisite: THEA 331)

341 Advanced Acting (3)

The study of character development and through analysis, scene preparation, and performance. (Prerequisite: THEA 241 or permission)

342 Advanced Directing (3)

An advanced course in stage directing. Attention is given to analysis of themes, structure, and style. (Prerequisites: THEA 241, THEA 341, and THEA 242)

343 Acting Styles (3)

A course designed to specialize the actor in one particular acting style – Shakespearean, Commedia etc. Can be taught in conjunction with the production of a period play utilizing this style. (Prerequisite: THEA 113 and THEA 341 or permission)

345 Musical Theatre Styles (3)

A study of various musical theatre styles. (Prerequisite: THEA 241 or permission)

360 Stage Combat (3)

A course designed to acquaint the student with proper methods in combat techniques used on stage. Techniques may include unarmed combat, broadsword and dagger, quarterstaff, foil and sabre techniques.

370 Advanced Design (2)

A course designed to offer the student advanced training in scenic, lighting, and costume design with a variety of projects entailing advanced design problems. (Prerequisite: THEA 221 and 321, 323, or 328)

421 Design Project (2)

An advanced course designed to offer the student, during the senior year, an opportunity to realize a design project for a one-act or main stage production under the supervision of the design faculty. (By permission)

422 Technical Direction Project (2)

An advanced course designed to offer the student, during the senior year, an opportunity to realize a technical direction project for a one-act or main stage production under the supervision of the faculty technical director. (By permission)

423 Stage Management Project (2)

An advanced course designed to offer the student, during the senior year, an opportunity to realize a stage management project for a one-act or main stage production under the supervision of a faculty member. (By permission)

431 Theatre History/Research Project (2)

An advanced research project conducted in the senior year, under the supervision of the directing faculty. (By permission)

441 Acting Project (2)

An advanced acting project in a major role in a one-act play or main stage production, performed in the senior year, under the supervision of the acting faculty. (By permission)

442 Directing Project (2)

A play directed in the senior year under the supervision of the directing faculty. (By permission)

443 Creative Dramatics (3)

The study of the use of drama, improvisation and play as a stimulant for learning and development of creative imagination in children and adults.

444 Drama & Christian Ministries Project (2)

An advanced project involving a Drama & Christian Ministries production. Conducted in the senior year under the supervision of the directing faculty. (By permission)

445 Musical Theatre Project (2)

An advanced acting project in a major role in a musical production, performed in the senior year, under the supervision of the directing faculty. (By permission)

460 Special Topics (3)

This is a course offered when special circumstances require examination of subject matter not typically included in the academic program. Topics and projects vary.

461 Internship (3)

This is a course usually taken during a student's third or fourth year. The student will be responsible for finding an appropriate theatre organization. Prerequisite: must be a Theatre Arts Major or Drama & Christian Ministries Major and have permission of the department.

462 Dramaturgy (3)

An introduction to the many roles of the dramaturg, including theatrical researcher, literary manager, script developer, creative consultant, critic, and "audience of one" serving the playwright, director, actors, designers and audience. The origins and development of dramaturgy will be examined.

470 Design Portfolio (2)

A course offering the design student the opportunity to assemble the products of their technical theatre

courses into a portfolio necessary for interviews for graduate school and employment. Additional interview training will be offered. (By permission.)

481 Summer Theatre Production (3)

This course offers classroom and hands-on work on a summer theatre production. Classroom work will center on basic technical operations, actor workshops, and specialty subjects, as production needs demand.

482 Advanced Summer Theatre Production (3)

This course offers advanced hands-on work and supervisory positions on a summer theatre production. Includes acting, stage management, and technical crew position work.

Trust and Investment Management

Professor: Mr. Pond

Associate Professor: Mr. Witherspoon (Chair), Dr. Deutsch, Ms. Vaughan

Assistant Professor: Mr. Berry, Mr. Butler

Requirements for a Major in Trust and Investment Management (BBA) (CIP 52.0899)

ACCT 213, 214, 333; BADM 221, 222, 300, 314, 320, 336, 530, 531, 533, 535, 570; CIS 125; ECON 223, 224, 453; TRST 330, 400, 410, 411, 415, 420, 432, 435, 436, 438. In order to receive the Trust Certificate, Trust Management graduates must earn a minimum overall grade point average of 2.50.

Requirements for a Major in Trust and Investment Management Pre-Law Track (BBA)(CIP 52.0899/22.0001)

ACCT 213, 214, 333; BADM 221, 222, 300, 314, 320, 530, 531, 533, 535, 570; CIS 125; ECON 223, 224; TRST 330, 400, 410, 411, 415, 420, 432, 435, 436, 438; and three from: DRAM 115, ENGL 302, GOVT 229, or PHIL 221. In order to receive the Trust Certificate, Trust Management graduates must earn a minimum overall grade point average of 2.50.

Trust Management Course Listing (TRST 000)

330 Wills, Estates, and Trusts (3)

A course designed to introduce students to the subject of property and interests therein, the distribution of property by intestacy or by will, trusts as dispositive devices, and the planning and administration of property in estates and trusts.

400 Fiduciary Law (3)

A study of the origin and nature of trusts, methods of creating a trust, necessity of trust property, capacity to be a trustee, definiteness of beneficiaries and the transfer of their interests. Prerequisite: TRST 330.

410 Estate Taxation (3)

A study of the basic principles of federal estate tax law and basic techniques to minimize the impact of the tax on the decedent's estate. Prerequisite: Accounting 333.

411 Gift and Fiduciary Taxation (3)

A study of the basic principles of federal gift tax law, generation-skipping tax law, and fiduciary income tax law. Emphasis will be given as to how to minimize the impact of gift, generation-skipping, and fiduciary income taxation. Prerequisite: Accounting 333 and Trust 410.

415 Operational Functions of a Trust Department (3)

A study of organization staffing, policies, control procedures, and administration of a trust department. Provides the student with a foundation for understanding the role of effective management in achieving adequate profitability in a trust department. Emphasis is placed on the application of Regulation 9 of the Comptroller of the Currency and techniques for the development of new trust business, including prospecting techniques, sales talks, establishment of new business goals, and maintenance of records. Prerequisites: TRST 330 and 400.

420 Fiduciary Law (3)

A study of the administration of trusts, the duties and powers of the trustee, the liabilities of the trustee, and

remedies of the beneficiary of third persons, the investment of trust funds, allocation and apportionment of receipts and expenses between principal and income, and the termination or modification of a trust. Prerequisite: TRST 400.

432 Estate Planning Seminar (3)

A study of the principles of intestate law, taxes, and techniques of planning the disposition of property by will and trust. Fields covered include wills, inter vivos trusts, insurance trusts, pension and profit-sharing trusts, and business buy-sell agreements. Semester case problem requires analysis and development of a plan and presentation to live participants. Considerable emphasis is placed on new business development and post mortem planning. Prerequisites: TRST 420 and 411, or approval of instructor.

435 Estate Administration and Accounting (3)

A senior seminar course for trust majors based on a case problem. The case covers the entire period of administration of an estate and focuses upon the major fiduciary functions of administrative law and court proceedings. Required is the preparation of gift, estate, and income tax returns; investment review; accounting procedures which require the student to inventory assets and set up and operate a set of accounting ledgers and records for the discharge of fiduciary responsibility, including post mortem planning; prepare all necessary court accounting and make final contribution per terms of the Last Will and Testament. Prerequisite: TRST 420.

436 Employee Benefits (3)

This course is designed to introduce the student to the various types of employee benefits that are provided employees by or through employers including corporations, sole proprietorships, and the self-employed. The course examines social security benefits and focuses on the basic concepts used in the establishment, administration, investment, and distribution of various Defined Benefit and Defined Contributions Plans. The student is exposed to the regulations and practices governed by ERISA and takes part in the review and development of a prototype plan. Several active employee benefit account managers are guests during the semester to provide the students a realistic application of the course of study. Prerequisites: ACCT 333, TRST 411.

438 Trust Administration (3)

An examination of the administration and distribution of property placed in trust by individuals, corporations, charitable institutions, and units of government. Prerequisite: TRST 420.

490 Trust Internship (3)

A trust or financial planning-related employment experience with an approved organization. Related term paper required. Prerequisites: Junior standing (at least), declared major in Trust Management, overall grade point average of 2.0 or greater, and completion of an independent study contract.

Special Programs

Student Life

The Office of Student Life provides instruction in several student development areas. Courses address (a) academic skills, (b) leadership development, and (c) vocational aptitude and finding employment. Led by professionals, they earn elective credit for the participants.

SLIF 150 Partners (1)

Facilitator: Phillip Melvin, Former Dean of Student Life

Instruction is provided in study skills, time management, self-motivation and behavioral modification. Additionally, participants are assigned to a mentor with whom they meet at least once a week to help them develop study plans for the coming week.

SLIF 100 Fundamentals of Leadership (2)

Facilitator: Dorothy Mullins, Director of Residence Life

A thorough examination of various leadership qualities and leadership roles designed to develop effective problem solving and life skills to aid Resident Assistants in becoming fully capable of filling a leadership position.

Foreign and Special Studies Programs

Malaysian Program

Campbell University is involved in a cooperative program with the University of Ulster of Belfast, Ireland and Tunku Abdul Rahman College (TARC) in Kuala Lumpur, Malaysia.

Graduates of the science curriculum at TARC receive their Bachelor of Science degree from Campbell University. The students are carefully selected and highly motivated. They are taught by outstanding faculty, ably supported by excellent facilities and equally good library holdings and equipment.

Study Abroad Program

Through a cooperative arrangement with South Wales Baptist College, Cardiff, Wales, and the University of Wales, programs for summer and nine-months study are available to students in selected majors.

Council for Christian Colleges and Universities Off Campus Study Programs

Because Campbell University is an affiliate of the Council of Christian Colleges and Universities, an association of more than 100 private liberal arts Christian colleges and universities, a number of off-campus learning opportunities are available to juniors and seniors with a minimum G.P.A. of 2.75.

These include an American Studies Program in Washington, D.C., a Latin American Studies Program in Costa Rica, the Los Angeles Film Studies Center, a Middle East Studies Program in Cairo, a Russian Studies Program in Moscow and Nizhni Novgorod, and a summer study program at the University of Oxford. Two new editions include the Oxford Honors Program, which opened in 1998 and the China Studies Program in January of 1999.

American Studies Program

The American Studies Program (ASP) is a semester-long internship/seminar program for upper division students in most majors. Located in Washington, D.C., the program offers a non-traditional, interdisciplinary, issue-oriented learning experience. Students gain on-the-job experience through an internship in the field of their choice and study current national and international issues in seminars led by Washington policy experts. ASP serves as Campbell's Washington campus and students may earn up to 16

semester hours of credit toward their degree. By exploring public policy issues in the light of biblical truth and working in internships which help prepare them for a future in the marketplace, students gain insight and experience that can strengthen their ability to live and work in a biblically faithful way in society and in their chosen field. The aim of the program is to prepare students to live faithfully in modern society as followers of Christ. One unit of study each semester looks at an economic issue in either domestic or international policy.

China Studies Program

The Chinese Studies Program (CSP) provides for students to live and experience Chinese civilization firsthand. Students participate in seminar courses on historical, cultural, religious, geographical, and economic issues of China. It is an interdisciplinary, cross-cultural program that allows students to study the Chinese language as well as assist Chinese students in learning English. The emphasis of the China Studies Program is to provide and introduce students to the diversity of China while enabling them to interact with this important part of the world in a Christ-centered way. The China Studies Program is a semester-long program, which began in the spring of 1999. Students earn 16 semester hours of credit.

Latin American Studies Program

San Jose, Costa Rica is the setting for the Coalition's Latin American Studies Program (LASP).

This semester abroad program is designed for students who are seeking to integrate their faith with knowledge and experience in a third world context. LASP participants typically earn credit toward their degree. Students live with Central American families, engage in language classes and seminar courses, work on rural service projects and travel in Central America. Each spring semester LASP also offers a specialized concentration for science majors entitled "Tropical Science and Sustainability/Environmental Studies." Participating natural science students branch off from the main LASP body for six weeks to earn credit in the natural sciences. Likewise, each fall the LASP offers a specialized concentration for those students majoring in business. Entitled "International Business: Management & Marketing" this program differs from the core program by offering credit structured specifically for business students. In addition, both fall and spring terms offer "Advanced Language and Literature Studies," which is designed specifically for and is limited to, Spanish Majors. Students in all concentrations earn 16 semester hours of credit.

Los Angeles Film Studies Center

The Los Angeles Film Studies Center (LAFSC), located in Hollywood, is a semester-long internship/seminar program for upper division students who are interested in an introduction to the work and workings of the mainstream Hollywood film industry. Although not intended as a substitute for film school, the LAFSC curriculum is designed to expose students to the industry, to the many academic disciplines that might be appropriate to it, and to critical thinking and reflection on what it means to be a Christian in this field of endeavor. As such, the curriculum is balanced between courses of a theoretical nature and courses that offer students a more applied introduction to the world of film. The curriculum consists of two required seminars focusing on the role of film in culture and the relationship of faith to work. In addition internships in various segments of the film industry provide students with valuable hands-on experience. Participating students may earn 16 semester hours of credit, which may be applied to a variety of student programs through consultation with an academic adviser.

Middle East Studies Program

The Middle East Studies Program (MESP) in Cairo, Egypt provides students with the opportunity to study the cultures, religions and conflicts within this diverse and strategic region.

Students from Christian colleges participate in interdisciplinary seminar classes, receive Arabic language instruction and serve as interns with various organizations in Cairo. Participants spend two weeks traveling to Israel, including time in the West Bank. Additional field trips are available for interested students. The Middle East Studies Program encourages evangelical Christians to relate to the Muslim world in an informed and constructive manner.

Russian Studies Program

Students attending the Russian Studies Program (RSP) spend a semester studying the language, culture and history of Russia as well as current political and economic issues. In addition they interact with leaders in the community to develop a better understanding of contemporary Russian society and how, as Westerners, they can foster more interaction with the country.

Mobility characterizes the program. Two weeks are spent in Moscow and 10 weeks in Nizhni Novgorod (formerly Gorky). The final three weeks in St. Petersburg allow students to live with a Russian family and to experience Russian culture first-hand. A service project during this segment of the program gives students the opportunity to have a practical "hands on" work experience alongside Russian nationals in a wide range of professional settings. Students generally earn 16 semester hours of credit.

Oxford Honors Program

Honors students and other qualified individuals have the opportunity to study in England through an interdisciplinary semester at Oxford University. The Oxford Honors Program allows students to participate in a variety of study programs in the arts, religion, history, economics, philosophy, and many other subjects. Students choose two study programs and participate in a seminar and an integrative course through which they produce a scholarly project or term paper. Field trips are also included in the educational experience. The Oxford Honors Program aims at providing rigorous academic programs which increase critical thinking skills with a Christian perspective. Students earn 16 semester hours of credit.

Oxford Summer School Program

The Oxford Summer School Program is a multi-disciplinary study of the history and development of the Renaissance and Reformation through examination of the philosophy, art, literature, science, music, politics and religion of this era. Students have the opportunity to study with the faculty of the Center for Medieval and Renaissance Studies affiliated with Oxford's (Keble College). Lectures are normally held on weekday mornings, leaving the afternoons free for seminars, private study and exploration. Field trips to places of historical importance such as St. Augustine's Abbey, Canterbury Cathedral, Stratford-on-Avon, and Hampton Court provide an up-close opportunity to experience the cultural richness of England. Unlike the Coalition-sponsored programs, credits at the Oxford Summer School Program are generated directly at the University of Oxford. Students are able to earn 6 to 9 semester credits.

Summer Institute of Journalism

The summer Institute of Journalism is a Christ-centered program that brings students to Washington, D.C. for seminars with over 25 top professional journalists from the media. It blends classroom experience with hands-on news gathering and news writing opportunities over an intensive four weeks from mid-May to mid-June, for which participants receive four semester hours of credit from their home campuses.

Reserve Officers' Training Corps (ROTC)

Professor of Military Science: LTC Campagna (Chair)

Assistant Professors: LTC (Retired) Robbins, MAJ Reese, MAJ Brewington, CPT Psaltis, CPT Collins, CPT Smith

Instructors: MSG Parker, MSG (Retired) Torre, SFC Giron

Objectives

The objective of Campbell University's ROTC Program is to motivate and prepare selected students to serve as leaders in the U.S. Army. The course of instruction provides a practical understanding of the concepts and principles of military science and aids in developing a strong sense of duty, honor, country, and citizenship. Our program promotes individual fitness as well as teamwork and provides numerous leadership opportunities. Students will also gain an understanding of and appreciation for international relations and national security. Attainment of these objectives prepares students for commissioning and

establishes a solid foundation for their professional development and effective performance in the uniformed services or in civilian enterprise.

Scope

The Army ROTC Program is progressive in nature and is composed of a Basic and Advanced Course. Enrollment in the Basic Course is open to all full time freshmen and sophomores. Completion of the Basic Course is a prerequisite for Advanced Course application. A student who enrolls in the Basic Course does not incur any obligation to serve in the Army. Prior military science or high school JROTC experience may result in direct Advanced Course placement. Entrance into the Advanced Course is selective and is based upon demonstrated performance and leadership potential. Students who satisfactorily complete the Advanced Course are commissioned Second Lieutenants upon graduation.

Military Science Course Listing (MSCI 000) (CIP 30.0501)

Basic ROTC Program Courses

101 Foundations of Officership (1)

The purpose of this course is to introduce students to issues and competencies that are central to a commissioned officer's responsibilities. These initial lessons establish a framework for understanding officership, leadership, and Army values. Additionally, the semester addresses "life skills" including fitness and time management. The MSL 101 course is designed to give you accurate insight into the Army Profession and the officer's role within the Army. One (1) lecture hour per week.

102 Basic Leadership (1)

An introductory course in leadership and management using case and situational studies to emphasize individual and group needs, group dynamics, and the decision making process. One (1) lecture hour per week.

201 Individual Leadership Studies (2)

The course is designed to develop within students' knowledge of self, self-confidence, and individual leadership skills. Through experiential learning activities, students develop problem solving and critical thinking skills, and apply communication, feedback and conflict resolution skills. Two (2) lecture hours per week.

202 Leadership and Teamwork (2)

A study in the fundamentals of leadership as they relate to accomplishing military duties. Focuses on self-development guided by knowledge of self and group processes leading to team development, motivation, and communications. Experiential learning activities are designed to challenge students' current beliefs, knowledge and skills. This course also provides equivalent preparation for the ROTC Advanced Course as the Leaders Training Course. Two (2) lecture hours per week.

221 Leader's Training Course (3)

An intensive practical application of leadership and military skills to satisfy basic course prerequisite for enrollment into the Advanced ROTC Program Courses leading to commissioning as an officer in the U.S. Army upon graduation. Five (5) week summer program at Fort Knox, KY for students from universities and colleges throughout the nation.

Advanced ROTC Program Courses

301 Leadership and Problem Solving (3)

An integrated course designed to enable a student/cadet to quickly learn essential student/cadet knowledge and skills necessary for integration into the cadet battalion and successful performance of key tasks. Course begins with an introduction to the principles of physical fitness and healthy lifestyle so that students/cadets

may effectively work to improve or maintain their physical fitness levels. Next, students/ cadets will be introduced to the Leader Development Program that will be used to evaluate their leadership performance and provide developmental feedback. This will be followed by instruction on how to plan and conduct individual and small unit training, as well as basic tactical principles. Following these important introductory modules, the course turns to a four-week study of reasoning skills and the military-specific application of these skills in the form of the Army's troop leading procedure. The term concludes its final four weeks with a detailed examination of officership, which culminates in a five-hour officership case study. This treatment of officership is especially appropriate because MSC1 301 is the first term that all students/ cadets, regardless of your route of entry into ROTC, must take. Three (3) lecture hours and one (1) laboratory hour per week.

302 Leadership and Ethics (3)

A study in leadership from the perspective of the Second Lieutenant, concentrating on the coordination and execution of administrative and tactical command decisions. In addition, the moral and ethical dilemma faced in today's society and those unique to the military will be introduced through case studies and practical exercises. Laboratory periods concentrate on leadership development, physical training, and selected presentations. Three (3) lecture hours and two (2) laboratory hours per week.

321 Applied Military Leadership (3)

An intensive practical application of leadership and military skills for Advanced Course students. Five (5) week summer program conducted at Fort Lewis, WA, for all Advanced Course cadets from colleges and universities throughout the ROTC Regions. The National Advanced Leadership Camp as the U.S. Army calls it is a mandatory requirement for those students/ cadets seeking a commission as an officer.

401 Leadership and Management (3)

This course begins with a series of lessons designed to enable you to make informed career decisions as you prepare their accession documents. Follow-on lessons concentrate on Army operations and training management, communications and leadership skills and support the beginning of the final transition from cadet to lieutenant. Three (3) lecture hours and one (1) laboratory hour per week.

402 Officership (3)

Studies in military subjects that will prepare an individual for those duties and responsibilities of a newly commissioned officer. These subjects include Command and Staff Functions, the Army's Training Philosophy, How to Conduct Briefings, the Officer and Non-Commissioned Officer Evaluation System, and Ethics and Professionalism. Students prepare and present briefings to the Professor of Military Science for all cadet events and operation conducted throughout the semester. Additional subjects covered include Personal Financial Management, Officer Additional Duties, the Army Logistics System, Maintenance Management and the Uniform Code of Military Justice. Three (3) lecture hours and two (2) laboratory hours per week.

ROTC Internship Programs (No Credit)

Cadet Professional Development Training (CPDT)

This is a two to three-week program during which students attend Army schools such as Airborne School (military parachuting), Air Assault School (helicopter operations), Northern Warfare School (military training in Alaska) or Mountain Warfare School (mountain training in various states). The program is open to all enrolled ROTC students, but selection is competitive due to the limited availability of slots in the program.

Cadet Troop Leadership Training (CTLT)

This is a three-week program in which students can apply their leadership and professional knowledge in practical ways by working as lieutenants in Army units. The program is only available to Advanced Course students during the summer of their junior year. Students must have successfully completed the National Advanced Leadership Camp (MSC1-321).

Directory Information

Administration and Staff, 2003

Office of the President

Jerry M. Wallace, President

Diamond Matthews, Administrative Assistant to the President

Office of the Vice President for Academic Affairs and Provost

M. Dwaine Greene, Vice President for Academic Affairs and Provost

Malisa Baker, Administrative Assistant to the Vice President for Academic Affairs and Provost

The College of Arts and Sciences

Mark L. Hammond, Dean of the College of Arts and Sciences

Elaine Smith, Administrative Assistant to the Dean of the College of Arts and Sciences

Travis Autry, Manager of Radio Station WCCE

Carolyn Bowden, Operations Director WCCE

Departmental Secretaries: Sandy McLeod, Biology, Chemistry, Physics; Judy Robbins, English and Foreign Language; Betty Hrush, Fine Arts; Marilyn Buie, Exercise Science; Vicki Crowell, Government/History; Amy Holder, Mass Communication; TBD ROTC; Kathy Ennis, Women's Basketball; Cathy McLamb, Men's Basketball

Extended Campus Education

Tom G. Harris, Associate Dean, Extended Campus Education

Cynthia Wallace, Administrative Assistant to the Associate Dean of Extended Campus Education

Raymond Young, Director for Camp Lejeune Campus

Dave Anderson, Director for Ft. Bragg/Pope AFB Center

James Harris, Director for Raleigh Campus

Divinity School

Michael G. Cogdill, Dean of the School of Divinity

Joyce Mashtare, Administrative Assistant to the Dean of the School of Divinity

Departmental Secretaries: Phemie Smith, Religion and Philosophy

Lundy-Fetterman School of Business

Chris Zinkhan, Dean of the Lundy-Fetterman School of Business

Edith Foster, Administrative Assistant to the Dean of the Lundy-Fetterman School of Business

Shahriar Mostashari, Associate Dean and Director of MBA Program

Departmental Secretaries: Traci Pierce, Business Administration, and Economics; Jane Tart, Lundy Chair and Trust and Investment Management

Norman Adrian Wiggins School of Law

Willis P. Whichard, Dean of the Norman Adrian Wiggins School of Law

Barbara Wilson, Administrative Assistant to the Dean of the School of Law

Margaret Currin, Associate Dean

Veronica Stewart, Associate Registrar

Lou Naylor, Associate Director of Admissions

Karen Sorvari, Law School Librarian

School of Education

Karen P. Nery, Dean of the School of Education

Kelli Burney, Administrative Assistant to the Dean of the School of Education

Departmental Secretaries: Kathleen Kuster, Education; Betty Bell, Social Work

School of Pharmacy

Ronald W. Maddox, Dean of the School of Pharmacy

Betty Wallace, Administrative Assistant to the Dean of the School of Pharmacy

Christy Whitley, Director of Experiential Programs

Thomas Holmes, Associate Dean of Pharmacy

Phyllis Strickland, Administrative Assistant to the Associate Dean of Pharmacy

W. Mark Moore, Assistant Dean of Admissions and Continuing Education

Lou Reynolds, Administrative Assistant to the Assistant Dean of Admissions

Randy Scott, Admissions Counselor

Leigh Ann McStoots, Admissions Counselor

Gabrielle Morgan, Director of Alumni and Career Placement

Charlotte Bohn, Coordinator, Pre-Pharmacy

Departmental Secretaries: Lisa West, Linda Smiley, Deborah Austin

Registrar's Office

J. David McGirt, University Registrar

Billie Jo Pittman, Associate Registrar-Graduation; Brenda McLeod, Assistant Registrar-Computer; Evelyn

Howell, Assistant Registrar-Transcripts and Records; Marian Brantley, Assistant Registrar-Student

Records; Rhonda Page, Secretary/Receptionist for Registrar's Office; Marty Blackmon, File Clerk; Susan

Rhodes, International Student Coordinator

Carrie Rich Library

Ronnie W. Faulkner, Director of Library Services

Linda Martin, Administrative Assistant to the Director of Library Services

Library Services: Borrée Kwok, Technical Services and Systems Librarian; Jennifer Carpenter, Head of Reference Services; Marie Berry, Reference Librarian; Patricia Davis, Reference Librarian; Sharron Bortz, Coordinator of Curriculum Materials/Media; Brenda Johnson, Technical Services Assistant

Student Life

John Creech, Assistant Dean for Student Services/Director of Career Development and Placement

Dorothy Mullins, Assistant Dean for Campus Life/Director of Residence Life

Jennifer Brown, Administrative Assistant to the Dean of Student Life

Terry-Michael Newell, Campus Minister

Debbie Temple, Administrative Assistant to Campus Minister

Gale Johnson, Director of Health Affairs

Ron Foster, PAC Director of Student Health

Anne Parker, Administrative Assistant to the Director of Student Health

Bill Randall, Pharmacist

Pascal Molinard, Director of Recreational Services

Andy Shell, Director of Intramurals

Peggy Lawrence, Career Development and Placement

Amber Perrell, Director of Student Activities

Renee Buszko Holmes, Director of Student Support Services

Ricky Symmonds, Director of Public Safety
 Betty Stewart, Public Safety
 Melissa Tyndall, Director of Parking Administration

Office of the Vice President for Institutional Advancement

Jack Britt, Vice President for Institutional Advancement
 Susan Litton, Administrative Assistant to the Vice President for Institutional Advancement
 Jerry Wood, Assistant Vice President for Church and Community Relations
 Doug Jones, Assistant Vice President for Alumni Relations
 Kathy Crenshaw, Coordinator of Special Events
 Benny Pearce, Director of Public Information
 Susan Welch, Administrative Assistant to the Director of Public Information
 Joanna Worrell, Staff Writer
 Lawrence Buffaloe, Director of Foundations and Corporate Relations
 Terececa Batts, Administrative Assistant for the Director of Corporate and Community Relations
 Lee Knight, Director of Estate Planning
 Bob Cogswell, General Counsel

Departmental Secretaries: Violeta Saenz, Alumni; Sandy Rigsbee, Records Specialist (Alumni); Janie Bryant, Records Clerk (Advancement); Glenda Taylor, Records Clerk (Advancement)

Office of the Vice President for Business and Treasurer

James H. Ellerbe, Vice President for Business and Treasurer
 Judy Folwell, Administrative Assistant to the Vice President for Business and Treasurer
 Al Hardison, Comptroller
 David Pound, Assistant Comptroller
 Win Quakenbush, Director of Financial Management
 Kathi Ennis, Administrative Assistant to the Director of Financial Management
 Gloria Latta, Human Resources Administrator
 Dawn Phillips, Human Resources Assistant
 Elaine Tart, Payroll Administrator
 Deborah Ennis, Payroll Assistant
 Christopher Buckley, Director of Computing Services
 Larry Currin, Director of University Shopping Center
 Jim Roberts, Director of Physical Plant Operations
 Todd R. Scarborough, Director of Service Enterprises
 Elva Scarborough, Associate Director of Service Enterprises
 Glenn Bowers, Director of Food Services
 Stan Williamson, Director of Athletics
 Tony Delp, Assistant Athletic Director, External Affairs
 Debbie Richardson, Assistant Athletic Director, Internal Operations
 Stan Cole, Assistant Athletic Director, Media
 Corbett Tart, Manager of Laundry

Accounting Office: Marjorie Davis, Chief Accountant; Shirley Weaver, Receptionist; Jackie Matthews, Accounting; Reba Clifton, Accounts Payable; Rhonda Williams, Accounts Payable; Patti Tyndall, Student Loans; Jean Whitmore, Accounting

Purchasing: Doug Williamson, Purchasing Agent; Ramona Daniels, Purchasing Administrator; Teresa Humbert, Purchasing Clerk

Business Office: Linda West, Accounts Receivable; June Lee, Accounts Receivable; Judith Smith, Student Accounts; Margie Whittington, Cashier; Jatona Boykin, Cashier

Computing Services: Bob McGuire, Network Manager; John Skuce, Training Coordinator; and Help Desk Manager; Aanal Patel, Administrative Software Support; Tonya Ramsue, Administrative Software Support; Ron Hall, Computer Technician; Doug Shahan, Computer Technician; Barbara Dietz, Coordinator of Computing Services; Darla Breedlove-Dietz, Web Developer; Linda Andruscavage, Computer Technician; Janice Lucas, Secretary/Receptionist for Computing Services

Service Enterprises: Steve Davis, Tina Jenson, Jamie Lawson, Rhonda Lockamy, Sue Mason, Barbara Miller, Cathy Mercado, Charlie Price, Judy Smith, Anne Toler

Physical Plant: Olene Ennis, Jean Gainey, Janice Gilchrist, Vita Paschal

Food Service (Marshbanks Dining Hall): Billie Sawyer, DeLorice Barefoot

Admissions/Financial Aid/Veterans' Affairs

Herbert V. Kerner, Jr., Dean of Admissions/Financial Aid/Veterans' Affairs

Holly Rogers, Administrative Assistant to the Dean of Admissions

Peggy Mason, Director of Admissions

Gary Payne, Assistant Director of Admissions

Nancy Beasley, Director of Financial Aid

Robin Smith, Assistant Director of Financial Aid

Terri Shrieves, Assistant Director of Financial Aid

Barbara Hartgrove, Assistant Director of Financial Aid

Allison Broome, International Admissions Officer

Rue Stewart, Coordinator of Endowed Scholarships

James S. Farthing, Coordinator of Graduate Admissions

Bernadette Hair, Coordinator of Veterans' Affairs

Peggy Currins, Reception

Charlotte Jackson, Reception

Carolyn Ryals, File Clerk

Donna Wyckoff, Records Specialist

Teresa McDaniel, Secretary: Graduate, International and Veterans' Affairs

Rosemary Westbrook, Data Specialist

Admissions Counselors: Petra Carlzen, Nick Haskzo, Jon Hutchins, Beatriz Hickson, Jody Hurley, April Prentiss

University Faculty 2003

Jerry McLain Wallace, - President and Professor of Religion and Society - B.A., East Carolina University; B.D., Th.M., Southeastern Baptist Theological Seminary; M.S., Ed.D., North Carolina State University; Associate Professor of Sociology, part-time, 1970-1975; Tyner Professor of Religion and Chairman of the Department of Religion and Philosophy, 1975-1981; Dean of the University and Director of Graduate Studies, 1981-1983; Provost, 1984-1986; Vice President for Academic Affairs and Provost, 1986-2001; Campbell University, 1970-

Norman Adrian Wiggins, Chancellor and Professor of Law - B.A., LL.B., Wake Forest University; LL.M., J.S.D., School of Law, Columbia University; Associate Trust Officer, Planters National Bank and Trust Company, Rocky Mount, NC, 1952-1955; Assistant Professor of Law, Wake Forest University, 1956-1957; Associate Professor of Law, 1957-1962; Professor of Law, 1962-1967; General Counsel, 1964-1967, Wake Forest University; Campbell University, 1967-

M. Dwaine Greene, Vice President for Academic Affairs and Provost, and Associate Professor of Religion - B.A. Campbell University, 1979 (Religion); M.A. Wake Forest University, 1982 (New Testament Studies); Ph.D., University of Virginia, 1987 (New Testament and Early Christianity); Campbell University, 2001 -

College of Arts and Sciences Faculty 2003

Walter Shepherd Barge, Professor Emeritus of History - B.A., Wake Forest College; M.A., Columbia University; Ph.D., University of North Carolina at Chapel Hill; Campbell University, Dean of the College of Arts and Sciences, 1984-2002; part-time 2002 -

John G. Bartlett, Assistant Professor of Biology - B.S., Virginia Polytechnic Institute/State University; M.S., University of Tennessee; Ph.D., University of Maine; Campbell University, 2002 -

Brian Bergemann, Associate Professor of Exercise Science - B.S., University of Wisconsin; M.A., University of Maryland; Ph.D., Penn State University; Campbell University 1997 -

Marie S. Berry, Reference Librarian - B.A., University of South Carolina; M.L.S., North Carolina Central University; Campbell University, 1997-

Sharron A. Bortz, Coordinator of Curriculum Materials/Media - B.A., Miami University; B.Ed., University of Alaska; M.S.L.S., University of North Carolina at Chapel Hill; Campbell University, 1999-

Tony Brewington, Major, U.S. Army, Assistant Professor of Military Science - B.S.E.E., North Carolina Agriculture & Technical State University, M.S., Florida Institute of Technology-Melbourne; Campbell University, 2002 -

Andrew Bryan, Associate Professor of Chemistry/Chairman, Chemistry-Physics Department - B.S., Ph.D., North Carolina State University; Campbell University, 1990-

Jennifer K. Carpenter, Head of Reference Services - B.A., Baptist College at Charleston; M.L.S., University of North Carolina at Greensboro; Campbell University, (Acting Director - June 2002 - November 2002), 1992-

William Linwood Coker III, Assistant Professor of Chemistry - B.S., St. Andrews Presbyterian College; Ph.D., North Carolina State University; Campbell University, 1998 -

Michael Collins, Captain U.S. Army, Assistant Professor of Military Science - B.A., University of Maryland; Campbell University, 2003 -

Tedson Campagna, Lieutenant Colonel U.S. Army, Professor of Military Science - B.S., United States Military Academy at West Point; M.B.A., Boston University; Campbell University, 2003 -

Alan S. Davy, Associate Professor of English - B.A., M.A., East Tennessee State University; Ph.D., Penn State University; Campbell University, 1993-

J. Dean Farmer, Assistant Professor of Mass Communication – B.A., M.S., North Carolina State University; Ph.D., Ohio University; Campbell University, 2002-

Ronnie W. Faulkner, Director of Library Services and Associate Professor of History - B.A., Campbell University; M.A., East Carolina University; M.S.L.S., University of North Carolina at Chapel Hill; Ph.D., University of South Carolina; Campbell University, Sabbatical Leave June – November 2002, 1989-

William H. Freeman, Professor of Exercise Science/Chairman of Department - B.A., Wake Forest University; M.A.T., Duke University; M.S., Ph.D., University of Oregon; Campbell University, 1989-

Jason Ezell, Instructor of Physics – B.S., Campbell University; M.S., North Carolina State University; Campbell University (Part-time 1996-1999), Full-time 1999-

Daniel Garcia, Captain, U.S. Army, Assistant Professor of Military Science – B.A., University of Texas Pan American; Campbell University, 2000 -

Bruce W. Gay, Associate Professor of Criminal Justice – B.A., Tennessee Temple University; M.A., University of Texas, Dallas; Ph.D., Sam Houston State University; Campbell University 2000-

Karen Guzman, Assistant Professor of Biology – B.S., University of Nebraska; Ph.D., North Carolina State University; Campbell University, 2001-

Mark L. Hammond, Dean, College of Arts and Sciences/Associate Professor of Biology - B.A., Hiram College; Ph.D., University of South Carolina; Chairman of Biology Dept., 1996-2001; Campbell University, 1992-

Cordelia M. Hanemann, Lecturer of English - B.A., M.A., University of Southwestern Louisiana; Campbell University (Part-time, 1991-92) Full-time, 1993- (on leave of absence AY 1998-1999)

Susan Horton, Associate Professor Emerita of Music – B.M., M.M., Westminster Choir College; Campbell University, (Full-time 1955-1992), Part-time, 1992 -

Barbara Hudson, Instructor of Music - B.M., M.M., University of North Carolina at Greensboro; Campbell University, (Full-time 1989-2000), Part-time 2000 -

George Lloyd Johnson, Associate Professor of History - B.A., M.Ed., Campbell University; M.A., East Carolina University; M.A., Ph.D., University of South Carolina; Campbell University, 1991-

Haydn Tiago Jones, Associate Professor of Spanish - B.A., Indiana University at Bloomington, M.A., Ph.D., University of North Carolina at Chapel Hill

James M. Jung, Professor of Chemistry - B.S., Davidson College; M.Ed., Ph.D., University of North Carolina at Chapel Hill; Chairman of Chemistry Dept., 1962-1996; Campbell University, 1962 -

Borrée P. Kwok, Cataloger - B.A., Whitworth College; M.S.L.S., University of North Carolina at Chapel Hill; Campbell University, 1993 -

L. Michael Larsen, Associate Professor of Biology/ENVS - B.S., Utah State University; M.S., Rutgers University; Ph.D., North Carolina State University; Campbell University, 1995-

David Lippard, Adjunct Instructor of Mass Communications - B.B.A., Campbell University; Campbell University, 1987-

Bruce G. McNair, Associate Professor of History - B.A., Purdue University; M.A., Ph.D., Duke University; Campbell University, 1994-

Georgia Martin, Assistant Professor of Theatre Arts – B.A., San Francisco State University; B.S., State University of New York; M.F.A., University of California at San Diego; Campbell University, (Part-time 2001-2002), Full time 2002 -

James I. Martin, Associate Professor of History/Chairman of Department - B.A., Duke University; M.A., East Carolina University; Ph.D., Emory University; Campbell University, 1991-

Timothy L. Metz, Associate Professor of Biology/Chairman of Department - B.S., University of Illinois at Urbana-Champaign; Ph.D., Cornell University; Campbell University, 1994-

Richard McKee, Associate Professor of Music - B.M., Birmingham-Southern College; M.M., Manhattan School of Music; M.A., Ph.D., University of North Carolina at Chapel Hill; Campbell University, 199 4-

Phillip J. Morrow, Assistant Professor of Music - B.S., University of North Alabama; M.M., University of North Carolina at Greensboro; D.M.A., Southern Baptist Theological Seminary; Campbell University, 1998 -

Dwight Lamar Norwood, Professor of Mathematics/Computer Science/Chairman of Department - B.S., Wake Forest University; M.A., Appalachian State University; Ph.D., University of Arkansas; Campbell University, 1973-

Ann Ortiz, Assistant Professor of Spanish - B.A., East Carolina University; M.A., University of Arizona, Tucson; Ph.D., University of North Carolina at Chapel Hill; Campbell University, 1997-

Gina Peterman, Associate Professor of English - B.A., M.A., Tennessee Technological University; Ph.D., University of South Carolina; Campbell University, 1992-

Rorin Platt, Assistant Professor of History – B.A., University of North Carolina at Chapel Hill; M.A., University of North Carolina at Greensboro; Ph.D., University of Maryland at College Park; Campbell University, 2001 -

Chris Psaltis, Captain, U.S. Army, Assistant Professor of Military Sciences – B.S., State University of New York at Binghamton; Campbell University, 2001 -

Frances J. Reese, Major U.S. Army, Assistant Professor of Military Science - B.A., Columbia College; Campbell University, 2003 -

Ishmael Rivera, Assistant Professor of Spanish - B.A., M.A., George Washington University; M.A., University of North Carolina at Chapel Hill; Campbell University (Part-time 1987-1990) Full-time 1990-

John Robbins, Lieutenant Colonel, U.S. Army. Assistant Professor of Military Science – B.A., Indiana University of Pennsylvania; M.Ed., Chapman University; Campbell University, 1997 -

Olivia R. Ross, Associate Professor of Mass Communication - B.A., North Carolina State University; M.A., University of North Carolina at Chapel Hill; Campbell University, 1991-

Nathan Salsbury, Instructor of English – B.A., Western Carolina University; M.A., North Carolina State University; Campbell University, 2000 -

Donald N. Schroeder, Associate Professor of Government - B.A., University of Illinois at Chicago; M.A., Ph.D., Duke University; Campbell University, 1978-

Breck Smith, Associate Professor of Art - B.A., Averett College; M.F.A., University of North Carolina at Greensboro; Campbell University, 1988-

Dennis A. Smith, Captain U.S. Army, Assistant Professor of Military Science - B.S., University of Maryland; Campbell University, 2003 -

Jaclyn Stanke, Assistant Professor of History - B.A., Washington State University; M.A., Ph.D., Emory University; Campbell University, 1999-

David M. Steegar, Professor and Chairman of Foreign Language Department - B.A., Miami University of Ohio; M.A., Ohio State University; Ph.D., University of Toronto; Campbell University, 1978-

William Tate, Assistant Professor of English - B.A., M.A., Bob Jones University; M.A., Duke University; Ph.D., University of North Carolina at Chapel Hill; Campbell University, (Part-time 1988-1989, Adjunct 1996) Full-time 1997-

Jerry Duncan Taylor, Professor of Mathematics/Computer Science - B.A., Arkansas State Teachers College; M.S., University of Arkansas; Ph.D., Florida State University; Campbell University, 1961-

William P. Tuck, Associate Professor Emeritus of History – B.A., M.A., Duke University; graduate studies, University of North Carolina at Chapel Hill; (leave of absence 1964-67), Campbell University, 1958 – 1999, Part-time, 1999 -

Michelle Suhan Thomas, Assistant Professor of Biology – B.S., Grove City College; Ph.D., West Virginia University at Morgantown, Campbell University, 2000-

Wayne W. Thomas, Associate Professor of Mathematics/Computer Science - B.S., M.Ed., North Carolina State University; (on leave of absence 1964-1966) Campbell University, 1959-1964; 1966-

David W. Thornton, Associate Professor of Government - B.A., M.A., University of North Carolina at Greensboro; Ph.D., University of South Carolina; Campbell University, 1994-

Janis Keen Todd, Associate Professor of Mathematics/Computer Science - B.S., M.Ed., East Carolina University; (on leave of absence fall semester, 1978), Campbell University, 1966-

Larkin N. Tysor, Associate Professor of Art - A.A., Chowan College; B.F.A., High Point College; M.F.A., University of North Carolina at Greensboro; Campbell University, 1989-

Frank A. Vaughan, Victor Small Professor of English/Chairman of Department - B.A., M.A., California State University at Hayward; Ph.D., University of California at Riverside; Campbell University, 1981-

Donna Waldron, Assistant Professor of English – B.A., M.A., Baylor University; Ph.D., Duquesne University; Campbell University, 2000-

Sarah Janet Walker, Assistant Professor of Mathematics - B.A., M.Ed., Campbell University; Campbell University, 1992-

E. Bert Wallace, Assistant Professor of Theater Arts - B.A., Furman University; M.F.A., University of Alabama; Campbell University, 2002-

Wanda E. Watkins, Assistant Professor of Exercise Science/ Head, Women's' Basketball Coach – B.S., M.Ed., Campbell University; Campbell University, 1980 -

Debora Jean Weaver, Adjunct Professor of Biology - B.A., Goshen College; Ph.D., University of Maryland in Baltimore County; Campbell University, 1992-

Mary Weiss, Instructor of Exercise Science/Associate Head, Women's' Basketball Coach – A.A., Chowan College; B.A., M.Ed., Campbell University; Campbell University, 1888 -

Michael Wells, Associate Professor of Chemistry - B.S., East Carolina University; Ph.D. University of North Carolina at Chapel Hill; Campbell University, 1997-

Howard M. Whitley, Assistant Professor of Music/Chairman, Fine Arts Division - B.M., Appalachian State University; M.Div./C.M. D.Min., Southeastern Baptist Theological Seminary; Ph.D., University of North Carolina at Greensboro; Campbell University, 1998-

Claudia Williams, Assistant Professor of Biology - B.S., Berry College; M.S., University of Georgia; Campbell University, 1987-

Dwayne C. Wilson, Assistant Professor of Music - B.S., Tennessee Temple University; M. M.Ed., Columbus State University; Ph.D., University of North Carolina at Greensboro, 2003; Campbell University, 2000 -

Donna L. Woolard, Associate Professor of Exercise Science - B.S., East Carolina University; D.A., Middle Tennessee State University; Campbell University, 1994 -

Wong, Siu-Ki, Head of Carrie Rich Library Technical Services & Systems, - B.S. University of Hong Kong; M.S. University of North Carolina at Chapel Hill; Campbell University 2001 -

Chih C. Yang, Adjunct Associate Professor of Mathematics/Computer Science- B.S., M.S., National Taiwan University; M.S., Mississippi State University; Ph.D., North Carolina State University; Campbell University, 1988 -

Taek H. You, Assistant Professor of Biology – B.S., Sung Kyun Kwan University, Seoul, Korea; Ph.D., Ohio State University; Campbell University, 2001 -

The Lundy Fetterman School of Business Faculty 2003

Roby Ballard, Instructor - B.S. Pembroke State University; M.B.A. Finance, Georgia State University; Campbell University, 2002 -

Joseph W. Berry, Assistant Professor of Business - A.A., Fayetteville Technical Community College; B.S.B.A., East Carolina University; M.B.A., Fayetteville State University; C.P.A., Campbell University,

1996 -

Carl R. Broadhurst, Chairman, Department of Business Administration and Economics; Associate Professor of Business - B.S., University of Missouri; M.B.A., Butler University; D.B.A., Nova Southeastern University; Campbell University, 2000 -

Robie S. Butler, Assistant Professor of Business - B.B.A., Trust Certificate, M.B.A., Campbell University; Post Graduate Studies, Capella University; C.P.A.; Campbell University, 1990 -

L. McNeil Chestnut, Visiting Professor of Business - B.S., Trust Certificate, J.D., Campbell University; Campbell University, 1984 -

Ashley Cox, Instructor - B.B.A., Mississippi State University; M.B.A., Campbell University; Campbell University, 2001 -

Robert A. Deutsch, Associate Professor of Business - B.A., M.B.A., Ball State University; Ph.D., University of Kentucky; C.P.A., Campbell University; Campbell University, 2000 -

James D. Harriss, Assistant Professor of Business - B.B.A., Sam Houston State University; M.B.A., D.B.A., Mississippi State University; Campbell University, 1988 -

Yu-Mong Hsiao, Professor of Business - B.A., National Taiwan University; M.B.A., Mississippi State University; M.E., Ph.D., North Carolina State University; C.P.A.; Campbell University, 1984 -

Kenneth Jones, Assistant Professor of Business - B.S., Ferris State University; Class A Golf Professional; Campbell University, 1998 -

Daniel P. Maynard, Gilbert T. Stephens Business Librarian - B.A., M.S.L.S., University of Tennessee at Knoxville; Campbell University, 1999 -

Shahriar Mostashari, Associate Dean and Director of M.B.A. Program - B.A., National University of Iran; M.A., Western Michigan University; M.B.A., Golden Gate University; Ph.D., North Carolina State University; Campbell University, 1982 -

Roger Pond, Professor of Business - B.A., Duke University; J.D., Washington and Lee University; Campbell University, 1998 -

Paul Raisig, Visiting Professor of Business - Army War College; B.G.E., University of Nebraska; M.B.A., University of Alabama; J.D., Campbell University, 1990-

Ellen Sikes, Associate Professor Emerita of Business - B.A., Limestone College; Graduate Student, Appalachian State University; Lenoir-Rhyne College; East Carolina University; North Carolina State University; M.S., University of North Carolina at Greensboro; Campbell University, 1966-2000; Part-time 2000 -

Mehdi Sagheb-Tehrani, Assistant Professor of Business - H.D.D., Teesside University; B.S.C., M.S.C., Ph.D., Lund University; Campbell University, 2001-

Umesh C. Varma, Chair, Department of Computer Information Systems, Associate Professor of Business - B.Sc., University of Kanpur; B.S., Western International University; M.S., Jackson State University; Campbell University, 1988 -

JoAnn Vaughan, Associate Professor of Business - B.S., University of North Carolina at Charlotte; M.A., University of North Carolina; C.P.A.; Campbell University, 1988 -

James E. Witherspoon, Jr., Chairman, Department of Financial Planning and Accounting, Associate

Professor of Business - B.A., Campbell University; J.D., Wake Forest University; Campbell University, 1983-

Derek Yonai, Assistant Professor of Business - B.A., University of California, Irvine, J.D., Whittier Law School, M.A., Ph. D., George Mason University; Campbell University, 2003 -

F. Christian Zinkhan, Dean, School of Business and Robert P. Holding Professor of Finance - B.A., Franklin and Marshall College; M.F., M.B.A., Duke University; D.B.A., Mississippi State University; Campbell University, 1987-1996; 1998-

School of Pharmacy Faculty 2003

Pharmacy Practice, Full-time

Connie L. Barnes, Director, Drug Information Center and Assistant Professor of Pharmacy Practice - Pharm.D., Campbell University (1990); R.Ph., N.C. 1991 -

John Andrew Bowman, Director of Continuing Education and Assistant Professor of Pharmacy Practice - Pharm. D., Campbell University (1993); R.Ph. 2002 -

James A. Boyd, Associate Professor of Pharmacy Practice - B.S. Pharmacy, (1977); Pharm.D., University of Nebraska Medical Center (1980); M.B.A., University of Nebraska at Lincoln (1987); R.Ph., N.C., Nebraska, 1990 -

Jennifer Danielson, Assistant Professor of Pharmacy Practice, Director of Experiential Programs - B.S. Pharmacy; M.B.A., Drake University; R.Ph., N.C. 2000 -

Steven M. Davis, Associate Professor of Pharmacy Practice - Pharm.D., University of Florida at Gainesville (1988); R.Ph., N.C. 1989 -

Richard H. Drew, Assistant Professor of Pharmacy Practice - B.S. Pharmacy, University of Rhode Island (1980); M.S. Pharmacy, (1989); Pharm.D., University of North Carolina at Chapel Hill (1999); R.Ph., N.C. 1998 -

Stephen H. Fuller, Associate Professor of Pharmacy Practice - B.S. Chemistry, Wake Forest University (1981); B.S. Pharmacy (1985), Pharm. D., Medical College of Virginia, (1988); R.Ph., N.C. 1988 -

Kathey Fulton, Assistant Professor of Pharmacy Practice - Pharm.D., Campbell University, (1994), R.Ph., N.C. 1997 -

James B. Groce III, Assistant Professor of Pharmacy Practice - B.A. Zoology (1980), B.S. Pharmacy, University of North Carolina at Chapel Hill, (1983); Pharm.D., Campbell University (1993); R.Ph., N.C. 1993 -

Tina Harrison, Assistant Professor of Pharmacy Practice - Pharm.D., Campbell University (1991); R.Ph., N.C. 1996 -

Charles Herring, Assistant Professor of Pharmacy Practice - B.S., Pharmacy, (1992); Pharm.D. (1994), University of North Carolina at Chapel Hill, 2002 -

Cheryl K. Horlan, Assistant Professor of Pharmacy Practice - Pharm.D., University of Texas (1999), 2001 -

Cynthia Johnston, Assistant Professor of Pharmacy Practice – B.S., Science, University of Connecticut (1977); Pharm.D., University of North Carolina at Chapel Hill (2000). 2001 -

Megan N. Lavin Maddox, Assistant Professor of Pharmacy Practice – B.S., Pharmaceutical Sciences (1996). Pharm. D., South Dakota State University (1998). 2001 -

Ronald W. Maddox, Dean, School of Pharmacy and Professor of Pharmacy Practice - B.S. Pharmacy, Auburn University (1969); Pharm.D., University of Tennessee (1973); R.Ph., N.C. 1985 -

D. Byron May, Associate Professor of Pharmacy Practice - B.S., Clemson University (1983); Pharm.D., University of Florida at Gainesville (1988); R.Ph., N.C. 1989 -

W. Mark Moore, Director, School of Pharmacy Admissions, and Assistant Professor of Pharmacy Practice; B.S. Pharmacy, University of North Carolina at Chapel Hill (1994); Pharm. D., MBA, Campbell University, (2000, 2001); R. Ph.: 2002 -

Ann Marie Nye, Assistant Professor of Pharmacy Practice – Pharm.D., Virginia Commonwealth University, Medical College of Virginia – Richmond (2001). R.Ph. 2002 -

Roy Pleasants, Associate Professor of Pharmacy Practice – B.S. Pharmacy, University of North Carolina at Chapel Hill (1977); Pharm. D., Medical University of South Carolina – Charleston, (1983), R.Ph. 2000 -

Melanie W. Pound, Assistant Professor of Pharmacy Practice – Pharm.D., Campbell University (2001). R.Ph. 2002 -

Gilbert A. Steiner, Adjunct Associate Professor of Pharmacy Practice – B.S. Pharmacy; Pharm.D., Wayne State University (1975). 2000 -

Larry N. Swanson, Professor and Chairman of Pharmacy Practice; - Pharm D., University of Southern California (1969). R.Ph., N.C. 1991 -

Jeffrey B. Washam, Assistant Professor of Pharmacy Practice - B.S. Pharmacy, (1995); Pharm.D., Auburn University School of Pharmacy (1997). 1998 -

Margaret C. Yarborough, Associate Professor of Pharmacy Practice - B.S. Pharmacy, (1966); M.S. Pharmacy, University of North Carolina at Chapel Hill (1978); R.Ph., N.C. 1990 -

Pharmaceutical Sciences, Full-time

Sonny Thomas Abraham, Assistant Professor of Pharmaceutical Sciences – B.S. Chemistry, Mars Hill College; Ph.D. Biomedical Sciences/Pharmacology, East Tennessee State University. 2000 -

Antoine Al-Achi, Associate Professor of Pharmaceutical Sciences - B.S., Pharmacy, Damascus University (1978); M.Pharm, Massachusetts College of Pharmacy and Allied Health Sciences (1981); M.S., Radiopharmaceutical Sciences, Northeastern University (1988); Ph.D., Biomedical Sciences/Pharmaceutics, Northeastern University (1988); CT (ASCLP). 1989 -

Timothy J. Bloom, Research Assistant Professor of Pharmaceutical Sciences - B.A. Zoology, University of North Carolina at Chapel (1985); Ph.D., Pharmacology, University of Washington (1996). 1996 -

Christopher Breivogel, Assistant Professor of Pharmaceutical Sciences – B.S. Biochemistry, University of North Carolina (1992); Ph.D. Pharmacology, Wake Forest University, (1988). 2000 -

Brad Chazotte, Adjunct Associate Professor – B.S. Buchnell University (1976); Ph.D. Chemistry, Northern Illinois University (1981). 1999 -

Emanuel J. Diliberto, Professor and Chairman of Pharmaceutical Sciences - B.S. Pharmacy, Albany College of Pharmacy, Union University (1967); Ph.D. Pharmacology, University of Rochester (1972). 1996 -

Lewis M. Fetterman, Jr., Adjunct Associate Professor of Pharmaceutical Sciences – B.S., Chemistry, Washington & Lee University (1972); M.S., (1974), Ph.D. (1980), Analytical Chemistry, Purdue University. 2001 -

Edward W. Gertz, Professor of Pharmaceutical Sciences – B.S. (1963), M.D., (1967), Medical Intern & Resident, University of Pittsburgh School of Medicine (1967-69), Fellow in Medicine, Harvard Medical School (1969-72). 2002 -

Michael Gallagher, Pharmaceutical Sciences Instructor/Lab Manager Biochemistry/Analytical Chemistry – B.S., (1989) Biochemistry, Pennsylvania State University. 1999 -

Robert L. Garrett, Jr., Assistant Professor of Pharmaceutical Sciences - B.S., Biology, Harding University (1977); Ph.D., Pharmacology, Northeast Louisiana University College of Pharmacy (1986). 1988 -

Robert B. Greenwood, Associate Professor of Pharmaceutical Sciences - B.S., Pharmacy, (1971); Ph.D., Pharmaceutics, University of North Carolina at Chapel Hill (1980); R.Ph., N.C. 1987 -

Terri S. Hamrick, Assistant Professor of Pharmaceutical Sciences – B.A., Biology and Religion Studies, University of Virginia (1985); Ph.D., Microbiology/Immunology, University of North Carolina at Chapel Hill, (1996). 2001 -

Thomas J. Holmes, Jr., Associate Dean and Associate Professor of Pharmaceutical Sciences - B.S., Pharmacy, Duquesne University (1971); Ph.D., Medicinal Chemistry, University of Michigan (1975). 1987 -

Brenda D. Jamerson, Associate Professor Graduate Program, Clinical Research/Pharmaceutical Sciences – B.S., Pharmacy, St. Louis College of Pharmacy (1983); Pharm.D., Ohio State University College of Pharmacy (1986). 2001 -

James L. Junker, Associate Professor of Pharmaceutical Sciences - B.S., Biology, Muhlenberg College (1974); Ph.D., Pathology, Duke University (1980). 1989 -

Anita Taylor Mosley, Assistant Professor of Pharmaceutical Sciences - B.S. Chemistry, Alabama State University (1991); Ph.D. Industrial and Physical Pharmacy, Purdue University (1998). 1998 -

Gyorgy Nemezz, Assistant Professor of Pharmaceutical Sciences - B.S., Chemistry; (1978); M.S. Chemistry; (1978); Ph.D., Biochemical Sciences, University of Szeged, Hungary (1981). 1991-

Daniel Shin, Associate Professor of Pharmaceutical Sciences – B.A., Korea University, Korea (1976); M.S., Western Illinois University (1988); Ph.D., North Carolina State University (1992). 2001 -

Elliott M. Sogol, Associate Professor of Pharmaceutical Sciences - B.S., (1979); M.S., (1983); Ph.D., (1986) University of Wisconsin, School of Pharmacy. 2001-

Kathy D. Webster, Associate Professor of Pharmaceutical Sciences - Pharm.D., University of the Pacific (1978); Ph.D., Medicinal Chemistry, University of Minnesota (1986). 1988 -

School of Education Faculty 2003

Edward Asbury, Assistant Professor of Psychology – B.A., University of Tennessee at Knoxville; M.A., East Tennessee State University at Johnson City; M.S., Ph.D., Texas Christian University; Campbell University, 2001 –

Pauline F. Calloway, Associate Professor of Family and Consumer Sciences - B.S., High Point College; M.Ed., Ed.D., North Carolina State University; Campbell University, 1987-

Betty M. Davenport, Professor of Education - B.A., M.A.T., University of Massachusetts; M.Ed., Ph.D., University of North Carolina at Chapel Hill; Campbell University, 1981-

Mary Ellen Durham, Associate Professor of Education – B.A., Greensboro College; M.Ed., Grand Valley State University; Ph.D., North Carolina State University; Campbell University, 1998 -

Sam Engel, Assistant Professor of Education – B.A., Eastern Illinois University; M.A., Ph.D., University of Illinois at Champaign Urbana; Campbell University, 1999 -

Harriet Leigh Enzor, Associate Professor of Education - B.S., Campbell University; M.A., Ph.D., University of North Carolina at Greensboro; Campbell University, 1991-

Karen Fragedakis, Assistant Professor of Psychology – B.A., Baylor University; M.A., Ph.D., Kent State University; Campbell University, 2001 -

Christopher Godwin, Adjunct Instructor - B.S., M.Ed., Campbell University; Ph.D., North Carolina State University; Campbell University, 1988-

Sammy Wayne Hatcher, Associate Professor of Education - A.A., East Central Junior College; B.S.E., Delta State College; M.Div., Southwestern Baptist Theological Seminary; Ed.D., Mississippi State University; Campbell University, 1988-

James Henderson, Adjunct Instructor in Sociology - M.P.A., North Carolina Central University; B.A., North Carolina Central University, Campbell University, 1991-

Jacqueline J. Kane, Adjunct Instructor of Social Work - B.S.C., M.A., Ohio State University; Campbell University, 1995-

Ronald Edwin Kendrick, Associate Professor of Education - B.S., M.Ed., University of South Carolina; Ed.D., Auburn University; Campbell University, 1988-

Catherine Campbell King, Professor Emerita - B.A., Meredith College, M.S., University of North Carolina at Greensboro; Campbell University, 1952-1955; 1961-1993, Adjunct 1993 -

Constantine George Kledaras, Professor of Social Work/Chairman of Department - B.A., Duke University; M.S.W., University of North Carolina at Chapel Hill; D.S.W., The Catholic University of America, Washington, DC, 1971; Campbell University, 1994-

Carolyn Bond Morrison, Assistant Professor of Education - B.A., University of North Carolina Chapel Hill; M.Ed., Ed.D., Duke University; Campbell University, 1998-

Karen Powell Nery, Dean, School of Education/ Professor of Education - B.S., Meredith College; M.Ed., Ed.D., North Carolina State University; Campbell University, 1990-

Janet Powell, Assistant Professor of Education – B.S., William Jewell College; M.Ed., University of Texas at El Paso; Ph.D., Kansas State University at Manhattan; Campbell University, 2001 -

Karen Smith, Adjunct Instructor of Psychology/Sociology - B.A., M.A., Miami University of Ohio; Ph.D., Duke University; Campbell University, 1995-

Gary A. Taylor, Professor of Psychology/Chairman of Department - B.A., Oklahoma Baptist University; M.S., Oklahoma University; Ph.D., North Carolina State University; Campbell University 1968-

John H. Viehe, Adjunct Instructor of Psychology - B.S., Rochester Institute of Technology; M.B.A., Wake Forest University; M.Ed., Ed.D., North Carolina State University; Campbell University 1999-

Divinity School Faculty 2003

Timothy W. Brock, Assistant Professor of Christian Education – B.S., University of Alabama; M.Div. and Ed.D., Southern Baptist Theological Seminary; Campbell University, 2002 -

Michael G. Cogdill, Dean of the Divinity School, Tyner Professor of Christian Ministry and Family Studies - B.A., Mars Hill College; M.S., North Carolina State University; M.Div., D.Min., Southeastern Baptist Theological Seminary; Associate Professor of Religion, 1981-1984; Tyner Professor of Religion and Chairman of the Department of Religion and Philosophy, 1988-1995; Founding Dean, The Divinity School, 1996 ; Campbell University, 1978-1984; 1988-

Roy E. DeBrand, Professor of Preaching – B.A., University of Corpus Christi; M.Div., Ph.D., Southwestern Baptist Theological Seminary; Campbell University, 2002 –

Adam C. English, Assistant Professor of Religion - B.A., Hardin-Simmons University; M.A., Southwestern Theological Seminary; Ph.D., Baylor University; Campbell University, 2003-

Acknowledgements

This edition of the *Campbell University Bulletin* and the **Campbell University Online Catalog** are the products of many departments, faculty, and staff members. Special thanks are in order for Mrs. Elaine Smith (Administrative Assistant to Dr. Mark L. Hammond, Dean of the College of Arts and Sciences) for helping coordinate the projects, to Mrs. Darla Dietz (Web Administrator) for the migration of the former catalog to a web page format, to Mr. John Skuce (Training Coordinator) for the reconstruction and reformatting of the printed document from the final electronic version, and to Mr. Herb Kerner (Dean of Admissions, Financial Aid, and Veteran's Affairs) for assistance with the concept and implementation of the Online Catalog.
